2003 AESOP Call for Abstracts .......................................................... inside back
Welcome to the 2002 Association of Collegiate Schools of Planning Conference. We are excited to be here in Baltimore. We are very grateful to the local hosts, Morgan State University and the University of Maryland, who will make sure that all attendees have the opportunity to experience the joys and delights of Baltimore up close. We also thank our sponsors, the Fannie Mae Foundation, the Lincoln Institute of Land Policy and the Institute of Business and Home Safety whose financial support makes the conference possible.

I want to call your special attention to the Opening Assembly, Thursday from 5:30-7:00 p.m., where we will honor David Godschalk with the ACSP Distinguished Educator Award. I also extend a special invitation to the Presidential Roundtable on “Planning Globally,” which will take place Friday, 7:30 a.m. in the Hopkins Room.

We thank the ACSP Conference Committee, all the track chairs, and all other volunteers and staff who have been involved in planning and implementation for this, the most significant annual activity of our organization.

I look forward to a great conference!

Wim Wiewel

Welcome to Baltimore! Without robbing a moment of pleasure from this meeting, I hope you will use our time together to talk with colleagues and friends about the third joint ACSP/AESOP Congress in Belgium July 8th-12th, 2003. Only seven and a half months separate Baltimore and Leuven. Proposals are due on January 13, little more than seven weeks away in a season crowded with other obligations.

You will find the short version of the call for proposals in this program book and a larger version in your conference bag. I encourage you to scan the Congress website www.aesop-acsp.org from time to time. Some of the track names will be familiar but others cut across the rubrics we have used in recent years. Unlike ACSP practice, the entire program is infused with a compelling theme: a concern with the ways in which physical and social networks are planned, and how they influence the planning of space and time. Before we design the Portland conference in 2004 we should consider the uses of a conference theme and the tracks that shape our conversation.

Welcome again to Baltimore and remember, “Next Year in Belgium.”

12:00p.m. Conference Adjourns
American suburbs are in flux. Some contain as much commerce as a good-sized city. Others maintain concentrated poverty on par with some of the nation’s most distressed urban areas. For several decades, suburbs have no longer fit the description of “bedroom communities.” However, the manner in which they are currently evolving is subject to much debate. This symposium will address the state of contemporary suburbia. It begins with the premise that suburbs have moved so far beyond their traditional function as bedroom communities that they can now be better characterized by what urban historian Jon Teaford labels “Post Suburbia.” The focus then shifts to what Post Suburbia means for public policy including such issues as growth management, sprawl, transportation and housing. Post-suburban Metro Politics (by Myron Orfield) will also be covered. The conference concludes with a discussion of the larger social and cultural meaning of the new metropolitan form.

Registering for the Fannie Mae Foundation Symposium

The Symposium is completely underwritten by the Fannie Mae Foundation. The Foundation and its co-host invite all conference attendees to participate in the Symposium, but advance registration was required. There are no registration fees for this event and lunch is included. If you didn’t pre-register, check on the availability of space when you arrive in Baltimore. If you did register and must cancel, please let the staff at the Fannie Mae Foundation registration desk know as soon as possible on Thursday morning.

Awards for Scholarship in Land Use Planning and Natural Hazards

Abstract Deadline: 13 January 2003
Paper Deadline: 14 April 2003

The Institute for Business & Home Safety (IBHS), together with the Association of Collegiate Schools of Planning (ACSP), will grant one award recognizing scholarship in the general area of land use planning and natural hazards. Eligible papers must be accepted for presentation and presented at the ACSP/AESOP joint conference July 8-12, 2003 in Leuven, Belgium. Papers should address some topic of relevance to the relationship between natural hazards and land use planning, including, but not limited to: flooding, coastal erosion, land subsidence, earthquakes, or other geologic or meteorological hazard impacts that can be minimized through community, regional, or state planning. The awardee will receive a prize of $1,000, which will be presented at the ACSP/AESOP 2003 conference. Undergraduate, graduate, and joint faculty/student papers are eligible. For joint faculty/student papers, the student must be the first author and designated presenter of the paper.

Abstracts must be submitted directly to the ACSP conference organizers by 13 January 2003. Copies of the abstracts also should be sent to the ACSP-IBHS committee chair with a cover memo indicating intent to submit a paper for the ACSP-IBHS award.

Only papers accepted for presentation at the ACSP/AESOP Conference are eligible for the award. Authors whose abstracts are accepted for presentation at the conference should submit four copies of their final papers to the ACSP-IBHS committee chair by 14 April 2003 with full student author information, including name, institutional affiliation, name of faculty advisor or co-author (indicate clearly if faculty member is co-author), degree program (undergraduate, masters, Ph.D.), degree status (in progress or awarded), mailing address, phone, facsimile and e-mail. Papers are not to exceed 40 pages.

Submissions should be sent to: Dr. Robert Olshansky, Chair ACSP-IBHS Committee, Department of Urban and Regional Planning, University of Illinois at Urbana-Champaign, 111 Temple Buell Hall, 611 Taft Drive, Champaign, IL 61820, robo@uiuc.edu.
THE NATIONAL AQUARIUM IN BALTIMORE

Captivating, diverse, enlightening, and colorful, the world-class National Aquarium in Baltimore has more than 10,000 animals that swim, crawl, slither, hop and fly in naturalistic habitats. With more than two million gallons of fresh and salt water, attractions include a lush Rain Forest with tropical birds and sloths; Atlantic Coral Reef, home to hundreds of colorful fish; Open Ocean, where large sharks circle visitors; and a spectacular dolphin show. The newest exhibit is *Seahorses: Beyond Imagination*, featuring dozens of seahorses from around the world.

The National Aquarium in Baltimore, where there’s always something new, is Maryland’s premier attraction. It is dedicated to education, conservation, and the preservation of the environment.

Plenary, Social and Interest Group Events

**Plenary Assembly — Win Airfare to Leuven**

Program Highlights

Sessions for Award Winners
- Land Use Planning and Natural Hazards Award Paper Session I, Friday, 7:30 a.m., Liberty B Room
- Land Use Planning and Natural Hazards Award Paper Session II, Friday, 9:00 a.m., Calhoun Room
- AICP-ACSP Collaborative Projects Award Session, Saturday, 9:00 a.m., Adams Room
- ACSP Student Awards Paper Session, Saturday, 4:00 p.m., Lincoln Room

Presidential Roundtable - Planning Globally: Convergence and Divergence in International Planning and Planning Education
This session will emphasize the importance of bringing the global and international context into U.S. planning education. What are the similarities and differences in the roles of planners in different parts of the world? What consequences does, or should this have for the nature of planning education across the world? Is the nature of planning and planning education converging or diverging? Panelists: Wim Wiewel, University of Illinois at Chicago; Robin Hambleton, University of Illinois at Chicago; Gill Chin-Lim, Michigan State University; Alessandro Balducci, Milan Polytechnic University; Bishwapriya Sanyal, Massachusetts Institute of Technology. Scheduled for Friday, 7:30 a.m., Hopkins Room.

20th Anniversary Assessment
The program for ACSP 2001 in Cleveland included three panels looking back at sessions at ACSP 1981 in Washington. This year the anniversary continues with a session on “Twenty Years of Planning Methods and Models,” with papers by Dick Klosterman, Dowell Myers, Lew Hopkins and Andy Isserman. If you would like to consider organizing a similar 20th anniversary session in 2003 and need a copy of the 1983 San Francisco program, send an e-mail message to Seymour Mandelbaum at mandel@pobox.upenn.edu. Scheduled for Friday, 7:30 a.m., Hopkins Room.

Student Program - Combining the Passions of Teaching, Research and Practice into Your Career
Many doctoral students enter planning because they enjoy teaching, theorizing and writing and value the field’s action orientation toward urban problems. Yet, students often feel they have to sacrifice real world problem-solving for academic work or vice versa. This session will explore how academics and non-academics have tried to combine these passions together into a successful career path. Panelists: Uri Avin, Director of Community Planning, Columbia, MD; Ann Forsyth, University of Minnesota; Alice Jones, Eastern Kentucky University; Marie Kennedy, University of Massachusetts, Boston; Ken Reardon, Cornell University; Ethan Seltzer, Portland State University; Sigmund Shipp, Hunter College; Janet Smith, Urban Planning and Policy. Saturday, 7:30 a.m., Calhoun Room.

Other Sessions for Young Scholars
- Designing the Doctoral Prelim. Sponsored by the ACSP Doctoral Committee. Friday, 7:30 a.m., McKeldin Room.
- Writing for Scholarly Publication. Sponsored by the Journal of the American Planning Association. Sunday, 8:30 a.m., Lincoln Room.

Individual Text Sessions
Roundtable: A Conversation About Lewis Hopkins’ Urban Development: The Logic of Making Plans (Island Press, 2001). Panelists: Seymour Mandelbaum, University of Pennsylvania; Joseph Ferreira, Massachusetts Institute of Technology; Huw Thomas, Cardiff University; Lewis Hopkins, University of Illinois at Urbana-Champaign. Thursday, 4:00 p.m., International E.

The key findings of the recently issued Climate Action Report will be presented by one of its USEPA authors. A panel of environmental planning experts will discuss the main implications of the report for managing critical US and global natural resources, including groundwater, forests, and coastlines. Panelists: Timothy Beatley, University of Virginia; Reid Harvey, USEPA; Phil Berke, University of North Carolina at Chapel Hill; Cecelia Rosenberg, FEMA; Tim Duane, University of California, Berkeley. Friday, 10:45 a.m., Calhoun Room.

Panelists: Niraj Verna, University of Southern California; Tridib Banerjee, University of Southern California; Bish Sangal, Massachusetts Institute of Technology; Michael Teitz, University of Southern California. Friday, 9:00 a.m., Liberty B Room.
Talking About Baltimore and Its Region

Special Issues in Historic Preservation - City of Baltimore, Thursday, 8:30a.m. - Pratt A Room

The City of Baltimore, like many older industrial cities in the United States, lost a great deal of its population over the last 50 years. In 1950, Baltimore boasted a population peaking at approximately 950,000. The population has steadily decreased in every census report since then, reaching a low of approximately 651,000 by 2000. This represents a loss of over 30% since 1950, and a population level not seen in Baltimore since the mid-1910s. This out-migration has lead to the abandonment of an estimated 40,000 housing units in the city, many of which are historical 19th century structures. Such a context poses many challenges for historic preservation. How is Baltimore combating population loss and housing abandonment in its efforts to preserve its historic architecture?

Panelists:
- Kathleen Kotarba - Chairman, Commission for Historical & Architectural Preservation (CHAP)
- Randy Mason - Director, Historic Preservation Program, University of Maryland
- Elizabeth Hughes - Chief, Office of Heritage Planning and Outreach, Maryland Historical Trust
- Brad Rogers - Program Coordinator, 1000 Friends of Maryland

Moderator:
- Steven Allan - Maryland Department of Planning

Living Downtown, Thursday, 10:15a.m. - Liberty A Room

Despite a decades-long decline in population, the City of Baltimore is beginning to attract people from various backgrounds to live downtown and in the neighborhoods surrounding downtown. From converted warehouses to new town homes, downtown living options are expanding in Baltimore through a combination of tax incentives and marketing campaigns. Find out more about the residential development currently moving forward in downtown Baltimore and its environs (such as Locust Point, Canton, etc.). Come learn about the opportunities and obstacles involved in attracting residents to downtown areas.

Panelists:
- Bob Aydukovic - Director of Housing Initiatives, Downtown Partnership of Baltimore
- David Hillman - CEO, Southern Management
- Sharon Grinnell - Chief Operating Officer, Baltimore Development Corporation
- Michael Bainum - Director, Project 5000

Note: This panel will be supplemented with a mobile workshop on Living Downtown. The tour will include visits to new residential developments in downtown Baltimore and Canton.

Economic Development through the Arts, Friday, 7:30a.m. - Schaefer Room

Art can be a very powerful force. It has been used throughout history to educate and inform, shape political discourse, incite social change, and introduce beauty to places in which beauty is lacking. Many cities throughout the country, including Baltimore, are now harnessing the power of the arts to spur economic development in depressed urban areas. From artist studios in South Baltimore, to the renovation of School 33, to the Penn Station Arts District, to the annual Artscape Festival, Baltimore is utilizing the energy of arts and artists throughout its jurisdiction. Come join our panelists as they discuss the economic power cities can tap through the arts.

Panelists:
- Rachel Edds - Baltimore Creative Alliance
- Nancy Haragan - Greater Baltimore Cultural Alliance
- Gary Kachadourian - Visual Arts Coordinator, Baltimore Office of Promotion & the Arts
- Kirby Fowler - Chairman of the Mayor’s Advisory Board for the Station North Arts & Entertainment District

Moderator:
- Ivy Thompson - Affordable Housing & Community Development Specialist, City of Takoma Park

Note: This panel will be supplemented with a mobile workshop on Economic Development through the Arts. The tour will include visits to the sites discussed at this roundtable.
HOPE VI Housing in Baltimore, Friday, 9:00a.m. - Mancken Room

HOPE VI housing is a fundamental change in public policy on public housing. The Housing Authority of Baltimore City (HABC) ranks as the nation’s top recipient of HOPE VI funding. HABC is also noted for 100% completion of the nation’s first HOPE VI development, Pleasant View Gardens. The panel brings together a host of national and local scholars as well as policy makers to discuss the success, failures, and future prospects of HOPE VI housing at the national level and in Baltimore. The panel is complimented by a tour of Baltimore’s HOPE VI developments.

Panelists:
Janet Smith - Assistant Professor, University of Illinois at Chicago
Susan Popkin - Senior Researcher, The Urban Institute
Larry Keating - Professor, Georgia Institute of Technology
Leonard Heumann - Professor, University of Illinois at Urbana-Champaign
Samuel Little - Associate Deputy Director of Resident Services, HABC

Moderator:
Siddhartha Sen - Associate Professor, Morgan State University

Note: This panel will be supplemented with a mobile workshop on HOPE VI housing in Baltimore.

Baltimore’s Inner Harbor: Past Present and Future, Friday, 10:45a.m. - Liberty B Room

The Inner Harbor is the historical lifeblood of Baltimore’s economy. Shipping and heavy industry spurred commerce and economic growth in the city for over one hundred years. With the decline of these industries came a new beginning for the Inner Harbor as a local playground and tourist destination. It is now home to the National Aquarium as well as various shops, restaurants, bars, hotels and clubs. What will future development bring to the area? What lessons can other cities learn from both the successes and failures of Baltimore’s Inner Harbor?

Panelists:
Bill Roberts - Principal, Wallace, Roberts & Todd
Jay Brodie - President, Baltimore Development Corporation
Brian Shea - Partner, Cooper Robertson
Martin Millsapugh - The Enterprise Development Company

Moderator:
Karla Aghajanian - Urban Planner, LDR International

The Inner Harbor and So Much More: A Tour of Baltimore’s Waterfront Development

**Organizer:** Laurie Feinberg, Baltimore City Department of Planning

**Other Speakers:** Beth Stroman, Baltimore City Department of Planning

**Gerry Neily, Planning Consultant**

**Description:** Boat, Walking Tour

**Start Time:** 2:00 PM

**Return:** 5:30 PM

**Limit:** 50 people

Everyone has heard of Baltimore’s exciting Inner Harbor developments, but most people are unaware that the Inner Harbor encompasses only one mile of Baltimore’s 47-mile waterfront. This tour begins high above the harbor in Baltimore’s World Trade Center, offering a panoramic view of the surrounding waterfront. Guests will hear about the Inner Harbor as well as the new Marina Master Plan. From there, guests will catch a tour boat to the peninsular neighborhood of Locust Point, with its 19th century row houses and new development at Tide Point. What have been the pros and cons of new development in an older, well-established neighborhood? The boat’s next port of call is the neighborhood of Canton, a trendy district with much new residential development in converted factories and warehouses. What incentives have been used to attract growth and development in this area? Finally, the boat will dock at historic Fell’s Point. Stay the evening in Fell’s Point for myriad dining, shopping and entertainment options, or remain on the boat and head back to the Inner Harbor. A truly unique tour for anyone with confident sea legs.

**Tour 2**

Urban Sports Stadiums

**Organizer:** Peggy Drake, Baltimore City Department of Planning

**Other Speakers:** Janet Marie Smith, Struever Brothers, Eccles & Rouse

**Nolan Rogers, Oriole Park at Camden Yards**

**Description:** Walking Tour

**Start Time:** 1:00 PM

**Return:** 4:15 PM

**Limit:** 50 people

Baltimore is blessed with two world-class sports stadiums within easy walking distance of downtown and the Inner Harbor. Camden Yards and Ravens Stadium draw visitors from all over the region and add much to the identity and image of Baltimore. This tour will begin at Camden Yards with a presentation by Janet Marie Smith, one of the original architects who designed it. Come hear about the innovative ways in which the Baltimore & Ohio Warehouse (the longest building on the East Coast at 1,016 feet long by 51 feet wide) was incorporated into the design of the stadium, a practice since repeated in cities such as Denver and Cleveland. Next, Peggy Drake will lead guests to Ravens Stadium. The tour will be unable to go inside due to a home football game, but will discuss issues such as transportation planning for the stadiums and their impact on surrounding neighborhoods.

Tour 3  Brownfields
Organizer:  Marie Howland, University of Maryland – College Park
Other Speakers:  Evans Paull, Baltimore Development Corp.
                David Tufaro, Terra Nova Ventures
                Paul F. Obrecht, Jr., P.F. Obrecht & Sons
Description:  Bus, Walking Tour
Start Time:  2:00 PM
Return:  6:00 PM
Limit:  50 people

The state of Maryland is known throughout the country for its progressive Smart Growth policies. Among these policies is the innovative Brownfields Program, a law that limits liability for those redeveloping unused or abandoned properties that are contaminated or perceived as such. Visit five sites in the City of Baltimore that have successfully participated in this program or are being developed now with help from the program. From new housing to office and retail space, these sites are being reclaimed for productive uses. Come learn more about the unique challenges and opportunities in redeveloping brownfield sites, the structure of Maryland’s Brownfields Program and how developers have put it to use. Site visits will be led by Marie Howland of the University of Maryland, Evans Paull of the Baltimore Development Corporation, and representatives from the development firms Terra Nova Ventures and P.F. Obrecht & Sons.

Tour 4  HOPE VI Housing
Organizer:  Sid Sen, Morgan State University
Description:  Bus, Walking Tour
Start Time:  2:00 PM
Return:  5:30 PM
Limit:  50 people

HOPE VI housing is a fundamental change in public policy on public housing. The Housing Authority of Baltimore City (HABC) ranks as the nation’s top recipient of HOPE VI funding. HABC is also noted for 100% completion of the nation’s first HOPE VI development, Pleasant View Gardens. This bus and walking tour will involve visiting various HOPE VI developments in the Baltimore, discussions with community leaders, and community support services providers. The tour is linked to a panel that brings together a host of national and local scholars as well as policy makers to discuss the success, failures, and future prospects of HOPE VI housing at the national level and in Baltimore. Dr. Samuel Little, Associate Deputy Director of Resident Services, HABC will lead the tour.

Tour 5  Roland Park & Coldspring
New Town
Organizer:  Sidney Brower, University of Maryland
Other Speakers:  Janet Felsten, David Blumberg,
                Steven Lauria, David Tufaro, John Hill and
                Gordon Bonham
Description:  Bus, Walking Tour
Start Time:  2:00 PM
Return:  5:30 PM
Limit:  40 people

Join Sidney Brower of the Urban Studies and Planning Program of the University of Maryland on a tour of two very different planned neighborhoods in northern Baltimore. The tour begins in the historic neighborhood of Roland Park, first developed by the Roland Park Company and architect George Kessler in 1891 as a garden style suburb of Baltimore. From 1901 on, development in the neighborhood was designed by Frederick Law Olmsted, Jr. Roland Park is best known for its elaborate system of pedestrian walkways and paths, and is the home of one of the first suburban shopping centers in the United States, constructed in 1896. This visit will also include a discussion of other work in the Baltimore area by the Olmsted Brothers as well as Frederick Law Olmsted, Sr. himself.

The second part of the tour will visit Coldspring New Town. Originally conceived in the 1970’s as a “community in a park” and a “town within a town,” the neighborhood is one of Baltimore’s most innovative planned communities. Among its most striking features are the “deck houses” which showcase the architectural styling of Moshe Safdie and Associates, as well as its abundant community spaces.

Tour 6  Columbia
Organizer:  Ann Forsyth, University of Minnesota
Other Speakers:  Bob Marans, University of Michigan
                Ray Burby, University of North Carolina
Description:  Bus, Walking Tour
Start Time:  1:30 PM
Return:  5:30 PM
Limit:  50 people

Travel to Columbia, Maryland with Ann Forsyth of the Design Center for American Urban Landscape at the University of Minnesota and author of a recent evaluation of Columbia and other early new towns. Opened in 1967, Columbia was best known for the ‘Columbia concept’ of planned racial and economic integration but made a number of other innovations in village and neighborhood design, education, religious cooperation, project management, and community governance. The tour will feature input from Bob Marans (University of Michigan) and Ray Burby (University of North Carolina), who conducted early research on planned communities, including Columbia. Local planners, designers, and Columbia residents will explain the history, successes, and failures of Columbia and its relation to Howard County. There will be a walking tour of a mixed-use village center.
Tour 7

Annapolis

Organizers: David Fogle, Special Assistant to the Mayor of Annapolis
Dirk Geratz, Annapolis Department of Planning & Zoning

Description: Bus, Walking Tour, Reception
Start Time: 2:00 PM
End Time: 7:00 PM
Limit: 50 people

Located 30 miles southeast of Baltimore, Annapolis is the historic and vibrant capital city of Maryland. Founded in 1649, the city maintains much of its original 17th and 18th century architecture while functioning as a modern urban area and seat of government. This tour begins at the Annapolis City Dock. Guests meet for a walking tour with two angles: David Fogle explores the historic nature of Annapolis and the efforts of preservationists there; Dirk Geratz discusses new growth in Annapolis and the challenges and opportunities that go along with development in historically significant cities and neighborhoods. The tour concludes at City Hall, where guests will enjoy a special reception with Annapolis Mayor Ellen O. Moyer.

Tour 8

Different Neighborhoods, Different Development Strategies

Organizer: Howell Baum, University of Maryland
Other Speakers: Ed Rutkowski, Patterson Park CDC
Charles Duff, Jubilee Baltimore

Description: Bus, Walking Tour
Start Time: 2:00 PM
End Time: 5:30 PM
Limit: 50 people

This tour features different approaches to development in contrasting neighborhoods. The first half of the tour visits the racially and economically changing Patterson Park neighborhoods on the city’s East Side. Participants will start in the devastated neighborhoods around the Johns Hopkins Medical Institutions, illustrating a negative scenario, then move to revitalized Canton, illustrating a positive scenario, and finish in the Patterson Park neighborhoods with a tour of houses showing various possibilities. Ed Rutkowski, Patterson Park CDC’s Executive Director, will guide this part of the tour.

The second half of the tour visits four socially and architecturally distinctive midtown neighborhoods where an elaborate community planning process produced the Midtown Community Plan. To implement the plan, the Midtown Community Benefits District created the Midtown Development Corporation and substantially funds its housing renovation strategy. This part of the tour will start with the Mount Vernon neighborhood and continue through the Bolton Hill, Charles North, and Madison Park neighborhoods. Charles Duff, President of Jubilee Baltimore, consultant to the community planning process, and Executive Director of Midtown Development, will guide this part of the tour.

Tour 9

Economic Development through the Arts

Organizer: Rachel Edds, Baltimore Creative Alliance
Other Speakers: Kirby Fowler, Mayor’s Advisory Board for the Station North Arts & Entertainment District
Ron Kreitner, Westside Renaissance
Jim Vose, OIL Incorporated
Buz Cusak, Charles Theatre
Megan Hamilton, Baltimore Creative Alliance

Description: Bus, Walking Tour
Start Time: 2:15 PM
End Time: 6:00 PM
Limit: 50 people

Art can be a very powerful force. It has been used throughout history to educate and inform, shape political discourse, incite social change, and introduce beauty to places in which beauty is lacking. Many cities throughout the country, including Baltimore, are now harnessing the power of the arts to spur economic development in depressed urban areas. From the Hippodrome Theatre in the Westside neighborhood, to the new Station North Arts District, to the annual Artscape Festival, Baltimore is utilizing the energy of arts and artists throughout its jurisdiction. Come take a closer look at some of the major arts developments in the City of Baltimore, including the Hippodrome, new gallery and artist loft spaces, and the historic Patterson Theatre. Find out how city leaders envision the role of these and other such projects in Baltimore’s future development. This tour will explore many of the same issues discussed at the local panel session of the same name.

Tour 10

Living Downtown

Organizer: Bob Aydukovic, Downtown Partnership of Baltimore
Other Speakers: David Hillman, Southern Management
Farrah Gough, Struever, Rouse Homes

Description: Bus, Walking Tour
Start Time: 2:00 PM
End Time: 6:00 PM
Limit: 50 people

Many cities in the United States over the last decade or so have experienced an influx of residents to their downtowns and surrounding neighborhoods. Baltimore is no exception, and is in fact beginning to attract residents to neighborhoods that traditionally lacked any residential presence whatsoever. Come visit an array of new opportunities for living in and around downtown Baltimore. This tour will begin with a visit to a converted department store in the downtown Westside neighborhood. Next, guests will take a bus to a nearby neighborhood, where they will visit residences converted from a former office building and a factory. Finally, the tour will visit Bond Street, with its development of new town houses. This tour will offer a closer look at many of the same issues discussed at the local panel session of the same name.
Touring Baltimore and Its Region

Tour 11  Chesapeake Bay Restoration

Organizer: Kathryn Frank, Georgia Institute of Technology
Description: Boat, Walking Tour
Start Time: 1:30 PM
End Time: 5:00 PM
Start Location: Meet in the lobby of the Wyndham Hotel
Limit: 25 people

The Chesapeake Bay is the nation’s largest estuary with a watershed spanning six states. In 1983, the region signed a landmark agreement to restore the bay’s water quality and ecological productivity. The mobile workshop will focus on the impacts of urban development on the estuary and how the regional restoration goals have translated into local activities. We will learn about these activities through presentations, an interactive ecology lab, a guided boat tour of the Inner Harbor, and a visit to restored wetlands.

ACSP Awards

AICP-ACSP Collaborative Projects Award
This project was presented as a conference session at the APA National Conference in Chicago on April 17th and will also be presented during a special conference session at ACSP scheduled for Saturday, 9:00a.m. in the Adams Room. The AICP-ACSP Collaborative Projects Awards program considers only projects that involve collaboration between a practitioner and an academic.

2002 Winners
Jerold S. Kayden, Harvard University
Ellen P. Ryan, AICP, Municipal Art Society of New York,
Privately Owned Public Space: The New York City Experience

Institute for Business and Home Safety Awards
Winners will be announced during the Thursday Plenary Assembly. The Institute for Business and Home Safety will make two awards to students who present conference papers on the nexus of natural hazards and land-use planning.

Robert Deyle, Florida State University, chairs the committee. Students will be expected to present their papers in one of two sessions scheduled for Friday morning of the Conference: 7:30a.m. in Liberty B, and 9:00a.m. in the Calhoun Room.

Winners 2002
Skye Sieber, University of Oregon, An Evaluation of Hazard Mitigation Planning in Oregon: Four Case Study Flood Mitigation Plans
Calah Young, University of North Carolina at Chapel Hill, Creating a Role for Regional Agencies in Hazard Mitigation Planning

Fannie Mae Foundation Best Paper Prizes & Travel Scholarships
Each year the Fannie Mae Foundation funds ACSP to award three cash prizes for the best papers given at the ACSP conference which address housing or community development issues. Papers may be given in any track. The 2002 Fannie Mae Foundation Prize Coordinator is Mickey Lauria, University of New Orleans. Winners of all awards will be announced at the Thursday Plenary Assembly.

Student Travel Scholarships
Each year the Fannie Mae Foundation funds ACSP to offer up to ten individual travel scholarships to students attending the annual conference. The scholarships include the full conference registration fee and $250 to help offset travel costs. All students enrolled in a graduate program who are focusing their studies on issues of housing and community development are eligible. Both Masters and PhD students may receive scholarships but preference is given to those a) nearing completion of the PhD, b) presenting a paper at the Conference, and/or c) experiencing financial hardships in attending the conference. The Scholarship Award Committee is chaired by Roger Caves, San Diego State University.

Winners 2002
Hyunsun Choi, University of Southern California
Casey Dawkins, Georgia Tech
Bruce Goldstein, University of California, Berkeley
Jennifer Gress, University of California, Irvine

CALL FOR ABSTRACTS
The international steering committee of the joint AESOP/ACSP conference 2003 invites proposals for individual papers, whole sessions, roundtable discussions, and poster presentations. Proposals will not be accepted prior to December 5, 2002. Prior to that date, potential participants are encouraged to correspond informally with individual track co-chairs. The committee is particularly interested in encouraging comparative studies within the broad theme of the conference. Detailed instructions on the submission of proposals will be posted on the conference website (www.aesop-acsp.org) in the Fall.

All abstracts due by January 13th 2003.

The Fannie Mae Foundation has long been a financial and intellectual supporter of the ACSP Annual Conference. ACSP is grateful to Jim Carr, FMF Senior Vice President, and Kristopher Rengert, Director of Urban and Metropolitan Research, for their continuing financial assistance and for funding so many faculty and student scholarships and prizes in planning. This year we are especially grateful for the Foundation’s support of a Thursday symposium on the image of post-suburbia.

Many thanks to Rob Lang, Metropolitan Institute at Virginia Tech, for putting together the Symposium agenda.

The Lincoln Institute of Land Policy is a nonprofit and tax-exempt educational institution established in 1974. Its mission as a school is to study and teach land policy, including land economics and land taxation. By supporting multi-disciplinary research, educational and publications programs, the Institute brings together diverse viewpoints to expand the body of useful knowledge into two departments — valuation and taxation, and planning and development — and in the program on Latin America. Our goal is to make that knowledge comprehensible and accessible to citizens, policy makers and scholars in the United States, Latin America and throughout the world.

We are also grateful to the Institute for Business and Home Safety for its financial contribution to this conference through award underwriting.
