It’s great that we are meeting in a city with such a noble history, a place that has many interesting things for us to learn about planning and development. This conference includes not only excellent panels, roundtables, and mobile workshops, but also a well-organized poster session that will add graphic interest to the proceedings!

A number of people have worked very hard to bring the logistics of this conference together, including the Local Host Committee, co-chaired by John Landis, University of Pennsylvania; Robert Burchell, Rutgers University; and Deborah Howe, Temple University. Other parties who devoted countless hours to make this gathering a success are members of the ACSP Conference Committee, chaired by Rayman Mohamed, Wayne State University; numerous track chairs who did yeoman work sorting various abstract submissions and making hard choices about which ones to accept; and dedicated staff, most particularly Conference Director Donna Dodd and her support staff. The ACSP Governing Board, of course, oversees all. Thanks to all of these, and others, who made this possible!

Our main keynoters are exceptional scholars with proven contributions to urban planning and to the world at large: Xavier de Sousa Briggs and Ann Markusen. Both are great speakers with important things to say. In addition, we have several other Big Ideas sessions this year with featured speakers on topics of interest:

• The New Global Transit Metropolis
  (Thursday, 1 p.m.)
• Planners and Climate Change (Friday, 9:45 a.m.)
• The Future of Detroit (Saturday, 11 a.m.)
• Design in the Public Realm in Asian Mega-Cities (Saturday, 4:30 p.m.)

This year, we have set up a particularly important ACSP Presidential Session in celebration of the 50th anniversary of the passage of the U. S. Civil Rights Act of 1964, a crucial milestone for social justice in this country. The session will also help us lead up to the 40th anniversary of the first Mt. Laurel decision, which we will celebrate more fully in 2015. The decision in this landmark case, Southern Burlington County NAACP v. Township of Mount Laurel, 67 N. J. 151 (1975), or Mount Laurel I, was that zoning ordinances that made it impossible to build housing for low- and moderate-income households were unconstitutional in that state. We have scheduled the Presidential session for Saturday afternoon at 2:45 p.m. featuring Douglas Massey, 2013 Davidoff Award winner for his co-authored book, Climbing Mount Laurel, with respondent Manuel Pastor, this year’s winner of the ACSP POCIG Edward Blakely Award.

Other special sessions will include local host sessions, student award-winning paper sessions, workshops, roundtables, and other events sponsored by interest groups; business meetings for these groups will also be held. ACSP will hold its annual business meeting on Thursday; lunch will be served to school representatives who have reserved seating.

Enjoy the conference and enjoy Philadelphia!

June Manning Thomas, FAICP
Centennial Professor
The University of Michigan
On behalf of the PennDesign Dean Marilyn Jordan Taylor, Rutgers-Bloustein School Dean James Hughes, and Temple School of Environmental Design Dean Teresa Soufas, welcome to the 54th Annual Conference of the Association of Collegiate Schools of Planning. Thanks to the hard work of Professor Rayman Mohammed and Donna Dodd and the entire ACSP conference planning team, we think you will find the conference to be a wonderful combination of interesting and provocative sessions, opportunities to exchange research and teaching ideas, and friendly social events.

The theme of this year’s conference is Big Ideas, Global Impacts. Philadelphia was the backdrop for the crafting of two of the most far-reaching documents in history, the Declaration of Independence and the United States Constitution, so with apologies to Virginians Thomas Jefferson and James Madison, we here in Philadelphia like to believe that thinking big is in our genes. But thinking big in the 21st Century means thinking globally, and this year’s ACSP conference will include an unprecedented number of international speakers and globally-oriented sessions. New this year, in addition to traditional paper sessions, panels, and roundtables are four Big Ideas sessions focusing on cutting-edge topics of global interest. Each Big Ideas session will include two invited speakers and two prominent commentators drawn from ACSP-member schools. The four Big Ideas sessions are: (1) The New Global Transit Metropolis, Thursday, 1:00–2:30 pm; (2) Planners and Climate Change: Implications of the IPCC’s Fifth Assessment and the National Climate Assessment, Friday, 9:45-11:15 am; (3) The Future of Detroit, Saturday, 11 am – 12:15 pm; and, (4) Designing the Public Realm in Asian Mega-cities, Saturday, 4:30-6:00 pm. These are just four out of more than 200 conference sessions which promise to be informational and provocative. Consult the full program for more details on the full range of sessions.

This is not ACSP’s first time in Philadelphia, and a lot has changed in the City of Brotherly Love since ACSP’s last Philadelphia conference in 1993. The Philadelphia region is increasingly taking advantage of its location smack dab in the middle of the Northeast corridor, the only part of North America where rail competes well with regional air travel. The City of Philadelphia is again growing, having added new population for the first time since 1950. The food and restaurant scene, which used to specialize in pizzas and cheese steaks, is now one of America’s most innovative and vibrant; and the ACSP conference hotel is right in the middle of it. One thing that hasn’t changed, however, is that many Philadelphia restaurants are still BYOB—bring your own bottle—so call ahead to see if you’re intended eating place serves wine. The Philadelphia Navy Yard, which fully and finally closed in 2000, has been reinvented as what may be America’s foremost in-town research and Development Park. The Philadelphia Water Department is leading the charge to retrofit the city with green infrastructure through an innovative program that rewards urban property owners and neighborhoods for removing impermeable surfaces. On the west side of Center City, a ribbon of walking paths and bikeways now line the old and industrial Schuylkill River, and on the east side, along the Delaware River, a new University of Pennsylvania/ PennPraxis-conceived planning process is guiding the redevelopment of that historic-but-under-utilized waterfront. In 2011, the City of Philadelphia redid its comprehensive plan and 40-year old zoning ordinance to help neighborhoods, residents, and developers complete the transition from an early 20th-century industrial city into a diverse 21st – century mixed-use city. Many of these planning success stories will be explored in conference and mobile workshop sessions.

Even after 300-plus years, Philadelphia is still a work in progress, and the regional planning agenda remains a big one. The demand for transit is up, but the region’s transportation funding system remains fragmented and under hostile state control. With accelerating
neighborhood change comes the specter of gentrification. Poverty and joblessness remain crushing problems in too many inner city neighborhoods. Suffering from declining enrollment and a preference for smaller charter schools, the city has had to shutter 30 public schools. Across the Delaware River in New Jersey, there are more solar panels installed than in any state except much-larger California, even as cities like Camden struggle to repurpose themselves amidst high poverty and declining public revenues. Nearby Atlantic City just watched four of its twelve casinos—which provide about one-third of the city’s jobs—shut their doors for good. With its mixture of planning progress and challenges, Philadelphia is a truly American city-region, and one that can offer lessons to other global cities, as well as learn from them.

Above all, Philadelphia is a city for walkers, so be sure to leave some time to walk two blocks west to Philadelphia’s iconic City Hall and brand new Dilworth Park. Or go east to see Independence Hall and the Liberty Bell (Did you know that the Liberty Bell was known as the Independence Bell until the 1840s?) Or take a stroll up the Benjamin Franklin Parkway with a stop at the New Barnes Museum followed by a run up the Rocky steps at the Philadelphia Art Museum. Or, head a few blocks southeast to South Street for some 1960s bell-bottoms and a tattoo. We’ll do our best with the powers that be to keep a bit of Philadelphia’s wonderful fall foliage still on the trees. Wherever you go, you’ll find Philadelphia to be the real deal.

As co-chairs of the Local Host Committee, we are honored to host the 54th ACSP Conference, and we are committed to making your four days in Philadelphia as professionally interesting and personally memorable as can be.
ABOUT OUR LOCAL HOSTS

Founded in 1950, the Department of City and Regional Planning at the University of Pennsylvania (PennPlanning) is one of the nation’s oldest academic planning programs. Organized around a strong core curriculum that balances basic knowledge with professional practice and cutting-edge technical skills, the MCP program includes six concentrations (Community and Economic Development, Land Use and Environmental Planning, Public-Private Development, Smart Cities, Sustainable Transportation and Infrastructure Planning, and Urban Design) as well as provides students with access to nine multi-department certificate programs. Practice and problem-solving studios are a core feature of a PennPlanning education, and recent MCP studios have developed detailed feasibility studies and development proposals for high-speed rail service in the Northeast Corridor; reuse plans for six freeway teardown projects across North America; repurposing plans for Olympic Sites in Beijing and Rio de Janeiro; forward-looking resiliency plans for the New Jersey shore devastated by Super storm Sandy in 2012; and new concepts for social housing projects and programs around the world. Penn’s Planning PhD program is administered by a separate Graduate Group in City and Regional Planning comprised of PennPlanning and related faculty. Together with Architecture, Fine Arts, Historic Preservation, Landscape Architecture, and Urban Spatial Analytics, PennPlanning is one of six graduate degree programs that comprise the School of Design at the University of Pennsylvania.

The Edward J. Bloustein School of Planning and Public Policy at Rutgers, The State University of New Jersey, educates professionals in urban planning, public policy, and public health, and it houses an energetic applied research enterprise. Both the academic programs and the research groups have attained national recognition, frequently at the center of multi-disciplinary collaborations that are uniquely feasible within a comprehensive state university. Members of the Bloustein School community seek to improve an increasingly urbanized and interconnected world by exploring planning approaches and public policy solutions that are healthier, greener, fairer, and generate greater prosperity than do current practices. They pursue equitable, efficient, and socially-engaged solutions to public problems at multiple levels from the global to the local. The school supports undergraduate, professional masters, and doctoral degree programs as well as continuing education courses and conferences for professionals and alumni. Most relevant for ACSP attendees are the two-year Master of City and Regional Planning degree that has been offered since 1967 and the PhD, first offered in 1968. Five issue-oriented concentrations—environmental and physical planning, housing and real estate, international development, transportation policy, and urban and community development allow students to develop a program of study that will help them fulfill their individual career goals.

Temple University’s Department of Community and Regional Planning (CRP) in the School of Environmental Design (SED) is honored to serve as co-host for the 2014 ACSP conference. The CRP Department offers an undergraduate program in Community Development along with various minors such as Sustainable Food Systems Planning and Ecological Planning and Development (http://www.temple.edu/ambler/crp/). Our MS in Community and Regional Planning has an explicit focus on ecological planning and advanced computer applications with optional concentrations in Sustainable Community Planning and Transportation Planning. CRP faculty conduct storm water management, community development and policy innovation research through the SED’s Center for Sustainable Communities; this externally funded research supports graduate students as Research Assistants enabling them to fund their studies and learn invaluable skills.

Our Department is based at Temple’s Ambler campus. The planning program is made available on the university’s Harrisburg and Center City campuses via video conferencing. The undergraduate degree can be completed either at the Ambler or the Center City/Main campuses.

Having been founded in 2002, we are still a young program, but our students are realizing notable success including numerous awards for studio projects and individual papers. We are proud of our three Presidential Management Fellows who have secured federal appointments in the US Department of Housing and Urban Development and the Forest Service.
The Lincoln Institute of Land Policy is the leading resource for key issues concerning the use, regulation, and taxation of land. Providing high-quality education and research, the Lincoln Institute strives to improve public dialogue and decisions about land policy. As a private operating foundation whose origins date to 1946, the Lincoln Institute seeks to inform decision making through education, research, policy evaluation, demonstration projects, and the dissemination of information, policy analysis, and data through our publications, website, and social media. By bringing together scholars, practitioners, public officials, policy makers, journalists, and involved citizens, the Lincoln Institute integrates theory and practice and provides a nonpartisan forum for multidisciplinary perspectives on public policy concerning land, both in the U.S. and internationally.

See page 13 for what else you can do!
Today's planning practitioners, educators, researchers and students are grappling with huge challenges. From climate change to embedded poverty to two-hour commutes, urban growth is generating new problems even as it creates new opportunities. The tasks confronting planning are daunting, but so are the potentials. It's time for planners to think big.

The theme of this year's conference is Big Ideas, Global Impacts. With the Declaration of Independence and the United States Constitution to our city's credit, Philadelphians are used to thinking big. But thinking big in the 21st Century means thinking globally, and this year's ACSP conference will include an unprecedented number of international speakers and globally-oriented sessions. Among the many global and big ideas sessions you may want to check out are those dealing with the global transit metropolis (see page 18), and urban design in Asia (page 19). Two other Big Ideas sessions, one looking at climate change (page 18), and the other at the future of Detroit (page 19) connect to critical contemporary policy issues.

These dedicated Big Ideas sessions are a new feature for the ACSP conference, so be sure to let us know how they work out. If planning is knowledge in action, then big planning also requires big actions. The ACSP conference has traditionally been a venue where people learn and connect. Let's now push that model to the next level by also collaborating on joint initiatives and actions. These can be in the realm of education, as in the development of new MOOC courses, multi-school studios and practicums, or global model syllabi. They can focus on developing research frameworks for rigorously evaluating similar planning and policy interventions in different urban contexts and communities. They can center on developing new collaborative tools around big data and social media. Or, they can involve expanded efforts to create new pathways of inclusion for under-represented individuals and groups. Enjoy the catching up with old friends and impromptu job interviews that always happen in the ACSP conference hallways, but this year, in the spirit of Philadelphia, resolve to follow through on that new idea or new collaboration to produce something of lasting value and impact.

We'll be checking up on your big ideas next year in Houston.

Now what do I do with the app?

Edit your profile

In the mobile app: at the very top left, look for the icon that is three horizontal bars, select and the main menu appears in black at the left of the screen. At the top of the menu is your name with the word “edit” nearby.

From the web site: after logging in, click MY PROFILE on the left of the home page and under your first name. Click EDIT MY PROFILE located to the right of your name.

Things to consider:

- Think of your personal profile as your digital business card.
- Upload a picture – nothing is more recognizable than your face.
- Fill out your bio and/or add links to your website and social media profiles including Linked in.
- Any edits you make to your profile, or actions on the mobile app, will also show up on the website and vice-versa.

Collateral

Add digital materials to your profile such as PowerPoints, PDFs, Word documents, YouTube videos and more. Doing this puts your information at the fingertips of other event participants. You can add these files to your profile on the website by clicking COLLATERAL in the menu on the left of the homepage (closer to the bottom of the list).

Search attendees

On the Mobile App: Click on the three horizontal bar icon at the very top left to open the menu. Use the ATTENDEE, EXHIBITOR or SPONSOR tab.

At the web site: Use the ATTENDEE, EXHIBITOR or SPONSOR link found in the graphic at the very top of the home page.

Things you can do:

- Add an attendee or company to your own contact list. View them in FAVORITES/MY CONTACTS at the mobile app and under CONTACTS at the web site.
- Request a meeting with another attendee. Choose a date, time and location as well as send a message regarding the purpose of the meeting. Mobile app – main menu/SCHEDULE/MEETINGS. Website – Left menu of homepage select MEETINGS.
- Send a message! Send private messages to an attendee. The recipient will be notified via email and push notification on the app if they have it enabled. Mobile app – main menu/MESSAGES. Website – left menu of homepage/MESSAGES.

Create your own schedule

On the Mobile App: Click on the three horizontal bar icon at the very top left to open the menu. Select AGENDA to view everything in chronological order.

At the web site: Use the AGENDA link found in the graphic at the very top of the home page.

Things you can do:

- While scanning the agenda in the mobile app, touching the circle button to the very right gives you the option to add a session to your schedule. View your own schedule using the MY SCHEDULE button at the top of the page.
- While scanning the agenda on the web site, there are buttons at the right of the session that allow you to add the session to your own schedule, add notes while watching the session. Back at the home page, select MY SCHEDULE from the left menu.

If you’re not sure, ask at conference registration for help!
HIGHLIGHTS

ACSP WELCOME RECEPTION
Thursday, October 30, 7:00pm – 9:00 p.m.

The National Constitution Center
http://constitutioncenter.org/
525 Arch Street, Philadelphia,
Pennsylvania 19106

The National Constitution Center is the first and only institution in America established by Congress to disseminate information about the United States Constitution on a non-partisan basis in order to increase the awareness and understanding of the Constitution among the American people. The Constitution Center brings the United States Constitution to life by hosting interactive exhibitions and constitutional conversations and inspires active citizenship by celebrating the American constitutional tradition. The museum’s three goals can be summarized in three words: Visit. Learn. Debate.

As the Museum of We the People, the Constitution Center features hundreds of interactive exhibits, engaging theatrical performances, and original documents of freedom. As America’s town hall, the National Constitution Center hosts constitutional debates across a range of broadcast and digital media platforms. As a national and international center for civic education, the Constitution Center offers cutting edge constitutional seminars, discussions, course materials, and interactive and digital resources for students of all ages.

The museum’s non-partisan mission is best expressed in our three goals: to serve the nation and the world as the Museum of We the People, a national Headquarters for Civic Education, and America’s Town Hall. The museum illuminates the constitutional debates that affect the lives of all Americans by hosting constitutional conversations on Independence Mall in Philadelphia and across a range of media platforms, and we inspire active citizenship by celebrating the American constitutional tradition. The museum’s three goals can be summarized in three words: Visit. Learn. Debate.

Directions from the Loews Philadelphia Hotel

Walking
From the Loews, head toward 12th Street. Cross Market Street at 12th, turning left onto 12th. Walk up 12th to Arch Street. Take a right onto Arch. Continue on Arch to a bit past 6th. Constitution Center is on your left.

Public Transportation
You can take the Market-East Line (subway) to 5th Street. Head north on 5th to Arch, turn left to Constitution Center. Cost $2.25.

You could also take the 44 or the 33 bus to 5th Street. Head north on 5th to Arch, turn left to Constitution Center. Costs $2.25. Must have exact change.

A small bus will be available for those requiring assistance traveling to the reception.
ACSP STUDENT RECEPTION
Saturday, November 1, 7:00pm – 9:00pm

Room 12 Bar/Lounge
1200 Sansom Street
Philadelphia, PA 19107
http://room12lounge.com/
(215) 940-6506

Gather in the Millennium Foyer of the Loews Hotel at 6:45pm to walk together to the reception.

After three days of paper sessions, tours and meetings, kick back with your fellow PhD students at Room 12 Lounge. The lounge is located just two blocks from the conference hotel.

The room at Room 12 Lounge will be just for ACSP students so please join us and mingle with your peers about your work, a panel you enjoyed, things you learned about Philadelphia, or for just a casual non-academic conversation! The reception will include a complimentary beverage and appetizers.

PLANNING AND INCLUSIVE SOCIETIES

Moderator: THOMAS, June Manning [ACSP President, University of Michigan] thomasju@umich.edu

Keynote Speaker: BRIGGS, Xavier de Souza [Massachusetts Institute of Technology] x.briggs@fordfoundation.org

Xavier de Souza Briggs is an award-winning author, commentator, educator, and researcher, as well as an experienced manager and policy adviser. He is Vice President for Economic Opportunity and Assets at the Ford Foundation and a faculty member (on leave) at the Department of Urban Studies + Planning at the Massachusetts Institute of Technology. He is former head of DUSP’s Housing, Community, and Economic Development Group and associated head of department. His current research focuses on inclusive economic growth and how rapidly changing societies, particularly in North America and Europe, can thrive, not just cope, with increased ethnic diversity. Xav spent 2009 to 2011 on public service leave from the MIT faculty, appointed by President Obama, to serve as Associate Director of the Office of Management and Budget in the White House. His books include The Geography of Opportunity (Brookings, 2005), which won the best book award in planning, Democracy as Problem Solving: Civic Capacity in Communities across the Globe (MIT Press, 2008), a finalist for the C. Wright Mills Prize, and Moving to Opportunity: The Story of an American Experiment to Fight Ghetto Poverty (Oxford, 2010), which won best book of the year from the National Academy of Public Administration. A frequent speaker on innovation and urban policy, he has also consulted on strategy to leading national and international organizations, such as The World Bank and Rockefeller Foundation, and has been an expert witness in civil rights litigation.
BIG IDEA SESSION: THE NEW GLOBAL TRANSIT METROPOLIS CM | 1.5
Room: Commonwealth C

Fifteen years after the publication of The Transit Metropolis, how are new urban transportation innovations reshaping global transportation and development patterns? Where and how has the promise of coordinated transit and land use planning panned out?

Moderator/Organizer: LANDIS, John [Professor, University of Pennsylvania] jlan@design.upenn.edu

Co-discussant: GUERRA, Erick [Assistant Professor, University of Pennsylvania] erickg@design.upenn.edu

Co-discussant: GIULIANO, Genevieve [Professor, University of Southern California] giuliano@usc.edu

Presenter: CERVERO, Robert [Professor, University of California, Berkeley] robertc@berkeley.edu

Robert Cervero, Professor, University of California, Berkeley, is the Director of the Institute of Urban and Regional Development (IURD) and the University of California Transportation Center (UCTC), a multi-campus research center devoted to advancing economic competitiveness, sustainability and livability in the transportation sector.

Presenter: POTICHA, Shelley [Director of the Urban Solutions Group, Natural Resources Defense Council] spoticha@nrdc.org

Shelley Poticha serves as the director of the Urban Solutions program, building Natural Resources Defense Council's (NRDC) work for better cities that support thriving people. Shelley is a longtime partner of NRDC in multiple initiatives including transportation policy reform, LEED-ND, and the creation of Smart Growth America.

What are the big urban planning and policy questions that today’s academic and professional planning researchers should be taking on? Presenters at this session will identify and summarize some of the most interesting urban research results of the last five years, as well as develop a research agenda for the next five.

PAB ROUNDTABLE – ACADEMIC AND COMMUNITY COLLABORATIONS: MORE THAN JUST A STUDIO
Room: Commonwealth D
CM | 1.25

Two Learning Objectives:
1. Understand the process and methods for addressing community needs through community and academic partnerships
2. Provide perspectives on exposing students to the transition between academic study and planning practice.

General Description
How can the community be integrated into planning curriculum not only to teach valuable lessons and skills but also to meaningfully address community needs? This session will feature two distinct case studies where planning programs have collaborated with community organizations to solve crucial planning problems. Representatives from PAB-accredited planning programs and community organizations will discuss how they created partnerships not only to teach future urban planners valuable skills, but also to affect change in the community. Panelists will reflect on the principles and project deliverables from the perspective of the community and the academy.

Panelists
1. Ted Jojola, Ph.D. Director of the Indigenous Design and Planning Institute at the University of New Mexico
2. Moises Gonzales, Ph.D., Assistant Professor, Community and Regional Planning Program, University of New Mexico
3. Hilary Nixon, Ph.D., Associate Professor and Chair, Department of Urban and Regional Planning, San Jose State University.

Case Study 1: On July 5, 2012, the Governor of Zuni Pueblo in New Mexico signed a historic proclamation identifying the Zuni Pueblo as the first Native American MainStreet program in the United States. In the fall 2013, the Community and Regional Planning Program and the Indigenous Design and Planning Institute (iD+Pi) at the University of New Mexico held an Advanced Planning Studio to engage faculty and students with the Zuni Pueblo to plan, design and co-create opportunities for community revitalization respectful of Zuni’s character, cultural traditions and values.

Case Study 2: Spartan Keyes Neighborhood Assessment & Community Engagement (Fall 2012, Spring 2013): During the 2012-2013 academic year, students from San José State University’s Department of Urban and Regional Planning worked with leaders in the Spartan Keys neighborhood in downtown San José to identify neighborhood priorities and develop an action plan to guide future planning in the community. Spartan Keys, a predominantly lower-income, majority Hispanic neighborhood, had been part of the City of San José
Redevelopment Agency's Strong Neighborhood Initiative to revitalize struggling communities. With the dismantling of Redevelopment Agencies, residents were left without a clear means to engage with the local government on neighborhood needs and long-term planning goals. Through a variety of activities including demographic and spatial analysis, a social capital and neighborhood perception survey, and extensive community conversations, a final action plan was developed that identifies the top seven neighborhood priorities for Spartan Keyes. Currently, the neighborhood continues to work with SJSU’s Department of Urban & Regional Planning and CommUniverCity, a community-engaged learning partnership at SJSU, to address these priorities.

- An overview of the 7 Keys
- Deeper exploration of Key #2 – Create Boundaries

GPEIG OPEN ROUNDTABLE: A NEW MODEL FOR INTERNATIONAL PLANNING EDUCATION
Room: Tubman Room

Co-moderator: MACEDO, Joseli [University of Florida] joseli@ufl.edu

Co-moderator: CAROLINI, Gabriella Yolanda [Massachusetts Institute of Technology] carolini@mit.edu

International development planning has gone through profound changes in the past 50 years, accentuated in the last decade by the challenges and opportunities of an urban world and the rising political economic prominence of a few key regional leaders from the Global South in development discourses. While the importance of integrating an international character to planning education has gained recognition in the planning academy over this same period, development planning pedagogy itself has entered a period of reflection. Diverse student interests, shifting terrains in academic institutions, and field-based demands for a new paradigm of 'international' planning expertise are only some of the drivers of this recent transformation.

A few probing questions will guide this GPEIG-wide discussion on devising a new model for international planning pedagogy: Is specificity of knowledge and familiarity with place and culture still central to development planning expertise? As linkages between developed and developing worlds become more pronounced, what knowledge base and forms of expertise should ground an international planning education? How are international planning and development planning educational programs distinct or similar? What analytical frameworks or ways of thinking help prepare students from developed nations to work in the developing world, students from developing nations to address development issues in their home countries, or students everywhere to work anywhere with an internationally comparative base of reference? How can global educators address both mobile and place-based development challenges? What new development theories and schools of thought might help ground a dynamic development planning pedagogy that capitalizes local depth and comparative capacities across global landscapes? How can educators leverage new technologies and students' own experiences to enrich international development planning pedagogy?
Join us for light refreshments and to watch the movie called An Urban World: A Case Study of Slum Relocation.

An Urban World: A Case Study of Slum Relocation is a 42-minute documentary that presents the human story of the relocation of a family displaced from their slum shack by a major urban renewal program in the city of Ahmedabad, India. The viewer accompanies the family as they are moved, with a revisit 6 months later to see how they are doing. Almost the entire film is seen through their experiences. Two experts also speak briefly, but to the point. One is Bimal Patel, the urban planner who designed the renewal project. He discusses the move, the project that made it necessary--the Sabarmati Riverfront Project--and the project that made it possible--the Jawaharlal Nehru National Urban Renewal Mission (JNNURM). The other is Girish Patel, a public interest lawyer who represented some of the slum dwellers who were denied housing.

The filmmaker is Warren Bass, Professor of Film and Media Studies, Temple University. The executive producer and subject specialist is Howard Spodek, Professor of History, Temple University.

TOUR #1 - THE REAL BOARDWALK EMPIRE: ATLANTIC CITY THEN & NOW
Full day motor coach workshop
9:00am departure from the 12th Street Exit of the hotel
Tour Leader: HOLCOMB, Briavel
[Rutgers, The State University of New Jersey] briavel.holcomb@rutgers.edu

Famous for its boardwalk, beaches, the Miss America pageant, and now the HBO TV series Boardwalk Empire, Atlantic City has always had a complicated relationship with leisure and vice. The legalization of casino gambling in Atlantic City in 1976 was supposed to save this resort city on the Jersey Shore. And it did for a while. But as other Mid-Atlantic States, especially Pennsylvania, have opened themselves up to gaming, Atlantic City has seen its tourist and gaming revenues decline, and the city and state are now exploring new economic development strategies. Five casinos have closed in the city this year...including the $2.3 billion, two year old, Revel. As of the time of writing, the leading contender of the hotel to your bus. The bus will have the tour number sign in the window.

TOUR #2 - SUPERSTORM SANDY RECOVERY – VISIT TO JERSEY SHORE COMMUNITIES
Full day motor coach workshop
9:00am departure from the 12th Street Exit of the hotel
Tour Leader: BURCHELL, Robert
[The State University of New Jersey] burchell@rci.rutgers.edu

Classified as the second-costliest hurricane in U.S. history, Superstorm Sandy made landfall near Brigantine along the Jersey Shore on October 29, 2012. In New Jersey alone, more than two million households lost power, 346,000 homes were damaged or destroyed, and 37 people were killed; total damage was estimated at $30B. Two years later, the Jersey Shore is mostly rebuilt, but in a manner that many critics warn will not adequately protect it from future inevitable storms like Sandy. Participants in this full-day mobile workshop will tour several hard-hit communities along the Jersey shore to investigate recent recovery and rebuilding efforts, as well as meet with local, state, and federal officials to explore what went right and wrong in the preparation, recovery and rebuilding process with the goal of learning from New Jersey’s experiences and preparing for future such events there and elsewhere along the Atlantic Coast.

TOUR #3 - BARNES FOUNDATION BUILDING, GROUNDS, AND COLLECTION TOUR
Afternoon motor coach workshop
1:30pm departure from the 12th Street Exit of the hotel
Tour Leader: KEENE, John
[University of Pennsylvania] keenej@design.upenn.edu

Having relocated in 2012 from suburban Lower Merion to the Benjamin Franklin Parkway in Center City Philadelphia, The Barnes Foundation (established by Albert C. Barnes in 1922) holds one of the finest collections of Post-Impressionist and early Modern paintings, with extensive works by Renoir, Cézanne, and Matisse. Recreated in its original interior form but in a strikingly modern building designed by Tod Williams and Billie Tsien, the new Barnes also serves as a renewed tourist and pedestrian anchor for Center City Philadelphia. Participants in this afternoon 2 ½ hour mobile workshop will travel to Barnes and have an opportunity to view the Foundation’s extraordinary painting collection.

---

TOUR #4 - CAMDEN IN THE 21ST CENTURY: SUCCESSES, FAILURES, CHALLENGES
Full day motor coach workshop
1:30pm departure from the 12th Street Exit of the hotel
Tour Leader: NELESSEN, Tony
[The State University of New Jersey] nelessen@rutgers.edu

Right across the Delaware River from Philadelphia, Camden, NJ is one of the poorest cities in the country; despite a plethora of planning and redevelopment schemes and projects, the city continues to face severe economic development, fiscal, public service, and neighborhood challenges. Participants in this afternoon mobile workshop will tour Camden by bus, and meet with city officials and community leaders for a series of presentations and discussions about planning options for distressed communities.

---

TOUR #5 - A TALE OF TWO RIVERFRONTS – THE SCHUYLKILL AND THE DELAWARE
Afternoon motor coach workshop
1:30pm departure from the 12th Street Exit of the hotel

Philadelphia sits squarely between two major rivers, the Delaware and the Schuylkill, both of which have rich industrial and port histories, and both of which are being actively remade and redeveloped for a modern post-industrial city. Participants in this afternoon mobile workshop will tour both waterfronts by bus and foot, and meet with the planners, developers, and community representatives who have taken the lead in planning and redeveloping the two waterfronts.
Laura Cahn from the Public Interest Law Center of Philadelphia’s Garden Justice Legal Initiative, will travel by bus and on foot to visit with gardeners and farmers in West and Southwest Philadelphia. We will see different forms of urban agriculture - from homesteading to large-scale allotment gardening to a variety of farm- and garden-based community programs - and explore the ways that practitioners and advocates are addressing issues of land tenure, zoning, redevelopment, and other planning challenges and opportunities.

TOUR #8 - CENTER CITY MURAL ARTS WALKING TOUR
Afternoon walking workshop
1:30pm departure from the Millennium Foyer of the hotel
Tour Leader: HOWE, Deborah [Temple University] dheo@temple.edu; and a representative from the Mural Arts Foundation

Currently celebrating its 30th Anniversary, Philadelphia's Mural Arts program was started by Jane Golden in 1984 as a component of the Philadelphia Anti-Graffiti Network. To date, the program has produced over 3,600 murals in every corner of the city. Mural Arts is about more than just painting the sides of buildings: it empowers artists to be change agents, stimulates dialogue about critical issues, and builds bridges of connection and understanding. Participants in this 2 ½ hour afternoon walking mobile workshop will meet with Mural Arts staff to discuss the role of public art in community development and then take a walking tour of central Philadelphia to see the murals themselves and understand how they are designed and created.

TOUR #10 - THE PHILADELPHIA WATER DEPARTMENT – GREEN INFRASTRUCTURE PROGRAM
Afternoon walking tour
1:30pm meet in the Commonwealth B Room
Tour Leader: BROWN, Drew [Philadelphia Water Department]
drew.brown@phila.gov

Philadelphia’s Water Department (PWD) is the nation’s leader in planning and promoting green infrastructure as a partial alternative to building large new sewer treatment facilities. Participants in this afternoon walking mobile workshop will meet with PWD leadership and planning staff to learn how PWD’s innovative green infrastructure initiatives are working, and about the challenges of using market-based incentives and web-based information systems to get commercial, residential, and public sector property owners to green their properties and reduce storm water runoff.
TOUR #11 - REDEVELOPMENT AND GENTRIFICATION IN PHILADELPHIA’S CENTER CITY

Afternoon walking tour
1:30pm departure from the Millennium Foyer of the hotel

Tour Leader: FAMMON, Francesca [University of Pennsylvania] fammon@design.upenn.edu; and David Kanthor of the Center City District

Given up for dead in the late 1980s, Philadelphia’s Central City area (bounded by the Delaware and Schuylkill Rivers to the east and west, and Spring Garden and South Streets to the north and south) is enjoying a residential and economic redevelopment renaissance—largely due to the continuing efforts of the Central City District (CCD), a business improvement district. Participants in this afternoon walking mobile workshop will tour Central City by foot and meet with CCD, city planning, and community leaders to explore CCD’s ever-evolving approach to center city redevelopment and investment, as well as discuss issues of gentrification, uneven development, and income and demographic diversity.

TOUR #12 - REDEVELOPMENT AND GENTRIFICATION IN WEST PHILADELPHIA

Afternoon walking tour
1:30pm departure from the Millennium Foyer of the hotel

Tour Leader: WOLF POWERS, Laura [University of Pennsylvania] lwpowers@design.upenn.edu; and Andrew Zitcer of Drexel University

In the late 20th Century, many stable West Philadelphia communities experienced population loss and disinvestment. Despite the success of churches and other institutions in creating housing and maintaining community ties – and despite positive changes catalyzed by the University of Pennsylvania’s leadership in the 1990s and 2000s – parts of University City continue to be distressed. A variety of actors has now initiated projects that promise to augment Penn’s well-known West Philadelphia Initiatives. Drexel University is making substantial investments including an Innovation District on the site of a shuttered public high school. Federal community development programs have targeted the neighborhood. Local groups are pursuing infill housing development, stabilization of existing housing stock, and economic mobility for the incumbent population. But the prospect of gentrification continues to generate anxiety. This afternoon walking mobile workshop, led by UPenn’s Laura Wolf-Powers and Drexel’s Andrew Zitcer, centers on how multiple constituencies are anticipating, interpreting, and representing physical and cultural change at a pivotal moment. The tour features conversations with the director of a local cultural organization, a planner at an established CDC, and Drexel’s Vice Provost for University and Community Partnerships.
Distinguished Educator Award 2013

Raymond Burby  
FAICP and Professor Emeritus, University of North Carolina

Raymond Burby received an A.B. in Government (1964) from The George Washington University and  
the M.R.P (1966) and Ph.D. (1969) from the University of North Carolina at Chapel Hill. Burby joined  
the planning faculty at Chapel Hill in 1968, while simultaneously holding a research appointment in the  
UNC Center for Urban and Regional Studies, where he served as assistant director (research) from 1976  
to 1987. He was a Fulbright Senior Scholar at the University of New South Wales in Sydney, Australia  
Chapel Hill to accept an appointment as the DeBlois Chair in Urban and Public Affairs at the University  
of New Orleans, where later he was appointed Distinguished Professor of City and Regional Planning.  
He returned to the Department of City and Regional Planning at UNC-Chapel Hill in 2000, where he  
retired in 2007.

Burby's scholarly work and contributions to planning reflect three principal interests:

Land use planning as a means of reducing losses from natural and technological disasters, conserving  
energy, and protecting water quality (including public drinking water supplies).

Urban development processes and forms as they affect the quality of life, including the provision of a  
better understanding of the potential benefits of large-scale planned developments.

Improvements in planning processes, including intergovernmental planning mandates, enforcement of  
building and land-use regulations, and citizen involvement in planning and growth management.

This work was undertaken as part of over sixty-five collaborative research projects involving over  
$8 million in funding from agencies such as the National Science Foundation, U.S. Department of  
Service, Fannie Mae Foundation, Urban Institute, and many others. The results of this research are  
reported in fourteen books and numerous book chapters, articles, and research reports prepared for  
both scholarly and professional planning audiences.

Burby has served as co-editor (with Edward Kaiser) of the Journal of the American Planning Association,  
as an associate editor of the Natural Hazards Review, and on several journal editorial boards. He has  
been an officer or board member of various academic and professional associations, including the  
Association of Collegiate Schools of Planning, Urban Affairs Association, Southern Regional Science  
Association, N.C. Chapter of the American Planning Association and N.C. Chapter of the American  
Water Resources Association. He has served also on many local, state, and federal government advisory  
committees and in other public service and advocacy positions, including the National Research  
Council, Federal Emergency Management Agency, U.S. Army Corps of Engineers, National Institute of  
Building Sciences, Institute of Building and Home Safety, Earthquake Engineering Research Institute,  
N.C. Coastal Federation, N.C. Land Use Congress, N.C. Governor's Solar Law Task Force, and various  
local commissions, committees and task forces.
John Friedmann Book Award

*The Politics of Urban Runoff: Nature, Technology and the Sustainable City*

By Andrew Karvonen

Lecturer in Architecture and Urbanism, School of Environment, Education and Development, University of Manchester, UK

Dr. Karvonen’s book is original, creative and innovative in addressing the interlinked knowledge needs of urban planning through case studies about urban runoff. The quality of his analysis and writing, while focused on urban planning, has the ability to transcend typical academic audiences. ~ Professor Julian Agyeman, Chair, John Friedmann Book Award Committee 2014

Paul Davidoff Book Award 2013

*Climbing Mount Laurel: The Struggle for Affordable Housing and Social Mobility in an American Suburb*

By Douglas S. Massey, Princeton University; Len Albright, Northeastern University; Rebecca Casciano, LLC; Elizabeth Derickson, Princeton University; and David Kinsey, Princeton University

The book is an especially fitting winner, given that the Suburban Action Institute founded by Davidoff was actively involved in the Mount Laurel legal cases (though Davidoff, who died in 1984, never lived to see the results). Our entire selection committee was unanimous in its praise for [this] book. ~ Larry Vale, Chair, Paul Davidoff Book Award Committee 2013

Martin Meyerson Award for Distinguished Leadership in Higher Education 2013

Christopher Silver, University of Florida

The ACSP award called the Martin Meyerson Award for Distinguished Leadership in Higher Education, recognizes sustained contributions in academic administration by an urban/regional planning scholar/educator that have led to significant national and/or international impacts on higher education. This award is to be presented every other year and was presented to Chris Silver in Columbus, OH when the University of Ohio hosted the 2013 Administrator's Conference.

Labor Standards and Local Economic Development: Do Living Wage Provisions Harm Economic Growth?
JPER Volume 32, issue 3: 331-348
By T. William Lester, Assistant Professor, University of North Carolina

William Lester’s article examines a topic of national interest for planning scholarship and practice. The paper uses a rigorous, thoroughly documented research design to consider the effect that including living wage standards in economic development policies have on employment levels and redevelopment activities. The study uses an establishment-level time-series database and a sophisticated case-selection approach to examine 31 jurisdictions that have and have not implemented these ordinances. The paper concludes that ordinances mandating stronger labor standards have no effect on aggregate economic development outcomes. This sophisticated, well-written study is an excellent example of policy-relevant planning scholarship.

Chester Rapkin Award for the Best Planning Article in JPER this year, 2014

Shadow Transnationalism: Cross-Border Networks and Planning Challenges of Transnational Unauthorized Immigrant Communities
JPER Volume 33, issue 1: 176-193
By Gerardo Francisco Sandoval, Assistant Professor, Planning, Public Policy, and Management and Associate Director Center for Latino/a and Latin American Studies, University of Oregon

The paper shines a spotlight on an important public policy issue that is of particular relevance for planners. Despite being in the shadows, unauthorized migrants are present in towns and cities across America, shaping housing and labor markets, public service demand and local community culture. By understanding the powerful confluence of interests that exploit unauthorized immigrants in the United States, planners can implement policies that reduce their vulnerability. The Selection Committee learned a great deal from this paper and recommends it highly to planning faculty, students and practitioners.

Jay Chatterjee Distinguished Service Award 2014

Dick Klosterman
Professor Emeritus, Geography, Planning and Urban Studies, The University of Akron

The 2014 Jay Chatterjee Award winner is Richard Klosterman, Emeritus professor at the University of Akron. Dick Klosterman has made substantial contributions to ACSP and to both academic and professional planning since the late 1970’s. He continues to do so today. His most significant contribution over these decades has been his leadership role in promoting and integrating computer applications in both academic and professional planning. From the beginnings of micro-computers in the late 1970s, to GIS-based and other modeling systems, to advanced applications of Planning Support Systems, Dick Klosterman led efforts within ACSP, with academic planning journals, and with conferences to promote innovative uses of computers in planning. His efforts and intellectual leadership have made a substantial impact on our discipline. ~ G. William Page, Chair, Jay Chatterjee Distinguished Service Award Committee, 2014

Margarita McCoy Advancement of Women in Planning Award 2014

Linda Dalton, FAICP, Vice President, Planning, Enrollment Management and Student Affairs at California State University East Bay

Linda Dalton was selected as this year’s McCoy Award recipient due to the exceptional leadership qualities she has demonstrated during her distinguished career and, in particularly, the outstanding mentorship role she has played for many women in higher education in planning. In addition to her own distinguished career in planning, she has worked tirelessly to improve faculty diversity in planning programs and serves as a role model for women in higher education. ~ Hilary Nixon, Chair, FWIG Award Committee, 2014

Ed Blakely Award

Manuel Pastor
Professor of Sociology and American Studies & Ethnicity, University of Southern California

Manuel Pastor’s entire academic career has been devoted to conducting engaged scholarship that contributes to social justice, particularly in the areas of economic equity, environmental justice and immigrant integration. His research approach is summarized by what he refers to as the new three ‘R’s: rigorous research that can stand up to the most strenuous critique of potential adversaries; relevant research that addresses the most pressing social and economic issues facing contemporary society; and research that has reach, that is informed by and directly contributes to those communities and constituencies most directly affected by the issues being studied. In the process, Dr. Pastor has made major strides in increasing the credibility of activist research within the academy. From the nomination letter written by Chris Benner, University of California, Davis.

Other Awards

2014 PAB Outstanding Site Visitor Award
Educator - Kenneth Chew, Ph.D., Senior Lecturer, University of California, Irvine
Practitioner - Wayne M. Feiden, FAICP, Director of Planning and Development, City of Northampton (MA).

Site Visitors are critical to the accreditation process. PAB recognizes two Site Visitors annually, one educator and one practitioner, for their outstanding contributions to the PAB’s mission of ensuring the high quality of planning education. Nominations are solicited from the hundreds of volunteers in the Site Visitor pool and program administrators.

PAB Lifetime Impact Citation Award
David Prosperi, Ph.D., Professor, Florida Atlantic University
PAB has developed a periodic award, called the Lifetime Impact Citation, to recognize Site Visitors who, as they leave or retire from the pool of volunteers, merit the attention and gratitude of not only PAB, but of the academy and the profession, for many years of service and contribution.

Gill-Chin Lim Global Award
Zita Cobb, President of the Shorefast Foundation
This award is given out in memory of Dr. Gill-Chin Lim and in honor of his work on the study of humanistic globalization. The Consortium on Development Studies (CODS), which was founded by Dr. Gill-Chin Lim in 1982, is responsible for the administrative management of the award. The award carries a cash grant of $10,000, supported by Dr. Gill-Chin Lim’s family.

The Committee recognizes Zita Cobb’s global commitment and leadership as an innovator and development practitioner in the field of humanistic globalization.
BOOK FAIR
Millennium Hall

The ACSP Annual Conference this year has attracted more than 1000 scholars representing planning faculty in the U.S. and Canada including sizeable clusters of faculty from planning programs across the globe, not to mention a substantial group of doctoral students. The Book Fair represents an excellent opportunity for individual authors and publishers to display their wares and to speak with potential authors, readers and adopters. Daily continental breakfast and continuous coffee and refreshments are served in the Book Fair Café area. The Job Posting Boards, Job Bank, Conference Message Center and a Research Poster Display will also be housed in the center of the Fair. Café tables draw attendees to rest, meet friends, and work on laptops during the long days of sessions.

Internet Access
Free Wi-Fi is available throughout public areas of the hotel including guest rooms.

Job Bank
The Job Bank is an opportunity for schools/programs to advertise (at no cost) job openings as well as an opportunity for students and faculty in planning who are in the market to include their resumes. The Job Bank is located in the Book Fair and the new conference APP. Announcement Postings and Message Centers are available to aid in communications with prospective employers and employees.

Interview Suite Reservations
Universities may conduct interviews for new faculty in private suites at the hotel during conference hours. To make reservations for an interview suite come to the conference registration desk to check for availability. Blocks of time can be reserved for rooms from 8:00a.m. - 6p.m. on Thursday, Friday and Saturday of the conference.

Speaker Ready Room
The Speaker Ready Room is a designated area in the Book Fair. The Speaker Ready Room will have the same equipment available as in the presentation rooms for those authors wishing to become more familiar with the equipment or to practice and coordinate presentations. Please be patient with your fellow presenters. We also ask that in fairness to all, please limit your time using the equipment. We will set a computer station with PowerPoint and Microsoft Word software, a CD R/W drive and USB ports for portable hard drives. It is strictly for double-checking your presentation. The ACSP does not provide data storage materials. You may not take this laptop to use for your presentation. This computer will not have internet access but complimentary internet access will be available in the hotel.

½ Price Book Sale Sunday Morning!
Many display books will be considered donated books. These books will be marked at ½ the published retail price and will be sold to conference attendees on Sunday morning at the ½ Price Book Sale. Proceeds from this sale go toward student travel scholarships for the future year’s conference. Each year we hope to build enough of a fund to bring 10 students to the next conference. Along with attending faculty members, students are future faculty and truly appreciate the Book Fair’s offerings. Help us bring more of them to the show.

Publisher’s Travel Scholarship Winners
Generous publishers have become accustomed to leaving books behind from their Book Fair participation at ACSP Conferences. This allows the ACSP to use them as a fundraiser, selling them for ½ the retail price on Sunday morning of the conference. Since 2005 nearly all sale proceeds have gone toward travel scholarships for first-time student presenters at the next year’s conference. Winning applicants must 1) have an abstract accepted for presentation at the upcoming annual conference; 2) register by published deadline to retain appearance on the program; 3) attend and present a paper at the ACSP Conference for the first-time.

2014 Winners
Kelly Kinahan, Cleveland State University
Taehee Lee, University of Sheffield
Xize Wang, University of Southern California

Workshop on the Future of Food Systems Planning

A Facilitated Conversation on Teaching, Research and Practice

Date: Friday, October 31, 2014  
Time: 11:30 AM - 1:30 PM  
Location: Reading Terminal Market  
Rick Nichols Room  
51 North 12th Street  
Philadelphia, PA 19107

More than a decade ago, Pothukuchi and Kaufman (2000) urged planners to attend to the health of food systems in their communities. A workshop is being held at the ACSP Conference to facilitate a conversation about the future directions of food systems planning. The workshop will provide a venue for veteran and emerging food systems planning scholars and educators to gather and share ideas. Doctoral students are especially encouraged to attend. Lunch will consist of vegetarian, vegan and non-vegetarian food options. Space is limited; please confirm your attendance by e-mailing Subhashni Raj at subhashn@buffalo.edu.

Urban Agriculture Tour (Mobile Workshop 11)

Date: Friday, October 31, 2014  
Departs: 1:30 PM  
From: Reading Terminal Market  
Rick Nichols Room  
51 North 12th Street  
Philadelphia, PA 19107

Led by Professor Domenic Vitiello (U Penn) and Amy Laura Cahn (Public Interest Law Center of Philadelphia’s Garden Justice Legal Initiative), this tour will feature different forms of urban agriculture - from homesteading to large-scale allotment gardening to a variety of farm- and garden-based community programs. Participants will travel by bus and on foot to visit with gardeners and farmers in West and Southwest Philadelphia. The tour will leave immediately after the Workshop on the Future of Food Systems Planning.

Planning at Boise State

At Boise State, our goal is to inspire good planning practices and increase the planning capacity in the growing Boise MSA, the State of Idaho and the Intermountain West. Our students develop an understanding of the planning issues that are faced by Idaho’s communities that are as diverse as the metropolitan area of Boise, the vineyards in the Snake River Valley, the prairies of the Palouse, and the peaks and valleys of the Sawtooth Mountains.

Visit sspa.boisestate.edu/planning to learn more about the Department of Community and Regional Planning at Boise State University.

54th ANNUAL CONFERENCE - 47
The floorplans on the app are interactive!
AT A GLANCE
Earn AICP CM Credits

Attention AICP!
Track all the sessions you attend here in Philadelphia and remember to log them online.

This year, ACSP applied for pre-approval of the ACSP 2014 conference for AICP Certification Maintenance (CM) credits.

AICP managers at APA informed ACSP that they have pre-approved more than 200 sessions for the 2014 conference in Philadelphia. We will resubmit the remaining sessions after the conference for additional credit availability. Attendees with AICP certification will be able to attend sessions at the ACSP Annual Conference and be assured ahead of time that this attendance will count toward CM, and that s/he will be able to apply for these credits in the month after the conference. Watch for these symbols after the session title which indicate how many points each session is worth: CM 1 ##

If you have problems reporting your CM credits or have general questions about the CM program, please contact AICPCM@planning.org. APA’s customer service associates are available to assist you.

1. Login using your ID# and password.
2. Select My CM log- located on the left-hand side of the screen
3. Select Add CM-Registered Credits
4. Searching Activities by Date: on the left of the calendar view, please use the “previous” and “next” options to locate the month. On the right of the calendar view; please use the “previous” and “next” options to select the year in which the event occurred
5. Use the calendar to find the event on the date in which it occurred
6. To select, click on the name of the activity
7. A pop-up box will appear. Please note: if this is a multi-part event you will have the option to select from a list of activities
8. Please rate, add a comment (optional), and click on the Ethics statement and answer
9. Click submit and the CM credits should appear in your CM log
ACSP Conferees are invited!

The 3rd (2014) Dr. Gill-Chin Lim Global Award

Time: 2:00pm – 3:30pm (Friday), October 31, 2014
Place: Commonwealth A2 Room, Loews Philadelphia Hotel, Philadelphia, PA

This is an invitation to attend the Award Ceremony and the post-award address on rural development by Zita Cobb. The Lim Global Award program is an activity of the Consortium on Development Studies (CODS), which was founded by the late Dr. Gill-Chin Lim in 1982.

The Award recipient is recommended to the Chairperson of CODS by the Dr. Gill-Chin Lim Global Award Committee. The Award is given out in memory of Dr. Gill-Chin Lim and in honor of his work on the study of humanistic globalization. Early this year, the Dr. Gill-Chin Lim Global Award Committee selected Zita Cobb, President of the Shorefast Foundation of Fogo Island, Newfoundland, Canada, as the third (2014) recipient of the Award. The Committee recognized Zita Cobb’s global commitment and leadership as an innovator and development practitioner in the field of humanistic globalization. In accepting this distinguished Award, Zita Cobb expressed her deep appreciation for this recognition being given for the pioneering development work by the Shorefast Foundation on behalf of rural communities everywhere that strive to survive and prosper in a globalized economy.

The Award ceremony and address will be held from 2:00 pm to 3:30 pm on October 31 (Friday), 2012 in Commonwealth A2 Room, Loews Philadelphia Hotel. It is open to ACSP conferees. The Award carries a cash grant of $10,000, supported by Dr. Gill-Chin Lim’s family.

As a distinguished scholar, Dr. Gill-Chin Lim mentored numerous doctoral and master students at Princeton University, University of Illinois at Urbana-Champaign, Northwestern University, Michigan State University, and Seoul National University. As a pioneering researcher, Professor Lim authored a dozen books and more than 100 professional articles, plans, and reports. He was Dean and Endowed Professor at Michigan State University, Dean and Distinguished Professor at KDI School of Public Policy and Management, and Co-President of Korea Federation of Environmental Movement.

*The CODS Award Committee members include Dr. Hooshang Amirahmadi (Rutgers U., USA), Dr. Ahmed El-Kholie (Menofia U., Egypt), Dr. Tom Hutton (U. of British Columbia, Canada), Dr. Eun Mee Kim (Ewha Womans U., Korea), Dr. Heike Mayer, (U. of Bern, Switzerland), Dr. Hae Un Rii (Dongguk U., Korea), Dr. Bish Sanyal (MIT, USA), Dr. Victor Savage (National U. of Singapore, Singapore), Dr. Belinda Yuan (World Bank, Washington, D.C.), Dr. Mark Wilson (Michigan State U., USA), Mr. Brett Song (Chairperson, Consortium on Development Studies, Korea), Dr. Man-Hyung Lee (Chungbuk National U., Korea), and Committee Chair, Dr. Kenneth. E. Corey (Michigan State U., USA).

No pre-registration is required
URBAN PLANNING
at the Price School

Issues related to sustainability, economic development, human health, and democratic governance challenge cities across the globe. The Price School leads the way with cutting-edge programs in urban planning. Price urban planning graduates go on to shape our world as leaders in government, nonprofit agencies, and the private sector.

The Price programs connect classroom knowledge to the profession through practice-based experiences including internships, planning studios in the U.S. and abroad, and international labs. Price students recently engaged in group studio and lab experiences in Brazil, China, Costa Rica, France, Germany, India, Japan, and the United Kingdom.

The USC Sol Price School of Public Policy has defined excellence and innovation in public affairs education and research for 85 years. NATIONWIDE THE SCHOOL CONSISTENTLY RANKS AMONG THE TOP 10 PLANNING PROGRAMS IN NORTH AMERICA*
*Planetizen Guide (1st - 4th eds.)

The Price School Master of Planning program offers concentrations in five areas:
- Economic Development
- Preservation and Design of the Built Environment
- Social and Community Planning
- Sustainable Land Use Planning
- Transportation and Infrastructure Planning

Price Urban Planning Research Centers:
- Center for Economic Development
- Center for Sustainable Cities
- Lusk Center for Real Estate

PRESENTER INFORMATION

Abstracts Only are Published on-line
The ACSP publishes only accepted abstracts to the ACSP web site prior to the conference. All abstracts will be published in the manner in which they were submitted. Once the Book of Abstracts is published, we do not accept requests for any editing.

Multiple Placements on the Program
Abstract submissions exceed the amount of time slots and hotel space available to our group. Track chairs are charged with ruthlessly rejecting mediocre submissions and to keeping to a strict number of allotted sessions per track - a very difficult task for most of the chairs. They are also limited to the number of roundtable placements.

The ACSP participation policy is as follows: one paper presentation (either in a pre-organized session or an individual paper session), one discussant role, one roundtable and one poster presentation. This allows individuals four placements on the program. Please understand one role is not interchangeable with another, for example, two paper presentations and one roundtable but no discussant role will not be allowed. In the past, we have relied on conference participants to self-police this policy. Not anymore. Simply said, the downside of an extremely successful conference is that the Conference Committee and staff must now enforce this policy.

The notion behind this policy is to allow space in the program for as many people to participate as is humanly possible by restricting the number of duplicate forms of participation. We hope you understand our collective problem of trying to provide the greatest number of opportunities for participation at the highest level of quality that is feasible.

Your Presentation Schedule
The conference committee and association staff will schedule an anticipated 200-215 sessions for approximately 750 faculty and student presenters in 12-14 time slots over four days with only 12-14 meeting rooms to work with. ACSP Committee Meetings, journal meetings, and other special sessions must also be included in the schedule. We appreciate your understanding of just how difficult it is to make any changes to the schedule once all participants have been notified and the schedule is posted to the web. Presenters unable to present at the scheduled time must notify the Conference Manager in writing and withdraw from the program. Presentation schedules cannot be rearranged.

Registration by Deadline or Risk Removal from the Program
A historical policy is enforced – All presenters, discussants and roundtable participants must register by the early presenter’s deadline. Papers and names are removed from the program if we don’t have a registration on file.

Presentation Tips
• Arrive at the session room five minutes prior to the scheduled starting time.
• Introduce yourself to the other presenters and to the moderator and discussant. If no moderator is present for whatever reason, please nominate someone among the presenters to act as the time manager for the session.
• You will be instructed by the moderator before the session on the length of your presentation. This will inevitably vary between sessions depending on the number of papers to be presented and whether there is a discussant. You therefore need to structure your presentation around key points and arguments. You will not be permitted to speak longer than the allocated time, as this would be unfair to other presenters. The moderator is instructed to intervene by means of a system of colored cards.
• In a paper session, you will have only 10-15 minutes to present your work. Sessions with five papers will only have 10-12 minutes for each presentation.
• Do not attempt to read your paper.

• Don’t turn your back to the audience to read a projected text and don’t read out loud what your audience can read for itself. Use PowerPoint wisely.
• Indicate at the beginning of your talk if you are willing to send electronic versions of your paper when you return to your office.
• Concentrate on what is new, interesting and different rather than providing full theory and methodology.
• If you have any concerns about setting up your presentation, please take advantage of the Speaker Ready Room and conference/audio visual staff to assist you before your scheduled presentation. A.V. technicians will be available for projector equipment failures in session rooms if they occur, but absolutely should not be tied down to assisting you with your laptop the minute before your presentation. That being said, if you do experience trouble at the very minute you’re to present (it happens!) please step aside immediately and offer the time to another presenter while you work out your trouble - AND don’t hesitate to ask ACSP staff for help. We will always do what it takes to get you up and going.
• Within each session some time will be devoted to questions and discussion. There will be informal opportunities to discuss your ideas with participants at the various social events. Please do not feel that you must cram everything into 15 minutes.

Audio Visual Equipment
Available On-Site for Presenters
The conference supplies data projectors, screens and podium (no microphone). Other audio visual equipment requirements will be at the presenter’s expense. Contact the Conference staff before arriving at the conference hotel.

Presentation rooms are staffed by student volunteers, but these volunteers are not trained on the use of the equipment.
The audio visual company providing the projectors will have limited staff on site to assist with technical difficulty and will be working in more than a dozen different presentation rooms. In other words, we strongly recommend making yourself comfortable with these types of projectors before your arrival. Most of them are standard and simple in operating procedures.

**Laptop Protocol**

Laptops are NOT provided, nor does the staff have any available to borrow just for an hour. If you don’t have one, be prepared to borrow one from a friend. If you don’t have any friends, we will be glad to introduce to people.

- Mac Users - bring the Dongle adapter to plug into a PC port on the data projector.
- Please remember to bring your power cord.

**Speaker Ready-Room**

The Speaker Ready-Room will have the same exact equipment available as in the presentation rooms. The room is available on a first-come, first-serve basis so please be patient with your fellow presenters, but we also ask that in fairness to everyone, please limit your time when using the equipment.

- Computer station set with PowerPoint and Microsoft Word software, a CD R/W drive and flash drive for memory sticks. This computer will not have internet access. It is strictly for double-checking your presentation. The ACSP does not provide data storage materials.
- An LCD projector to preview your presentation. Bring your own laptop to practice plugging in before your presentation.
- Internet access is not always provided in the Speaker Ready Room.

**Internet Access Not Provided**

Please see the information section of the final conference printed program to know where the hotel may provide free or fee-for-service internet access.

**Session Management Roles**

For most individual paper sessions and pre-organized sessions, a moderator and a discussant have been appointed for session management (see schedule by day for names of these individuals). Moderators are generally assigned from the list of presenters who will already be in the room. Roundtable sessions are assigned only a moderator.

**Moderator Guidelines**

- Arrive at the session room five minutes prior to the scheduled starting time and introduce yourself to the presenters.
- Attempts are made to assign a student room attendant to every session room. This person will help you contact necessary parties to take care of the audio visual equipment, room temperature control, and to assist you and the presenters at any time.
- Look on the front table or podium for the yellow and red cards to assist you with letting presenters know their time frame. Please return these cards to the front of the room when the session is completed. The cards are more subtle than an alarm on your phone.
- Inform presenters of the maximum time they can use for their paper presentation. This time can vary depending on the number of papers in the session and whether there is a discussant who needs time to respond. Introduce the yellow and red card system to all.
- When introducing the session - please be brief - tell the audience how many papers will be presented, how long each presentation will be and when there will be time for questions. You will not have presenter bios, nor should you provide any personal commentary. Time is a premium for the presenters.
- For each paper, introduce the author and the title of the paper.
- Show the yellow card to the presenter when 5 minutes of presentation time is left. Show the red card when time is over.

**Discussant Guidelines**

It is the role of the discussant to raise points of discussion from the papers before opening the discussion to include the audience. The review should be brief enabling time for questions and responses. We strongly encourage you to contact each presenter in advance of the conference, follow up on any that have not submitted final papers and read each text prior to the session to prepare appropriate comments. Students and young faculty truly benefit from the effort.

**Final Paper Submissions**

We request final papers be submitted by a deadline generally 10 days out from the conference. An asterisk is put near the paper title for those that make the deadline. We also ask that final papers be shared with the session discussant and the rest of the presenters in the session.

Final papers can be requested for reading by sending a message to papersubmission@comcast.net.

Final papers are not considered published when submitted. They remain in an email in-box for those who request to read them. The ACSP does not publish conference proceedings.
TRACK DESCRIPTIONS

TRACK 1 - Analytical Methods and Computer Applications presentations encompass quantitative, qualitative, and mixed methods for urban studies and planning; GIS mapping, spatial analysis, and planning support system; statistical and computational modeling of urban and regional environment; and information technologies and cities. Track Chair: Jeff Brown, jrbrown3@fsu.edu.

TRACK 2 - Economic Development track solicits papers that help tell the economic development story as it evolves in the 21st century. We focus on issues of land, labor, capital, business acumen and entrepreneurship. This track invites scholars, theoretic and pragmatic, to present their work in a manner that will help us to improve the quality of life of our citizens. Track Chair: Elizabeth Currid-Halkett, currid@price.usc.edu.

TRACK 3 - Environmental Planning and Resource Management presentations encompass a broad range of topics loosely centered on the natural environment. It includes research related to the planning and management of air, land, and water resources across a variety of scales and from a variety of perspectives. Research on sustainability, both in practice and principle, is another component of this track. Track Chairs: Carissa Slotterback, cschively@umn.edu; and Caitlin Dyckman, cdyckma@clemson.edu.

TRACK 4 - Gender and Diversity in Planning track explores the variety of methods, issues, and topics addressed when groups of difference analyze, develop and implement plans and planning activities. All aspects of diversity are encouraged in this track from race, ethnicity, gender, sexual orientation to geography, physical or cognitive disability, and class. We encourage papers and discussions on planning research and pedagogy that seek to identify and/or redress these differences. Track Chair: Stacy Harwood, sharwood@illinois.edu.

TRACK 5 - Housing and Community Development track accepts papers broadly addressing any aspect of housing and community development. In the housing area, papers routinely address issues of housing policy and programs designed to correct market failures in the provision of affordable housing. In the community development area, papers examine issue of neighborhood change whether it is revitalization, stabilization, gentrification, growth or decline. Track Chairs: Avis Vidal, a.vidal@wayne.edu; and Lan Deng, landeng@umich.edu.

TRACK 6 - International Development Planning track focuses on planning and related issues directly relevant to developing countries. Many developing countries share attributes that create unique challenges for planning, such as their recent independence and nation-building efforts, their position vis à vis other developed countries in the global economy, similar demographic profiles and rates of urbanization, inadequate infrastructure, large indigenous populations and systems of land tenure, and their relationships with the large international institutions. There are also significant differences among developing countries (e.g., diverse planning cultures). The track supports comparative scholarship as well as in-depth analysis of specific countries, regions, rural contexts, cities and networks. By encouraging such work the track aims to foster bi-directional flows of knowledge, science and culture between the global north and south. Track Chair: Neema Kudva, kudva@cornell.edu.

TRACK 7 - Land Use Policy and Governance papers generally focus upon issues such as how and where land is developed, the impacts of state and local regulations upon the use of land, and the role of different actors in the land development process. Land Use Track papers usually employ a variety of methods, including, but not limited to, statistical analyses, detailed case studies, and policy evaluations. The scale of analysis also varies widely, from jurisdiction-level studies, to regional analyses, even as far comparisons between cities or regions on different parts of the globe. Track Chair: Carolyn Loh, cm9329@wayne.edu; and Rebecca Lewis, rlewis9@uoregon.edu.

TRACK 8 - Food Systems, Community Health, Safety focuses on the burgeoning research and community-based practice of planning scholars and practitioners on community food systems, community health, community well-being, or community safety in both urban and rural settings. The track welcomes submissions focused on: assessments of the health impacts of environmental change or land use plans; disparities in food access and health outcomes; the impacts of the built or food environments on community health, community well-being and/or food security; community safety; refining concepts and/or measures for use in these fields; linkages between community food systems, health, and well-being and economic development; and the effects of disasters or assessing the impact of disasters on community food systems, community health, or community well-being. Track Chair: Ellen Bassett, emb7d@eservices.virginia.edu.

TRACK 9 - Planning Education and Pedagogy accepts papers that illuminate and help improve understanding of the purposes of planning education and the uses of curriculum and pedagogy as strategies for serving these purposes. Papers should refer to and build on literature on education, teaching, learning, and planning. Reflective accounts or evaluations of educational practice, critiques of contemporary educational practices, and proposals for more focused and influential educational practices are welcome. Track Chair: Charles Hoch, cachshoch@uic.edu.

TRACK 10 - Planning History presentations aim to shed light on the emergence and evolution of modern planning at various geographic scales (from the local to the global), in a variety of sub-fields (land-use planning and regulation, housing, transportation, etc.) and in various modes (community action, professional practice, theoretical debates, etc.). Case studies of very recent planning events should be submitted to tracks according to the issue at hand. Papers
dealing with the themes of this year’s conference will be given priority. Track Chair: Sonia Hirt, shirt@vt.edu.

**TRACK 11 - The Planning Process, Administration, Law and Dispute Resolution** track focuses on the nature, design and management of decision making processes; plan administration; the development, content, implementation, and effects of laws and regulations; and, approaches to conflict management and dispute resolution. Track Chair: Bruce Goldstein, bruce.goldstein@colorado.edu.

**TRACK 12 - Planning Theory** track focuses on the role of planning theory in understanding and informing planning scholarship and practice. We encourage papers that make connections between theoretical and substantive knowledge in planning. Of particular interest are theoretical papers that shed light on current social movements or contemporary planning phenomena related to environment or economy that links theory with planning practice. Track Chairs: Niraj Verma, nverma2@vcu.edu; and Meghan Gough, mzgough@vcu.edu.

**TRACK 13 - Regional Planning** track encompasses a range of topics central to regional planning scholars and practitioners, including governance, inter- and intra-metropolitan relations, regional economic development, international comparisons of regional policy, and applications relevant to land use, growth, transportation, environmental and social systems at the regional scale. All methodologies, including quantitative analyses, theoretical work, detailed case studies and comparative analyses, are welcome. Track Chairs: David Lewis, dalewis@albany.edu; and Laura Wolf-Powers, lwpowers@design.upenn.edu.

**TRACK 14 - Transportation and Infrastructure** track encompasses research on the processes by which transportation and other infrastructure is planned, designed, and developed; the performance of transportation and infrastructure systems and the policies that guide them; the nature of the demand for transportation and other services provided via public infrastructure.

Of interest are passenger and freight transport by all possible modes, as well as other public infrastructure such as water systems, power utilities, and community facilities. Track Chairs: Noreen McDonald, noreen@unc.edu; and Zhan Guo, zg11@nyu.edu.

**TRACK 15 - Urban Design** solicits papers that examine the planning, design and development of the urban environment. The track addresses diverse urban design practices (including design, strategy, visioning, regulation, and development) and concerns (including livability, walkability, health, resilience, heritage, regeneration, informality and place making). The track encompasses a variety of forms of research that contribute to our understanding of the design of the urban environment. Innovative papers that make connections across disciplines, scales, and substantive concerns are particularly encouraged. Track Chair: Jason Brody, jbrody@ksu.edu.
