2021 BEST PAPER AWARD

Thanks to a sponsorship from the Ewing Marion Kauffman Foundation, the Association of Collegiate Schools of Planning is pleased to announce two annual awards for promising research studying the connections between planning and entrepreneurship.

The purpose of this award program is to encourage innovative, insightful and timely research in city, community, urban or regional planning that is relevant to questions related to entrepreneurs and their firms as well as to practitioners and policymakers who want to promote entrepreneurship. Research that has direct practical implications and that addresses pressing economic and/or social problems is especially appropriate for these awards.

This award is given to the sole author or co-authors of the selected paper. The author(s) can be a planning faculty member, current planning student, or practicing planner.

The first-place winner will receive a check for $2000; the second-place winner will receive a check for $1000.

Our Mission

The Association of Collegiate Schools of Planning promotes education, research, service and outreach in the United States and throughout the world by seeking to:

- recognize diverse needs and interests in planning;
- improve and enhance the accreditation process, and;
- strengthen the role of planning education in colleges and universities through publications conferences, and community engagement;
- extend planning beyond the classroom into the world of practice.
