ACSP is excited to announce the results of the 2022 Governing Board election. This year's election was different than in year's past due to a 2020 Bylaws amendment which provides for the inclusion of new Categorical Representatives for the ACSP Governing Board. The categorical concept is designed to allow the identification and consideration of issues uniquely affecting a category’s membership. The board now has six seats for regional representatives (Northeast, Southeast, Midwest, Central, West, Canadian) in addition to five seats from these four new categories below:

1. Representative for Individual Members - Individual members include current and retired educators and researchers (not students). These are members in good standing of the ACSP, but not supported by member departments.
2. Representative from a Minority serving Full Member School (HBCU, HSI, and AANAPISI) - This representative will be an individual listed on the roster of faculty provided to ACSP by a full member school in this category.
3. Representative for Full Member Schools with ≤ 5 Full-time Faculty - This representative will be an individual listed on the roster of faculty provided to ACSP by the full member school in this category. Member schools in this category are those that are not also in Category 2 above.
4. Representatives of Full Member Schools with >5 Full-time Faculty - Two at-large seats. These representatives will be individuals listed on the roster of faculty provided to ACSP by the full member schools that are not in Categories 2 and 3 above.

The Governing Board elections are always held in the Spring with elected members taking their seats at the Fall Annual Business Meeting. Direct email messages were delivered to all Individual and Retired Members in good standing with the Association providing the opportunity and instructions to vote. Separately, messages were also sent to each of the chairs of schools that are represented by the three new institution categories. Chairs were to assess the considerations of their faculty and submit a unified vote accordingly.

ACSP is extremely appreciative of the efforts of the ACSP Nominating and Elections Committee this year. New processes were established and significant effort was made to ensure a full slate.

- Chair: Marlon Boarnet, University of Southern California, boarnet@usc.edu [2021-2023]
Results of the 2022 Election

Newly Elected representatives will start their posts November 4, 2022.

Harley Etienne, M.S.L.
City and Regional Planning Section
Knowlton School of Architecture
College of Engineering
The Ohio State University
Weekly Highlights

ACSP2022 Book of Abstracts Now Available

After a meticulous abstract review by ACSP track chairs, we are pleased to present the 2022 Book of Accepted Abstracts. This book includes only the abstracts accepted for presentation at the upcoming 2022 Annual Conference in Toronto. You'll find broad and diverse participation in terms of topic, institution and geographic representation.

Please note that all abstracts in this book are published as submitted by the author(s). It is the policy of the ACSP that the text within the abstracts is not edited after submission. This book is edited only for formatting consistency. We do understand the importance of names, and if there is an error of omission, please send a note of correction to abstracts@acsp.org. As the summer progresses, we also understand paper titles change and authors are added or dropped. In these instances, updates for the conference program should also be sent to abstracts@acsp.org, but after July 1, we will no longer update the Book of Abstracts.

JPER TOC Now Available!

Summer 2022 Vol. 42, Number 2

Read the Table of Contents Here>

ACSP is delighted to announce that starting with Volume 42, Number 2, our flagship Journal of Planning Education and Research will be online-only for members. This move reflects the reality of how most of our members read the journal. It also has the benefit of being more ecologically-friendly.
We hope you continue to use the journal in your scholarly work and that you consider publishing in the journal.

Sign up for new content alerts for the *Journal of Planning Education and Research* and receive an alert for the latest full issue as well as when new articles are published online.
