CONFERENCE UPDATE

Dear Faculty Colleagues and Prospective ACSP Conference Attendees,

We are delighted that a great majority of you, over 500 and counting, have declared your interest in attending the in-person conference in Miami. ACSP plans to host an in-person conference in Miami as well as a virtual conference. Our decision to hold essentially two conferences allows ACSP to honor its contractual commitments made more than three years ago and energizes and supports our local host institutions and member programs in the state while being cognizant of the reality that many colleagues may not be able to travel this Fall.

We are aware that on June 28th, 2021, the State of California added Florida to its list of travel ban states. We encourage individuals to make their own decisions and choices about traveling to Miami this Fall - there are different factors to consider and individuals must make their own choices. The ACSP Executive Committee has decided that we will proceed as planned with the in-person and virtual conferences. If you need to change your attendance commitment, email abstracts@acsp.org.

Stay up to date with conference announcements on the conference page on our website.

2021 CASE STUDY AWARD

ACSP and the Lincoln Institute of Land Policy would like to thank everyone who submitted entries for the 2021 Case Study Awards.

The selection committee has reviewed all case study proposals and was very impressed by the breadth of responses which covered a wide-range of issues and municipalities across the globe. The task of selecting 11 awards (for $2,000 each) from the large pool of quality proposals was difficult.

Congratulations to all the recipients of the 2021 2021 CASE STUDY AWARD

Thank you, again, to everyone who submitted! Learn more about all the ACSP/Lincoln Institute of Land Policy awards here.

The Association of Collegiate Schools of Planning (ACSP) promotes education, research, and outreach in the United States and throughout the world by seeking to: recognize diverse needs and interests in planning; strengthen the role of planning education in colleges and universities through publications, conferences and community engagement; improve and enhance the accreditation process, and; extend planning beyond the classroom into the world of practice.

The Lincoln Institute of Land Policy seeks to improve quality of life through the effective use, taxation, and stewardship of land. A nonprofit private operating foundation whose origins date to 1946, the Lincoln Institute researches and recommends creative approaches to land as a solution to economic, social, and environmental challenges. Through education, training, publications, and events, we integrate theory and practice to inform public policy decisions worldwide.
