BUFFALO FUN FACT
Buffalo has the largest collection of grain elevators in the world! They’re being reinvented as art displays, performance spaces, and even a craft brewery.
WELCOME FROM THE LOCAL HOSTS

Colleagues and Friends,

On behalf of the Department of Urban and Regional Planning and the School of Architecture and Planning at the University at Buffalo, we are happy to welcome you to a resurgent Buffalo Niagara region and the 58th Annual Conference of the Association of Collegiate Schools of Planning!

After decades of decline, Buffalo has experienced a long-awaited resurgence in recent years. Persistent population decline finally has stabilized. Young people seeking an authentic urban way of life are moving to the city. Long-term “ex-pats” are returning. There is new development on our historic Erie Canal waterfront, new housing in old buildings downtown, and green shoots of regeneration in many neighborhoods. Truly world class architectural attractions – Frank Lloyd Wright’s Darwin Martin House and H.H. Richardson’s Buffalo State Hospital – are the keystones of a new architectural tourism industry. Certainly, Buffalo is in better shape today than it was 30 years ago when the UB Department of Urban and Regional Planning last hosted ACSP.

The roots of much of this new growth were set in the long-term partnership of the City of Buffalo and the School of Architecture and Planning, which together created a new planning framework for Downtown Buffalo, the waterfront, and Olmsted’s park system, instituted a new form-based “Green Code,” for the city, and with a broader set of partners, crafted interlocking strategies for regional sustainability and economic development. There are still serious challenges ahead – in embedded poverty, slower job growth than many other metro areas, and the persistence of sprawl – but we are working a plan. And we are looking to the future, as evidenced by the “What’s Next for Buffalo Niagara” workshop that will be part of the ACSP conference this year.

We will see part of that resurgence at Riverworks, the venue for our opening reception at this conference. Buffalo has many other good stories to tell planners on our mobile workshops, stories of urban struggle in neighborhoods East and West, of emerging economies and economies gone by, of old architecture recovered and new ways of getting around. Local Host Sessions will focus on planning for health equity, monitoring neighborhood change in revitalizing cities, and crafting a long-term 21st century strategy for Buffalo Niagara.

While you’re here, get out and meet some Buffalonians. They will be interested to know you are here. We are a friendly, chatty tribe. Your new local friends will want to know what you think of our city and they’ll have opinions of their own to share.

THE CONTINUING CITY:
People, Planning, and the Long Haul to Urban Resurgence

Buffalo has been the subject of a recent spate of “urban comeback” stories in the national press. Typically, these stories leave an impression that Buffalo’s recovery from long-term economic, physical, and social decline has somehow been a sudden thing. Like most planners, many of our citizens understand that improvements in the quality of urban life are the result of persistent and recursive planning and action across decades. Local conversations, like contemporary academic discourses, also acknowledge that these improvements are ongoing, partial, incomplete, and unevenly distributed.

Buffalo is currently enjoying an apparent explosion of new housing in and around our downtown. It seems sudden but center city housing has been a continuing focus of discussion, planning, and action for the past 40 years. And that’s only one example of how we can better understand the dynamics of planning and action when we look at them over “the long haul.”

The theme of The Continuing City will provide us with an opportunity to tell our stories while it invites others to share theirs, all within the longer temporal frame the theme suggests. This can be as appropriate to growing cities like Houston, Washington, or San Francisco as it is to our kindred “rust-belt” cities like Detroit, Pittsburgh, and Cleveland or disaster-battered cities like New Orleans. All have been made and remade in an ongoing way. In any of these cases planning plays a crucial role as governments, citizens, developers, and others strive to shape the future of their cities, year after year and decade after decade.

The temporal frame of “the long haul” also encourages participants to look at the development and propagation over time of ideas about the city, the role of embedded professionals and activists (Jane Jacobs’ “people who stay put”), the growth of specific (and local) knowledges in city-making, the long term development of advocacy organizations, the construction of procedures and protocols of participation and planning, the development of the institutional bases for planning, and the evolution of the physical and social city itself.

At the same time, The Continuing City theme urges participants to look forward, not just by years, but by decades, even centuries. If we got to where we are today through sustained action, long struggle, and continuous development we can imagine more distant futures by projecting the same kinds of step-wise processes forward.
University at Buffalo’s two-year MUP is built on a foundation of planning concepts, research methods, and applied learning through studios, culminating in a professional project or thesis. Six specializations provide options for in-depth, focused study of emergent fields:

**Community Health & Food Systems**
Explore the links between planning and public health to strengthen local and regional food systems and create healthier, more equitable communities. Cultivate your methodological skills in planning as you prepare plans for community clients in local and global settings.

**Economic Development Planning**
Work with cities and communities to increase employment opportunities, relieve poverty, build international economic competitiveness, promote human development, and facilitate sustainable growth. Study these issues alongside our diverse network of government, industry and community partners. Study under our renowned research centers, including the Center for Urban Studies, Community for Global Health Equity, Food Systems Planning and Healthy Communities Lab, and the UB Regional Institute.

**Environmental & Land Use Planning**
Apply the planning process to the sustainable development of cities, suburbs, and rural areas. Develop solutions that restore natural systems; minimize the negative effects of human settlements on ecosystems; and mitigate the impact of environmental problems on human health and urban and regional systems.

**Historic Preservation**
Engage the material fabric of our cultural past as you explore urban and architectural histories, the craft and technical methods of preservation, and the development of supportive policy and planning tools. Buffalo’s turn-of-the-century architecture and world-class urban design provide inspired settings for applied preservation research.

**Neighborhood Planning & Community Development**
Rethink planning and design toward the development of the just urban metropolis. Through a community-driven process, explore the physical, economic and social dimensions of development in underserved communities. Particular focus is given to the intersection of race, class, and gender in the construction of our built environments.

**Urban Design & Physical Planning**
Advance research and practices that make cities and neighborhoods more livable, pedestrian-friendly and environmentally and aesthetically agreeable. Applying the tools of GIS, site planning, landscape, and design, students reimagine the city across all scales, from waterfronts and parks, to streetscapes and infrastructure programs, to housing and town or village centers.
LOCAL HOST SESSIONS

MANY PATHWAYS FROM PLANNING TO HEALTH EQUITY
Friday, 8:30am – 9:45am
Room: 101A

The profession of planning prides itself on creating communities where all people can lead full and healthy lives. Indeed, a growing body of scholarship linking planning to public health has burgeoned in recent years. Yet the scholarship and practice of planning on advancing health equity remains limited. Who defines community health? What groups are marginalized or given voice? What are pathways and processes through which planning can help create healthy and equitable communities? This local host session features panelists who will reflect on the many ways to advance health equity through planning research and practice. Session will feature interdisciplinary and engaged research and practice on advancing health equity.

TURNING THE CORNER: FINDINGS FROM BUFFALO & OTHER PROJECT CITIES
Friday, 10:00am – 11:15am
Room: 101A

Turning the Corner is a project begun in 2016 by [The Urban Institute]'s (UI's) National Neighborhood Indicator Partnership (NNIP). It was initiated to develop a research model to monitor neighborhood change in places at risk of becoming unaffordable after undergoing urban revitalization. Research teams were assembled in Buffalo, Detroit, Milwaukee, Phoenix, and the Twin Cities. The project involved stakeholder driven analysis using quantitative and qualitative methods. The analysis focused on aspects of neighborhood change and various forms of displacement. Insights from cross-site analysis were used to develop metrics for tracking neighborhood change and inform local public policy. This local host sponsored session examines findings from work done on the project in Buffalo and other selected cities and applies them to emerging planning imperatives aimed at curbing residential displacement.

BUFFALO TRANSPORTATION LEGACY & CURRENT INNOVATION (BY BICYCLE)
Ticket Required
Travel Mode: Bike (Bus in inclement weather)
Tour Leader: Daniel B. Hess, University at Buffalo, SUNY

This tour explores how transportation defined Buffalo's historical development, including its position at the terminus of the Erie Canal and its status as the nation's second largest rail center. We will also learn about current and upcoming projects to promote multi-modal transportation through “complete streets” and transportation demand management. Discussions with local transportation experts during the tour will focus on Buffalo's position as a “legacy city” where transportation planning must occur within infrastructural constraints. Includes two twenty-minute rides on Reddi Bikeshare suitable for novice cyclists. In case of bad weather, bus transportation will be provided.

SEEDS OF A NEW ECONOMY
Ticket Required
Travel Mode: Bus
Tour Leader, David Stebbins, University at Buffalo, SUNY

The story of Buffalo's industrial decline is well-known. Still emerging is a story of economic resurgence. This tour will show where the seeds of a new economy are sprouting: UB's School
and access to affordable housing. Grassroots coalitions and private entrepreneurs pursue often conflicting strategies to improve conditions. Community gardens, not-for-profit housing, an incubator for immigrant food vendors, and green energy development move forward even as cafes, craft breweries, upscale condos, and fine dining restaurants pop up. Resurgence comes at a price for some: rising housing costs, displacement, and widening inequality. This tour will introduce visitors to many of the participants and their projects.

**HARNESSING URBAN PLANNING FOR RACIAL & SOCIAL JUSTICE: THE BLACK BUFFALO TOUR**

Ticket Required
Travel Mode: Bus, Walking
Tour Leader: Robert Silverman, University at Buffalo, SUNY

Buffalo has faced the challenge of racial and social injustice – historically and today. The metropolitan region epitomizes how development has been shaped by patterns of discrimination and segregation in housing. Local grassroots organizations are a source of sustained advocacy for change. This tour will weave together the stories of fair and affordable housing organizations, community-based service organizations, and grassroots advocates. We will visit projects, agencies, and people that illustrate Black Buffalo’s continuing fight for racial and social justice.

**THE BUSINESS OF GRAIN: A VERTICAL TOUR AND LOCAL BREWERY & DISTILLERY VISIT**

Ticket Required
Travel Mode: Bus
Tour Leader: Kerry Traynor, University at Buffalo, SUNY

Grain – cereal, but also beer and whiskey – what else is there? Buffalo’s concrete silos have been described as “the most outstanding collection of extant grain elevators in the United States.” Explore their bleached bones, inside and out and vertically. The history, economy, architecture, and planning of Buffalo are inextricably linked to what poet Dominique Fourcade called an “American Chartres.” The transshipment of grain made the Port of Buffalo and its neighborhoods. Today, grain is still in business. Taste the whiskey, the beer, and smell the Cheerios.

**RESURGENCE IN THE RUSTBELT: COMPETING NEIGHBORHOOD NARRATIVES**

Ticket Required
Travel Mode: By bicycle (Bus in inclement weather)
Tour Leader: Daniela Leon, University at Buffalo, SUNY

The West Side is Buffalo’s most diverse neighborhood with significant populations of Latinx, Black, Asian, and white residents, and many immigrants and refugees. Many face severe challenges of poverty, unemployment, food insecurity,
BUFFALO FUN FACT
Sometimes also referred to as the “City of Light,” it was one of the first American cities to have electric street lamps. The installation was aided by Buffalo’s proximity to Niagara Falls, which supplied an abundance of hydroelectric power.

INSPIRING LEADERS TO ADVANCE THE COMMON GOOD

FACULTY NEWS

YINGLING FAN
Professor
Fan leads a startup company – the first in the history of the Humphrey School – to market the new Daynamica app, which more efficiently collects people’s behavior and well-being data in the moment as they experience their city.

RYAN ALLEN
Associate Professor
Allen is researching the rural “brain gain” trend, an influx of mid-career adults moving into small communities, and how immigration restrictions may hinder future economic growth.

CARISSA SLOTTERBACK
Associate Dean
Slotterback consistently creates ties between planning research and practice in her faculty and leadership roles. She is secretary of ACSP and was recently inducted as a Fellow of the American Institute of Certified Planners.

Ranked among the country’s top 10 professional public policy and planning schools, the Humphrey School of Public Affairs is widely recognized for its role in examining public issues and shaping policy and planning at all levels. The Humphrey School’s urban planning students understand the role of place in creating policy and recognize the diverse systems that form and impact urban and regional environments.

ACSP is pleased to introduce renowned activist and organizer, Rosa Clemente as our keynote speaker at #ACSP2018.

A native of the South Bronx, Rosa is one of the most raw, honest, political, social, and cultural voices in the country. From Harvard to prisons, Rosa has spent her life dedicated to scholar activism. She is currently a doctoral student in the W.E.B. DuBois department of UMASS-Amherst. Throughout her scholarly career, Rosa has been a constant on the ground presence through the many political struggles facing Black and Latinx people in the 21st century.

Rosa was part of bringing #MeToo, #TimesUp, and #PRontheMap to the 2018 Golden Globes. “We are human beings who deserve the right to dignity, whether we’re working on a Hollywood set, or working at Kentucky Fried Chicken, whether we’re a mother in the South Bronx or a mother in Beverly Hills,” shared Rosa.

Rosa has received numerous awards, grants and fellowships. She has written for Ebony, Clamor Magazine, The Black World Today, The Final Call, The Ave. Magazine, and numerous websites.

Rosa ran for Green Party Vice President in the 2008 U.S. election. Along with Congresswoman Cynthia McKinney, the pair became the first women of color ticket in American History.

ADDITIONAL NETWORKING EVENTS

GPEIG Annual Business Meeting & Luncheon
Thursday, 11:15am – 12:45pm
Room: 106A
Tickets must be purchased in advance. Seats will not be available for purchase in Buffalo.

Attend the GPEIG luncheon at this year’s ACSP conference in Buffalo, NY, to learn what the group has been doing over the past year, its plans for the future, to support award winners, and to meet fellow GPEIG colleagues. Tickets must be purchased in advance. Seats will not be available for purchase in Buffalo. Consider making a modest donation to support GPEIG and subsidize students’ participation in the luncheon. GPEIG thanks you for your support and engagement. We sincerely appreciate the generosity of those who have donated this year.

Friday Continental Breakfast

American Planning Association
Making Great Communities Happen

ACSP Annual Business Meeting & Breakfast
Friday, 7:00am – 8:15am
Room: 106A

Member school program and department chairs as well as Governing Board Members and all Committee chairs are invited to attend this annual meeting of the Association.

New to ACSP? Welcome Breakfast
Friday, 7:00am – 8:15am
Room: 104

Your Host: Jane Rongerude, Iowa State University

If this is your first time attending ACSP or even your second or third, we’d love to welcome you at this casual continental breakfast. There is no agenda or program for this event, but maybe an ice breaker or two if the crowd is up for it! Otherwise, staff will be on hand to answer questions about the app or any other ACSP activity.

ACSP Veteran Planning Faculty Breakfast
Friday, 7:00am – 8:15am
Room: 105

With no formal program or speaker(s), the ACSP Veteran Planning Faculty Breakfast is an opportunity for those faithful ACSP Conference attendees, retired faculty, and others who wish to join them. Come catch up on what’s new, as well as remember the “golden days” of planning! Or are those golden days yet to come? There is no cost to attend.

FWIG Luncheon
Friday, 12:30pm – 2:00pm
Room: 106 A&B
Tickets must be purchased in advance. Seats will not be available for purchase in Buffalo.

The Faculty Women’s Interest Group (FWIG) hosts a luncheon each year at the ACSP conference. The luncheon is typically held on the Friday of the conference and is an opportunity for students and faculty in the planning academy to network, encourage and support each other, and learn about FWIG’s initiatives in promoting the advancement of women in the academy. For over 20 years, FWIG has been active in shaping the agenda within ACSP and the planning academy regarding women faculty and students. Through services such as the FWIG yellow book and the annual FWIG CV book, we have helped women prepare for, enter into, and proceed through their academic planning careers. Join us at the annual luncheon to learn more about the interest group and meet our members.

Exhibits & Poster Session Reception
Friday 2:00pm – 6:30pm
Room: Marquee Level Ballroom

Friday afternoon begins at 2:00pm with the Poster Session & Exhibits Reception where you can network with exhibitors, peruse book titles of interest, and review research posters. This year, posters are organized by track and strategically incorporated into the Community Center and exhibits layout to create a meaningful flow. Look for the icons for easy-to-identify track designation.

POCIG Business Meeting
Saturday, 8:00am – 9:30am
Room: 101A

Book Signing in the Exhibit Hall
Saturday, 2:00pm – 3:15pm
Room: Marquee Level Ballroom

Join us in in the Community Center & Exhibit Hall for the #ACSP2018 John Friedmann Book Award winner (to be announced) and Luncheon Keynote Speaker Rosa Clemente for a book signing/meet & greet special event on Saturday, October 27 from 2:00–3:15p.m. immediately following the Awards Luncheon. The first 15 in line will receive a free book!

The John Friedmann Book Award winner will be announced at the Awards Luncheon on Saturday from 12:30–2 p.m. in the Convention Center (rooms 106 A-D).

Rosa Clemente is an organizer, political commentator, and independent journalist. An Afro-Puerto Rican born and raised in the Bronx, New York, she has dedicated her life to organizing, scholarship and activism.
BIG IDEA SESSION - CIVIC ANALYTICS & URBAN SCIENCE

Friday, 10:00am - 12:30pm
Room: 101D

The convergence of two phenomena – the ability to collect, store, and process an expanding volume of data and the increasing level of global urbanization – has led to the opportunity and need to use large-scale datasets and analytics to address fundamental challenges of city management, policy, and planning. While the marketing rhetoric around Smart Cities is replete with unfulfilled promises, and the persistent use (and mis-use) of the term “big data” has generated confusion and distrust around potential applications, the reality remains that disruptive shifts in ubiquitous data collection (including mobile devices, GPS, social media, and synoptic video) and the ability to store, manage, and analyze massive datasets require new capabilities for urban planners that respond to these innovations.

This session brings together leading scholars in the fields of urban science, urban informatics, and civic analytics to explore and debate the use of big data and new sensing and computational approaches in urban planning, and to consider how these tools should, or should not, re-shape the field. The goal is to advance the discussion within the planning community about the impacts of these innovations on urban research, practice, and pedagogy.

SPECIAL SESSIONS

BIG IDEAS SESSION: GLOBAL HEALTH EQUITY & CITY PLANNING – IMPLICATIONS FOR RESEARCH, PRACTICE & PEDAGOGY
Saturday, 9:45am – 11:15am
Room: 101A

This Big Ideas session will feature two paper presentations and discussion from leaders in health equity planning. The panelists bring extensive research and practice experience. Professor Jason Corburn is the co-editor of “Slum Health” and Professor Samina Raja work appears in a co-edited Special Issue of the journal Built Environment focused on food equity as well as a forthcoming publication by the UN FAO. They will discuss their recent work in health and food equity in India, Jamaica, United States, and provide an overview of planning’s role in promoting global health equity. The discussants are scholarly leaders on the topics of health equity.

The objective of this session is to highlight current and emerging issues related to Planning and Health Equity. Learning/discussion points:

- What is health equity and how does it relate to urban planning?
- How are global cities and planning impacted by health equity?
- What roles can US and global planners play in promoting health equity?
- How do the SDGs and the New Urban Agenda relate to health equity?

GPEIG ROUNDTABLE: DIFFICULT DIALOGUES
- ADDRESSING CHALLENGING TOPICS IN INTERNATIONAL PLANNING EDUCATION
Thursday, 1:00pm – 2:30pm
Room: 101A

This roundtable will discuss “difficult dialogues” in international planning education, both inside and outside the classroom. Difficult dialogues involve topics that are likely controversial, sensitive, or challenging in different ways. Yet, these are essential for fostering students’ abilities to think critically, converse respectfully, and act sensitively about myriad issues across contexts. From an international perspective and in a global classroom, nuances of poverty, race, ethnicity, gender, sexuality, and religion, for instance, could present difficulties; as do teaching and learning to appreciate, navigate, and capture the complexities of context in field research, among other aspects of planning in uniquely complex or fraught contexts. The panel hopes to enable international planning educators to think ahead about such difficult topics and be better prepared for handling them in the classroom. To that end, the panel will address the following questions: (1) What are some difficult topics that you cover or encounter in your international planning classes? Why are these topics difficult or more difficult than other ones? (2) Are there topics you have not included or removed due to, say, their controversial or problematic nature? (3) Have you tried or contemplated creative approaches to overcome the challenges inherent in teaching these topics or reduce their degree of difficulty? (4) Could new technologies (online resources, social media, etc.) be used, in a broad sense, to ease engaging with difficult dialogues?

PAB ROUNDTABLE - INNOVATION IN PLANNING EDUCATION & ACCREDITATION
Thursday, 1:00pm – 2:30pm
Room: Genessee Room, Hyatt Hotel

Have planning programs been able to adapt, evolve, and innovate? Has accreditation been a motivator or barrier to this effort? During this facilitated workshop, participants will work with PAB’s Taskforce on Innovation and Communication in Planning Education to develop a working definition of a “culture of innovation.” Participants will discuss how accreditation can facilitate and motivate educators to explore innovative course content and delivery within their planning programs. Participants will have an opportunity to take a deep dive into the accreditation standards and share constructive ideas and feedback.

Facilitators:
KNIGHT, Bruce [FAICP, Planning and Development Director, City of Champaign (IL) Chair, Planning Accreditation Board]
LIEBER, Alex [AICP, Planner, AKRF, Inc. (NY), Chair, PAB Taskforce on Innovation and Communication in Planning Education]

LINCOLN INSTITUTE OF LAND POLICY: SPARK INNOVATION IN LEARNING DESIGN
Thursday, 2:45pm – 4:00pm
Room: 101A

To honor excellence in teaching and spark innovation in designing learning experiences that are engaging and effective for all students, the Lincoln Institute of Land Policy in partnership with ACSP created the Curriculum Innovation Award. In this session, you will learn how recipients of the curriculum innovation award designed engaging learning experiences that foster creative applications of policies and tools for students and how you can incorporate innovative design elements to improve your course and teaching practice. Award recipients will showcase and discuss exemplary modules from their courses.

**WORKSHOP:** “MOVING FROM ASSOCIATE TO FULL PROFESSOR: A COLOR BLIND BRICK ROAD?”

**Thursday, 4:15pm – 5:30pm**

**Room:** 101A

Hosted by the ACSP Committee on Diversity

Even Oz’s Dorothy knew it takes more than clicking your heels after tenure to continue rising up through academic ranks. The support team of a courageous lion, empathetic colleagues, and an incredible mind may not be enough to move from associate to full professor. This workshop focuses on practical steps, social and cultural factors, and strategies for designing your nonlinear/very strategic path to promotion for faculty of color. The ACSP Committee on Diversity encourages attendees to provide a copy of your University/College/department or program promotion guidelines towards advancement to Michelle M. Thompson (mmthomp1@uno.edu) by September 1st. If none exits, still show up and learn approaches and strategies that could aid in your advancement to full professor. All ACSP conference attendees are welcome to attend.

**PRESIDENTIAL ROUNDTABLE: STRENGTHENING PLANNING’S EFFECTIVENESS IN A HYPER-POLARIZED WORLD NOW & INTO THE FUTURE**

(Abstract 129 in the 2018 Book of Accepted Abstracts)

**Thursday, 4:15pm – 5:30pm**

**Room:** 101B

Opposition to planning implementation is longstanding, but conservativism and right wing populism are on the rise across the globe, including the U.S., Europe, Australia and India. Fierce opposition will likely continue to persist. As a result, planners are challenged to reassess and newly strategize the field. Participants in this roundtable will spur planning debate by drawing on commentaries they authored for an issue of Planning Theory and Practice’s Interface section. Debate and audience participation will center on what current experiences should mean for practice, teaching, and research.

PUBLISHING IN PLANNING: WHERE AND HOW? (STUDENT WORKSHOP)
Friday, 10:00am – 11:15am
Room: 101B

Organized by the ACSP Student Governing Board Representatives. This workshop focuses on publishing in planning journals as a student or recent graduate. Topics of discussion will include: publishing expectations of doctoral students, journal selection, publishing a paper from the dissertation, and the merits of various types of publication (e.g. peer-reviewed articles, technical reports, book chapters). The format of the workshop will be largely interactive with a panel of faculty (some of whom are current/former editors) to share valuable tips and insights and answer questions.

SPECIAL SESSIONS

JAPA/JPER: RESPONDING TO REVIEWER COMMENTS
Friday, 2:00pm – 3:30pm
Room: 101F
Six early career scholars describe their personal responses to a Revise and Resubmit decision from a scholarly journal. They suggest how to revise a paper to take advantage of useful reviewer comments without getting sidetracked by minor concerns or strange tangents. The panelists also discuss how they each deal with conflicting reviews, confusing comments, and impossible requests from reviewers or editors.

ACSP ENROLLMENT TASK FORCE INFORMATION GATHERING SESSION
Friday, 3:45pm – 5:15pm
Room: 101G
The new ACSP Task Force on Enrollment invites you to an information gathering session. We want to learn about your enrollment-related concerns to help us focus the efforts of the task force. Are masters-level enrollments going up or down? Is there variation by region, program type, or specialty? Does STEM designation matter? Are your graduates getting the jobs they want? What about your undergrad and PhD programs?

PRESIDENTIAL SESSION: ONLINE EDUCATION IN PLANNING
Friday, 2:00pm – 3:30pm
Room: 101E
Planning programs and faculty have embarked on a number of experiments in online education over the past few years, ranging from new courses appealing to a broad audience, to focused efforts that are changing the nature of classroom education. This session brings together examples of four types of courses: MOOCs, hybrid courses that combine classroom with online education, specialized online degree programs, and the first full online planning degree program in the US. Faculty will describe the organization of the programs, and discuss what they have learned from them. The session will also provide information on the enrollments and audiences of a broad sample of courses currently available.

LINCOLN INSTITUTE OF LAND POLICY: HOW TO WRITE CASE STUDIES FOR TEACHING
Friday, 3:45pm – 5:15pm
Room: 101F
The Lincoln Institute of Land Policy launched a case study initiative and partnered with ACSP to hold a competition for writing teaching case studies focused on the Institute’s four key issues: land value capture and the property tax, urban poverty and spatial inequality, climate change, and municipal fiscal health. We developed case studies that encompass all four key issues and are about communities across five continents. Inspired by the strong interest in case studies and the quality of the work from the 2018 competition, we are excited to announce the continuation of the case study award.

This workshop will showcase the Lincoln Institute’s online case study library; our strategies and support for case research, writing, and teaching; and how you can use and contribute to

ASSESSING THE STATE OF GLOBAL PLANNING EDUCATION AT ACSP MEMBER SCHOOLS: BACK TO BACK SESSIONS

In 2016, the ACSP Executive Committee formed the Global Planning Education Task Force to examine the state of global planning education at ACSP member schools, focusing on a variety of issues, including the content of global planning curriculum, study abroad and other international opportunities, education of international students, and questions of accreditation. This is the first comprehensive review of global planning education since a 1994 report by the ACSP Commission on Global Approaches to Planning Education. The work of the Task Force occurs in an environment that has changed dramatically since this previous report. Debates in urban studies and planning today center on global processes of financialization, migration, climate change, and socioeconomic polarization. The local politics of planning plays out in debates over the impacts of global forces on localities, ecological destruction, and questions of rights to urban space. The Task Force thus seeks to address questions of how we prepare students for this context. What kinds of curriculum and instruction are needed for the task of globalizing planning education? How do we engage international students in our classes? How do we ensure that all schools have access to the resources they need for these tasks?

These two back-to-back sessions are intended to solicit input as the Task Force finalizes its report, which is due to the Executive Committee at the end of 2018. At the first session, members of the Task Force will present the key findings and recommendations that emerged from the research. This research has included a review of data on global planning curricula and on students and faculty with international backgrounds and interests, a survey of students in planning programs, a survey of planning program administrators, interviews with planning educators, and feedback from a workshop session held at the 2017 ACSP Annual Meeting. The second session will start with comments from a panel who have read a draft of the final Task Force report, followed by an open discussion with audience members.

POCIG ROUNDTABLE: 50 YEARS LATER – REFLECTING ON 1968
Saturday, 2:00pm – 3:15pm
Room: 101A

Poor People’s Campaign, Chicano student walkouts, Martin Luther King Jr’s assassination, the Housing and Urban Development Act and the Fair Housing Act, Kerner Commission, the Siege of Chicago. Fifty years ago the U.S. political and policy landscape was in ferment, with activists taking to the streets to demand educational and economic justice, and politicians struggling to find remedies for deep-rooted discrimination and urban inequality. This roundtable makes a space for reflections on that volatile year and a facilitated discussion on what resonances and lessons 1968 might have for us in 2018.

ACSP-AESOP TRANSATLANTIC SESSION: AFTER HARDIN
Saturday, 3:30pm – 5:00pm
Room: 101A

Hardin published his article in 1968. “The tragedy of the commons” is (one of) the most cited articles in social and political science and environmental policy. Avoiding the tragedies of the commons is one of planners’ most prominent tasks -- all the more so in an era of global climate change. Yet Hardin’s ideas have been possibly received with too little reflection. At best, Hardin overlooked equity concerns, and social justice is notably absent in his thinking. Property rights assignment - a common approach - ignores questions of coordination from either grassroots or governments. Most importantly, as questions of the commons have expanded to include the climate of the entire globe, what role should planning scholars and practitioners take? The panel will focus on theoretical approaches to the commons in relation to global climate change. This session in Buffalo, NY will have been preceded by another jointly hosted “After Hardin” panel at AESOP’s July 2018 congress in Gothenburg.

FWIG ROUNDTABLE: BEYOND ME TOO: ENSURING SAFE (HARASSMENT-FREE) SPACES FOR EVERYONE
Saturday, 3:30pm – 5:00pm
Room: 101B

Last Fall the “Me Too” movement arrived at ACSP with accusations of harassment and inappropriate behavior echoing through the FWIG Facebook page and in the halls and meeting rooms of our conference. We continue to celebrate the courage of every woman who spoke up and empathize with everyone who did not feel empowered to do so. This year we would like to find ways to move beyond these very important self-disclosures and begin a set of conversations about HOW we can ensure that our conference, our universities, and our home departments are places where everyone can feel safe to be themselves and not feel the insidious pressure of sexual harassment and other ways that patriarchal power is reproduced. In addition, it would be useful to consider how we as FWIG might ensure that this organization continues to make itself an explicitly feminist organization, willing to take on the challenging intersectional issues such as the ways that race and ethnicity may exacerbate the ways that patriarchy silences critical voices around challenging issues such as harassment.

Special Sessions Pre-Approved for AICP Credits!

ACSP Annual Conference sessions are eligible for CM credit through AICP. While a good number of sessions will be pre-populated into the CM database prior to the conference, many more sessions will be designated in the conference program as “CM-eligible.”

During the conference, here’s how to request a specific session for CM credit using the ACSP Conference App.

1. It’s as simple as clicking the Check In button inside a session.
2. ACSP staff will download checked-in sessions from the mobile app and upload these sessions into the AICP database.
3. Once all sessions have been uploaded, ACSP will promote this information on the website, in social media, and through the eNews Weekly email blast that goes out on Tuesday’s. At that time, you can then log your credit.

After the conference, AICP members can email conference@acsp.org, if you would like a session marked as “CM-eligible” to be available for logging. We will enter the session in the AICP CM system, so you can claim CM credit. Questions can be directed to conference@acsp.org.
2018 FACULTY AWARDS

Each year, ACSP is proud to honor faculty and students who have distinguished themselves or made major contributions to the academy or to the profession via outreach efforts, public service or for service to ACSP, the Academy, or the profession. A complete listing and history for all awards can be found at www.acsp.org. Faculty awards are presented at the Saturday Luncheon & Faculty Award Ceremony, 12:30 – 2:00 PM in Convention Center room 106A-D.

Jay Chatterjee Award for Distinguished Service to ACSP

The Jay Chatterjee Distinguished Leadership to ACSP Award was established in 1998 to recognize individual faculty whose exceptional service, actions, and leadership have had a lasting and positive impact on ACSP and its member schools. This award is presented biennially at the ACSP Annual Conference (in even numbered years).

Sean Kennedy’s dissertation is an important global topic that is wide-ranging and relevant. Within a global framework, he examines energy transition from carbon-intensive to low-carbon-intensity energy production, and from energy monopoly to energy democracy worldwide through two cases in Indonesia and California. He investigates energy transition, focused on local-to-national energy and finance sectors. His research is grounded in an extensive theoretical foundation and strong, applied mixed methods in empirical work. He looks at the emerging geographies of the impacts of large-scale energy infrastructure on energy democracy and energy justice in rural, less populated areas of marginalized groups in Indonesia. The research scrutinizes closely issues of energy justice, ethics and global social responsibility.

Sean’s dissertation provides important findings and recommendations. He notes the existing ways of energy production and process and proposes new alternatives. He finds that the prevailing preference for and impact of large-scale projects of energy production and provision may result in improvements in urbanized geographies but these are simultaneously contradicted by reduced or failing systems of energy provision in rural areas.”

Dr. Kennedy was a doctoral candidate at UCLA when completing this winning dissertation and is currently a post-doctoral researcher at the California Center for Sustainable Communities (CCSC) at the University of California, Los Angeles. Kennedy has wide-ranging environmental policy experience across public, private and nonprofit sectors, including policy and research positions at the Australian Department of Climate Change and Energy Efficiency in Canberra, Australia, and the World Agroforestry Centre in Bogor, Indonesia.

Committee comments: “Sean Kennedy’s dissertation is an important global topic that is wide-ranging and relevant. Karen R. Polenske Award

The Karen R. Polenske Best Student Paper Award for Outstanding Paper on a China Planning Related Topic, established in honor of Massachusetts Institute of Technology Professor Karen R. Polenske - a prominent regional economist and a leading scholar of China’s sustainable development - is given annually to International Association for China Planning (IACP) student members who present excellent research at major international planning conferences.

Currently the IACP presents one Polenske award at their annual conference in China and one Polenske award at their annual membership meeting in the United States during the Association of Collegiate Schools of Planning (ACSP) conference.

The Karen R. Polenske Best Student Paper Award has been made possible by generous donations given by several distinguished individuals who are mostly Professor Polenske’s former students.

Winner: Zifeng Chen, University of Hong Kong

Title: Residential Differentiation of Income Groups and Accessibility Poverty in Urban China: Case Study of Guangzhou

Co-author: Dr. Anthony G.O. Yeh, University of Hong Kong

Committee comments: “This paper examines the relationships between income disparity and accessibility inequality in Chinese cities. The authors did an empirical study in Guangzhou based on the population census, points of interest and road network data and measured accessibility based on the three-step floating catchment area method. Results reveal that although the essential services are significantly concentrated in the central-city areas, the geographic distribution of the low income population is considerably dispersed across the central-city and suburban areas, thereby indicating the possibility of considerable intra-group inequality of accessibility among the low income group.”

Zifeng is currently a Ph.D. candidate in the Department of Urban Planning and Design at the University of Hong Kong. He obtained a Bachelor Degree in Urban Planning from Sun Yat-sen University and a Master Degree of Science in Human Geography from Peking University. His research areas include urban geography and transport geography. He is interested in suburbanization, accessibility, mobility, and social exclusion in urban China.
2018 STUDENT AWARDS

Marsha Ritzdorf Award
The Marsha Ritzdorf Award for the Best Student Work on Diversity, Social Justice and the Role of Women in Planning has been given by the ACSP Faculty Women’s Interest Group since 1998 and recognizes superior scholarship reflecting concern with making communities better for women, people of color and/or the disadvantaged. A nomination should be based on student work submitted in the pursuit of any urban/ city/ community/ town/ regional planning degree, undergraduate or graduate, at an ACSP-member school.

Winner: Jody Liu, University College London (The Bartlett School of Planning)
Title: (Re)queering London: Exploring Transgressive Production of Urban Space by LGBTQ+ Persons of Colour

As an intern with Enterprise Community Partners, Jody supports the National Design Initiatives Team with various programs to elevate design excellence in affordable housing. Her larger body of work examines hegemonic practices in the built environment, with specific interest in how design can embody considerations around sexuality and space, Marxist geography, and the post-capitalist commons. She was invited by the English National Trust to present her thesis on the subversive making of urban space by LGBTQ+ persons of colour within London at the Sutton House. Jody holds a MSc. in Urban Regeneration from the Bartlett School of Planning, UCL and a BSc. in Anthropology from the University of Michigan.

Committee comments: “Liu’s work honors the legacy of Martha Ritzdorf. Her submission is not only technically masterful and sophisticated, but explores a vitally important research area in exploring current urban conditions for queer minorities and advancing ideas on how intersectionality theory can help planners and policy makers in expanding their understanding of LGBTQ+ identities. As noted in Liu’s recommendation letter, it is considered to be ‘one of the most interesting and innovative Masters theses’ that have passed through the university’s planning program.

Another compelling element of Liu’s thesis is its much needed application where it will have a real-world impact on urban planning and policymaking in London, as well as other cities abroad. Jody is working on developing an academic article from the work for a peer-reviewed journal and will be sharing findings with the Greater London Authority. She was an invited speaker at a symposium organised by the English National Trust, hosted by Sutton House, which discussed community activist campaigns surrounding LGBTQ+ community venues across London.”

Barclay Gibbs Jones Award for Best Dissertation in Planning
Since 1998, the Barclay Gibbs Jones Award has recognized superior scholarship in a doctoral dissertation completed by a student enrolled in an ACSP-member school.

Winner: Anne Brown, University of California, Los Angeles
Title: Ridehail Revolution: Ridehail Travel and Equity in Los Angeles

Anne Brown is currently an Assistant Professor in Planning, Public Policy, and Management at the University of Oregon. Her research, completed while at UCLA, examines the intersection of equity, travel behavior, shared and innovative mobility, and transportation finance. Recent work analyzes how and when people change their travel behavior, the false equivalency between being car-less and car-free, and how parking policy reform can increase the supply of affordable housing. Anne’s dissertation research investigated the planning and equity implications of ridehail services, including Lyft, Uber, and taxis. Anne holds a PhD in Urban Planning and Master of Urban and Regional Planning from UCLA and a BA in Geography from Macalester College.

Committee comments: “The committee was especially impressed by Anne’s comprehensive and cautious treatment of an important, contemporary, and understudied topic in transportation planning, her deft use of novel data sources, solid grasp of data analysis, and clear and engaging prose. Anne’s ability to link the analysis of the original quantitative data she collected with a thorough review of secondary sources and relevant policies was especially impressive. Her research on racial and economic equity in the use of ride-hail services is already making headlines, and we look forward to seeing Anne’s contributions to scholarship and policy change in the future.”
2018 STUDENT AWARDS

Ed McClure Award for Best Masters Paper
The Ed McClure Award recognizes superior scholarship in a paper prepared by a masters student in an ACSP-member school. Submissions may address any topic of investigation generated in the course of pursuing a master's degree in urban/community/town/regional planning.

Winner: Jen Jenkins, University of Illinois at Chicago
Title: The Current State of Community Solar in Illinois: Looking to 2025 and Beyond

Committee comments: “This paper is a systematic and comprehensive description and evaluation of the community solar energy model, emphasizing the role of community solar in local and state energy planning and the effects of state legislation and regulation. Jenkins’s paper, which is thoroughly researched and meticulously presented, offers a timely exposition of an emerging area for environmental planning practice and research. Jenkins, a master’s student at the University of Illinois at Chicago, describes the rationale for and implementation of community solar energy planning in Illinois along with several comparison states, while contributing insights and recommendations regarding policy construction and implementation and also critically assessing implications for environmental justice and energy equity.”

ACSP TRAVEL AWARDS

Each year, ACSP is committed to making the conference accessible to those who might not otherwise be able to attend. This year we are thrilled that we are able to provide more than $12,000 in financial support in the form of scholarship money as well as free conference registrations.
