

## Eligibility for “Low Resourced Country” ACSP Conference Registration

- Eligibility is based on the **location of your home institution**, not on your temporary residence or guest institution.
- If your home country is listed below, you qualify for low-resourced country registration.
- The list below is determined by the World Bank, not the ACSP. ACSP updates this list of countries on an annual basis. Read more about the [World Bank's country classification method](#).
- The ACSP uses two of the World Bank's Income Groups [found on this page](#) (scroll to the economies list closer to the bottom). For Fiscal Year 2026 calculated using the [World Bank Atlas method](#):
  - Low-income economies are defined as those with a GNI per capita of \$1,135 or less in 2024.
  - Lower middle-income economies are those with a GNI per capita between \$1,136 and \$4,495 in 2024.

### **Low Income Economies**

Afghanistan
