American College of Veterinary Pathologists

2025 Phase I Certifying Examination

Candidate Handbook

The mission of the ACVP is to promote excellence in veterinary pathology through our members as they protect and improve animal, human, and environmental health to benefit society.

Questions about the Phase I Examination may be addressed to exam@acvp.org.

Policies, Procedures and Requirements

This document supersedes all previous publications of the American College of Veterinary Pathologists (ACVP) concerning its policies, procedures and requirements for certification. The admission of a candidate to the ACVP Certifying Examination is governed by the policies, procedures, and requirements in effect during the current application period. The ACVP reserves the right to make changes in its fees, policies, procedures, and requirements at any time, with or without prior notice.

Introduction

The ACVP Phase I Certifying Examination Candidate Handbook is a resource for trainees, sponsors, mentors, and training programs interested in ACVP board certification. There is a separate Candidate Handbook for the Phase II Certifying Examination. However, general information relevant to both the Phase I and Phase II Certifying Examinations is included in this Handbook. Both Candidate Handbooks should be consulted by new trainees at the beginning of a training program, whenever changes in training are considered, during training to ensure that eligibility requirements are being met, and again near the end of training to prepare to apply, prepare, and sit for the ACVP Certifying Examination. Candidate Handbooks for the Certifying Examination will be updated as requirements or examination details change, and the examination section of the ACVP website should always be referenced for the most current version of the Candidate Handbooks and other important examination information.

Contact Information

Questions regarding the Phase I ACVP Certifying Examination or eligibility criteria should be sent to exam@acvp.org.

Certifying Examination

The ACVP Certifying Examination is a two-phase process that candidates must pass in order to be certified as Diplomates in either veterinary anatomic or clinical pathology.

Certifying Examination content is based on a blueprint of key tasks and species, organ systems and processes, and distribution of topics. The blueprint documents for anatomic and clinical pathology are available at the link below. Candidates are strongly encouraged to review the blueprints for their respective examinations prior to making study plans.

Job Task Analysis Blueprints

Phase I Examination

The Phase I Examination is a 2-hour examination composed of 100 multiple choice questions that cover all aspects of veterinary general pathology. The Phase I Examination is the same for candidates interested in either anatomic or clinical pathology and must be passed to be eligible to take the Phase II Certifying Examination. The Phase I Examination tests knowledge of mechanisms fundamental to disease in animals such as principles of cellular injury, inflammation and repair, hemodynamic disorders,
physical and chemical injury, neoplasia, congenital and genetic diseases, molecular pathology, infectious disease, and laboratory analysis. The mechanisms tested in this section are general in that they relate to most animal species and exclude entities in single species.

To pass an examination, a score of equal to or greater than the cut score must be achieved. Information regarding establishment of the cut score is included in the Preparation, Validation, and Scoring of the Phase I Examination section that follows.

The Phase I Examination dates are published on the ACVP website.

Administration of the Phase I Examination

The Phase I Examination is administered in partnership with Measure Learning Corporation, a credentialing examination administrator. The examination may be taken at a Measure Learning Testing Center or by Live Remote Proctoring (LRP). Additional information regarding Measure Learning testing centers and resources can be found on the ACVP website.

Approximately 45 days prior to the testing dates for the Phase I Examination, candidates will receive an email from Measure Learning Corporation with instructions to schedule their examination at a testing center or by LRP. The notice to schedule will provide each candidate a unique username/password and the URL to access the scheduling system to select a testing location, based on seating availability, or to schedule LRP administration.

Phase I Examination Reading List

This reading list is provided as guidance for candidates. The sources are common journals and textbooks that represent the appropriate level of pathology knowledge. Candidates should feel free to utilize other equivalent sources and should seek mentor guidance if they are unclear about source equivalency.

For textbooks, candidates should utilize the most recent edition for optimal preparation as listed below. For journals, candidates should focus on articles published within the five years prior to September 1st, 2024 (for 2025 Phase I) and December 31st, 2024 (for 2025 Phase II). Journal articles may be print or early online access.

Principal Sources

Phase I Sample Questions

Responsibilities of Candidates, Sponsors, and Training Institutions

Responsibilities of the Candidate

The level of responsibility on trainees for their own education is high and demands extensive independent study of textbooks and journals, and consultation with pathologists, clinicians, and other specialists. Supplementary participation as a student in lectures or participation in seminars may be useful. However, this should not be the major emphasis of the training. The Certifying Examination is the culmination of years of intensive preparation involving a wide range of animal species. A final phase of concentrated study can generally be successful only if the preceding training has been suitable in breadth and depth.

Responsibilities of the Sponsor

The sponsor's endorsement of a candidate's application certifies that the candidate will have training adequate to permit sitting for the examination by the time of examination administration. Sponsorship of a candidate is not to be taken lightly because the ACVP Board of Directors and Credentialing Committee puts considerable trust in sponsors in determining the acceptability of a candidate. A sponsor's endorsement clearly does not guarantee success for the candidate, but it should guarantee that the candidate fulfills the minimum requirements and has been or will be thoroughly prepared to sit for the examination. As the principal mentor, the sponsor must be intimately involved with the training of the candidate. The sponsor, if not the main instructor, must know in some detail what is being done for and by the candidate and should serve as a counselor who reviews all aspects of the candidate's training and progress regularly. A sponsor must not have a conflict of interest with the candidate as viewed by an objective outside observer.

Responsibilities of the Training Institution for the Phase I Examination

Training institutions should provide library resources that include current journals and reference textbooks commonly used by veterinary pathologists, and access to computerized literature searches. The ACVP does not credential training programs at this time.

If candidates have questions about their training program and its acceptability for training, they can contact the ACVP (email exam@acvp.org).
Sponsor and Training Route Requirements and Definitions

Sponsor
All applications require a sponsor. The sponsor who endorses the application must be the person most responsible for the candidate’s training in veterinary pathology. Occasionally, circumstances dictate that a sponsor is not the principal mentor, in which case the ACVP Credentialing Committee and Board of Directors require an explanation/justification at the time of application.

Phase I Examination Sponsors
Phase I Examination sponsors do not need to be ACVP, European College of Veterinary Pathology (ECVP) or European College of Veterinary Clinical Pathology (ECVCP) Diplomates if the candidate is training via the Alternate Route for the Phase II Examination. However, the sponsor must be an ACVP, ECVP, or ECVCP Diplomate, as noted below and in the Phase II Handbook, for the 12 months of Phase I training to be applied to the 36 months of Standard Route Phase II Training.

Phase I Examination Training
For Phase I Examination eligibility, candidates must have 12 full-time months of in-person training, at the equivalent of 40 hours per week, in veterinary pathology under the direction of a sponsor, as described above. Remote training can serve as a supplement to, but not a substitute for, in-person instruction. At the time of Phase I Examination application, the candidate must declare whether they are training under the Standard Route or Alternate Route of Training for the Phase II Examination. ACVP Diplomates who are already certified in either veterinary anatomic pathology or veterinary clinical pathology and are seeking dual certification are not required to retake the Phase I Examination to be eligible to sit for the other Phase II Examination.

Phase II Examination Training
Subsequent to graduation from a veterinary college or school, candidates must be trained in veterinary anatomic pathology if they are seeking certification in veterinary anatomic pathology, and in veterinary clinical pathology if they are seeking certification in veterinary clinical pathology. Remote training can serve as a supplement to, but not a substitute for, in-person instruction, except where noted for Dual Certification candidates. Candidates must complete training under one of the following program scenarios prior to taking the Certifying Examination:

Standard Route
This is a training program, such as a residency in veterinary pathology, that is specifically designed to train veterinary anatomic or clinical pathologists as one of its primary functions and is supervised and directed by a Diplomate of the ACVP or ECVCP for clinical pathology candidates, or by a Diplomate of the ACVP or ECVP for anatomic pathology candidates. The training must include at least 36 full-time calendar months, at the equivalent of 40 hours per week, with direct, in-person supervision in the
primary field (anatomic or clinical pathology) for which certification is sought. This timeframe cannot include training to meet the requirements of dual certification.

**Alternate Route**

If a program does not meet the criteria above, then training must consist of at least 48 full-time months, at the equivalent of 40 hours per week, of relevant experience in veterinary anatomic or clinical pathology with at least 12 of the 48 months spent in-person under the direct supervision of an ACVP Diplomate at the same institution and in a program specifically designed to train veterinary pathologists as one of its primary functions. This timeframe cannot include training to meet the requirements of dual certification.

**Dual Certification**

ACVP Diplomates certified in either veterinary anatomic pathology or veterinary clinical pathology may seek certification in the other discipline. Training must consist of at least 12 full-time months, at the equivalent of 40 hours per week, in the discipline sought. At least 50% of the training must be completed in person with the sponsor who is board certified in the discipline sought, but the remaining time may be completed remotely. Anatomic pathology sponsors must be either ACVP or ECVP Diplomates, and clinical pathology sponsors must be either ACVP or ECVP Diplomates. The 12 months of training may be obtained over a period of one to five years and may be either done pre- or post-certification in the first discipline. Training for both disciplines cannot occur simultaneously. Specifically, portions of training weeks or months from the primary training program cannot be applied to the secondary discipline; concurrent training in both specialties will not be accepted.

**Eligibility**

**Credentialing Requirements for Phase I Examinations**

ACVP must examine only veterinarians who have a degree necessary for the practice of Veterinary Medicine from a veterinary college in a state, province, territory, or possession of the United States or Canada, or from an American Veterinary Medical Association-listed veterinary college.

For all examinations, candidates must provide a photocopy of their veterinary diploma from a college fulfilling the above criteria. If the original documentation is not in English, then the candidate must provide an English translation certified by an independent translation service.

If a name change has occurred since the veterinary diploma was awarded, the candidate is required to upload a photocopy of any legal documentation attesting to this change.

**NOTE:** Candidates who began their standard or alternate route pathology training prior to April 2020 can submit a veterinary diploma from any veterinary college regardless of the institutional AVMA-listing status. These candidates may be asked to provide documentation confirming their training start date.
Criteria to Take Phase I Examination

• A candidate must have completed 12 months of in-person veterinary pathology training as described above prior to the Phase I Examination date and must submit a signed sponsor form attesting to that training with their application. (See Application Section below.)
• A candidate must complete the online application and pay the Phase I Examination fee by the application deadline.
• A candidate must declare, at the time of application for the Phase I Examination, if they will be training under the Standard or Alternate Route for the Phase II Examination.

All candidates are required to pass the Phase I Examination prior to taking the Phase II Examination.

A candidate may elect to take the Phase I and Phase II Examinations in the same year if they meet the eligibility requirements for both examinations and pass the Phase I Examination prior to taking the Phase II Examination. Candidates intending to take both the Phase I and Phase II Examinations in the same year must register for each examination by the respective deadlines. Candidates who do not pass the Phase I Examination will have their registration fee for the Phase II Examination refunded (minus a processing fee) within 30 days of receiving their Phase I Examination results.

Criteria to Repeat Failed Examinations

If a candidate fails the Phase I Examination, they are eligible to apply to repeat the examination the following year. There is no limit to the number of attempts or years a candidate may repeat the Phase I Examination.

After passing the Phase I Examination, candidates are allowed four attempts within 10 Phase II Examination cycles to pass the Phase II Examination. The 10 cycles include the Phase II Examination in the year that the candidate passed Phase I, regardless of eligibility to take Phase II that year. If a candidate has not passed the Phase II Examination after four attempts, or has exceeded their 10-cycle limit, they must apply for, retake, and pass the Phase I Examination prior to retaking the Phase II Examination. (Note: The Phase II Examination was not administered in 2020. Therefore, 2020 will not count toward the 10-cycle limit). The four attempts that a candidate is given to pass the Phase II Examination will be calculated as the sum of attempts that occur in Ames, Tampa, or remote locations.

See table below specifying the final year in which a candidate may attempt to pass the Phase II examination, according to the year they pass Phase I.

*No Phase II examination was offered in 2020.*

Application

Application Deadlines

Candidates must apply separately for the Phase I and Phase II Examinations. Application periods for each examination are announced on the ACVP website and are subject to change from year to year. Candidates should check the dates each year and meet deadlines. No exceptions to published deadlines will be made.

The application, Sponsor Form, Terms of Agreement, and detailed application steps are available on the ACVP website.

Examination Application Page

Americans with Disabilities Act Requests

The ACVP complies with the Americans with Disabilities Act of 1990, as amended by the Americans with Disabilities Act Amendment Act of 2008 by providing reasonable accommodations. If a candidate has a disability or impairment which may require special accommodation(s) to take an examination, they must request accommodation(s) by the published deadline.
Accommodation cannot be granted retroactively, so that if a candidate informs ACVP of an impairment or disability after the examination has been completed, there can be no changes made in that candidate’s examination results or changes in how that candidate’s examination is graded in comparison to other candidates.

**Accommodations information and request form**

*Candidates applying for accommodation are encouraged to read the published information thoroughly before applying.*

**Application Process and Withdrawal**

Candidates pay the examination fee at the time of application. The applicant and sponsor will receive an email once the Credentialing Committee has reviewed the documentation and determined if the applicant is eligible to sit for the examination. A recommendation for acceptance, provisional acceptance, or rejection to sit for the examination is made by the Credentialing Committee and is reviewed and approved by the ACVP Board of Directors. A message from ACVP indicating acceptance, provisional acceptance, or rejection will follow that review.

Candidates may appeal the decision if rejected to take the Phase I Examination. Additional information regarding this process is included in the Appeals section below.

If the applicant’s credentials are not accepted, or if a candidate’s request to withdraw from the examination is received by the withdrawal deadlines listed on the ACVP website, fees are refunded (minus processing). No withdrawal refunds are made after this date and no fees may be carried over to apply in subsequent years.

If a candidate applies for both the Phase I and Phase II Examinations and fails the Phase I Examination, they will automatically receive a refund for the Phase II Examination fee (minus processing). No request for withdrawal from the Phase II Examination is necessary for these candidates.

Withdrawal prior to the examination, or failure to appear for the examination, will not constitute an attempt to sit for the examination. A candidate’s illness during preparation for, or during the actual examination, will not be considered a valid reason to waive the rules of the College. In the event a candidate starts, but is unable to complete the examination, results will be reported and will constitute an attempt to sit the examination.

**Terms of Agreement for Certifying Examination Candidates**

All candidates are expected to accurately represent their credentials. All examinations are taken under an honor system. Candidates are required to read and sign the Terms of Agreement form at the time of application. Test items are copyright protected. If a candidate is found to have misrepresented any portion of their credentials, to have received outside assistance on an examination, to have cheated on an examination, to have misrepresented their work on an examination, to have violated the
confidentiality or copyright protection of the examination, or to have behaved unethically in any other way during the credentialing or examination process, their credentials may be rejected, they will receive a failing grade on the examination, they will forfeit fees for the examination, and they will be subject to any other disciplinary action deemed appropriate by the ACVP. These actions may include denial of permission to retake the examination in future years and/or denial of the ability to attain certification.

Preparation, Validation and Scoring of the Phase I Examination

Test items for the Phase I Examination are written and assembled by ACVP Diplomates who are members of the Test Item Writing Group (TIWG) and the Examination Assembly and Administration Group (EAAG), respectively. Members of these groups are selected based on experience, expertise, areas of interest, and employment sector (academia, diagnostics, industry).

The TIWG composes test items for consideration for the Phase I Examination. Submitted test items are reviewed for difficulty, accuracy, clarity, and relevance. Following a rigorous review process, test items are entered into a database for use on subsequent examinations. Each item in the database is accompanied by metadata, including Job Task Analysis Examination Blueprint Categories, and performance data from previous examinations. This information is used by EAAG members when assembling an examination.

EAAG members prepare the Phase I Examination. Test items are selected from the to produce an examination that is aligned with the ACVP Job Task Analysis Blueprints. Test items with performance established in previous examinations are included for equating purposes (see below).

Grading of multiple-choice questions is automated. The computer-generated item analysis, including the discriminatory and difficulty coefficients of each question, is considered by the committee before final determination of candidate scores.

To pass an examination, a score equal to or greater than the passing point (cut score) must be achieved. Cut scores are established by ACVP Diplomates in consultation with a psychometrician via a standard setting study. Established cut scores will remain the same for all future examinations until a new standard setting study is conducted.

To ensure that examinations are of comparable difficulty, regardless of the year in which they were administered, an equating process is used to compare the difficulty of examinations given in different years and to adjust scores to reflect any differences.

Additional information regarding establishment of the cut score and the equating process is available on the ACVP website. The cut score and pass rate for the previous year is posted to the website when results become available.

Cut Scores and Equating
Reporting of Phase I Examination Results

Written notification of the results of the examination will be sent by email to candidates and sponsors within 45 days of the conclusion of examination administration.

Results for the automated multiple-choice item scoring process are statistically and psychometrically analyzed, and items with specific scoring criteria are assessed and re-analyzed prior to final results being reported.

Appeals

Members, examination applicants, and examination candidates, may appeal a decision by a College entity. Such decisions may include, but are not limited to, denial of adequacy of credentials prior to examination for Certification, denial of Certification, and cancellation of Membership or Certification by disciplinary action. All appeals will be considered by the ACVP Appeals Committee, whose purpose is to review any decision by the College that adversely affects a person seeking to gain, continue, or reinstate membership in the College, upon the request of eligible persons.

Appeals from candidates must be submitted in writing to the ACVP Executive Director within 30 calendar days of such person’s notification of the decision being appealed. Appeals must include a statement of justification for the appeal with supporting documentation, if any. When an appeal is received, the Executive Director shall submit the appeal materials to the Chair of the Appeals Committee and to the Chair of the ruling entity that made the original decision. Within 14 days of receiving these materials, the Chair of the ruling entity that made the original decision shall submit any documentation relevant to the appeal and a statement of justification for its original decision to the Appeals Committee Chair. Within 14 days of receiving these additional materials, the Appeals Committee Chair shall convene a meeting of the Appeals Committee to review all documents relevant to the appeal and make a determination as to the validity of the appeal. Within 14 days of this meeting, the Appeals Committee Chair shall submit the results of that determination to the Executive Director who shall inform the appellant of the Appeals Committee’s decision. If the appeal is denied, no further appeal procedure shall be undertaken by the College.
