

2018 ACVP & ASVCP Concurrent Annual Meeting Schedule by Scientific Track

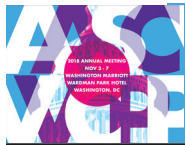

SUNDAY, NOVEMBER 4, 2018 - MORNING					
	Thurgood Ballroom West	Thurgood Ballroom East	Thurgood Ballroom South	Madison A	Thurgood Ballroom North
	ASVCP Current Topics in Clinical Pathology: Clinical Immunology	Career Development: Fighting Fatigue	Concurrent Session I: Pathology Beyond Borders: Global Engagement	Industrial and Toxicologic Pathology Focused Scientific Session I	Natural Disease Focused Scientific Session I
8:00	Diagnostic Criteria for Immune-Mediated Hemolytic Anemia: Laying the Ground Rules or Opening Pandora's Box? O.A. Garden	Ergonomic Approaches to Pathology: Mitigating or Eliminating.....K. Nelson	Introduction & Update on GHPN	Introduction	Interdisciplinary Insights on the New World Origin of Canine Distemper E. Uhl
8:15			Mental Health in Veterinarians L. Lord	Pathogenesis of Selected Transboundary Animal Diseases C. Brown	
8:30	What is the Evidence for the Use of Commonly Used Diagnostic Tests for IMHA and How are They.....A. MacNeill	Compassion Fatigue in the Workplace: Is the Cost of Caring Affecting Me? T. Gluckman		Reporting Transboundary Diseases M.A. Remick	Acetaldehyde Potentiates Tumorigenesis of N'-Nitrosomonocotine in Rats
8:45			Questions and Discussion	Sinoatrial Node in Beagle Dogs; Silver Deposition & Inflammation in Dolphins	
9:00	Posters and Exhibits	Posters and Exhibits	Posters and Exhibits	Posters and Exhibits Industrial and Toxicologic Pathology Focused Poster Session	Poster and Exhibits Natural Disease Focused Poster Session
9:15					
9:30	Immune Thrombocytopenia: Pathophysiology Update & Diagnostic Dilemmas D. LeVine	Roundtable Discussion: Does Veterinary Medicine Have a Mental Health Crisis?	Innovation Through Partnerships and Technology in Pathology D.A. Milner, Jr.	Hypervitaminosis D in Rabbits	Treatment Failure in FIP Infected Cats; Beta-mannosidosis in a Dog Litter Yellow Fever in Neotropical Primates in Brazil
9:45			Questions and Discussion		
10:00	Principles and Clinical Applications of Clinical Flow Cytometry D. Bienzle				
10:15					
10:30					
10:45					
11:00					
11:15					
11:30					
11:45					
12:15-1:15	Emerging Disease Focus Seminar: The Enigmatic Biology of Tick-borne Flaviviruses, M. Bloom, Thurgood Ballroom West				

SUNDAY, NOVEMBER 4, 2018 - AFTERNOON/EVENING						
	Wilson B	Thurgood Ballroom East	Thurgood Ballroom West	Thurgood Ballroom South	Madison A	Thurgood Ballroom North
	ASVCP Veterinary Laboratory Professionals Session I	Mini-Symposium I: Leadership Development: Involve and Evolve	Clinical Pathology Focused Scientific Session I	Diagnostic Pathology Focused Scientific Session I	Experimental Disease Focused Scientific Session I	Natural Disease Focused Scientific Session II
1:00	Staying Safe in the Laboratory: Avoiding Zoonotic Diseases L. Guptill	Panel of Prominent Leaders in Our Field Facilitator: B. Charles	Congenital Macrothrombocytopenia	Psittacine Disease Database; Synovial Amyloidosis Tigers; Emerging Fish Diseases; Ultrastructure of PDNS; Lymphoproliferative Diseases; MAP2 in Canine Glioma; Clear Cell SCC in a Horse; Schwannosis Foals; Immune Response to Cannabis	Immunophenotypic Precursor B-cell Leukemia	Hyrax Under Glass D. Agnew
1:15			CSF Analysis with the Procyte		Unlocking Mechanisms of Cystic Fibrosis Lung Disease D. Meyerholz	
1:30	Troubleshooting Basic Parasitology Diagnostic Dilemmas E. Burton	A. Barger, D. Brown, D. Duncan-Evans, K.S. McDorman, R. T. Miller, M.A. Thrall, M.J. Topper, S.J. Tornquist	Targeting the Complement Cascade to Dampen Autoimmune Disease in the Dog E. Behling-Kelly	Zika Transmission in Reproductive Infections		Testicular Degeneration in Rams with BTV
1:45			Posters and Exhibits	Posters and Exhibits	Posters and Exhibits Clinical Pathology Focused Poster Session	Posters and Exhibits Experimental Disease Focused Poster Session
2:00						
2:15						
2:30						
2:45						
3:00						
3:15						
3:30	Echinococcus Multilocularis: An Emerging Health Concern for Dogs and People A. Peregrine	Roundtable Discussions	Equine BAL Counts	Mitotic Counts; Thymoma; Hypovitaminosis STS Gene Expression; Cytomegalovirus Mice; Intraocular Heterotopia; Ciliate Infections; Pancreatic Cysts; Neuropathology Chicks; Iris Melanoma Cat; IHC Zebrafish; Osteogenesis; Chagas Disease; Pulmonary Hemorrhage; Endocarditis Dogs	Are Laboratory Animals Relevant for Studying Human Disease? J. Ward	Whole Genome Seq. Pet Foodborne Pathogens
3:45			Hypertriglyceridemia and Biochem Testing			Blood-tumor Barrier Pathology in Mice
4:00						
4:15						
4:30						
4:45						
7:30-9:30	ACVP Mystery Slide Review Session: Neuropathology--Thurgood Ballroom West					

MONDAY, NOVEMBER 5, 2018 - MORNING			MONDAY, NOVEMBER 5, 2018 - AFTERNOON/EVENING			
	Thurgood Ballroom	Madison A	Madison A	Thurgood Ballroom South	Thurgood Ballroom East	Wilson B
	ACVP/ASVCP Joint Plenary Session: Artificial Organs to Tissue Chips: Medical Advances in Tissue Bioengineering	ASVCP Veterinary Laboratory Professionals Session II	Veterinary Pathology Journal Editors Present	ASVCP Sessions	Meet the Pathologists	Latin Comparative Pathology Group Presents
8:00	Micro and Nanoengineered Hydrogels for Regenerative Engineering and Precision Medicine A. Khademhosseini	Serous Body Cavity Effusions: Ins & Outs and Hows & Whys C.A. Thompson	12:00	Veterinary Pathology Journal Editors Present: Things Are Not Always as They Seem: The Emerging Issue of Antibody Validation in Veterinary Pathology (open to all attendees) J. Ward, C. Schott, J. Webster, J.L. Caswell	ASVCP Case Discussion Session	Meet the Pathologists
8:15			12:15			
8:30	Body-on-a-Chip Systems for Drug and Diagnostic Test Development M.L. Shuler	Emotional Intelligence: So it Really IS All About Me J.A. Christian	12:30	ASVCP Education Forum for Discussion: Research-based Flipped Classroom: Team-based Learning H. Bender	Meet the Pathologists	Reproductive Pathology in Zoo and Wild Animals.....D. Agnew
8:45			12:45			Exploring Pharmacological Alternatives Against Clostridium Perfringens...M. Navarro
9:00	Posters and Exhibits Late-Breaking Abstract Poster Session	Posters and Exhibits	1:00	ASVCP Case Discussion Session	Meet the Pathologists	
9:15			1:15			
9:30	Regenerative Medicine: Current Concepts and Changing Trends A. Atala	Perspectives on Cerebrospinal Fluid Analysis in Animal Models L.T. Lyle	1:30	ASVCP Case Discussion Session	Meet the Pathologists	Latin Comparative Pathology Group Business Meeting
9:45			1:45			
10:00	Speaker Panel for Q & A		2:00	ASVCP Case Discussion Session	Meet the Pathologists	Latin Comparative Pathology Group Business Meeting
10:15			2:15			
10:30			2:30	ASVCP Case Discussion Session	Meet the Pathologists	Latin Comparative Pathology Group Business Meeting
10:45			2:45			
11:00			3:00	ASVCP Case Discussion Session	Meet the Pathologists	Latin Comparative Pathology Group Business Meeting
11:15			3:15			
11:30			3:30	ASVCP Case Discussion Session	Meet the Pathologists	Latin Comparative Pathology Group Business Meeting
11:45			3:45			
			4:00	ASVCP Case Discussion Session	Meet the Pathologists	Latin Comparative Pathology Group Business Meeting
			4:15			
			4:30	ASVCP Case Discussion Session	Meet the Pathologists	Latin Comparative Pathology Group Business Meeting
			4:45			
			7:00-9:00	ACVP Mystery Slide Session: Muscle Pathology--Thurgood Ballroom West		

*Some times are approximate. Consult the online program for exact times.

2018 ACVP & ASVCP Concurrent Annual Meeting Schedule by Scientific Track

TUESDAY, NOVEMBER 6, 2018 - MORNING					
	Thurgood Ballroom South	Thurgood Ballroom West	Thurgood Ballroom North	Madison A	
	Concurrent Session II: Before and After: Muscle and Meat Pathology of Food Animal Species	Concurrent Session III: Diseases and Disorders Associated with Natural and Manmade Disasters	Clinical Pathology Focused Scientific Session II	Education Focused Scientific Session	
8:00	Identification of Muscle and Meat Lesions in Ruminant and Game Animal Species J. Edwards	Overview of Diseases and Toxicologic Concerns Associated with Floodwaters and Other Natural Disasters.....S. Gwaltney-Brant	Feline KIM-1 Assay	Biobanking Data: An Educational Journey Towards Precision Medicine L. Mountham	
8:15			M-Protein Quantitation		
8:30			U411 Urinalysis Optimization		
8:45		Injuries and Disorders in Military Working Dogs M.S. Takara	HDLs and Neutrophil Activation in Cows	NETs, cfDNA, and Immunothrombosis: A Tangled Web? R. Goggs	How to Use Bioinformatic Approaches to Understand Viral Pathology T. Fei Fan Ng
9:00					
9:15		Posters and Exhibits	Posters and Exhibits Clinical Pathology Focused Poster Session	Posters and Exhibits Education Focused Poster Session	
9:30					
9:45	Genetic, Nutritional, and Toxicologic Diseases of Porcine Muscle E.R. Burrough	Effects of Radiation on Animals: What Do We Really Know? L. Murphy	Features of Canine Nodal T-cell LSA	Should Veterinarians Dream of Electric Sheep: A Place for Bioinformatics in the DVM Curriculum J. Wasmuth	
10:00					
10:15	Posters and Exhibits	Wildlife, Water, and One Health C. Densmore	Lineage Assessment of Acute Leukemias	Development of Illness Scripts	
10:30					
10:45	Wooden Breast, White Striping and "Worms": Muscle and Meat Lesions of Broiler Chickens.....E. Brannick	Wildlife, Water, and One Health C. Densmore	Cytology Imaging Scanner Validation	Error Management and Metacognition	
11:00					
11:15	Questions and Discussion	Wildlife, Water, and One Health C. Densmore	T-cell Lymphoma/Leukemia in Bulldogs	Virtual Reality in Clinical Pathology Teaching	
11:30					
11:45	Questions and Discussion	Wildlife, Water, and One Health C. Densmore	Prediction of LSA Phenotype with Deep Learning	Virtual Reality in Clinical Pathology Teaching	
12:00					
12:15-1:15	Preserving Pathology and Remains of Presidents and Their Assassins, L. Flanders, Thurgood Ballroom East		Maintenance of Certification Review Session, Thurgood Ballroom West		

TUESDAY, NOVEMBER 6, 2018 - AFTERNOON/EVENING							
	Thurgood Ballroom North	Thurgood Ballroom West	Thurgood Ballroom South	Thurgood Ballroom East	Madison A		
	ASVCP Mystery Slide Case Session	Mini-Symposium II: Snap Decisions: Intraoperative Diagnosis	Diagnostic Pathology Focused Scientific Session II	Experimental Disease Focused Scientific Session II	Industrial and Toxicologic Pathology Focused Scientific Session II		
1:30		Guiding the Surgeons Hands: The History and Current Practice of Frozen Section and On-Site Assessment at the Mayo Clinic J.C. Chevile	Astrovirus in Pigs; Bernese Mountain Dog Syndrome; MCF in Formosan Serows; Veterinary Forensic Pathology Cases; Counting Mitotic Figures; Gallbladder Neuroendocrine Carcinoma; Canine Choroid Plexus Tumors; Canine Pulmonary SCC; Primary Nervous System LGL Lymphoma	Murine Models of Lupus Nephritis	Introduction		
1:45				Frozen Section Telepathology by Whole-slide Imaging A. Evans	Aortic Lesions Dolphins; Liver Pathology Dogs; Globoid Cell Dystrophy Puppies; Endocardiosis in Tetras; Rhodococcus Otitis & Encephalitis Goat; Brucella Oophoritis in a Toad; Proliferative Lesions Repro. Tract; Odontogenic Sarcoma Dog; Transcriptome of Mammary Tumors	Next Generation Costimulation Blockade in Transplantation A. Adams	Basics of Preclinical Toxicity Testing A. Sharma
2:00						Antibodies in Pancreatic Cancer Progression	Contribution Cortical Interneurons on Cerebral Blood Flow
2:15		Spontaneous Lymphomas/Leukemias in NSG Mice					
2:30		Posters and Exhibits	Posters and Exhibits			Posters and Exhibits Diagnostic Pathology Focused Poster Session	Posters and Exhibits Experimental Disease Focused Poster Session
2:45							
3:00		Posters and Exhibits	Cryosectioning in Diagnostic Veterinary Pathology A.D. Miller	Aortic Lesions Dolphins; Liver Pathology Dogs; Globoid Cell Dystrophy Puppies; Endocardiosis in Tetras; Rhodococcus Otitis & Encephalitis Goat; Brucella Oophoritis in a Toad; Proliferative Lesions Repro. Tract; Odontogenic Sarcoma Dog; Transcriptome of Mammary Tumors	Landmarks on the Canine CAR Journey N. Mason	Investigational New Drug (IND) Application L. McKinney	
3:15							
3:30	A Novel Digital Cytology Service for STAT Submissions J. Piccione		Aortic Lesions Dolphins; Liver Pathology Dogs; Globoid Cell Dystrophy Puppies; Endocardiosis in Tetras; Rhodococcus Otitis & Encephalitis Goat; Brucella Oophoritis in a Toad; Proliferative Lesions Repro. Tract; Odontogenic Sarcoma Dog; Transcriptome of Mammary Tumors	Zika Virus and Testicular Teratomas in Mice	Characteristics of Cardiac Injury in Mice		
3:45							
4:00	A Novel Digital Cytology Service for STAT Submissions J. Piccione		Aortic Lesions Dolphins; Liver Pathology Dogs; Globoid Cell Dystrophy Puppies; Endocardiosis in Tetras; Rhodococcus Otitis & Encephalitis Goat; Brucella Oophoritis in a Toad; Proliferative Lesions Repro. Tract; Odontogenic Sarcoma Dog; Transcriptome of Mammary Tumors	BRCA2 Mutation in Zebrafish Cancer Ploid	Fungal Rhinitis in Sprague-Dawley Rats		
4:15							
4:30	A Novel Digital Cytology Service for STAT Submissions J. Piccione		Aortic Lesions Dolphins; Liver Pathology Dogs; Globoid Cell Dystrophy Puppies; Endocardiosis in Tetras; Rhodococcus Otitis & Encephalitis Goat; Brucella Oophoritis in a Toad; Proliferative Lesions Repro. Tract; Odontogenic Sarcoma Dog; Transcriptome of Mammary Tumors	BRCA2 Mutation in Zebrafish Cancer Ploid	Fungal Rhinitis in Sprague-Dawley Rats		
4:45							
5:00	ACVP Awards and Recognition Event, Marriott Ballroom Salon 1						
5:15-6:30	ACVP Awards and Recognition Event, Marriott Ballroom Salon 1						
7:00-9:30	ACVP President's Reception (all attendees invited), Thurgood Ballroom						

WEDNESDAY, NOVEMBER 7, 2018 - MORNING					
	Thurgood Ballroom North	Thurgood Ballroom West	Thurgood Ballroom South	Thurgood Ballroom East	Thurgood Ballroom Foyer
	Concurrent Session IV: Virology, Pathology, and the Future	Concurrent Session V: Comparative Oncology	Mini-Symposium III: Flow, Fibrin, and Fabulous Vessels	Wednesday Slide Conference Live From the Archives of the Joint Pathology Center	Young Investigator Award Poster Presentations
8:00	Viral Discovery: Opportunities and Challenges.....T. Seurberlich	Opportunities & Challenges of Comparative Oncology from a Pharma Perspective.... J. Webster	Orbivirus Hemorrhagic Disease and the Bleeding Deer...E. Howerth	Speakers: B. Williams, E. Corbin, S. Cudd, R. Kim	Young Investigator Award (YIA) Poster Presentations (announced 11/6/18)
8:15					
8:30	Expanding Relevance of Mouse Models of Viral Virulence M.J. Oglesbee	Comparative Immuno-oncology in Dogs & Man S. Dow	Mechanisms of Viral Hemorrhagic Fevers: The Examples of Bluetongue N.J. MacLachlan		
8:45					
9:00	YIA Award Posters	YIA Award Posters	Fibrinogen, Factor XIII, and Red Blood Cells in Thrombosis..... A. Wolberg		
9:15					
9:30	Host Fitness Promoting Traits of Natural Microbiota in Mice B. Rehermann	Anti-tumor Effects, Safety, and Mechanisms of Resistance of BRAF-Targeted Therapy in Dogs with Urothelial Cancer.....D.W. Knapp	YIA Award Posters		
9:45					
10:00	YIA Award Posters	Anti-tumor Effects, Safety, and Mechanisms of Resistance of BRAF-Targeted Therapy in Dogs with Urothelial Cancer.....D.W. Knapp	YIA Award Posters		
10:15					
10:30	Persistent Viruses and Viral Oncogenesis P. Pesavento	Comparative Oncology Benefits from the Synergistic Intel Achievable Through Physician & Veterinary Pathologist Consensus R.M. Simpson and S.M.Hewitt	In Vivo Imaging of Brain Microvasculature: Multiphoton Microscopy of Flow and Inflammation.....N. Nishimura		
10:45					
11:00	Questions and Discussion	Comparative Oncology Benefits from the Synergistic Intel Achievable Through Physician & Veterinary Pathologist Consensus R.M. Simpson and S.M.Hewitt	Cerebrovascular Dis. in Companion Animals: What Happens, Why, and How Do You Know? E. Boudreau		
11:15					
11:30	Questions and Discussion	Comparative Oncology Benefits from the Synergistic Intel Achievable Through Physician & Veterinary Pathologist Consensus R.M. Simpson and S.M.Hewitt	Cerebrovascular Dis. in Companion Animals: What Happens, Why, and How Do You Know? E. Boudreau		
11:45					
12:00	Post-Meeting Workshop: Forensic Pathology - Madison A				
1:00-5:00	Post-Meeting Workshop: Forensic Pathology - Madison A				

*Some times are approximate. Consult the online program for exact times.
