EXPO HOURS/LEARNING IN
THE EXPO

FRIDAY, AUGUST 7

7:00-8:00 AM	ADED 2-day Course Attendees Breakfast	
8:00 AM-5:00 PM	ADED Board of Directors Meeting	
8:00 AM-5:00 PM	ADED 2-day Course Day ♦ Applied Vehicle Modifications Beyond the Basics	
12:00-1:00 PM	ADED 2-day Course Attendees Lunch	
6:00-7:00 PM	1st Time Attendee Reception	
6:00-7:00 PM	Reunion Reception	

SATURDAY, AUGUST 8

7:00-8:00 AM	Workshop & Course Attendee Breakfast		
8:00 AM-5:00 PM	ADED 2-day Course Day 2 ♦ Applied Vehicle Modifications Beyond the Basics	Workshop A ♦ Driving Across Dementia Subtypes: Research and Clinical Insight	Workshop B ♦ Demystifying Research: Tools to Engage in Driver Rehabilitation Research
12:00-1:00 PM	Workshop & Course Attendee Lunch		
5:15-8:30 PM	Product Presentations with dinner for conference registrants ♦		
8:30-9:30 PM	Preshow Party		

SUNDAY, AUGUST 9

7:30-8:30 AM	Breakfast		
8:30-10:00 AM	Conference Opening & Keynote ♦ Mental Health and Driving: Risks and Resilience in Behind the Wheel		
10:00 AM-1:30 PM	Expo Open with Lunch		
12:00-1:00 PM	Lunch and Learn Sessions in the Expo ♦		
2:00-4:00 PM	Seminar 1 ♦ Executive Function Assessment in the Comprehensive Driver Assessment	Seminar 2 ♦ New Evidence-Based Resources for Autistics Pursuing Driving & Community Mobility	Seminar 3 ♦ Product Demonstrations in the Expo 2:00 - 5:15 PM
4:15-5:15 PM	2:00 - 5:15 PM	Seminar 4 ♦ Innovative Training Methods: Using Driving Simulators for Diverse Drivers	
5:30-9:00 PM	Expo Open with Dinner		
7:30-9:00 PM	Exhibitor Roundtables in the Expo ♦		

MONDAY, AUGUST 10

7:30-11:30 AM	Expo Open with Breakfast 7:30- 8:30		
8:00-10:00 AM	Soap Box Sessions in the Expo ♦		
10:00-11:30 AM	Last Expo Hours & Best in Show Contest		
11:30 AM	Silent Auction Closes, Engagement Game Winners Announced		
12:00-1:15 PM	Annual Membership Meeting & Lunch		
1:15-1:45 PM	Lightning Learning Session ♦		
2:00-4:00 PM	Seminar 5 ♦ When "Easy" Isn't	Seminar 6 ♦ Bridging Innovation: Vehicle Technology & Driver Rehabilitation	Seminar 7 ♦ Foundational Low Vision Strategies for Bioptic Driving Preparation
4:15-5:15 PM	ADED Allies Panel Discussion: 50 Years Strong, Gearing Up for the Future		
6:00-7:00 PM	Volunteer Reception - by invitation		
7:00-10:00 PM	Annual Awards Gala		

TUESDAY, AUGUST 11

7:30-9:00 AM	Breakfast & General Session ♦ Learn to Train Law Enforcement...They want and need it!...YOU CAN DO IT!		
9:15-10:45 AM	Seminar 8 ♦ Clinical Implications of Anosognosia in Neurocognitive Disorder: A Case Series	Seminar 9 ♦ One Client, Two Recommendations: Exploring the Gray Areas in Equipment Prescription	Seminar 10 ♦ Driving with Bioptics: A User's Perspective & Experience
11:00 AM-12:30 PM	Seminar 11 ♦ Cognition and Driving: Using Research to Inform Practice	Seminar 12 ♦ Designing Research: A Collaborative Event in Driving Rehabilitation	Seminar 13 ♦ Vestibular Ocular Reflex Dysfunction and Driver Rehab

ADED CORDIALLY INVITES YOU TO PARTICIPATE IN THE 50TH ANNUAL CONFERENCE & EXPO

AUGUST 7-11, 2026 | RICHMOND, VA
RICHMOND MARRIOTT & GREATER RICHMOND CONVENTION CENTER

CONFERENCE GOAL

ADED's 50th Annual Conference & Expo, 50 Years Strong Gearing Up for the Future, will explore current concepts, research, and procedures in driver rehabilitation. Attendees will receive practical information on processes and procedures that they can immediately implement into practice enhancing client care. The course, workshops, seminars, and Expo will provide many opportunities for participants to learn, engage, and collaborate. Professionals of all levels (introductory, intermediate, advanced) will benefit from attendance.

LEARNING OBJECTIVES

This multi-day conference aims to provide participants with current processes, procedures, and research relevant to the field of driver rehabilitation. Attendees will:

- Discuss current processes and procedures utilized in driver rehabilitation.
- Identify challenges clients may face as they learn to live life with an adapted vehicle.
- Recognize driving challenges related to specific disabilities and diseases.
- Relate research related to driver rehabilitation to direct client care.
- Recognize skill sets necessary to work with specific needs populations for driver rehabilitation.
- Discuss the importance of collaboration with vendors and manufacturers.

CONTINUING EDUCATION

Earn up to **33.5 ADED contact hours** by attending 2-day course **and** all conference activities.
Earn up to **26.5 ADED contact hours** by attending a pre-conference workshop **and** all conference activities.
Earn up to **19.5 ADED contact hours** by attending the ADED Conference.

Contact hour acceptance by other organizations is under review.
We will update the conference website when we have more information.

**CONFERENCE REGISTRATION INCLUDES ACCESS TO PRODUCT PRESENTATIONS SATURDAY NIGHT AND
PRESHOW PARTY, EXPO, ALL EDUCATION SUN-TUES, AND ONE GALA TICKET.**

Access to the Expo is included with your conference registration.

Expanding your professional reach is a key benefit of attending the Expo. With ample networking opportunities available, you can connect with like-minded professionals, industry leaders, and potential collaborators. Whether through structured networking sessions or casual conversations over coffee, the Expo provides the perfect platform to build lasting relationships that can propel your career forward.

- Enjoy eleven (11) unopposed hours of face-to-face time with exhibitors during three exhibit hall times: Sunday 10 AM-1:30 PM, Sunday 5:30 – 9:00 PM and Monday 7:30 – 11:30 AM.
- This can't miss Expo will feature education, engagement activities, food and beverages, ADED's Silent Auction, and opportunities to expand your professional reach through networking.

FRIDAY & SATURDAY, AUGUST 7-8

2-DAY COURSE & BADGE

8:00 AM - 5:00 PM
Attendance limited.

WHAT IS A BADGE?

Applied Vehicle Modifications Beyond the Basics

Jill Sclease, CTRS, CDRS | Learning Level: Intermediate | 14 Contact Hours

This course is designed for driver rehabilitation specialists with experience seeking to advance their skills and expand their expertise in adaptive driving solutions. Building on foundational knowledge, participants will explore assessment and prescription strategies for adaptive driving equipment and specialized vehicle modifications for intricate cases. This course delves into multifactorial decision-making for equipment selection, customization, and fitting for drivers with diverse needs, simple and/or complex. Participants will examine case scenarios, refine clinical decision-making for equipment selection and fitting, and strengthen collaboration strategies with mobility equipment dealers and vehicle modifiers to ensure independence, best-fit outcomes, optimal performance, and safety.

- Analyze vehicle and adaptive equipment fitting techniques to ensure client-centered outcomes and optimize driver performance and safety.
- Critically evaluate the taxonomy and classification frameworks guiding driver rehabilitation and vehicle modification practices.
- Evaluate advanced principles and clinical reasoning processes guiding adaptive driving equipment selection.
- Examine advanced principles of adaptive equipment selection, balancing client needs, vehicle dynamics, technological capabilities and safety.
- Evaluate equipment selection through critical comparison of adaptive driving systems and modification options for complex driver profiles.
- Analyze and apply multifactorial principles for selecting, integrating, and customizing primary and secondary driving control systems based on individual functional profiles.
- Enhance necessary skills for adaptive vehicle prescription writing and documentation.
- Discuss application of the Best Practice Guidelines, Code of Ethics and Recommended Practices for Driver Rehabilitation & Vehicle Modifications Guidelines for Vocational Rehabilitation with respect to vehicle adaptations and selection of equipment.
- Review standards and resources applicable to vehicle modifications.

Offered at no additional charge, attendees can earn ADED's Vehicle Modifications Badge for passing assessments and completing assignments based on information gathered from the Expo within 6 weeks of course completion. Earning the badge is voluntary and contact hours are provided independently of the badge. Participants will be provided with instructions for securing their badge at the course. Be recognized for your knowledge and skills in a specialized area of driver rehabilitation.

Badges are accolades issued by ADED that attest to the qualifications, competencies, and knowledge or skill attainment within a small scope of practice in driver rehabilitation. Once a badge has been awarded, the earner will receive a digital icon that recognizes the credential earned. This is an outward symbol of skills, abilities, and accomplishments. These icons can be shared digitally in email signatures, business cards, web pages, on social media, and resumes. Anywhere the badge holder wants to proudly promote their specialized skills. Earning a badge signifies to colleagues, employers, referral sources, and the public commitment to excellence in the field of driver rehabilitation.

RECEPTIONS

FRIDAY, AUGUST 7
6:00 PM - 7:00 PM

First Time Attendee Reception

By invitation only, tickets required.

Reunion Reception

RSVP and tickets required.

SATURDAY, AUGUST 8

PRE- CONFERENCE WORKSHOPS

8:00 AM - 5:00 PM

Workshops run
concurrently; selection
required during registration.
Attendance limited.

Workshop A: Evaluating Driving Across Dementia Subtypes: Research and Clinical Insight

Nikki Simmons, OT, CDRS | Learning Level: Intermediate | 7 Contact Hours

Explore how dementia subtypes including Alzheimer's, Lewy body, and frontotemporal affect driving. Learn evidence-based assessment strategies, understand symptom impacts, and gain practical guidance for driving rehabilitation specialists to make informed, client-centered decisions about driving and cessation.

- Differentiate key clinical features and driving-related behaviors among major dementia subtypes, including Alzheimer's disease, Lewy body dementia, and frontotemporal dementia.
- Identify evidence-based clinical assessments appropriate for evaluating drivers across different dementia types.
- Interpret current research findings on driving performance, driving error patterns, and safety outcomes across dementia types.
- Apply clinical reasoning to determine when to recommend behind-the-wheel assessments versus driving cessation.
- Integrate research and functional assessment results to support client-centered, ethical decision-making in driving rehabilitation practice.

Workshop B: Demystifying research: Tools to engage in driver rehabilitation research

Emily Haffner, CScD, MOT, OTRL, CDRS; Peggy Barco, OTD, OTR/L, CDRS, FAOTA; Maria Schulteis, PhD; Valerie Neira, OTR, OTD; Luther King, DrOT, OTRL, CDRS | Learning Level: Advanced | 7 Contact Hours

This workshop is for experienced driver rehabilitation specialists who want to engage more with research. Spend the day reviewing basic research concepts/designs, practice locating and reviewing research articles, identify funding options and collaborators, and generate ideas to advance evidence in driver rehabilitation. Leave the day with resources to plan your next project.

- Recognize the role implementation research has in bridging the gap between evidence and practice, including how it informs the adoption, adaptation, and sustainability of evidence-based practice in real world settings.
- Identify, locate, and review driving rehabilitation research articles to determine their relevance and applicability to real-world practice.
- Recognize research team roles and develop plans for collaborative partnerships that enhance driving rehabilitation research.
- Gain the ability to develop driving rehabilitation questions, generate study ideas, and identify feasible funding sources for their project.

PRODUCT PRESENTATIONS

5:15 PM - 8:30 PM

Dinner Included

Examine innovative tools to support safe, independent mobility. This session highlights products, adaptive equipment, vehicle modifications, technologies and innovations designed for driver rehab. Presenters will review features, clinical applications, implementation, and real-world use, helping attendees evaluate solutions that enhance safety and client outcomes.

PRE-SHOW PARTY

8:30 PM - 9:30 PM

Unwind and socialize before the official start of the conference, join us for an evening of fun, networking, and getting to know fellow professionals in a relaxed atmosphere.

SUNDAY, AUGUST 9 EXPO OPEN 10:00 AM – 1:30 PM & 5:30 PM - 9:00 PM

CONFERENCE OPENING & KEYNOTE

8:30 – 10:00 AM

Keynote | Mental Health and Driving: Risks and Resilience in Behind the Wheel

Johnathon Ehsani, Ph.D, MPH | Learning Level: Introductory | 1 Contact Hour

Driving is a complex task which can be influenced by mental health. Examine how conditions such as depression, anxiety, and ADHD affect driving performance and safety. Highlights include risk factors, the emerging role of positive psychology, including mindfulness, and sense of purpose, in supporting safe driving.

LUNCH & LEARN WITH EXHIBITORS

12:00 - 1:00 PM
In The Expo

Learning Level: Introductory | 1 Contact Hour

Participants will have concentrated discussions on products/services and client applications. These discussions aim to provide detailed information on recent advancements in products/services for driver rehabilitation, offering thorough insights into client specifications and application. These are structured sessions with a single company over lunch.

CONCURRENT CONFERENCE SESSIONS

Seminar 1 | 2:00 - 5:15 PM

Executive Function Assessment in the Comprehensive Driver Assessment

Jaclyn Davin, OTR, CBIS, CDRS, PDI | Learning Level: Intermediate | 3 Contact Hours

This course will explore evidence-based clinical assessment of executive functioning for driving evaluation. Aiming to enhance clinical structured observations of a client's behavior and awareness skills during the clinical evaluation process. Add variety of strategic skill assessment for in the car.

Seminar 2 | 2:00 - 4:00 PM

New Evidence-Based Resources for Autistics Pursuing Driving & Community Mobility

Chelsea Ward McIntosh, DRP | **Miriam Monahan, OTD, OTRL, CDRS** | Learning Level: Intermediate | 2 Contact Hours

Researchers at Children's Hospital of Philadelphia and OTD/CDRS will review recent research on driving and community mobility skills with autistic adolescents/young adults including evidence-based resources for screening, assessment, and training. The presenters will illustrate findings with case-based examples so participants can reflect on the applicability to their practice.

Seminar 3 | 2:00 - 5:15 PM *attendance at the entire session is required to earn contact hours

Product Demonstrations in the Expo

Learning Level: Introductory | Contact Hours: 3 hours

Held in the exhibit hall, this session highlights innovative products and technologies designed to support driver rehabilitation practice. Presenters will showcase adaptive equipment, vehicle modifications, assessment tools, and service delivery solutions that enhance safety, independence, and clinical effectiveness.

Seminar 4 | 4:15 - 5:15 PM

Innovative Training Methods: Using Driving Simulators for Diverse Drivers

Keegan Humphrey, OTR/L, CDRS, CLVT, CBIS, CSRS, CDI, DPAM | Learning Level: Introductory | 1 Contact Hour

Explore how the evolution of driving simulators enhances behind-the-wheel training for drivers of all backgrounds and needs. This session covers the benefits for diverse clients, including those using adaptive equipment, and compares simulators on the market to improve driver education and rehabilitation outcomes.

EXHIBITOR ROUNDTABLES

7:30 – 9:00 PM
In The Expo

Learning Level: Introductory | 1.5 Contact Hours

Attendees will engage directly with representatives from participating companies. Each table is hosted by a company representative who will lead a timed conversation centered on their products/services. Attendees will rotate to multiple tables during the session.

MONDAY, AUGUST 10 EXPO OPEN 7:30 – 11:30 AM WITH BREAKFAST 7:30 – 8:30 AM

SOAP BOX SESSIONS

8:30 – 10:30 AM
In The Expo

Learning Level: Introductory | Contact Hours: Up to 2

Mini presentations held at the exhibitor's booth, conducted by a CDRS or DRP and offered for contact hours to ADED registered attendees. The Soap Box Sessions provide a structured opportunity for individuals to present client application of specific products for use in driver rehabilitation.

MEMBERSHIP MEETING & LUNCH

12:00 – 1:15 PM

LIGHTNING LEARNING SESSION

1:15 – 1:45 PM

ADED Government Relations Committee | Learning Level: Introductory | .5 Contact Hour

This session will provide a focused overview of ADED's recently updated Recommended Practices for Driver Rehabilitation & Vehicle Modifications; Guidelines for Vocational Rehabilitation guiding document and its role in advancing professional practice in driver rehabilitation. Participants will gain clarity on the document's purpose, intended audience, and core principles, as well as how it supports Vocational Rehabilitation Agencies by promoting safety, quality, consistency, and fiscal responsibility in the provision of driver rehabilitation and vehicle modification services to individuals with disabilities.

CONCURRENT CONFERENCE SESSIONS

2:00 – 4:00 PM

Seminar 5 When "Easy" Isn't

Jill Sclease, CTRS, CDRS | Chad Strowmatt, OT, OTD, CDRS | Timothy Jones, OTR, CDRS | Learning Level: Advanced | 2 Contact Hours

This presentation reviews a series of real-world examples of how different clients use various types of adaptive driving equipment. It also examines the specific challenges encountered during client assessment and the training strategies that can be used to improve their driving abilities.

Seminar 6

Bridging Innovation: Vehicle Technology & Driver Rehabilitation

Kate Lopez, OTR/L, MHS, LDI, CDRS | Learning Level: Introductory | 2 Contact Hours

Stay current on evolving vehicle technologies in this session. Explore new vehicle technology advancements, and discuss clinical, ethical, and regulatory impacts on the field of driver rehabilitation. Through case studies and audience polling, help identify future needs of driver rehabilitation while strengthening readiness for your current practice.

Seminar 7

Foundational Low Vision Strategies for Bioptic Driving Preparation

Leslie Prescott, OTD, OTR/L, SCL | Learning Level: Intermediate | 2 Contact Hours

This session equips OTs, driver rehab specialists, and allied health professionals with foundational low vision strategies, including eccentric viewing, scanning, and contrast/glare management to prepare patients for advanced bioptic driving programs. Includes hands-on practice of techniques.

PANEL DISCUSSION

4:15 – 5:15 PM

50 Years Strong, Gearing Up for the Future | Panel Discussion with ADED Allies

Learning Level: Introductory | 1 Contact Hour

From the standpoint of 50 Years Strong, join us for an insightful exchange and meaningful conversation with our industry partners to examine the state of the industry, explore challenges and changes, and understand how they are gearing up for the future. This panel features representatives from Gold Level ADED Allies: Adapt Solutions, BraunAbility, EMC, and Vantage Mobility.

RECEPTION & GALA

6:00-7:00 PM

Volunteer Reception

By invitation only

7:00 – 10:00 PM

ADED Awards Gala

50th Anniversary - Expo Best in Show Winners Announced
RSVP and tickets required.

Let's celebrate our
50TH ANNIVERSARY

YOU'RE INVITED

ADED ANNUAL AWARDS

Gala

**EXPO BEST IN
SHOW WINNERS
ANNOUNCED!**

MONDAY, AUGUST 10 • 7-10PM

Each registrant receives one complimentary ticket. Additional tickets available for purchase.

TUESDAY, AUGUST 11

BREAKFAST & GENERAL SESSION

7:30 - 9:00 AM

Learn to Train Law Enforcement...They want and need it!...YOU CAN DO IT!

Cody Stovall, OTR/L, CDRS | Learning Level: Intermediate | 1.5 Contact Hours

This course will include the successes and challenges of training law enforcement and licensing staff in Tennessee to identify medical impairment in the office or at the roadside. Implementing an objective cognitive screening tool as well as proven training strategies will be discussed to implement in your state.

CONCURRENT CONFERENCE SESSIONS

9:15 - 10:45 AM

Seminar 8

Clinical Implications of Anosognosia in Neurocognitive Disorder: A Case Series

Katie Fair, OTD, OTR/L, CDRS | Learning Level: Intermediate | 1.5 Contact Hours

This case series takes a deeper look at how impaired insight can negatively influence driving outcomes. We'll explore the prevalence, progression, and predisposing factors of anosognosia across various neurocognitive disorders' and discuss how a clinician-rated assessment of everyday functioning can support more informed decisions regarding medical fitness to drive.

Seminar 9

One Client, Two Recommendations: Exploring the Gray Areas in Equipment Prescription

Jenny Nordine, OT/L, CDRS | Bryan Garrison, MHA, RKT, CDRS | Learning Level: Intermediate | 1.5 Contact Hours

Adaptive driving equipment recommendations can vary widely, even when client assessments look the same. In this interactive session, two experienced therapists and our audience will compare differing approaches to equipment selection and uncover how clinical reasoning, client factors, and real-world environments can lead to multiple valid solutions.

Seminar 10

Driving with Bioptics: A User's Perspective & Experience

Lea Bertoni, MS, OTR/L, CDRS | Jill Sclase, CTRS, CDRS | Learning Level: Intermediate | 1.5 Contact Hours

This course explores the real-world user experience of bioptic driving through survey data, driver interviews, and clinician perspectives. Attendees will gain practical strategies to improve instruction, support, and advocacy for individuals pursuing bioptic licensure and safe community mobility.

CONCURRENT CONFERENCE SESSIONS

11:00 AM - 12:30 PM

Seminar 11

Cognition and Driving: Using Research to Inform Practice

Maria Schultheis, PhD | Learning Level: Introductory | 1.5 Contact Hours

The presentation will provide an overview of key research findings related to cognition and driving and present findings from a recent study examining driving performance among individuals with and without cognitive compromise, and controls in real world and simulated scenarios. It will conclude with a discussion to encourage questions and application of knowledge presented.

Seminar 12

Designing Research: A Collaborative Event in Driving Rehabilitation

Emily Haffner, CScD, MOT, OTRL, CDRS | Valerie Neira, OTR, OTD | Luther King, DrOT, OTRL, CDRS | Learning Level: Advanced | 1.5 Contact Hours

Interested in research but unsure where to begin? In this collaborative session, you will work in small groups to develop a research plan with guidance from experienced facilitators. Walk through various steps of the process and leave with a practical, actionable plan to advance driving rehabilitation research.

Seminar 13

Vestibular Ocular Reflex Dysfunction and Driver Rehab

Raechaell Corbett, MS, OTR/L, CDRS, CDI | Learning Level: Intermediate | 1.5 Contact Hours

Vestibular Ocular Reflex Dysfunction (VOR) is not always recognized post concussion. If you have seen post concussion clients who are complaining of dizziness with driving, it is important to understand how to screen for VOR dysfunction versus vertigo. Join me to discuss the journey of two clients with VOR dysfunction who were able to return to driving safely.

CONFERENCE INFORMATION

HOTEL

Please see the ADED website for reservations link for discounted room block. **The Richmond Marriott 500 E Broad St, Richmond, VA 23219 | Phone: (804) 643-3400.** Special room rate is \$193 plus taxes, available until sold out or July 15, 2026. The hotel is located about 7 miles from Richmond International Airport (RIC). The hotel does not provide shuttle service. Rooms are reserved for registered attendees. Any room in the room block without a corresponding registration is subject to cancellation.

EXPO HOURS

Sunday 10 am–1:30 pm, 5:30–9:00 pm and Monday 7:30 am–11:30 am. Eleven hours of unopposed exhibit time are scheduled to provide ample time for collaborating with exhibitors.

DRESS

Casual apparel recommended for all sessions and receptions. Please bring a sweater or jacket as the temperature in meeting rooms may be cool. Dress for the Gala is cocktail/evening attire.

TARGET AUDIENCE

Driver rehabilitation specialists, driving educators, kinesiotherapists, occupational therapists, physical therapists, rehabilitation engineers, rehabilitation technologists, speech-language pathologists, therapeutic recreation therapists, vocational rehabilitation professionals, and allied health students.

CONTINUING EDUCATION CONTACT HOURS

The course, workshops, seminars, panel discussion, Lunch and Learn, Exhibitor Roundtables, and Soap Box Sessions have been approved for ADED contact hours. A total of up to 33.5 ADED contact hours are available to those attending the 2-day course and all conference opportunities offered.

Contact hours will only be awarded to those attending sessions in their entirety; ADED does not offer partial credit.

Complete info about claiming credits will be provided at the conference. ADED will be offering approved provider credits from other entities in addition to ADED Contact Hours. Please see our conference webpage for additional information and a list of additional credits offered. Content, speakers, and information are subject to change. Visit the conference webpage for the most up to date information, learning objectives and speaker bios.

ACCOMMODATIONS

The request for special meals is included during registration. We want to provide the best learning experience for everyone. In compliance of the ADA, should you require any accommodation to fully participate in this conference, please email Lynn@driver-ed.org.

CONFIRMATIONS/REFUNDS/DISCLAIMERS

Registration fees are due at the time of registration. Registration confirmation and payment receipts are e-mailed to the attendee. All cancellations for courses, workshops and conference must be made in writing to the ADED Executive Office prior to June 15, 2026; a 20% handling fee will be charged. Refunds will not be issued after June 15 or for “no-shows.” Substitutions are accepted with a written notice provided that the replacement meets the same registration fee criteria. If an additional fee structure applies to the substitute registrant, all additional fees must be paid at the time the substitution is made. Partial refunds will not be granted. ADED reserves the right to cancel seminars due to unforeseen/unavoidable circumstances at any time. ADED is not responsible for travel/housing costs or expenses that a participant incurs due to cancellation. All complaints relative to the content, instructor, facilities, and registration procedures are to be directed to the ADED executive office: 200 1st Ave NW #505, Hickory, NC 28601. ADED may share attendee information with vendors and/or facilities. Certain cities/host facilities offer rebates to help offset meeting costs, which allows ADED to keep registration costs as low as possible without significant yearly increases.

ADED reserves the right to use any photograph/video taken at any event sponsored or co-sponsored by ADED, without the expressed written permission of those included within the photograph/video. ADED and its authorized affiliates and representatives may use the photograph/video in publications or other media material produced, used, or contracted by ADED including but not limited to brochures, invitations, books, newspapers, magazines, television, websites, etc. No person or organization may use, copy, alter or modify ADED photographs, graphics, videography or other, similar reproductions or recordings without the advance written permission from ADED's CEO.

REGISTRATION & PRICING

REGISTER ONLINE!

www.aded.net/page/adedconference2026

Discounted rates are applied to logged-in members only.
Registration after July 1 will incur an additional \$100 handling fee.
