Oral Health & Universal Health Coverage - 2019 Seminar

14:10 **Endodontics between BRT and high-tech: preventing tooth loss and disease** Prof. Balakrishnan Rajkumar

Prof. Rajkumar is an endodontist and MDS, is the Dean of the BBD College of Dental Sciences, Lucknow, India. In this presentation regenerative endodontic treatment procedure designed to replace damaged pulp tissue with viable tissue which restores the normal function of the pulp-dentin structure will be discussed.

14:30 **Social responsibility in oral health & general health risk factors prevention** Prof. Shiva Mortazavi

Prof. Mortazavi is an assistant professor in pediatric dentistry, a specialist in public health and a clinical researcher at the Isfahan University of Medical Sciences. Non-communicable-diseases share common risk factors. An effective approach to decrease of these risk factors through collaborative of different health care workers in the field of prevention will be explained in this presentation.

14:50 **Science of facial analysis & strategies for creating beauty through surgery** Prof. Subramoniam M. Balaji

Prof. Balaji is an oral and cranio-maxillofacial surgeon from Chennai, India. He is the Editor-in-Chief of the Annals of Maxillofacial Surgery and Executive Editor of the Indian Journal of Dental Research. This presentation captures the authors clinical practice in managing facial asymmetry cases, from simple effective maneuvers to complex, multi-stage reconstruction. The presentation dwells on the patient's perception, expectation of esthetics and realistic outcome of the solution are discussed in detail.

15:10 **Oral health: a milestone on the way to Universal Health Coverage** Dr. Gerhard K. Seeberger

Dr. Seeberger is a general dentist in Cagliari, Italy, and a doctor h.c. of Yerevan Medical State University, Armenia. His activity emphasis is on clinical periodontology, oral surgery, patient safety, and prevention of disease at large through an effective patient-guidance to life-style changes starting from oral health maintenance and care. How the goal of Universal Health Coverage could be reached more realistically until 2025 by engaging a responsible oral health profession will be subject of this presentation.

15:30 **Questions & Answers**

16:00 **Induction Ceremony & Awards**
