

ASSOCIATION OF ENVIRONMENTAL & ENGINEERING GEOLOGISTS

The Association of Environmental and Engineering Geologists would like to invite you to partner with us as a 2019 advertiser or sponsor. Your company will be featured throughout the year which will provide you the ability to reach a targeted audience to showcase your products and services.

AEG offers several levels of corporate sponsorship, but we have one goal: to keep your company name in front of our members and to bring you business! Most of our members are practicing professional geologists with the responsibility for selecting contractors and subcontractors for construction monitoring, so AEG is a great place to find new customers.

The levels of Corporate Sponsorship and benefits are below.
