AEMP’s MISSION
Building Excellence in Equipment Management

AEMP is the premier organization serving those who manage and maintain equipment. Formed in 1982, AEMP represents fleet professionals who work in construction, government, utilities, energy, mining – any industry that requires the effective deployment of heavy equipment.

Become a Member Today!

AEMP PROVIDES:
• Continuing Education for Equipment Managers
• Industry Leadership in Issues Facing Fleet Intensive Organizations
• The Industry’s Leading Credentials for the Equipment Management Profession

Who are AEMP MEMBERS?
AEMP consists of 750+ equipment managers from over 400 companies, from the large and global to the small and loyal fleets.
Our Members:
• Manage an average fleet size of over 1,300 pieces
• Include the best and brightest minds in the equipment management profession
• Are passionate and engaged in advancing the art and science of asset management.

AEMP is Supported by the EQUIPMENT TRIANGLE
AEMP’s success lies in its ability to nurture its equipment triangle philosophy for the betterment of the industry on issues such as telematics, safety and workforce development.

The results of that success are reflected in AEMP’s Strategic Partners, who invest time and resources into the organization’s mission of Building Excellence in Equipment Management.

AEMP CERTIFICATION
The Certified Equipment Manager (CEM) designation is the premiere professional credential for managers of off-road heavy equipment fleets or managers of municipal government fleets. If you are ready to showcase your knowledge and prove your position in the equipment management sector as a subject matter expert, take action today and find out what CEM certification can do for you!

The Certified Equipment Support Professional (CESP) is the leading and most trusted credential for professionals who supply off-road heavy equipment fleets or municipal/government fleets. If you are ready to demonstrate to your customers that you truly understand their business and can serve as their go-to source for industry expertise, take action today and find out what CESP certification can do for you!

AEMP EDUCATION
Conference Education is available through the AEMP SHIFT Conference, October 23-24, 2019 and AEMP CONNECT Conference, March 8-9, 2020.

AEMP University IGNITE is a hybrid online/in-person education package designed to support busy equipment professionals seeking the CEM or CESP designations. Offering a unique blend of online study materials and face-to-face discussions with your peers and industry experts, IGNITE provides a complete professional development experience designed to enhance your career in equipment management where you can learn and network with like-minded professionals in a non-competitive environment.

The Equipment Management Specialist (EMS) is an assessment-based certificate recognizing the competency of an individual involved with equipment in a private, municipal, or government fleet within the first five years of career development. This certificate serves individuals who want to obtain the skills, knowledge, and competencies necessary in equipment and asset management, to better understand the depth and breadth of the equipment industry, and to gain the ability to interact on a higher level with fleet-related professionals.

AEMP University Online Continuing Education Series provides the working equipment management professional with quality AEMP education when you cannot attend a conference in person or are seeking access to an extensive library of credible, curated, and convenient online training opportunities. Take your career to the next level by going through learning modules aligned with the 17 AEMP core competencies to dig deeper into the concepts and topics you will need to be the most effective in your job.
