Gas Energy Efficiency
Topic Committee

Q3 Teleconference
September 19, 2019
Agenda

- Welcome and Upcoming Activity
  - Introductions
  - Strategies Article
  - Energy Efficiency Awards
- Discussion Topics:
  - Program Highlight: NMGC Native American Energy Efficiency Pilot
  - Special Topic: The Future of Natural Gas in Canada
  - Open Discussion
- Closing Remarks
Gas Energy Efficiency Topic Committee

The Gas Energy Efficiency Topic Committee serves as a forum for energy services professionals to discuss and share innovative and successful gas energy efficiency program designs and strategies.

Goals:
- Identify and address key issues impacting gas energy efficiency programs
- Provide opportunities for gas energy services professionals to network and share information
- Increase AESP gas content, and work collaboratively with other committees on cross-cutting topics.
Introductions

Dru Jones, New Mexico Gas

Theo Love, Green Energy Economics Group (GEEG)

Joseph Nunley, Performance Systems Development (PSD)

54 Members, consisting of utilities, program implementers and evaluators
Strategies Articles

- Looking for an Article to Submit Mid-October

- Topic ideas:
  - Gas utility focused Trade Ally network
  - Proper building air sealing
  - Smart combustion safety testing
AESP Energy Awards

Outstanding Achievement in Gas Energy Efficiency Program Design and Implementation

- Help recognize teamwork and bring recognition to gas efficiency initiatives
- Written Submission Online

**Deadline October 15, 2019**
