2018 NATIONAL PHILANTHROPY DAY®
AWARDS LUNCHEON

CHANGE THE
WORLD
WITH A HERO’S HEART

AFP
Association of Fundraising Professionals
More than a year after Hurricane Harvey left our community devastated, we have had time to reflect on what has occurred since that catastrophic week. Harvey wreaked havoc on our city. We had families, friends, neighbors or clients who were affected but, through the generosity of many, offices were moved, people and programs were relocated, and emergency repairs were made before true restoration and healing could begin. Helping hands from all over the world reached out to support a city that was literally drowning. Slowly but surely, Houston has truly risen above the waters and efforts continue even now to get back on our feet.

On November 15th, we will honor people, organizations and programs that Change The World with a Hero’s Heart. A group of Harvey Heroes will receive special recognition – people who went above and beyond the call of duty to help rebuild homes, facilities and lives, whose efforts started us back on the long road to recovery and renewed success.

National Philanthropy Day honorees are leaders in philanthropy from all walks of life. They are community leaders who conduct large campaigns. They are those who are “always there” when needed. They are the fundraisers who never give up and are passionate about their causes. They are the Scout Troops that lend a helping hand. To all of them, we say with hearts full of gratitude: THANK YOU!

By supporting National Philanthropy Day, you are making a statement that you support the philanthropic spirit of our city. You are also supporting the Association of Fundraising Professionals–Greater Houston Chapter’s mission to promote ethical and effective fundraising while training the next generation of development professionals. With nearly 600 members and ranked as one of the largest chapters in the United States and the world, our Chapter’s goal is to keep changing our world with giving hearts. Thank you for believing in our work and the causes we collectively believe keep HoUSton Strong!
The Board of Directors of the Association of Fundraising Professionals-Greater Houston Chapter in partnership with Chevron, Texas Children’s Hospital, South Texas Money Management, LTD and the Houston Business Journal cordially invite you to attend
