Ramaco Carbon – Coal to Carbon Fiber Campus

Dynia Architects
Black Diamonds of Sheridan

A Facet of "Wyoming History"

By Stanley A. Kuzara
SHERIDAN, WYOMING UNDERGROUND COAL MINES, 1893-1952

Scales: Distance from Sheridan to Kedg. About 15 miles.

Legend:
Old County Road
Railroad
State Highway
Interstate Highway

Prepared by:
Stanley A. Evans
3-10-33
OPEN SURFACE / PIT

Large amounts of landscape removed
Major disruption of natural environment
Source of pollution
Efficient mining method
UNDERGROUND/SHAFT

- Less invasive
- Minimal disruption of natural environment
- Little to no pollution
- Greater yield than surface mining
Site Planning
Program and Structures
