• EVERYONE can VOTE (members and non-members)
• Vote ONE TIME for ONE ENTRANT of the 28 total listed

Here's how it works:
• View all 28 BUILT AIA Honolulu Design Awards entrants (listed in alpha order by project type)
• Pick your ONE favorite entrant and vote for it at www.aiahonolulu.org
• Click submit and you are done!

The winner will be announced during the Virtual AIA Honolulu Design Awards Gala taking place November 2-6, 2020 and on our website after the event.
3 Commercial/Industrial Projects
(in alpha order)
The Damien and Marianne of Moloka’i Education Center brings the story of Kalaupapa and Hawaii’s two saints to the busiest pedestrian oriented street in Honolulu. It replaces a driveway and parking lot and adds a gracious landscaped entry and mauka garden to the St. Augustine Church grounds.
Celebrating the storied waters of the Kahuawai waterfall that once flowed nearby, references to wai (water) are infused throughout the design for the 18,000sf renovation of the Pearlridge branch of First Hawaiian Bank which elevates traditional banking models to provide a hospitality experience to customers.

Project Location: Pearlridge, Oahu, Hawaii
Project Completion Date: December 2019
Submission Type: Commercial/Industrial
Resurrection of the Lord Catholic Church –
New Parish Hall and Existing Sanctuary Renovation

Project Location: Waipahu, Oahu, Hawaii
Project Completion Date: August 2020
Submission Type: Commercial/Industrial

The renovation and new construction of the Resurrection of the Lord Church was designed in response to the growing needs of the Parish. The design includes maximizing worship spaces within the existing Sanctuary, as well as constructing a new Parish Hall to provide spaces for teaching, celebrating, worshipping and inspiring.
10 Institutional Projects
(in alpha order)
Lost art re-discovered...materials and techniques reinvented...traditions honored...history reinstated. The momentous addition of the revered Pavilions, and the iconic maps within, continue to honor fallen soldiers of the Vietnam War. The Vietnam Pavilions signify the last piece of history of the wars in the Pacific, commemorated within the Punchbowl Memorial.
Project Location: Honolulu, Oahu Hawaii
Project Completion Date: September 2012
Submission Type: Institutional

The Clarence Ching Student Center replaces an earlier cafeteria building built in 1959 that was no longer suitable for the school’s food service requirements and long-term planning needs. The Student Center provides a cost-efficient design, environmentally sustainable design features, and a highly functional space for a variety of program needs.
Continuing Hilo's genealogy as a center of traditional healing, the project provides a new foundation for the emerging Daniel K Inouye College of Pharmacy. Inspired by the legends of Pele's sister, Hi'iaka, the dramatic roof forms and patterned facade screen blend cultural references with the structured geometries of contemporary science.
Honouliuli Middle School is the first whole public school project in Hawaii to achieve Hawaii–Collaborative for High Performance Schools (HI–CHPS) Verified certification. HI–CHPS Verified schools are defined as high performance learning environments that are healthy, comfortable, conserve energy, water and resources, safe, adaptable and easy to operate and maintain.
‘Iolani School’s K-1 Community embraces a community-driven design layered with biophilic experiences. Students are immersed in nature, where the natural environment is brought indoors through organic forms and natural materials. Moving forward the school’s strategic plan, the K-1 Community is truly just the beginning.
Project Location: Lihue, Kauai, Hawaii
Project Completion Date: March 2019
Submission Type: Institutional

A space for chef instructors to share cultural and historical culinary methods of Hawaii, this cooking hale (house) integrates a permanent imu (underground cooking pit) and wood-fired oven. It’s an iconic educational facility that provides communal space for the making of foods that uniquely identify our island heritage.
Keahuolū Courthouse honors Hawai‘i’s culture and environmental connections through design that evokes transparency and gravitas. For the last 30 years, dispersed operations affected the West Hawai‘i community as Judiciary operations were strewn across the city. Keahuolū Courthouse offers meaningful, consolidated design to optimize operational efficiency, cohesion, safety, and sustainability.
Lawn Loungers are portable spaces for community engagement that can travel around the island, inviting the community to participate in the design process of future housing on O'ahu.
Hale Ola ‘Akahi is a new outpatient healthcare facility for the Waimānalo Health Center. The 18,400 sf, two-story structure includes admissions areas, pharmacy, vision clinic, pediatrics clinic, and a medical clinic integrating physicians, nurses, behavior health providers, nutritionists, and care coordinators serving each patient holistically.
Zukeran Elementary School

Project Location: Camp Foster, Okinawa, Japan
Project Completion Date: December 2018
Submission Type: Institutional

The brand new 143,000 square foot Elementary School was constructed to replace the existing Zukeran Elementary School at Camp Foster formally known as Camp Zukeran. The new school serves approximately 600 students, from Pre-Kindergarten through Grade 5. The facility includes: Pre-Kindergarten/ Sure Start Learning Studios, Kindergarten, first through fifth-grade.

7 Interior Architecture (in alpha order)
This tenant improvement project is one of two satellite offices designed for a Honolulu-based orthodontist. The space needed to be energetic, yet sophisticated, to appeal to the client’s adolescent & adult patients, while providing a healthy & functional environment for her employees – all within a 1,000 SF footprint.
“A JOURNEY in every pint. We’ve got a thirst for ADVENTURE.” The project re-purposed an existing warehouse building into a fully functioning production brewery, restaurant and bar. The design encourages guests to adventure throughout the entire brewery. Along their journey they experience a different look and feel in each space.
KCC is a hub of the Honolulu community and its cafeteria spaces—once stuffy and outdated—have been revitalized to better service its students, culinary arts program and weekly market visitors. Designed to meet a state-funded budget, the space is now sustainably sound and people friendly.
Project Location: Honolulu, Oahu, Hawaii
Project Completion Date: June 2020
Submission Type: Interior Architecture

The Liliʻuokalani Trust expanded their Downtown corporate headquarters with a 5,000 sf full-floor renovation of office space. The design provides their executive and financial teams a modern, innovative, and efficient workplace that fosters transparency, collaboration, flexibility, and fun.
Modern healthcare is about proximity to patients. Hawai‘i Pacific Health’s Straub Medical Center – Kapolei Clinic & Urgent Care, located in a popular shopping center, offers urgent, primary, and specialty care for adults and children. A mix of healthcare and hospitality design balances beauty, practicality, and privacy.
Project Location: Honolulu, Oahu, Hawaii  
Project Completion Date: April 2019  
Submission Type: Interior Architecture

Style Loft’s mission was to revamp and elevate the hair salon experience. The colors, textures, lighting and overall ambiance was designed to attract clients and stylists that want a unexpected, welcoming yet sophisticated boutique salon.
The Kobayashi & Kosasa Family Dining Room at Kapi'olani Medical Center for Women & Children

Project Location: Honolulu, Oahu, Hawaii
Project Completion Date: November 2019
Submission Type: Institutional

The Kobayashi & Kosasa Family Dining Room is a unique place of rest, respite, and rejuvenation. The design celebrates the restorative power of our ‘āina and pays homage to our Hawaiian heritage through the use of natural materials, sustainability concepts, and a connection to the outdoors.

8 Residential Projects
(in alpha order)
This home was designed for a family seeking a calm, clean and un-cluttered respite from a busy life. The clients wanted to be closely connected to the outdoors, and to allow for light and air to flow through the buildings freely.
Hale Ahiki is a LEED Platinum agricultural residence utilizing traditional and modern design strategies to provide a comfortable family home that integrates within this rich Hawaiian pastoral landscape. The dwelling emerges from the landscape and makes a positive impact on the environment and in the community.
Alongside an 1801 lava flow on the leeward coast of Hawaii, this residence was designed as modern island architecture that connects the owner to nature, region and culture. The spaces of the home are organized as a series of interlocking pavilions with an undercurrent of a Japanese restraint and craftsmanship.
The residence captures an immediate language unique to Hawaiian vernacular: low-lying, hipped, and emergent of the surrounding landscape. Like the lava flows that formed the ground below, movement is frozen into a static state of motion, elevating the architecture to become as alive and dynamic as the landscape around it.
Project Location: Maui, Hawaii
Project Completion Date: January 2020
Submission Type: Residential

The Makena residence is an enchanting home that achieves the perfect balance between massing and space, privacy and openness, sunlight and shadow, all perched fittingly on the threshold between land and sea.
Project Location: Withheld per owner's request
Project Completion Date: September 2017
Submission Type: Residential

Built in 1959, renovations to this single-story house include an additional dwelling unit consisting of a bathroom, bedroom, and a two-car garage. Natural finishes dominate throughout the house, seen in the bamboo and travertine floors, and marble countertops. Incorporating some original mid-century flair, the result is both refreshing and nostalgic.
Waiholo Residence

Project Location: Honolulu, Oahu, Hawaii
Project Completion Date: December 2009
Submission Type: Residential

A quiet and dignified aesthetic on the public façade opens up and becomes more daring once you enter. The floors, walls and ceilings were viewed as planes that would interact, float and overlap one another to “make rooms” in the resulting voids.

Photo Credit: Andrea Brizzi Photography
Wai’alae Tropical Modern is a sanctuary, exemplifying a range of timeless design details that fuse tropical living and sustainable efficiencies with the comforts of modern living. Natural materials intertwine indoor – outdoor elements to create a transformative space that embodies a contemporary lifestyle.
