

AIA IOWA ALLIED MEMBERSHIP

01 DOES THIS MEMBERSHIP FIT?

If you are a product rep and/or you work in a field that works with and supports architects, this is the membership for you.

02 WHO WE ARE

The American Institute of Architects, Iowa Chapter (AIA Iowa) works to create relationships among members of the design and construction industry. Our Allied Membership program connects you to members of your collective design team.

03 WHY JOIN?

Over 90% of architects in Iowa are our members, so when you join us, you're guaranteed connections. There are, of course, a few other perks...keep reading.

04 THE PERKS

You get our: Weekly Newsletters, Quarterly Addenda, magazine, event invites, publicity, ability to host educational events (Dine and Discovers), online profile, reduced price convention booths, free career center ads, and more.

05 THE PERKS CONT.

Events designed for our Allied Members to get to know each other and our architect members—including architectural firm visits, business meetings, and socials. Allied Members visit 8 Iowa firms each year. Socials (open to all sponsoring Allies) allow you to interact with all area members.

“Being a part of the AIA Iowa Allied Membership has helped me develop relationships with and gain access to the design community that I could not have done on my own.”

The return on our Allied membership investment has significantly increased sales of our products through-out Iowa.”

DALE MULLIKIN, AIA IOWA ALLIED MEMBER
