AIA LAS VEGAS JOB ANNOUNCEMENT POLICY

In an effort to provide assistance to AIA members seeking employment in Las Vegas, the Chapter has established a system of sending email announcements to members. This has caused concern by some firm owners in that the internet systems in their offices are being used to encourage their employees to seek employment elsewhere. This is clearly not the intent of the Chapter, therefore, the following policy will be adopted upon approval of the Board of Directors.

AIA Las Vegas will not utilize the email system to announce positions and job opportunities.

The Chapter will only provide notice of positions and job opportunities on the AIA Las Vegas website, through the AIA Las Vegas Facebook page, and via weekly or monthly (newsletter) notices to members.

AIA Las Vegas will no longer provide this service without charge but will instead establish a fee for announcing and posting positions and job opportunities therefore becoming an income source for the Chapter.

This policy will be monitored over the next six months (June 2013 – December 2013) to determine effectiveness and will be re-evaluated and revised as necessary.
