502 Rigsbee Ave | Durham, NC
4. **MATTHEW KONAR**  
611 W Club Blvd | Durham, NC  
open until 9pm

FIRM  
CRAWL

## 1ST FRIDAY FIRM CRAWL

April is Architecture Month and the American Institute of Architects Triangle is celebrating by inviting you into their office spaces so you can see firsthand what architects do!

## EVER WONDER WHAT ARCHITECTS REALLY DO?

The practice of architecture is about more than designing buildings. Most projects require architects to be big picture thinkers and to consider much more than just the 'site' for a project when designing a building. These considerations include the surrounding culture and context of a place, budget, aesthetics, and the impact the building will have on the community and the environment for many years to come.

## JOIN THE CRAWL AND YOU WILL:

- Meet and speak with the architects that work in and shape your community.
- See the inner workings of what it takes to design a building - sketches, models, renderings, and more.
- Share with architects your visions for your community.
