

Group Accident Insurance:

No one likes to think about the possibility of an accident, but the likelihood — as well as the havoc it can cause for families — is very real. Whether it's an automobile accident, sports injury or the inevitable slip-and-fall, an accident can bring about not only lifestyle challenges but tangible economic ones as well. And it's not a few Americans who are impacted each year by these occurrences, it's literally millions of them. Health insurance can offset many of the treatment costs, but there are "hidden" costs as well: time lost from work, satisfying deductibles, paying co-pays. And don't forget medications, convenient meals for the family and transportation to and from doctor visits.

As a safety net against all the incremental burdens and expenses an accidental injury can cause, Reliance Standard offers Voluntary Accident insurance (VAI). The VAI plan offers employers a valuable benefit at no direct cost and employees an excellent opportunity to purchase valuable guaranteed issue coverage, through convenient payroll deduction.

Critical Illness Insurance:

Reliance Standard's Voluntary Group Critical Illness insurance provides a fixed, lump-sum benefit when critical illness strikes. This includes heart attack, stroke, paralysis and more. The VCI plan offers employers a valuable benefit at no direct cost and offers employees an excellent opportunity to purchase valuable coverage in increments that are right for their family, through convenient payroll deduction. These benefits are paid directly to the insured and may be used for any reason, from deductibles and prescriptions to transportation and child care.
