Educators Benefit Services (EBS) has selected Kaiser Permanente as a health benefits solution for our member schools offering premium rates typically available only to very large organizations. Here are some highlights of the program:

- The highly coordinated Kaiser Permanente medical care program allows for great cost control. Their evidence-based medical guidelines, e-prescribing, and electronic medical record all work collaboratively to keep costs low while delivering efficient quality care.
- Health plan rates are discounted to reflect EBS’ group size of more than 2,000 employees.
- Renewals are based on plan design, demographics, and past utilization.
- Your school’s health plan can be implemented at any time.

With the large-group buying power of EBS, your school’s health care dollar should go farther. Please contact EBS at 410-590-6590 if you would like to learn more or to see a proposal from Kaiser Permanente.
