Find the care that’s right for you and your family.

The UnitedHealth Premium® program can help you choose a doctor with confidence.
Get the support you need.

Choosing a doctor is one of the most important health decisions you’ll make. The UnitedHealth Premium program can help you find doctors who are right for you and your family.
Confidence.

Studies show that people who actively engage in their health care decisions have fewer hospitalizations, fewer emergency visits, higher utilization of preventive care, and overall lower medical costs.

You can take an active part in your health by seeking out and choosing quality, cost-efficient care. The UnitedHealth Premium program can help.

The Premium designation makes it easy for you to find doctors who meet national standards for quality and local market benchmarks for cost efficiency. That way, you can review your options and choose a doctor with confidence.

Learn more at [UnitedHealthPremium.com](http://UnitedHealthPremium.com).

The choice is yours.

The UnitedHealth Premium program can help you find the care you want. The program evaluates doctors in 25 different medical specialties, using national standards for quality and local benchmarks for cost efficiency. You can use this information to help you choose the care that’s right for you.

Make the most of your benefits.

Members in health plans that offer tiered benefits may pay lower co-payments and co-insurance amounts for services provided by UnitedHealth Premium Tier 1 physicians.

If a doctor does not have a Premium designation, it does not mean he or she provides a lower standard of care. It could mean that the data available to us was not sufficient to include the doctor in the program. All doctors who are part of the UnitedHealthcare network must meet our credentialing requirements (separate from the Premium program).
The UnitedHealth Premium \textsuperscript{®} designation program is a resource for informational purposes only. Designations are displayed in UnitedHealthcare online physician directories at myuhc.com \textsuperscript{®}. You should always visit myuhc.com for the most current information. Premium designations are a guide to choosing a physician and may be used as one of many factors you consider when choosing a physician. If you already have a physician, you may also wish to confer with him or her for advice on selecting other physicians. Physician evaluations have a risk of error and should not be the sole basis for selecting a physician. Please visit myuhc.com for detailed program information and methodologies.

Only individual physicians that meet UnitedHealth Premium designation criteria, or physicians in designated specialties who are part of medical groups that meet UnitedHealth Premium criteria for group practices and who have sufficient claims data for analysis, may be designated. All physicians that contract with UnitedHealthcare have met credentialing requirements. Regardless of designation, plan enrollees have access to physicians in the UnitedHealthcare network as described in their benefit plan. Specialties for which there are no quality guidelines currently established in the program are excluded from evaluation and are noted as such.

The assessment result “Not Enough Data to Assess” is not an indicator of the total number of patients treated by the physician or the number of procedures performed by the physician. Rather, it reflects the statistical requirements of the Premium designation program, which includes only health plan claims associated with specific program measures and relevant to the physician’s designated specialty. In some cases, there may not be enough data to complete the analytic process from a statistical standpoint.

Insurance coverage provided by or through UnitedHealthcare Insurance Company or its affiliates. Administrative services provided by United HealthCare Services, Inc. or their affiliates.

### UnitedHealth Premium specialties

New specialties added in 2014 are in bold.

- Orthopaedics – Hip/Knee
- Orthopaedics – Shoulder/Elbow
- Orthopaedics – Spine
- Orthopaedics – Sports Medicine
- Pediatrics
- Pulmonology
- Rheumatology
- Urology

#### Meet Tekoa Kuntz

Tekoa needed heart surgery. Before he was even born, UnitedHealthcare helped his mom and dad find a Premium surgeon at a children’s hospital that is recognized for treating complex heart conditions. Four years later – and after three surgeries – Tekoa loves to go to the pool. And he can leap off the couch like a super hero.

“Everyone always asks how he’s doing,” his dad says. “Well, he’s great – cape and all. He’s a super hero. He’s my super hero.”

Tekoa is also featured on the cover of this brochure.
