1. What are the possible UnitedHealth Premium designations?

There are several possible Premium designations for a doctor. Doctors who have met the criteria for quality and/or cost efficiency could have one of these 4 UnitedHealth Premium designations. These designations are shown on myuhc.com and in provider directories.

- **Premium Care Physician**: The physician meets the UnitedHealth Premium program quality and cost-efficient care criteria.
- **Quality Care Physician**: This physician meets the UnitedHealth Premium program quality care criteria but does not meet the program’s cost-efficient care criteria or is not evaluated for cost-efficient care.
- **Does Not Meet Premium Quality Criteria**: The physician does not meet the UnitedHealth Premium program quality criteria so the physician is not eligible for a Premium designation.
- **Not Evaluated for Premium Care**: The physician’s specialty is not evaluated in the UnitedHealth Premium program, the physician does not have enough claims data for program evaluation or the physician’s program evaluation is in process.

If a doctor does not have a Premium designation, it does not mean he or she provides a lower standard of care. It could mean that the data available to us was not sufficient to make a determination.
