

Updates to your prescription benefits

Effective May 1, 2023

Advantage 3-Tier PDL update summary

Dear Valued Customer:

We are pleased to announce our **Advantage 3-Tier Prescription Drug List (PDL)** pharmacy benefit updates for May 1, 2023. Our PDL Management Committee carefully reviews and evaluates prescription medications to place them in tiers corresponding to their overall health care value. By managing pharmacy benefits responsibly, we are able to provide integrated pharmacy benefit solutions for our customers and affordable medications for our members.

We will notify affected members through a targeted letter by April 1, 2023, but you may want to share this summary with your enrollees. If you have questions regarding the PDL and benefit plan updates listed below, please contact your broker or UnitedHealthcare representative.

Tier 1 Lowest-cost medications	Tier 2 Mid-range cost	Tier 3 Highest-cost

Prescription drugs excluded from benefit coverage^{1,2}

We evaluate prescription drugs based on their total value, including how a drug works and how much it costs. When several drugs work in the same way, we may choose to exclude the higher-cost option. Effective May 1, 2023, the drugs listed below may be excluded from coverage or you may need to get a Prior Authorization. Sign into your online account to check which drugs your plan covers and if there are any actions you need to take.

Therapeutic Use	Medication Name	Alternative Treatment Option(s)
ADHD	Relexxii (Methylphenidate extended-release)	methylphenidate extended-release capsules (generic Metadate CD, Ritalin LA), Adderall XR, Concerta
