Health care resources in your hands.

Health4Me is designed to make managing health care a lot simpler. You can easily access your health plan ID card, benefit amounts, account balances and Personal Health Records. You can manage claims, estimate costs and find nearby providers and quick care facilities anytime and anywhere. Health4Me allows you to personalize the interface and even talk to someone at the push of a button if you have questions.
Estimate costs and see quality and cost-efficiency ratings

With the myHealthcare Cost Estimator tool on Health4Me, you can estimate out-of-pocket costs up front. By simply entering a procedure or condition, you can see how estimated costs can differ from provider to provider and facility to facility. You will even see which providers have UnitedHealth Premium® designations for meeting quality and cost-efficiency measures. Understanding the cost and quality ratings may help you make more informed health care decisions.
Information at your fingertips.

Having access to your health plan on your phone allows you to conveniently view and share important information. You can email or fax your family’s health plan ID cards, review claims and check account balances and benefit amounts. Plus, the Personal Health Record feature allows you to collect, track and share past and current information about your health.
A roadmap to health.

Health4Me lets you find the doctor or facility you need when you’re on the go. Anytime. Anywhere. You can search by what’s closest to your current location, or by the type of care you may need.
Personal care.

And while the control that Health4Me offers is nice, the app can also connect you with helpful professionals when you need them. The Easy Connect feature asks you what you need help with, then has a Health Advisor contact you with the appropriate information. And NurseLine℠ can put you in touch with a caring nurse 24 hours a day, seven days a week.

“Hello, how may I help with your claim?”

We'll call you.

Every Monday-Friday, between the hours of 7AM-7PM CST, if you have a question about anything, we can help. Just let us know what you need help with and we’ll call you back on the number you provide.
