

PLANNING SESSION: 2025 Fall Convention

Wednesday, November 20th, 2024
9:00 a.m. – 12:00 p.m. MST

Burns & McDonnell
9191 S. Jamaica St.
Englewood, CO 80112

Virtual option to join via Teams available

Description

Alltricity Network members are invited to help plan the 2025 Alltricity Network Fall Convention. As part of the planning process, members are encouraged to suggest topics and speakers for the Fall Convention. Presentation topics should be senior management focused. The topics can range from a CEO's vision of the future to project case studies. Bring your topic and/or speaker suggestions to this meeting. Senior executive and C-level speakers preferred.

Who Should Attend

The entire membership is invited to help plan the 2025 Alltricity Network Fall Convention. Member companies are encouraged to send at least one representative to this planning session.

Fall Convention Background

The Alltricity Network Fall Convention is an upper management meeting that address subjects from various departments/areas. The goal of the convention is to provide a relaxed forum for utility management to gather for networking and education. The educational presentations include a future vision and forecasting trends, current and future projects, lessons learned, technology, regulation, compliance, public policy, fuel strategies, workforce development and more, selected by Alltricity Network's leaders.

Planning Session Goals

- Brainstorm topics and critical issues for our industry, relevant to the Alltricity Network Fall Convention forum.
- Ensure those topics vital to you, your organization, and your employees are being addressed and pursued.
- Determine approximately 10 general session topics.
- Select representatives to make initial contact and secure speakers.

Alltricity Network's resources and annual events help everyone at your organization do their best. Content is designed to help attendees and members feel productive and knowledgeable as they get back to work armed with practical takeaways. Professional Development Hours certificates are given at each event, and members can even bring an Alltricity Network event to their location.

Alltricity Network Mission Statement

"Preparing the electric energy industry for the future through education and networking."

Events are focused on topics like plant management, public policy, the Smart Grid, power supply planning and projects, finance, system operations, generation, growth, OSHA, renewable technologies, safety, transmission, reliability, overhead and underground distribution, workforce issues, keeping rates low, giving back to the community, NERC/FERC, transmission line design, IT, grounding, arc flash, sustainability, customer service, green building, substation design, distribution line design, health, energy efficiency, security, management, customer service, government regulations, engineering and many other top concerns for the electric energy industry.

Education Mission

Programs Designed by Members to Address Member Needs

Alltricity Network's education program is designed to meet the needs of its members by expanding the knowledge base at every level within companies. From high-level conferences and executive forums to workshops that reinforce and build upon skills and operational practices, the membership drives the content of Alltricity Network products and services.

As technology, public policy and consumer satisfaction drive changes to your job faster than ever before, Alltricity Network helps you stay prepared with daily access to information that impacts your organization.

Education Sections

Content Related to Your Interests is Easy to Find

Alltricity Network education sections make your experience finding tangible value with the association easier than ever

before. In some ways, you've probably identified with an Alltricity Network section without even trying. Alltricity Network education sections include:

- Generation
- Transmission
- Distribution
- Safety
- Vital Issues
- NextGeneration Power Pioneers

Education Section Events

Events Dedicated to Critical Issues of the Day

In addition to the two annual signature events - the Spring Management, Engineering, & Operations Conference and the Fall Convention - Alltricity Network offers several events in each education section to cover the latest technologies, evolving trends and critical issues that aren't covered at core events. These events will zero in on your top priorities at any given time and may not repeat from year to year. These events can take the form of an Alltricity Network conference, workshop, webinar, or roundtable.

Roundtables

Discuss Your Priorities and Drive Alltricity Network Content

These forums allow you to meet in a setting that focuses on trust and peer-to-peer sharing. Alltricity Network roundtables serve as a catalyst for future program development. By increasing your participation in discussion forums and enhancing roundtables, you can maximize the potential of the Alltricity Network community and network with contacts throughout the year—whether you're at an Alltricity Network event, your desk, or in the field.

Identify your Alltricity Network Education Section

Alltricity Network Benefits Start at www.AlltricityNetwork.org

Identify your interests by updating your profile on www.AlltricityNetwork.org, then watch for the content and benefits of your education section in your inbox. You can select the education section(s) you wish to participate in, along with identifying your specific area of expertise and responsibility.
