March 19, 2020

Please be informed that in respect of the Coronavirus (COVID-19) situation, Braun's current assessment is as follows:

As of this writing Braun has had no supply interruptions as a result of the virus and we feel confident in our ability to continue to manufacture products. In most cases Braun has multiple approved sources for components that go into our machines as well as products supporting the aftermarket parts business. Because of this we feel strongly that we will be able to continue to support all of our customers' needs as we have in the past, however, should a disruption occur, we will immediately notify our trusted customers of any delays.

Our number one concern is the safety and well-being of our employees and those of our valued customer base.

For more information or to send us an email with questions, please visit www.gabraun.com/COVID-19.
