October 2023 InfoBreak

This update is a tool to keep alPha's members apprised of the latest news in public health including provincial announcements, legislation, alPha activities, correspondence, and events. Visit us at alphaweb.org.

**Leader to Leader - A Message from the alPha Executive Committee
- October 2023**

As we move further into fall, we know many of you are working hard on keeping our populations healthy during our annual, predictable respiratory disease cycle occurring in Ontario. We're encouraged for a better fall season as diligent work has been undertaken to improve upon last year.

Work continues on the Strengthening Public Health change initiative, collaborating with the Office of the Chief Medical Officer of Health. The Ministry of Health has stated their

goal is to enhance capacity, stability and sustainability in local public health and deliver more equitable health outcomes for all Ontarians. The alPHa Board, with the alPHa Executive Committee taking the lead, continues to work diligently on your behalf. We're taking every opportunity to bring the perspectives of local public health — both staff and governance — to our colleagues at the OCMOH and the Ministry. Ongoing collaborations continue with key stakeholders who are similarly impacted.

alPHa celebrates its strong reciprocal relationships and two-way communications with key government officials and important stakeholders. Recently, alPHa representatives have met with Dr. Kieran Moore, Chief Medical Officer of Health & ADM, Ministry of Health and his staff at several stakeholder meetings.

Thank you to Dr. Kieran Moore and Michael Sherar for their attendance at the alPHa Board Meeting on September 21, 2023. And an additional thank you to Michael Sherar for also attending the alPHa Executive Committee meeting on September 15, 2023.

alPHa's Fall Symposium and Workshops, taking place November 22-24, 2023, will have key events with a dynamic agenda, line-up, and meetings. This highly anticipated symposium will amplify the critical role, value, and benefit of Ontario's local public health system. Thank you to the University of Toronto's Dalla Lana School of Public Health and the Eastern Ontario Health Unit for their generous support of these events.

With one unified voice, the alPHa Board and its communications continue to represent the best interests of Ontario's public health system.

Sincerely,

alPHa Executive Committee

Update from the Ministry of Health: Strengthening Public Health

The Ministry of Health has established a Voluntary Merger Key Informant Group, comprising public health sector leaders from a cross-section of Local Public Health Agencies (LPHAs) and associations, including Board of Health members, CEOs, MOHs,

municipal representatives, alPHa and AMO. alPHa representatives include Wess Garrod, Trudy Sachowski, Carmen McGregor, Dr. Hsiu-Li Wang, Dr. Lianne Catton, Dr. Piotr Oglaza, Cynthia St. John, Marilyn Herbacz, and Loretta Ryan.

The Key Informant Group was established by the Ministry on a short-term basis to provide advice on the development of the voluntary merger process. The Group has met twice so far to review draft outcomes, objectives, considerations and to provide advice on the merger proposal processes.

Information on the voluntary mergers process will be provided by the Ministry as soon as possible, likely the last week of October. It is recognized, however, by the Ministry that LPHAs may want to proceed with planning in the meantime and the Ministry encourages LPHAs to begin considering options and engaging in discussion with surrounding LPHAs in relation to possible future mergers, provided LPHAs maintain the flexibility to consider merger objectives and parameters when these are released.

LPHAs will be invited by the Ministry to submit proposals through the ASP process. The Ministry anticipates the proposal template will be released in December 2023 and due back to the Ministry in March 2024.

Register for the alPHa 2023 Fall Symposium, Section Meetings, and Workshops

Registration for the alPHa 2023 Fall Symposium, Section Meetings, and Workshops is now open! This event will amplify the critical role, value, and benefit of Ontario's local public health system. Registration is \$399 plus HST and you can register [here](#).

Join us for online plenary sessions with public health leaders in the morning followed by the BOH Section and COMOH Section meetings in the afternoon.

Attendees are invited, at no additional cost, to participate in workshops called: *How to Use a Human Rights Based Framework in the Workplace* from 1-4 p.m. on November 22 and the *Importance of Risk Communication in a Changing World* from 1-4 p.m. on November 23. Please note, the previously scheduled *Climate Change and Public Health* workshop will now be held during the 2024 Winter Symposium.

This gathering provides a unique opportunity to connect with public health leaders from all corners of the province. Together, we will delve into shared obstacles and strengthen the future of public health. Expect to gain access to invaluable tools and resources that will empower local public health and their communities.

BOH members, speakers at the BOH Section meeting include: Carmen McGregor, BOH Section Chair; Loretta Ryan, Executive Director, aPHa; James LeNoury, Legal Counsel, aPHa; Ian Cummins, Director, Ontario Health Teams (OHTs), Strategy, Ontario Health; Lindsay Jones, Director of Public Policy, AMO, Michael Jacek, Senior Advisor, AMO, and Daniela Spagnuolo, Policy Advisor, AMO. **NEW:** Sabine Matheson, Principal, StrategyCorp has joined the speaking lineup.

For further details, [check out our flyer, Symposium program](#) (last updated on October 17), and [BOH Section Meeting agenda](#) (last updated on October 16). Additionally, the website has been updated with the latest content. Be sure to take a look at it regularly for updates!

Association of Local Public Health Agencies

2023 Fall Symposium,
Section Meetings
and Workshops

Hold the Date!

ALPHA's Fall Symposium, Section Meetings, and workshops will continue the important conversations on the critical role, value, and benefit of Ontario's local public health system.

On November 24th, participate in online plenary sessions with public health leaders in the morning, followed by BOH and COMOH Section meetings in the afternoon.

Attendees will also be invited, at no additional cost, to participate in pre-symposium workshops on November 22nd & 23rd:

- How to Use a Human Rights Based Framework in the Workplace
- Importance of Risk Communication in a Changing World

Registration will open in September (date TBD) and will cost \$399 plus HST.

Dalla Lana
School of Public Health

Hosted by ALPHA with generous support from the University of Toronto's Dalla Lana School of Public Health and Eastern Ontario Health Unit.

Please note that you must be an ALPHA member to participate in the Pre-Symposium Workshops, Symposium or Section meetings.

**alPHA Fall Symposium & Section Meetings
November 24, 2023**

*Draft as of October 17, 2023 Note: Meeting is hosted via Zoom Webinar
8:30 am to 4:30 pm - All times are Eastern Time (ET)*

<p>Public Health Matters Infographics and Videos We have a full program for the day and will be getting things underway right at 8:30 am! Attendees are encouraged to get started a few minutes early to check their internet connection, log into the Zoom webinar, test audio settings etc. alPHA's Public Health Matters infographics and videos will play at this time and again during the morning break.</p>	8:15 am - 8:30 am
<p>Call to Order, Greetings and Land Acknowledgement Speaker: Dr. Charles Gardner, President, alPHA</p> <p>Welcoming Remarks Hon. Doug Ford, Premier of Ontario and Minister of Intergovernmental Affairs <i>Invited</i> Hon. Sylvia Jones, Deputy Premier and Minister of Health <i>Invited</i> Dr. Theresa Tam, Chief Public Health Officer <i>Invited</i> Colin Best, President, Association of Municipalities of Ontario <i>Invited</i> Professor France Gagnon, Acting Dean, Dalla Lana School of Public Health <i>Invited</i></p>	8:30 am - 8:45 am
<p>Update from the Chief Medical Officer of Health Speaker: Dr. Kieran Moore, Chief Medical Officer of Health Moderator: Dr. Charles Gardner, President, alPHA</p>	8:45 am - 9:45 am
<p>Reflections from Southwestern Public Health's Merger Speaker: Cynthia St. John, Chief Executive Officer, Southwestern Public Health Moderator: Emma Tucker, Affiliate Representative, alPHA Board</p> <p>After five years as a newly merged public health unit and adding in the largest pandemic response in a generation, Cynthia will share her reflections on the successes and on the challenges associated with developing a newly merged public health unit. She will cover the early days of how the Boards of Health connected to present day and learnings along the way.</p>	9:45 am - 10:15 am
<p>Break</p>	10:15 am - 10:45 am
<p>alPHA Strategic Plan Session Speaker: Maria Sánchez-Keane, Principal, Centre for Organizational Effectiveness</p> <p>Strategic planning is a process in which an organization defines their vision for the future and identifies the organization's goals and objectives. Join public health colleagues to learn more about alPHA's 2024 to 2026 Strategic Plan.</p>	10:45 am - 11:45 am

<p>Not-for-Profit Corporations Act, 2010 (ONCA) Update (30 minutes) Speakers: John Allen, Partner, Allen & Malek LLP, and Dr. Robert Kyle, Chair, alPHA-ONCA Compliance Working Group and Steven Rebellato, member, alPHA-ONCA Compliance Working Group Moderator: Trudy Sachowski, Past President, alPHA</p> <p>alPHA representatives and legal counsel will provide an update on the changes to the current Constitution, as required, to transition to a by-law to come into compliance with the Not-for-Profit Corporations Act, 2010.</p>	11:45 am - 12:15 pm
<p>Lunch Break Take a break, grab a sandwich, and come back for an important update from PHO.</p>	12:15 pm - 1:00 pm
<p>Public Health Ontario Update Michael Sherar, President and Chief Executive Officer Colleen Geiger, Chief, Strategy and Stakeholder Relations, Research, Information and Knowledge Dr. Jessica Hopkins, Chief Health Protection and Emergency Preparedness Officer Dr. Samir Patel, Chief Laboratory Science and Operations Officer Dr. Tamara Wallington, Chief Health Promotion and Environmental Health Officer Moderator: Dr. Hsiu-Li Wang, Chair, COMOH Section</p> <p>The development of Public Health Ontario (PHO)'s next Strategic Plan (2024-29) is well underway. Join Michael Sherar for an update on PHO's strategic planning process. This will be followed by a panel of PHO executives describing the services that PHO provides to local public health units.</p>	1:00 pm - 1:30 pm
<p>Section Meetings Members of the BOH Section and COMOH Section meet separately in the afternoon. Boards of Health members are asked to stay with the Zoom webinar platform. COMOH members will join a separate meeting. Agendas for these meetings are provided separately.</p>	1:30 pm - 4:30 pm

This event is hosted by alPHA with generous support from:

How to Use a Human Rights Based Framework in the Workplace

Human Rights

Lights, camera, action!

As part of the alpha Fall 2023 Symposium taking place on November 22-24, there is an opportunity to showcase recent videos from public health units from across the province.

Has your PHU posted a short public health video on your website or YouTube you'd like to share with Symposium attendees? The Symposium is an excellent opportunity to showcase and share your communications work on key public health issues!

Here's how to submit:

- Send the title and link to your PHU's video(s) to info@alphaweb.org
- Send only the URL(s) and do not send any video files.
- YouTube videos are preferred.
- Clips can be live-action or animated.
- Video(s) should be short and can be no longer than five minutes in length.

- Clips should be recently recorded (2023)/stand the test of time from when the videos were recorded.
- Variety is welcomed as we'd like to cover a broad range of public health topics.
- Videos must be from your PHU and not from another organization.
- Maximum of three (3) videos can be submitted.

The deadline to submit information on your video clip is 4 p.m. on Friday, November 10th. We look forward to receiving your submissions!

Thank you to the public health agencies who have already responded. We appreciate your submissions and participation!

Ontario's Not-for-Profit Corporations Act (ONCA)

Ontario's [Not-for-Profit Corporations Act \(ONCA\)](#) is a significant legislative update that replaced Ontario's Corporations Act on October 19, 2021 regarding not-for-profit corporations including alPHA. The ONCA was introduced with the aim of enhancing the legal framework governing not-for-profit organizations in the province. It provides a comprehensive set of regulations, tailored to meet the unique needs of non-profit corporations, while promoting transparency, accountability, and effective governance. alPHA has until October 18, 2024, to review, update and file governing documents with the Government of Ontario. In April 2023, alPHA formed an ONCA Compliance Working Group comprised of members of the [alPHA Executive Committee](#) along with Dr. Robert Kyle as the Chair and Loretta Ryan as staff. The purpose of the working group is to review alPHA's current Constitution and, in consultation with legal counsel, make recommendations to the alPHA Board of Directors regarding changes to the current Constitution, as required, as it transitions to a by-law to come into compliance with the Act. The goal is to obtain approval of the By-law by the membership at the alPHA Conference and AGM in June 2024. Members of the ONCA Compliance Working Group will provide updates at the Fall and Winter Symposiums, and you can read more in the [Executive Summary](#).

Public Health Matters: A Business Case for Local Public Health now available in French

UNE QUESTION DE SANTÉ PUBLIQUE

Assurer le leadership en matière de gestion de la santé publique

alPha
Association of Local PUBLIC HEALTH Agencies
www.alphaeb.org

UNE ANALYSE DE LA RENTABILITÉ DE LA SANTÉ PUBLIQUE

La santé publique soutient la santé pour tous. Les agences de santé publique locales offrent des programmes et des services qui favorisent le bien-être, la prévention des maladies et des blessures et qui protègent la santé de la population. Notre travail, souvent en collaboration avec des partenaires locaux au sein du système de santé élargi, permet d'avoir une population en meilleure santé sans devoir puiser parmi des ressources en santé souvent dispendieuses et limitées.

NOUS DEMANDONS

Que les décideurs appuient les buts et les objectifs de la santé publique à l'aide de ressources soutenues et suffisantes pour assurer la stabilité du réseau d'agences de santé publique locales.

La santé publique locale demeure essentielle à la fois pour la santé de la population ontarienne ainsi que pour la prospérité économique qui y est associée.

La santé publique locale soutient le gouvernement de l'Ontario dont les objectifs sont l'efficacité, l'efficience et le rapport qualité-prix.

INVESTISSEMENT DANS LA SANTÉ PUBLIQUE LOCALE

L'investissement dans la santé publique locale implique le rendement suivant :

REDUCTION DES HOSPITALISATIONS ET DES DÉCÈS

Les mesures de santé publique telles que la vaccination, la gestion de cas et des contacts, l'intervention en cas d'épidémie, le contrôle des infections dans la communauté ont permis de diminuer 13 fois plus d'hospitalisations durant la pandémie de COVID-19.

La santé publique locale est également essentielle pour répondre aux nouveaux risques de maladies infectieuses telles que la mpox, à la réémergence d'agents pathogènes comme la poliomyélite et la tuberculose, et au retour d'épidémies saisonnières annuelles telles que la grippe et le virus respiratoire syncytial (VRS).

DES COMMUNAUTÉS SÛRES

La santé publique locale protège nos communautés en travaillant avec les municipalités pour fournir de l'eau potable, des aliments sains, ainsi que des mesures de préparation et d'intervention en cas d'urgence.

DES ENFANTS EN SANTÉ

La santé publique locale protège les enfants en favorisant une croissance et un développement sains, la vaccination, le dépistage dentaire et la santé scolaire.

Evaluation de la santé de la population

Équité en matière de santé

Pratiques efficaces liées à la santé publique

Gestion des urgences

Prévention des maladies chroniques et bien-être

Salubrité des aliments

Environnements sains

UNE QUESTION DE SANTÉ PUBLIQUE

Association of Local PUBLIC HEALTH Agencies

LA SANTÉ PUBLIQUE PERMET DES ÉCONOMIES DE SOINS DE SANTÉ

FINANCEMENT

La santé publique locale nécessite un financement de base suffisant et durable du gouvernement provincial.

L'interruption du financement de redressement (46,8 M\$) de la province équivaldrait à l'augmentation des prélèvements municipaux de 14,76 % (316,7 M\$), ou à une diminution de 3,78 % (1,24 milliard de dollars) du financement global des programmes de santé publique locale.

Un retour à l'ancienne formule de partage des coûts entre la province et les municipalités pour tous les programmes et services aiderait à compenser cette perte.

SE RÉTABLIR DE LA COVID-19

À la suite de la pandémie de COVID-19, les agences de santé publique locales se sont efforcées de remettre sur pied l'ensemble de leurs programmes, des progrès étant réalisés face aux priorités de rétablissement (Public Health, Resilience in Ontario - disponible en anglais) et à la réponse aux virus respiratoires saisonniers.

La promotion de la santé et la prévention des maladies sont des rôles obligatoires pour les agences locales de santé publique. Ceci faisant, ces agences travaillent également avec le ministère de la Santé et certains intervenants clés de la lutte contre les maladies chroniques telles que le diabète, les maladies cardiaques et le cancer.

LES INÉQUITÉS EN SANTÉ DUES À LA POSITION SOCIOÉCONOMIQUE ONT CONTRIBUÉ À 15 % DE TOUS LES COÛTS DES SOINS DE SANTÉ, SOIT 60,7 MILLIARDS DE DOLLARS

L'amélioration du tabagisme, de l'alcool, de l'alimentation et de l'activité physique pourrait éviter 89 milliards de dollars en coûts de soins de santé, soit 22 % de tous les coûts des soins de santé sur 10 ans.

La consommation d'alcool est un autre contributeur majeur aux coûts des soins de santé et soins sociaux. On estime que la consommation d'alcool coûte à l'économie ontarienne 5,3 milliards de dollars en soins de santé, en application de la loi, en services correctionnels, en prévention, en perte de productivité et en mortalité prématurée.

Une estimation fixe les coûts du diabète au Canada à 15,36 milliards de dollars pour le système de la santé sur une période de 10 ans, touchant près de 10 % de la population.

La promotion de l'abandon du tabac et de la lutte antitabac a réduit globalement les coûts des soins de santé de 1,7 %, soit 4,2 milliards de dollars économisés sur 10 ans.

Croissance et développement sain

Immunisation

Prévention et contrôle des maladies infectieuses et transmissibles

Santé buccodentaire

Salubrité de l'eau

Usage de substance et prévention des blessures

The latest infographic, which covers a business case for public health, is now available in French. It covers topics such as reduced hospitalizations, safe communities, and healthy children. To read more, click [here](#).

alPha would also like to thank Eastern Ontario Health Unit for translating the infographic.

Calling all Ontario Boards of Health: Level up your expertise with our NEW training courses designed just for you!

Don't miss this unique opportunity to enhance your knowledge and strengthen local public health leadership in Ontario.

BOH Governance training course
Master public health governance and Ontario's Public Health Standards. You'll learn all about public health legislation, funding, accountability, roles, structures, and much more. Gain insights into leadership and services that drive excellence in your unit.

Social Determinants of Health training course
Explore the impact of Social Determinants of Health on public health and municipal governments. Understand the context, explore Maslow's Hierarchy of Needs, and examine various SDOH diagrams to better serve your communities.

Speakers are Monika Turner and Loretta Ryan.

Reserve your spot for in-person or virtual training now! Visit [our website](#) to learn more about the costs for Public Health Units (PHUs). Let's shape a healthier future together.

Additionally, thank you to all the public health agencies who have shown interest in our BOH courses. alpha staff are currently coordinating the bookings and are pleased to see the uptake.

Improve your mental health with these tips

World Mental Health Day occurred on October 10 and alPha marked the day by launching a new Workplace Health and Wellness infographic with mental health resources. alPha's former Workplace Health and Wellness program placement student, Franger Jimenez, continues to be engaged with alPha and created the infographic to help members better address and manage their mental health. To read more, click [here](#). Additionally, more Workplace Health and Wellness Resources for members to use are available [here](#).

Alcohol labelling meeting with Health Canada

The alPHa Executive Committee met with Health Canada on Friday, October 6, 2023. They discussed alPHa's support of [Bill S-254](#), as noted in our [recent Correspondence](#), which calls for warning labels on alcoholic beverages.

Affiliates update

Ontario Association of Public Health Nursing Leaders (OPHNL)

OPHNL is currently working with the Center for Organizational Effectiveness to develop a 5-year strategic plan. Our aim is to refresh our [current strategic plan](#) to meet the needs of public health nursing leaders across Ontario and create strategic alignment with the priorities of our interdisciplinary public health colleagues. The finalized plan will be presented to OPHNL members at our fall AGM on November 23, 2023.

Health Promotion Ontario

Health Promotion Ontario has released a [White Paper on the Value of Local Health Promotion in Ontario](#) and an accompanying [infographic](#). This paper outlines the critical role that health promotion plays in keeping people healthy and demonstrates the effectiveness of health promotion efforts from public health units across Ontario.

Ontario Dietitians in Public Health
Diététistes en santé publique de l'Ontario

Ontario Dietitians in Public Health

ODPH, in consultation with Indigenous Knowledge Keepers, has called on Health Canada to [recognize the historical truth of Canada's Food Guide](#). ODPH acknowledges that food has been used as a weapon against Indigenous peoples to disconnect them from their land, culture, language, identity and well-being. ODPH made a [submission to the Ministry of Municipal Affairs and Housing](#) focusing on sustainable food systems, climate change adaptation and mitigation, and the future health of Ontarians.

The Association of Supervisors of Public Health Inspectors of Ontario

ASPHIO has released the *ASPHIO White Paper: Highlighting the Vital Role of Public Health Inspectors within a Responsive and Effective Public Health Workforce* (link to be provided when available). The report highlights the crucial contributions made by public health inspectors during the pandemic, their importance in supporting the delivery of public health programs and services and the vital role of public health inspectors within a responsive and effective public health workforce. The recommendations in the report provide potential opportunities and solutions to strengthen the public health workforce, and to build upon the adaptability and versatility demonstrated by public health inspectors during the pandemic.

Public Health and AI update

Innovations in artificial intelligence (AI) through the use of large language models (LLMs), machine-learning and natural language processing continue to be seen in public health. Given the mainstream use of applications like Chat GPT (Microsoft), PHUs should consider organizational policy to manage use of AI applications given the risks associated with privacy, reliability, confidentiality and plagiarism. While a collaborative approach in sharing policy framework on AI innovation and staff use should be employed by PHUs given similar risks and activities conducted under the Ontario Public Health Standards, health units should also review the federal government's [Artificial Intelligence and Data Act \(AIDA\)](#) to protect Canadians and guide organizational use of AI.

BrokerLink Insurance

In partnership with alPHa, [BrokerLink](#) is proud to offer exclusive discounts on personal home and auto insurance to members. When you're shopping for insurance, you'll probably come across a lot of tips and information – but how much of what you read is actually true? Read our debunking common insurance myths [here](#).

Call for abstracts for TOPHC 2024

Do you want to help shape the conversation for TOPHC 2024? You can do so by submitting an abstract. **The deadline is October 20, 2023.** For more information on how to submit, click [here](#).

Boards of Health: Shared Resources

A resource [page](#) is available on alPHa's website for Board of Health members to facilitate the sharing of and access to orientation materials, best practices, by-laws, resolutions, and other resources. If you have a best practice, by-law or any other resource that you would like to make available, please send a file or a link with a brief description to gordon@alphaweb.org and for posting in the appropriate library.

After a three-year hiatus, Blue Cities is returning to Toronto!

The banner for the Blue Cities conference is divided into three sections. The left section is white and contains the text 'Canadian Water Network BLUE CITIES' with a small blue maple leaf icon, and 'October 24-25, 2023 Toronto, Ontario'. The middle section is green and features the heading 'Attention senior decision-makers!' followed by the text 'Join your peers and industry experts from across Canada to explore shared strategic goals and pathways to achieve them.' and a 'Register now' button. The right section is blue and has the heading 'Stay ahead of emerging trends' followed by three bullet points: 'Using wastewater-based surveillance to help protect public health.', 'Integrating wastewater-based surveillance into public health systems.', and 'Future of wastewater-based surveillance in Canada.'

Blue Cities, hosted by Canadian Water Network, is happening this October 24-25 in downtown Toronto. This year's conference includes a focus on water and public health protection. A national dialogue plenary featuring Dr. Bonnie Henry, B.C.'s provincial officer of health, will explore the future of wastewater-based surveillance in Canada. Other topics to be covered during the conference include ethics and equity related to wastewater-based surveillance, new developments in water monitoring for public health decision-making, and public health threats from water impacted by forest fires. Program and registration details can be found at bluecities.ca. More information about Blue Cities is also available [here](#).

Now is the perfect time to join and make RRFSS your source for local health data in 2024!

There are many reasons to choose RRFSS for your Health Unit Survey. 2024 data can be collected in one, two or all three cycles in the year. Sample size is also flexible and data can be collected by landline and cell phone (up to a 50 per cent/50 per cent mix). RRFSS has hundreds of pretested survey questions available on most health-related topics including the recent Climate Change questions, newly developed Sociodemographic questions on Gender, Sexual Orientation and Race, Use of and Barriers to Recreational, Social and Spiritual Supports for Older Adults module, Smoking, Vaping and Waterpipe by-laws Awareness.

In addition, RRFSS, in partnership with ISR, is offering three online Analysis Training Sessions in November (one per week). These are open to all Ontario health units and will provide attendees with the knowledge and skills required for analyzing RRFSS data and calculating weights. For further information about joining RRFSS or the Analysis Training Sessions, contact Lynne Russell, RRFSS Coordinator at: lynnerussell@rfss.ca or visit the RRFSS website: www.rfss.ca
