

TITLE: **Public Health Approach to Drug Policy**

SPONSOR: **Toronto Public Health**

WHEREAS governments around the world are considering different approaches to drugs, including the decriminalization of drug use and possession and legal regulation, including here in Canada for non-medical cannabis; and

WHEREAS a growing number of health officials and boards of health are calling for changes to our approach to drugs, especially in the midst of the opioid poisoning crisis in which the contaminated, unregulated supply of illegal drugs is the main contributor to the crisis; and

WHEREAS laws that criminalize people simply for using and possessing drugs have resulted in serious health and social harms, including forcing people into unsafe spaces and high-risk behaviours leading to HIV and HCV infection, resulting in criminal records that make it difficult to obtain employment and housing, and reinforcing negative stereotypes and judgements about people who use drugs; and

WHEREAS some groups are more impacted by our drug laws than others, including people who are homeless and/or living in poverty, people with mental health and substance use issues, people from racialized groups, Indigenous people, women and youth; and

WHEREAS a public health approach to drugs would be based on principles and strategies that have been shown to support healthy individuals, families and communities; and

WHEREAS countries that have decriminalized personal drug use and possession and invested in public health interventions have seen results, including decreases in HIV and overdose, decreases in costs to the criminal justice system, and improved police/community relationships; and

WHEREAS the evidence on the health and social harms of our current criminalization approach to illegal drugs as well as that of alternative approaches such as decriminalization and legal regulation strongly support the need to shift to a public health approach to drugs in Canada;

NOW THEREFORE BE IT RESOLVED that the federal government be urged to decriminalize the possession of all drugs for personal use, and scale up prevention, harm reduction and treatment services;

AND FURTHER that the federal government convene a task force, comprised of people who use drugs, family members, and policy, research and program experts in the areas of public health, human rights, substance use, mental health, and criminal justice, to explore options for the legal regulation of all drugs in Canada, based on a public health approach.

ACTION FROM CONFERENCE: *Carried as amended*
