

Level 3: Sit-on-Top Kayak Skills Assessment

Assessment Overview: This ACA Assessment Course is designed to evaluate a participant's ability to perform all of the skills listed along with demonstrating an appropriate level of knowledge. This assessment course provides the participant with the opportunity to receive documentation of having achieved a certain level of paddling ability. It is expected that participants interested in pursuing this award will have participated in a minimum of three, full day journeys, e.g. longer than 8 nautical miles per trip.

Essential Eligibility Criteria (EEC):

ACA courses are open to all individuals who acknowledge the ability to perform the following essential eligibility criteria.

1. Breathe independently (i.e., not require medical devices to sustain breathing)
2. Independently maintain sealed airway passages while under water
3. Independently hold head upright without neck / head support
4. Manage personal care independently or with assistance of a companion
5. Manage personal mobility independently or with a reasonable amount of assistance
6. Follow instructions and effectively communicate independently or with assistance of a companion
7. Independently turn from face-down to face-up and remain floating face up while wearing a properly fitted life jacket*
8. Get on / off or in / out of a paddlecraft independently or with a reasonable amount of assistance*
9. Independently get out and from under a capsized paddlecraft*
10. Remount or reenter the paddlecraft following deep water capsize independently or with a reasonable amount of assistance*
11. Maintain a safe body position while attempting skills, activities and rescues listed in the appropriate Course Outline, and have the ability to recognize and identify to others when such efforts would be unsafe given your personal situation*

** To participate in adaptive programs, participants must acknowledge only the first six EEC listed above. Entry-level adaptive programs will involve teaching and practicing EEC #7-11.*

Course Prerequisites: Must be an ACA member

Course Duration: This assessment is intended to be accomplished in a single day (8 hours); however, it may be conducted over a longer period of time at the assessor's discretion.

Course Location / Venue: The L3: Sit-on-Top Kayak Skills Assessment cannot be completed unless 2 of the following conditions necessary for assessment are present:

Level 3: Sit-on-Top Kayak Skills Assessment

- 10-15 knot winds
- 1-2 foot seas
- 1-2 foot breaking waves
- Note: If assessing in areas with tidal current, current must not exceed 2 knots.

Assessor: Level 3: Sit-on-Top Kayaking Instructor (or higher)

Class Ratio: 5 students : 1 Instructor; with an additional instructor or qualified assistant the ratio can be 10 : 2

Succeeding courses: Level 3: Coastal Kayak Skills Assessment
Level 3: Sit-on-Top Instructor Development Workshop

Equipment: Candidates shall come prepared to manage themselves on a day-long trip. The following is a list of required items:

- Sit-on-Top sea kayak equipped with static deck lines and adequate puncture proof floatation. Thigh straps are optional but recommended.
- Personal paddling equipment to include: U. S. Coast Guard approved, and sport specific, lifejacket (PFD), paddle, whistle, spare clothing, compass and paddling clothing suitable for immersion and appropriate to the conditions.
- Food and water for the day
- Any additional items that may be required on the water

Introduction, Expectations, & Logistics

- Welcome, introductions, paperwork
- Student & instructor course expectations and limitations
- Explain assessment procedure
- Course itinerary & site logistics
- Review waiver, assumption of risk, challenge by choice, medical disclosure
- About the ACA
- PFD policy (always wear on water)
- Appropriate personal behavior
- No alcohol / substance abuse
- Proper etiquette on & off the water
- Respect private property
- Practice Leave No Trace ethics

Assessment: Candidates will be assessed in two areas: Technical skills and knowledge.

Technical Skills

- Launching and landing
- Effective forward paddling
- Effective reverse paddling
- Rotate 360°
- Turning with forward momentum

Level 3: Sit-on-Top Kayak Skills Assessment

- Turning with reverse momentum
- Sideways movement—static
- Sideways movement with forward momentum
- Preventing capsize
- Deep water rescue
- Self-rescue
- Towing
- Use of sea anchors, anchors and trolley systems

Knowledge

- Weather (knowledge of changing weather conditions, weather resources and the impact of weather on kayakers)
- Basic navigation (interpret basic chart datum, plotting a course and adjusting for variation)
- Leave No Trace skills and ethics
- Group awareness and communication
- Hazard assessment and avoidance
- Recognition and avoidance of hypothermia and hyperthermia

Conclusion & Wrap Up:

- Group debrief / individual feedback
- Course limitations
- Importance of first aid & CPR
- Importance of additional instruction, practice, experience
- Importance of appropriate level of safety & rescue training
- Life sport / paddling options
- Local paddling groups / clubs
- Handouts / reference materials
- ACA membership forms
- Course evaluation
- Assessment cards (if applicable)

Level 3: Sit-on-Top Kayak Skills Assessment

Participant: _____ ACA # _____ Date: _____

Location and venue: _____

Rating: ✓ = Passing N = Needs more practice

Technical Skills: Participant must be able to demonstrate each of the technical skills in a safe, effective and efficient manner in L3 conditions. The focus of the assessment will be on achieving desired results in context rather than on specific technique, i.e., while performing authentic tasks in conditions.

TECHNICAL SKILLS	P / N	COMMENTS
Effective launching and landing—demonstrate launching and landing in a variety of contexts.		
Effective forward paddling—demonstrate the ability to maintain directional stability through a variety of techniques and maintain speed appropriate to the environment while paddling forward.		
Effective reverse paddling—demonstrate the ability to maintain directional stability while paddling in reverse.		
Rotate 360°—spin their kayak combined forward and reverse sweeps.		
Turning with forward momentum—demonstrate the ability to turn their kayak with a variety of techniques with forward momentum to include: bow rudders, stern rudder (to go straight) stern draw, stern pry and low brace turn.		
Turning with reverse momentum—demonstrate the ability to turn their kayak with their kayak moving in reverse.		
Sideways movement, static—demonstrate sideways movement using draw to the hip and sculling draw.		
Sideways movement with forward momentum—demonstrate sideways movement with forward momentum using a draw on the move or hanging draw.		
Preventing capsize—demonstrate the ability to prevent capsize using low and high braces, and sculling for support in a variety of		

Level 3: Sit-on-Top Kayak Skills Assessment

Deep water rescue—demonstrate a variety of rescues in L3 conditions.		
Self-rescue—demonstrate the ability to successfully self-rescue in conditions using the technique of their choice. If a device is required, such as a paddle float, then must be able to access, deploy, and re-store the device in a timely fashion.		
Towing—demonstrate proficiency in a variety of towing techniques to include: contact tows, rafted tows, inline tows, towing/carrying a swimmer, etc.		
Provide evidence of at least three day-trips of at least 8 nautical miles.		
Use of sea anchors, anchors and trolley systems—be able to describe their use and purpose.		

Knowledge: An individual’s knowledge shall be assessed using a variety of methods that may include: Observation, self-assessment, feedback, and questioning.

KNOWLEDGE	P / N	COMMENTS
Weather—able to explain the effect of weather on kayakers and show knowledge of various weather resources.		
Basic navigation—able to interpret basic chart datum, plot a course and adjust for variation.		
Leave No Trace (LNT) skills and ethics—possesses a fundamental knowledge of Leave No Trace (LNT) skills and ethics.		
Group awareness and communication—demonstrate an understanding and proper use of on water signals and the importance of maintaining a small group profile.		
Hazard assessment and avoidance—demonstrate an understanding of hazard assessment, and avoidance of same, both on and off the water.		
Recognition and avoidance of hypothermia and hyperthermia—demonstrate an understanding of the causes and prevention of both hyperthermia and hypothermia.		
Knowledge of gear storage/rigging for fishing.
