KNOW YOUR LIMITS

1. BE HONEST WITH YOURSELF
   If you don’t feel comfortable with the current conditions, return to shore.

2. THE RIGHT BOAT FOR THE CONDITIONS
   Know the capabilities of your craft and obtain additional trainings for whitewater, surf, tidal areas, or exposed waterways.

3. IMPAIRMENT = ACCIDENTS
   Drinking and drug use are dangerous for on-water activities. Boating Under the Influence (BUI) laws apply to all canoes, kayaks, and SUPs.
