American Coal
Economic, Abundant/Secure and Environmentally Sound

American Coal Council

2014 Buyers’ Guide
You’re there.

We’re there.

AIR PURIFICATION
Respiratory protection coupled with clear vision make your work safer.

GAS DETECTION
The Dräger X-am® series of personal gas monitors identify hazards quickly and accurately.

We have you covered.
When it comes to mining operations, you want to identify hazards sooner, work safer and minimize downtime. That’s where Dräger’s X-am® series of personal gas monitors and X-dock® calibration system can help you. We’ve made them durable and easy to use. All to keep things simple and efficient. Just how you want them.

Part, without the prior written consent of the ACC. Not be reproduced by any means, in whole or in part. The contents of this publication may not be reproduced by any means, in whole or in part, without the prior written consent of the ACC. The American Coal Council or its member companies. The Association supports activities and objectives that advance coal supply, consumption, transportation and trading.

Vision Statement
ACC advances the power, the promise & the pride of America's coal industry.

Mission Statement
American Coal Council (ACC) provides relevant educational programs, market intelligence, advocacy support and peer-to-peer networking forums to advance members' commercial and professional development interests.

ACC represents the collective interests of the American coal industry — from the hole-in-the-ground to the plug-in-the-wall – in advocating for coal as an economic, abundant and environmentally sound fuel source.

ACC serves as an essential resource for industry, policy makers and public interest groups. The Association supports activities and objectives that advance coal supply, consumption, transportation and trading.
Join more than 170 companies that recognize the importance of belonging to an association that serves as the pre-eminent business voice of the American coal industry and advocates for coal as an economic, abundant/secure and environmentally sound fuel source.

The American Coal Council (ACC) is an alliance of coal, utility, trading, transportation, terminal and coal support service companies, advocating a non-adversarial, partnering approach to business.

The ACC facilitates the lawful exchange of ideas and information regarding the American coal industry. It serves as an essential resource for companies that mine, sell, trade, transport or consume American coal. The ACC also serves as a resource for those wishing to expand or enhance business relationships in North American and international coal markets.

Membership benefits include educational programming and technical seminars, advocacy support, broad-based networking, website, electronic and printed membership directory inclusion, newsletter and members-only electronic updates, database resources, policy input, referrals and discounts on events and industry publications.

Please send me membership information!

COAL KEEPS THE LIGHTS ON. WE KEEP THE COAL MOVING.

At Norfolk Southern, we’re investing in technology and resources to add value for our coal customers. This includes one of America’s largest coal fleets and hybrid cars with lower weights to increase capacity. Plus, at Lamberts Point, our dedicated coal transload facility in Norfolk, we can make custom blends. Whether you’re a shipper, receiver, or partner, rest assured we’ll go the extra mile for you.

Visit nscp.com for more information.
