THE PERFECTION OF DIAMONDS

The Lorelei Bloom engagement ring

Habib Jewels held an interesting and highly enlightening workshop by James Dimick for members of the media to educate them about AGS Diamonds and the amazing technology behind them.

Guests were introduced to what the brand refers to as "The World's Most Perfectly Cut Diamond" – Hearts on Fire.

James Dimick is from the American Gem Society, based in the United States, and he explained why the perfect cut matters so much in adding to the beauty of a diamond.

The event, held at the JW Marriot Kuala Lumpur, awed everyone in attendance and made them realise the importance of buying the right diamond.

Fairy tales come to life

Mah Sing Group Berhad is launching the fourth instalment of the Arts & Lights exhibition in M Aruna Sales Gallery, Rawang, with a theme reminiscent of the magic of fairy tales.

The exhibition will be open to public every weekend until April 8, 2018, from 12pm to 9pm, and admission into this sensory journey is completely free.

The "Instagram worthy" event aims to entice the human senses – sight, sound, smell, touch and taste – through more than 10 interactive installations.

Visitors will be able to enjoy the installations and also experience all M Aruna has to offer in terms of homes.

From underwater kingdoms to interstellar wonders, be spellbound as you browse through the gallery.
