

Save the Date: AmSpa Announces 2017 Event Schedule for Medical Spa Boot Camps

The American Med Spa Association (AmSpa) has released its schedule of events for 2017, providing the most dynamic and intense medical spa and medical aesthetics education throughout the United States, from New York to Los Angeles and many places in between.

CHICAGO, IL ([PRWEB](#)) July 28, 2016 -- The American Med Spa Association (AmSpa) is excited to release an extensive and expanded events calendar for 2017, bringing the highest quality medical spa and medical aesthetics education to cities throughout the United States.

These medical spa boot camps, A Step-by-step Guide to Building a Profitable Medical Spa, are two-day, can't-miss knowledge and business technique-driven seminars created for physicians and nonphysicians who are looking to make their existing medical aesthetic businesses more profitable, successful and compliant, or those looking to open a new medical spa ... the right way. Attendees to these intensive seminars will leave with the tools and tactics needed to successfully and legally operate a medical aesthetic facility or medical spa.

With the medical spa and medical aesthetics industry continuing to grow and evolve, AmSpa is growing right along with it, expanding its services, legal summaries and event calendar to meet the needs of its membership and the medical spa industry as a whole. Known for offering cutting-edge, practice-changing education through the most dynamic programs in the country, AmSpa events also feature the industry's leading educators. Mark your calendars for the following upcoming workshops. Registration opens soon!

AmSpa Testimonials

“The presenters were fun and informative. I learned so many things I've already done right and wrong, and I also learned where I need to go and how to get there.”

--Jackson Holland, Business Director, Rehab Wellness, Charleston, SC

“Amazing workshop! I learned many helpful tips that I am planning to implement at our new plastic surgery practice. It covered a wide-range of areas, from setup—software, real estate tips, retail, management and performance-tracking—it also covered business life—saving areas, like avoiding legal problems and using marketing options to grow business.”

--Monika Zakraewska, Manager, Bluemont Plastic Surgery, Fairfax, VA
