

Coalition Member Organizations

The Trauma Prevention Coalition will hold its 5th Annual Injury Prevention Professional’s Symposium on April 28-30, 2019 in Las Vegas, NV. Hospital based injury and violence prevention (IVP) professionals from across the nation will engage in two full days of interactive learning focused on elevating the profession, creative programmatic thinking and professional development.

You are invited to submit a “quick shot” 5-minute oral presentation describing the implementation of an evidence-based injury prevention initiative by your adult or pediatric hospital IVP Program. The purpose of this session and the “quick shot” presentations is to highlight successful implementation strategies across a wide range of adult and pediatric trauma center levels and locations. Participants will have an opportunity to move into small group discussions with “quick shot” presenters at the end of the session. ***Please return this form completed to Sue Prentiss at sprentiss@amtrauma.org by February 15, 2019.***

Quick Shot Presentation – Abstracts Form

IVP Information

- Last Name: _____ First name: _____

- Email Address and Best Contact #:
