2022-2023 AMWA Special Committees & Work Groups

AMWA Journal Editorial Board
Provides support for the AMWA Journal to ensure that it meets the needs of and provides value to the medical writing community.

Annual Conference Program Committee
Supports the development, promotion, and evaluation of educational programming at the 2023 Medical Writing & Communication Conference.

Communications Committee
Works with staff to generate engaging outreach materials that spark interest and drive participation in AMWA’s programs.

Diversity & Inclusion (D&I) Assessment Task Force
Assesses and identifies opportunities regarding how AMWA can foster a more diverse and inclusive environment within the association.

Education Committee
Guides the strategy, development, and enhancements of educational content.

AMWA Engage Committee
Monitors AMWA Engage discussions for content and trends to enhance member value.

Medical Writing Certification Commission (MWCC)
Oversees the credentialing program for medical writers. Commission members are appointed by the AMWA Board including a chair and a chair-elect or two co-chairs, and up to eight at-large members, with 2-year renewable terms (January 1-December 31).

Medical Writing Executives Advisory Council
Serves to maintain a connection between pharma/biotech department heads and the AMWA Board of Directors (BOD). The Council is composed of senior-level pharma/biotech professionals whose responsibility it is to recruit, train, and manage medical communicators.

Member Awards Committee
Solicits nominations for awards recognizing AMWA members (Harold Swanberg Distinguished Service Award, AMWA Fellowships, and Golden Apple Award), reviews eligible candidate information, and submits recommendations to the BOD for consideration.

Value of Medical Writing Working Group
Works toward defining and quantifying the value of medical writing.
