- 3. Preventing Workplace Violence**  
[H.1976/S.1093](#) [An Act requiring health care facilities to develop and implement programs to prevent workplace violence](#)  
**Sponsors:** Rep. Michael Moran (D) & Sen. Jason Lewis (D)  
[H.1416/S.1427](#) [An Act requiring health care employers to develop and implement programs to prevent workplace violence](#)  
**Sponsors:** Rep. Denise Garlic (D), Rep. Kimberly Ferguson (R) & Sen. Joan Lovely (D)  
It is our duty in the Commonwealth to ensure that nurses and healthcare workers are protected. We cannot afford to lose exceptional nurses and healthcare workers who have been affected by violence and are hesitant to come to work, afraid of what could happen to them on any given day. 67% of all nonfatal workplace violence injuries occur in healthcare, but healthcare represents only 11.5% of the U.S. workforce.<sup>1</sup> The American Nurses Association Massachusetts appeals to healthcare institutions to foster a change in culture and adopt a zero-tolerance policy to workplace violence. Perhaps only then will barriers to reporting be lifted and tolerance to the situations be mitigated. Maintaining safe work environments is the duty of nursing leadership

**7. HB3487/SB1213: An Act relative to safe patient handling in certain health facilities**

**Sponsors:** Rep. Claire Cronin & Sen. Harriet Chandler

**Summary:** Amends GL c.111 (Public Health) by adding new provisions that regulate the lifting of patients in both acute care and long-term care facilities. In particular, the bill defines a lift team as health care facility employees specially trained to handle patient lifts, transfers and repositioning using lifting equipment when appropriate and precluded from performing other duties, and establishes 35 pounds as the maximum recommended weight lift limit established by the National Institute for Occupational Safety and Health. The bill further requires each health care facility to establish a safe patient handling committee to design and recommend the process for implementing a safe patient handling program. By December 30, 2020, health care facilities must complete the acquisition of safe patient handling equipment. In addition, the development of architectural plans for constructing or remodeling a health care facility or a unit of a health care facility must incorporate patient handling equipment and the construction design needed to accommodate such equipment.

**Summary:**

Amends GI Bill to recognize that service in the US Cadet Nurse Service Corps between 7/1/1943 and 12/31/1948 constituted active military service and those who served receive honorary veteran status including only burial benefits (headstone) and medals or other commendations.

**Status:** The final NDAA National Defense Authorization Act passed WITHOUT the WWII Cadet Nurse bill amendment. Although there are other options being considered, it is now being advocated for as a stand-alone bill. This means we must get more cosponsors, particularly in the Senate. Here in Massachusetts there is 100% support from both Senators and all 9 of our Representatives in the U.S. House. Given that the WHO has designated 2020 as the Year of the Nurse and Midwife, it is hoped that this can help get our bill passed to finally honor WWII Cadet Nurses. The bill continues to have the support of the Veterans of Foreign Wars, the American Nurses Association and 61 other organizations of the Nursing Community Coalition. Please take the time to thank Senator Elizabeth Warren who is the sponsor and champion of our bill as well as Senator Markey and your Congressperson. Let them know that honoring WWII Cadet Nurses is important to you! If you have friends and family in other states, ask for their help in getting cosponsors. Let's make 2020 the year of the WWII Cadet Nurse!
