Welcome Attendees,

On behalf of the Executive Committee, Board of Directors, and the city of Philadelphia, welcome to "The City of Brotherly Love" and the 30th Anniversary celebration of the American Osteopathic Academy of Sports Medicine Clinical Conference. This week will present you with the opportunity to join your colleagues not only to celebrate our organization but also to enhance your academic and clinical knowledge of sports medicine. Presentations will be made by faculty representing not only the best of the AOASM but also the best of the Philadelphia metropolitan area, including most of the team physicians caring for all four of our professional sports teams here in Philadelphia. Through our podium and breakout sessions, we will examine the care and treatment of the professional athlete and applications of this care and treatment to athletes of all levels. In addition, you will have the opportunity to see the future of medicine through our poster and research and case presentations.

Finally, specific programs will address our future colleagues with sessions devoted to our students, interns, residents, and fellows.

This will not only be an academic and scientific program but also a program that encourages reconnecting with old colleagues and friends and establishing new relationships through the various social events throughout the week. We have an incredible program planned at Citizen's Bank Park for the Rusty Wright Lecture on Friday afternoon, followed by the Philadelphia Phillies taking on the Atlanta Braves at the ballpark later in the evening. In addition, we will welcome the largest class of physician members as new Fellows at the Fellows Celebration Banquet on Thursday evening.

As a native Philadelphian, I encourage you to please take some time to enjoy all that Philadelphia has to offer. We are a world-class city that is the birthplace of our nation. Our historical area, which includes the Liberty Bell and Independence Hall, is blocks from the Doubletree Hotel. The Avenue of the Arts, with several productions currently running, is right outside the door to our hotel. The world famous Philadelphia Museum of Art and the Barnes Foundation are blocks away on the Parkway. Shopping and cuisines from around the world are represented not only in Center City but also in several other areas of the city, such as South Philadelphia, home of the Italian Market.

Please enjoy the conference and expand your clinical and scientific knowledge. I also encourage you to socialize and explore the city of Philadelphia. I look forward to meeting all attendees and welcoming those of you who are new to our clinical conference. As a native Philadelphian, I am happy to help assist you during this week in any way that I can from recommendations on restaurants to assisting with directions. Please do not hesitate to contact me or just plain stop me on the floor to assist with any and all questions and concerns.

Finally, I want to thank everyone who has been working tirelessly hours to make this a successful program. Without the efforts of our Planning and Executive Committees, our Board of Directors, our speakers, our moderators, and exhibitors, and the members of The Rees Group, this conference could not have happened in this city.

Please enjoy the conference, and welcome to Philadelphia!

Sincerely,

R. Robert Franks, DO, FAOASM
Program Chair
