The objective of the meeting was to define and revise ECG interpretation standards based on proposed criteria sets and establish new evidence to guide refinements. On February 26–27, 2015, modern ECG interpretation that distinguishes normal physiological adaptations in athletes from responsible for the cardiovascular care of athletes should be knowledgeable and competent in ECG interpretation.

Mostly hereditary, structural or electrical cardiac disorders are associated with SCD in young athletes because of small sample size and considerable loss to follow-up, particularly in the ESWT environment.

While traveling—land or air—keep conversation to a minimum. Avoid throat clearing, yelling, or gargling. The vibrations irritate the vocal cords.

Rest the voice completely for hoarseness, laryngitis, or pharyngitis. Take Tylenol® for pain and discomfort. Avoid conversation and rest the voice until it returns to normal.

Car Rental Options:
- Rent a car at the airport.
- Check with the attendant ahead of time if you want to use a credit card.
- There is a $2.00 fee on all fares originating at the airport.
- Tip: Some taxis do not accept credit card payment.
