

# When the WiFi Goes Down: The EMR Domsday Scenario Isn't That Bad

**John Coppola, DO FAOCD, FAAD**

**Assistant Clinical Professor - FSU College of Medicine  
Faculty - Orange Park Medical Center Dermatology Residency**

**Parks Dermatology Center  
Ormond Beach - Port Orange - Palm Coast - Orange City**

- No Conflicts or Disclosures

# Understand What Type of System, Connection, and Service You Have

- Cloud Based vs Server Based
- Connections Speeds of Your System
- Type Of Connection?
  - Cable, DSL, Satellite, Fiber?
- Quality of Your IT Team
  - Paying by the hour, internal team, or locally outsourced contract

# Protocol in Place

- Minimum of one person in every office that:
  - Has emergency/direct contact info for Internet Provider & IT Team
  - Knows location and how to reset router
  - is responsible for tracking power/internet capability after storms
  - Coordinates appointments for IT updates/hardware replacements that doesn't interfere with your work schedule

# Back Up to the Back Up

- Several of your I pads 4G LTE Capable
- WIFI Hot Spot Devices
- 5G on the Horizon

# Uggghhh – Back to Paperwork

- What We Do In A Pinch
  - Back to The Template Forms
  - Keep Till End of Day
  - Input Back Into EMR at end of day/lunch and pay a little overtime
