

# American Osteopathic College of Dermatology

2018 Fall Meeting  
Westin San Diego Gaslamp Quarter  
San Diego, CA  
October 11 - 13, 2018

**David Cleaver, DO, FAOCD**  
Program Chair

## Meeting Schedule

All Events Held in California Ballroom B/C of the Westin San Diego Gaslamp Quarter Unless Noted

\*\*Schedule Subject to Change\*\*

### Thursday, October 11, 2018 (8.5 CME Available)

- 6:00 a.m. - 7:00 a.m. Product Theater TBA  
Located in Plaza Room
- 7:00 a.m. - 7:30 a.m. *CLIA Proficiency Exam*  
**Gregory Papadeas, DO, FAOCD**
- 7:30 a.m. - 8:30 a.m. *Bloodroot and Essential Oils: What You Need to Know*  
**Derrick Adams, DO, FAOCD**
- 8:30 a.m. - 9:30 a.m. *Medical Dermatology Update*  
**Francisca Kartono, DO, FAOCD**
- 9:30 a.m. - 10:30 a.m. *Sports Dermatology*  
**Michael J. Scott, III, DO, FAOCD**
- 10:30 a.m. - 10:45 a.m. Break with Exhibitors
- 10:45 a.m. - 11:30 a.m. *Osteopathic Continuous Certification Update*  
**Lloyd Cleaver, DO, FAOCD**
- 11:30 a.m. - 12:30 p.m. Pfizer Product Theater  
(No CME Awarded)  
Located in Plaza Room
- 12:30 p.m. - 1:30 p.m. *Pediatric Dermatology*  
**Joan Tamburro, DO, FAOCD**
- 1:30 p.m. - 2:30 p.m. *Burn and Traumatic Scar Rehabilitation: The New Standard*  
**Nathan Uebelhoer, DO**
- 2:30 p.m. - 3:15 p.m. *Dysplastic Nevi: Dermatopathology Update*  
**Nathan Cleaver, DO, FAOCD**  
**Amy Spizuoco, DO, FAOCD**
- 3:15 p.m. - 3:30 p.m. Break with Exhibitors
- 3:30 p.m. - 4:30 p.m. *Proelia in Umbra: What We Can Learn From U.S. Dermatologists*  
**Thomas Barlow, DO**
- 4:30 p.m. - 5:30 p.m. *2018 Psoriasis Therapy Update*  
**Bradley Glick, DO, FAOCD**
- 6:00 p.m. Reception  
Located in Garden Terrace (4th Floor)

### Friday, October 12, 2018 (9 CME Available)

- 6:00 a.m. - 7:00 a.m. Aclaris Product Theater  
(No CME Awarded)  
Located in Plaza Room
- 7:00 a.m. - 8:00 a.m. *Pain Management in Dermatology*  
**Miranda Reed Cleaver, DO**
- 8:00 a.m. - 9:00 a.m. *The Advantage of Leadership in Dermatology*  
**James Warrick**

Scan this QR Code with your smart device  
to access the meeting syllabus and available  
lecture slideshows or visit:

<http://www.aocd.org/Fall2018>

- 9:00 a.m. - 10:00 a.m. *Creative Ways to Maximize Professional Efforts Most Effectively and Avoid Practice Pitfalls*  
**Will Kirby, DO, FAOCD**
- 10:00 a.m. - 10:30 a.m. Break with Exhibitors
- 10:30 a.m. - 11:30 a.m. *Social Media in the Dermatology Practice*  
**Matthew Elias, DO, FAOCD**
- 11:30 a.m. - 12:30 p.m. Lilly USA, LLC Product Theater  
(No CME Awarded)  
Located in Plaza Room
- 1:00 p.m. - 2:00 p.m. *Decoding Delayed Hypersensitivity Reactions*  
**Kari Martin, MD, FAAD**
- 2:00 p.m. - 2:30 p.m. Break with Exhibitors
- 2:30 p.m. - 3:30 p.m. *Mohs Certification Update*  
**Edward Yob, DO, FAOCD**
- 3:30 p.m. - 4:30 p.m. *Geriatric Considerations in Dermatology*  
**Lauren Mazzurco, DO**
- 4:30 p.m. - 5:30 p.m. *Dermatologic Surgery in the Elderly: Case Review and Techniques*  
**Jason Mazzurco, DO, FAOCD**
- 5:30 p.m. - 6:30 p.m. *Atopic Dermatitis Update*  
**Kari Martin, MD, FAAD**

**Saturday, October 13, 2018 (7 CME Available)**

- 6:00 a.m. - 7:00 a.m. Morning Exercise Session  
Located in Plaza Room
- 7:00 a.m. - 9:00 a.m. *Dysplastic Nevi*  
**Reagan Anderson, DO, FAOCD**
- 9:00 a.m. - 10:00 a.m. TBA  
**Steven Grekin, DO, FAOCD**
- 10:00 a.m. - 10:30 a.m. Break with Exhibitors
- 10:30 a.m. - 11:30 a.m. *Minimizing HIPAA Liability*  
**Leslie Rojas, Esq.**
- 11:30 a.m. - 12:30 p.m. Regeneron & Sanofi Genzyme Product Theater  
(No CME Awarded)  
Located in Plaza Room
- 11:30 a.m. - 1:00 p.m. Board of Trustees Meeting
- 1:00 p.m. - 2:00 p.m. *Billing and Coding Update*  
**Alexander Miller, MD**
- 2:00 p.m. - 2:30 p.m. Break with Exhibitors
- 2:30 p.m. - 3:30 p.m. *Mohs Reconstructions: Contours & Cartilage*  
**Christopher Weyer, DO, FAOCD**
- 3:30 p.m. - 4:30 p.m. *Body Contouring: Noninvasive and Beyond*  
**Jamie Moenster, DO**

# American Osteopathic College of Dermatology Mission Statement Continuing Medical Education Needs Assessment

The Continuing Medical Education Program of the American Osteopathic College of Dermatology will support, enhance and advance new models of academic excellence and community health care.

The mission of the American Osteopathic College of Dermatology is to create innovative education, support, and opportunities in dermatology that promote excellence in patient care and community health through advocacy, consciousness, inclusivity, and osteopathy.

## Purpose

The purpose of the CME program is to provide AOA-accredited continuing medical education activities to inform the dermatologist physician. The program will provide a mechanism by which its constituents can improve competency, maintain board certification and cultivate lifelong learning. CME will provide physicians with the opportunity to further develop their knowledge through individual and group learning activities. The Continuing Medical Education Committee will monitor the quality of all programs conducted by the AOCD.

## Accreditation:

Content included in AOCD's Educational conferences will not include individually identifiable health information, in accordance with the Health Insurance Portability and Accountability Act (HIPAA), as amended.

The American Osteopathic College of Dermatology (AOCD) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American Osteopathic College of Dermatology AOCD designates this live activity for a maximum of 24.5 *AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Osteopathic College of Dermatology is accredited by the American Osteopathic Association to provide osteopathic continuing medical education for physicians.

The American Osteopathic College of Dermatology designates this program for a maximum of 24.5 AOA Category 1-A credits and will report CME and specialty credits commensurate with the extent of the physician's participation in this activity.

This meeting will provide a diversified CME presentation focusing on the art and science of dermatology. Information will be presented through lectures and scientific paper presentations. The activity actively encourages members to develop enduring materials as an evolving tool for continuing education. The College is committed to exploring the development of its capacity to expand resources in other educational techniques, including Web-based activities and point-of-care technologies.

## Commercial Support Disclosure

AOCD CME will identify relevant financial relationships prior to awarding AOA Category 1A and/or *AMA PRA Category 1 Credit*<sup>™</sup> for CME activities. All persons in a position to influence or control CME content (course directors, program planning committee members, speakers, authors and staff) will complete a standardized disclosure form. Information about funding will be requested to identify CME activities at higher risk for commercial bias.

All AOCD CME activities will be evaluated by learners and possibly peer reviewers to determine if the content was free of commercial bias. All those identified as having influence and/or control of CME content perceived as either manifesting conflicts of interest or being biased may be disqualified from consideration as resources (planning group member, authors, faculty, etc) in subsequent CME activities.

Learners will be provided with information on identified COI from any of the above categories of persons that affect the content of CME, and that information will be positioned in course materials such that it is read by learners prior to the execution of the CME activity. Speakers for the AOCD will be required to provide disclosure information to meeting attendees during their introduction of their topic. Additionally, disclosure statements are provided in the program schedule given to each meeting attendee and is available online at [www.aocd.org](http://www.aocd.org).

In accordance with the ACCME's Standards for Commercial Support of Continuing Medical Education, the Policy on Collection of Financial Relationships and Resolution of Conflicts of Interest (COI) exists to provide guidance for staff, instructors, planners, reviewers and managers of CME activities sponsored by **The American Osteopathic**

**College of Dermatology, (AOCD)**. This policy addresses the underlying philosophy of disclosure to learners, mechanisms to collect disclosure information and the parties from whom financial disclosure shall be collected, the mechanisms to resolve COI, and requirements to make disclosure to learners prior to the start of an activity.

## Professional Practice Gap Statement:

Physicians need to understand, update and manage changes in dermatology in order to provide optimal patient care. Dermatologists in private practice may not have immediate access to new updates in therapies and treatments. This activity will help to close gaps in physician's areas of MACRA/MIPS, communication with patients, laser updates, cosmetic dermatology updates, asthma and allergies, practice management and pediatric dermatology.

## Expected Outcomes:

As a result of participation in the AOCD/CME activity, practicing clinicians will improve competency; maintain specialty board certification; and cultivate lifelong learning. It is expected that attendees of this meeting will improve their diagnostic competence regarding a wide range of dermatologic conditions. In addition to increased diagnostic competence, enhanced concepts of therapy and treatment in dermatologic care will be gained for implementation in everyday practice.

- Attendees will learn the use of cartilage for nasal defect support, assessing nasal valve compromise, staged flaps for construction.
- Attendees will be able to identify different types of body contouring and assess limitations of treatment.
- Attendees will review relevant data in regards to treatment of skin cancer in the elderly population, and review relevant cases.
- Attendees will learn current concepts of diagnosis and treatment of dysplastic nevi, learn different ways of communicating the diagnosis and treatment of dysplastic nevi.
- Attendees will gain the mindset of leadership in the way they approach their practice and patient care, as well as learn how to create a shared vision in the way you run your day to day schedules and standards of patient care.
- Attendees will review the fundamentals of dermatopathology, discuss the key histological features of common and uncommon skin conditions, and demonstrate the relationship between the clinician and dermatopathologist.
- Attendees will review the importance of responsible opioid prescribing to help prevent abuse and misuse of opioids, and determining when to initiate opioids for patients in pain.
- Attendees will learn about the integration of social media into practice, role of social media in dermatology, and TBCD.
- Attendees will gain an understanding of the basic HIPAA requirements applicable to practice and how to identify potential business risks associated with HIPAA.
- Attendees will explore state rules and regulations, discussion of compliance mechanisms, and review medico-legal issues.
- Attendees will gain an understanding of the need to remain current on tropical diseases which may be rare in the U.S.
- Attendees will define, update and review current comorbidities that impact therapeutic decisions in psoriasis management.
- Attendees will review the studies showing associations between chronic inflammatory skin disease and cardiovascular disease risk factors.
- Attendees will review how to evaluate and diagnose sports disorders with dermatologic symptoms, understanding the cutaneous manifestations and side effects of anabolic steroids.
- Attendees will increase awareness of essential oil usage, learn potential side effects, review and discuss escharotic agents.
- Attendees will be able to implement new biopsy coding definitions and coding structure for 2019.
- Attendees will review when to consider allergic contact dermatitis in both common and uncommon presentations.

The overall result being improved physician/provider performance and increased positive patient outcomes.

These objectives will be achieved in a setting which is evidence-based, culturally sensitive and free of commercial bias. The AOCD is committed to the practice of continuing program improvement. The AOCD will actively explore new educational technologies, develop collaborative relationships with other CME providers and seek to build the capacity to evaluate competency-based outcomes among the clinicians we serve. CME will provide physicians with the

opportunity to further develop their knowledge through individual and group learning activities.

#### **Needs Assessments:**

The activity was developed based upon the needs of physicians within the association identified through:

- An evaluation/survey provided to meeting participants at both our annual and midyear meeting
- Consensus of faculty members within a department or service area
- New advances in dermatologic treatment identified in major publications or research studies
- New methods of diagnosis or treatment
- Availability of new medication(s) or indication(s)
- Development of new technology
- Acquisition of new facilities or equipment
- Input from experts regarding advances in medical knowledge
- Legislative, regulatory, or organizational changes effecting patient care
- Epidemiological data
- Quality assurance/audit data
- Statistics infection control data
- Surgical procedures statistics
- Journal articles/literature citations

The AOCD Continuing Medical Education Committee works to assure the inclusion of appropriate Osteopathic content in the Continuing Medical Education activities presented by AOCD, and to assure that the Continuing Medical Education Programs of the AOCD will achieve the stated objectives of each meeting in a setting which is evidence-based, culturally sensitive and free of commercial bias.

The Continuing Medical Education Committee of the AOCD will monitor the quality of all activities conducted.

#### **Content Areas:**

The AOCD approves the CME activities based upon needs assessment data to ensure that all offerings present current, up to date and cutting edge information.

## **Meeting Faculty Disclosures**

#### **Derrick Adams, DO, FAOCD**

No disclosures provided by speaker

#### **Reagan Anderson, DO, FAOCD**

*Co-Founder & Writer:* Doctors Quarterly; *Co-Founder:* Your Health University

#### **Thomas Barlow, DO**

*Research support:* Candela Inc.

#### **Lloyd Cleaver, DO, FAOCD**

No disclosures provided by speaker

#### **Miranda Reed Cleaver, DO**

No disclosures provided by speaker

#### **Nathan Cleaver, DO, FAOCD**

*Speaker:* Castle Biosciences

#### **Matthew Elias, DO, FAOCD**

*Speaker:* Cutera; *Spouse is employee of:* Modernizing Medicine

#### **Bradley Glick, DO, FAOCD**

*Speaker:* Abbvie, Novartis, LEO, Celgene, Sanofi Genzyme, Regeneron, Lilly;  
*Stock Holder:* Top Med

#### **Steven Grekin, DO, FAOCD**

*Research Sponsors:* Allergan, Valeant, Coherus, Mimetica, Galderma, Promise, J&J Psolar, HedgePath; *Director, Officer or Employee of:* Advanced Dermatology

#### **Francisca Kartono, DO, FAOCD**

No disclosures provided by speaker

#### **Will Kirby, DO, FAOCD**

No disclosures provided by speaker

#### **Kari Martin, MD, FAAD**

No disclosures provided by speaker

Specific areas of emphasis include, new advances in dermatologic treatment, new methods of diagnosis or treatment, availability of new medication(s) or indication(s), development of new technology, advances in medical knowledge and legislative, regulatory, or organizational changes effecting patient care. The Osteopathic Core Competencies of Osteopathic Philosophy, Principles, Practice and Manipulative Medicine, Medical Knowledge, Patient Care, Interpersonal and Communication Skills, Professionalism, Practice-Based Learning and Improvement and System-Based Practice will also be incorporated into all CME activities.

#### **Target Audience:**

The primary target audience of the CME activities conducted by the AOCD are the dermatologist physician members. The College also serves community physicians, volunteer clinical faculty, academic clinicians and students affiliated with the AOCD. The activity will also actively seek to broaden its audience through developing affiliations with CME providers on the national level.

#### **Faculty Disclosure:**

As a sponsor accredited by the AOA, it is the policy of the AOCD to require the disclosure of anyone who is in a position to control the content of an educational activity. All relevant financial relationships with any commercial interests and/or manufacturers must be disclosed.

#### **AOCD Anti-Trust Statement**

Members participating in meetings, events or activities conducted or sponsored by the American Osteopathic College of Dermatology or the Foundation for Osteopathic Dermatology, have an obligation to review and follow the AOCD's Antitrust Compliance Policy. They should particularly refrain from making statements or distributing materials at AOCD, Foundation meetings or events that would violate the policy, such as suggesting minimum fees for particular services, urging AOCD members to boycott third party payers based on reimbursement levels or other terms of contracting with such entities, or recommending that AOCD members avoid competing with each other in certain geographic areas or markets or across specialties.

## Speaker Biographies

### **David Cleaver, DO, FAOCD – Program Chair**

Dr. David Cleaver graduated from Truman State University with a BS in Biology. He graduated from KCOM in 2006 as a Doctor of Osteopathy. He did his Internship at Richmond Heights/Case Western University Hospital in Cleveland, OH and he completed his Dermatology training at St. Joseph Mercy Health System of Michigan State University in Ann Arbor, Michigan in June 2010. Dr. Cleaver is board-certified in dermatology and a Fellow of American Osteopathic College of Dermatology.

### **Derrick Adams, DO, FAOCD**

Growing up in Oklahoma, he earned his Bachelor of Science in Physiology at Oklahoma State University. After graduation he was commissioned into the U.S. Air Force and completed his internship in internal medicine at Wilford Hall Medical Center in San Antonio, TX. Dr. Adams was stationed at Travis Air Force Base where he served as a Captain and General Medical Officer at David Grant Medical Center. After his tour of duty, Dr. Adams spent three intensive years at Michigan State University, where he completed his residency in dermatology with a special focus in dermatological surgery.

Dr. Adams has a special interest in skin cancer and medical dermatology, authoring a wide range of articles across dermatology, pharmacology and dermatological surgery. He treats all diseases of the skin to include: psoriasis, eczema and autoimmune diseases. As the field of dermatology arose from within internal medicine and Dr. Adams' approach to the skin takes into account the global health and well-being of the patient.

A particular interest for Dr. Adams is evaluating the cost/benefit ratio and science behind treatments. He prides himself on being the “Consumer Reports” of dermatology and not over-treating patients.

### **Reagan Anderson, DO, FAOCD**

Dr. Reagan Anderson specializes in general dermatology and in Mohs micrographic surgery for the treatment of skin cancer. After graduating from Rampart High School in Colorado Springs, CO, Dr. Anderson moved to Vancouver, British Columbia where he attained his Bachelor of Science in biology from the University of British Columbia and a Master of Christian Studies degree from Regent College. Dr. Anderson was then invited to attend the founding osteopathic medical school, Kirksville College of Osteopathic Medicine. Upon matriculation, Dr. Anderson was commissioned in the United States Navy where he spent the majority of his time serving the United States Marine Corps as the First Reconnaissance Battalion Surgeon.

Dr. Anderson left the military in order to pursue dermatology. During his three-year dermatology residency at the Michigan State University Consortium/Oakwood Southshore Medical Center, he was actively involved in academic pursuits, which included national and international lecturing, as well as publishing several dermatologic articles. From October 2008–October 2009, Dr. Anderson represented all osteopathic dermatology residents as the resident liaison for the American Osteopathic College of Dermatology.

### **Thomas Barlow, DO**

Dr. Thomas Barlow is a dermatologist in the U.S. Navy and has served in Iraq, Japan, El Salvador, Brazil, and several locations in the United States.

He graduated from Kirksville College of Osteopathic Medicine in 2006 and received a doctorate of health education from AT Still University of Health Sciences in 2009. He is currently completing a Mohs surgery fellowship at Scripps Clinic. His research interests include lasers, skin microbiome, and education.

Dr. Barlow lives in San Diego with his wife, Keriann, and their 4 children, and travels home to Utah to ski and hike.

### **Lloyd Cleaver, DO, FAOCD**

Dr. Lloyd Cleaver, DO founded the Cleaver Dermatology Clinic in 1986. Dr. Cleaver completed his internship and residency at the Navy Regional Medical Center in San Diego, CA. He is a graduate of Kirksville College of Osteopathic Medicine. He is also a board-certified dermatologist, Fellow of American Osteopathic College of Dermatology and board-certified in Mohs micrographic surgery.

A leader in medical education, Dr. Cleaver is a Professor of Dermatology at the Kirksville College of Osteopathic Medicine/A.T. Still University and Assistant Dean of Continuing Medical Education at the Kirksville Osteopathic Medical Center/A.T. Still University. He serves as Vice Chair for the Certification Committee of American Osteopathic Association and has been Vice Chair and is currently Secretary to the American Osteopathic Board of Dermatology. He is a Past President of the Kirksville Osteopathic Alumni Association and a Past President of American Osteopathic College of Dermatology.

### **Miranda Reed Cleaver, DO**

Miranda Reed Cleaver, D.O. is a Georgia native. She grew up in Chatsworth, GA and attended the University of Georgia in Athens. She graduated from the University of Georgia with a bachelor of science in biology in 2006. After college, Dr. Cleaver continued her education and attended medical school at the Philadelphia College of Osteopathic Medicine, Georgia Campus, located in Suwanee, GA. She then went on to complete her four years of training in anesthesiology at McLaren Oakland Hospital, part of the Michigan State University Statewide Campus System, in Pontiac, MI, a suburb of Detroit. Following the completion of her residency training,

Dr. Cleaver then completed her fellowship in pain management at McLaren Oakland Hospital, part of the Michigan State University Statewide Campus System, in Pontiac, MI. During her fellowship training, she performed numerous interventional procedures in all areas of pain management. Once her training was complete, Dr. Cleaver then went on to practice for two years in Missouri, before moving to Georgia to establish a pain management practice in Cumming, GA. Dr. Cleaver has now been in private practice for over a year.

**Nathan J. Cleaver, DO, FAOCD**

Nathan J. Cleaver, D.O., received his medical degree from Kirksville College of Osteopathic Medicine, located in Kirksville, MO. Dr. Cleaver completed his internship at the St. John Health System in 2011, located in Oakland County, MI, a suburb of Detroit. He completed his dermatology residency, where he served as chief resident, at Michigan State University – St. Joseph Mercy Hospital in Ann Arbor, MI. After completion of his residency, Dr. Cleaver completed fellowships in dermatopathology at the Ackerman Academy of Dermatopathology and Mohs micrographic surgery at Northeast Regional Medical Center. Dr. Cleaver’s professional interests include cutaneous oncology, analysis and management of pigmented lesions and melanoma, and tropical and infectious dermatology and dermatopathology. His private practice is in Cumming, Georgia and encompasses all aspects of dermatology, including medical dermatology, cosmetic dermatology, Mohs micrographic surgery, and dermatopathology.

**Matthew Elias, DO, FAOCD**

Dr. Matthew J. Elias is a prominent dermatologist serving southern Florida out of Elias Dermatology®. Dr. Matthew Elias supports his practice with a strong educational background, beginning in 1999 when he earned his undergraduate degree from Tulane University in Louisiana. He went on to graduate from medical school at the Nova Southeastern University College of Osteopathic Medicine. He finished his residencies at Broward General Medical Center and SUNY Downstate Medical Center College of Medicine. He is a member of American Osteopathic College of Dermatology, American Academy of Dermatology, American Society for Dermatology Surgery, American Society of Mohs Surgery, Florida Society of Dermatology and Dermatological Surgery, and National Alopecia Areata Foundation.

Dr. Elias believes a successful and competent medical practitioner must possess both a heartfelt devotion towards assisting all human beings and a tremendous yearning for knowledge.

**Bradley Glick, DO, FAOCD**

Dr. Glick is the Program Director of the Dermatology Residency at Larkin Hospital Palm Springs Campus, a LECOM OPTI, Clinical Assistant Professor of Dermatology at the FIU Herbert Wertheim College of Medicine in Miami, FL and Director of Clinical Research at GSI Clinical Research in Margate, FL. Dr. Glick is the current Secretary Treasurer for the Florida Society for Dermatology and Dermatologic Surgery, Board Member of the American Osteopathic Board of Dermatology and serves on the Election Oversight Task Force for the American Academy of Dermatology.

Dr. Glick is considered a thought leader in the area of immune mediated skin diseases and is here today to provide an update on current and future therapies for plaque psoriasis.

**Steven Grekin, DO, FAOCD**

Dr. Steven Grekin has made it his personal and professional mission to help his patients put their best face forward. Years of research at the International Skin Rejuvenation Institute in Paris, France, and Quebec, Canada, have led Dr. Grekin to understand the secrets to younger, smoother, more radiant skin. Respected here and abroad as an expert in cosmetic dermatology, Dr. Grekin comes from a long line of physicians – six are dermatologists. He has participated in international teaching and training courses and is an internationally recognized lecturer in his field. Guided by cutting-edge principles of modern dermatology, natural medicine and the highest quality medical care, Dr. Grekin offers his patients an elegant, intelligent program distinguished by its unique flexibility to restore every skin type to its youthful, natural best. His family has been providing health care in the United States for almost ten years. Dr. Grekin is committed to helping patients from all over the world. He now offers his programs online, so that he may reach out and help as many people as he can put their best face forward.

**Francisca Kartono, DO, FAOCD**

Dr. Francisca Kartono, DO, is a board-certified dermatologist practicing in Canton and Brighton, MI.

Dr. Kartono graduated with honors from UCLA with a Bachelor of Science in Biochemistry. She received her osteopathic medical school training from Western University of Health Sciences in Pomona, CA. She then made a move to Michigan and completed her internship at Henry Ford Hospital and her dermatology residency training at Botsford and Pontiac Osteopathic Hospitals through Michigan State University. After completing her dermatology residency, she subsequently pursued a fellowship at the Ohio State University Medical Center with a focus on cutaneous lymphoma. Previously, Dr. Kartono has served as assistant clinical professor in Dermatology at the Wexner Ohio State University Medical Center.

Dr. Kartono has numerous dermatology publications, lectured at national meetings, and was involved with clinical trials in psoriasis, hidradenitis suppurativa, and lupus. She enjoys treating various general medical and surgical dermatology concerns, as well as administering phototherapy treatments for her patients.

Dr. Kartono lives in Canton with her husband and has made Michigan her permanent home.

**Will Kirby, DO, FAOCD**

Board-certified dermatologist, Dr. Will Kirby, has a degree in biology from Emory University. He received his medical degree from Nova Southeastern University and completed his first year of postgraduate training in internal medicine at Mount Sinai Medical Center. His dermatology residency training took place in association with Western University/Pacific Hospital where he was honored by being selected to serve as chief resident in the Department of Dermatology. Academically, Dr. Kirby proudly serves as a Clinical Assistant Professor of Dermatology at Western University of Health Science and as a Clinical Assistant Professor in the Department

of Internal Medicine, Division of Dermatology, for Nova Southeastern University. He is also an expert reviewer for the Osteopathic Medical Board of California in dermatology.

Dr. Kirby lectures at national medical conventions, publishes articles in peer reviewed medical journals, authors and co-authors medical text book chapters and has the prestigious honor of serving on the editorial advisory board of popular dermatological publications including the *Dermatologist* and the *Journal of Aesthetic and Clinical Dermatology*. He has served as the national spokesman for Johnson & Johnson's Neutrogena Dermatologics and Kimberly Clark's Truist Skin Care lines.

A licensed osteopathic physician and surgeon in the state of California since 2002, Dr. Kirby is recognized as a Fellow by the American Osteopathic College of Dermatology. He is currently a member of the American Osteopathic College of Dermatology (AOCD) and the American Osteopathic Association (AOA). In the past, Dr. Kirby has held membership in the American Medical Association (AMA), the American Society for Laser Medicine and Surgery (ASLMS), the American Society of Dermatologic Surgery (ASDS) and the American Academy of Dermatology (AAD). Having appeared on more than 35 different television shows, Dr. Kirby was a featured physician on E! Entertainment Television's "Dr. 90210" and has frequently been seen on "The Doctors," where he showcases his dermatology practice. Other TV appearances have included "The Young & The Restless," "LA Ink," "The Real Housewives of Orange County," "Regis & Kelly," "The Talk" and "Chelsea Lately" and has appeared on QVC more than 100 times. Dermatologist, professor, spokesman, researcher and author, Dr. Kirby is well-recognized as one of the country's leading dermatologists!

**Kari Martin, MD, FAAD**

Kari Martin, MD was born and raised in North Dakota before completing her undergraduate education at William Jewell College in Liberty, MO. She graduated from medical school at the University of Missouri in Columbia and stayed there for residency training in dermatology as well. Her pediatric dermatology fellowship was completed at the Children's Hospital of Wisconsin in Milwaukee. She returned as faculty to the University of Missouri and has been practicing pediatric and adult dermatology there since finishing training. She enjoys teaching medical students and residents and serves as the Dermatology Residency Program Director and the Director of Medical Education for the department. She also enjoys the diagnosis and management of allergic contact dermatitis and has established mid-Missouri's first comprehensive patch testing center.

**Jason Mazzurco, DO, FAOCD**

Dr. Jason D. Mazzurco is a board-certified dermatologist and fellowship-trained Mohs surgeon. Originally from New York, Dr. Mazzurco moved to the Midwest where he was a two time Big Ten Champion gymnast at The Ohio State University. He earned his medical degree from Ohio University Heritage College of Osteopathic Medicine. He then completed his residency training in dermatology and fellowship training in Mohs micrographic surgery at St. Joseph Mercy Hospital/Michigan State University.

He joined Dermatology Specialists and moved to Virginia with his wife and daughter in 2014. Dr. Mazzurco practices primarily surgical dermatology, treating both benign and malignant lesions of the skin. He specializes in the diagnosis and treatment of skin cancer, Mohs surgery and reconstructive surgery. Dr. Mazzurco enjoys outdoor activities and spending time with his family and friends.

**Lauren Mazzurco, DO**

Dr. Lauren Mazzurco has been part of the Eastern Virginia Medical School (EVMS) community and faculty serving as an Assistant Professor of Medicine since January 2015. Prior to joining EVMS, she completed an osteopathic internal medicine residency at Botsford Hospital in Farmington Hills, MI and completed a 1-year clinical fellowship in geriatric medicine at University of Michigan, Ann Arbor, MI. This was followed by a VA special fellowship in geriatric medicine at the VA Ann Arbor Health System, Ann Arbor, MI. She then went on to complete a fellowship in hospice and palliative medicine also at the University of Michigan. Dr. Mazzurco practices in diverse settings, including an inpatient palliative care consult service and a skilled nursing facility where she supervises 3<sup>rd</sup> and 4<sup>th</sup> year clerkship students, internal medicine and family medicine residents, and geriatric medicine fellows. Most recently she has transitioned into the position of Associate Program Director for the Geriatric Medicine Fellowship at EVMS. Dr. Mazzurco is the Director for Case-Based Learning at EVMS and has served as the CO-PI on the AMA Accelerating Change in Medical Education Grant which has support integration of health system science, chronic disease prevention and management, and high value care into the undergraduate medical curriculum.

**Alexander Miller, MD**

Dr. Alexander Miller graduated from the UC Irvine medical school six months early, in December of 1978, after which he completed six months of an interim pathology residency. He then completed an internship in internal medicine, followed by residency in dermatology at UC Irvine.

After concluding residency training, Dr. Miller started in a solo private practice in Yorba Linda, CA and also taught dermatology residents, first at the Long Beach VA Hospital dermatology section, and subsequently, at UC Irvine, where he presently serves as a volunteer attending physician and holds the rank of Clinical Professor of Dermatology.

Dr. Miller has maintained an active involvement in teaching both residents and practicing physicians in a variety of venues, including national and international conferences. He has also been president of the California state dermatology society, CalDerm, and of the American Society for Mohs Surgery (ASMS). He is active on a variety of AAD, ASDS, ASMS and CalDerm committees. He is also the Southern California dermatology representative to Noridian, a Medicare Administrative Contractor. Until recently, Dr. Miller was chair of the Dermatology Contractor Advisory Committee. As the AAD Advisor to the AMA-CPT Editorial Panel, he is formatively engaged in the genesis and evolution of CPT codes that particularly affect dermatology.

This year, Dr. Miller was elected to the AAD Board of Directors. He will commence his Director term in March of 2019. In summary, he takes care of patients in his solo medical dermatology, Mohs surgery and reconstruction private practice, teaches in a variety of venues, and advocates for the specialty of dermatology on a variety of committees.

**Jamie Moenster, DO**

Jamie Moenster, DO, FACOS is double board-certified in plastic and reconstructive surgery and general surgery at Dermatology and Plastic Surgery of Arizona in Tucson, Arizona. She earned her medical degree at Kirksville College of Osteopathic Medicine in 2005. She completed both her general surgery and plastic surgery residencies at South Pointe Hospital/Cleveland Clinic Health Systems in Cleveland, OH. She founded Dermatology and Plastic Surgery of Arizona with her husband, Chris Weyer, DO, FAOCD, FAAD, FCMS in 2013. She is the medical director of Coronado Surgery Center, LLC.

**Leslie Rojas, Esq.**

Leslie A. Rojas, Esq., is an attorney who focuses her practice on healthcare regulatory, transactional and corporate matters. Ms. Rojas devotes a substantial portion of her practice to HIPAA and state privacy and security law matters, healthcare fraud and abuse issues, healthcare joint ventures and business transactions, practitioner employment agreements, and Medicare enrollment, billing and reimbursement issues.

Ms. Rojas represents a variety of healthcare businesses and professionals, including physicians and other practitioners, group practices, laboratories, imaging centers, pharmacies, hospitals, home health agencies, assisted living facilities, and healthcare compliance consultants. Through collaboration with other attorneys and law firms, Ms. Rojas ensures that her healthcare clients receive full-service legal representation, including representation related to real estate law, tax law, intellectual property law, litigation services, etc.

Ms. Rojas currently serves on the Governing Council for the Health Care Law Section of the State Bar of Michigan, and serves on the Health Care Law Section's Medical Legal Subcommittee and Technology Subcommittee. She is also a committee member for the American Health Lawyer Association's Physician Organization Practice Group. Additionally, Ms. Rojas has authored many articles for the American Bar Association's Health Law Section.

In her spare time, Ms. Rojas serves as the President of the Paraguayan-American Association of Physicians, a non-profit charity that raises money for the medical school in Asuncion, Paraguay, as well as for other causes in Latin America. Ms. Rojas also serves as Vice-President of the Mental Illness Research Association, which raises money for mental illness related research grants and mental illness educational presentations in secondary schools throughout Michigan and Ohio.

**Michael J. Scott, III, DO, FAOCD**

Dr. Michael J Scott is a Seattle-based dermatologist and director of Seattle Dermatology Center. His areas of interest include general medical and surgical dermatology, pediatrics, sports dermatology, as well as preventive medicine and public health. A few examples of his service to dermatology includes, but is far from limited to, the numerous articles published in multiple publications, lecture and poster presentations at local and national meetings, lecture presentations to community groups in Seattle, United States Olympic Committee Crew Chief Drug Control Program physician, sports medicine volunteer, and a USA Amateur Boxing Federation volunteer ringside physician. Dr. Scott has also served in various leadership roles within the AOCD, AOBD, Washington State Osteopathic Medical Association, and other societies. He is Assistant Professor of Clinical Medicine at the Pacific Northwest University of Health Sciences, a Past President of the American Osteopathic College of Dermatology, and is currently serving as Chair of the American Osteopathic Board of Dermatology.

**Amy Spizuoco, DO, FAOCD**

Dr. Amy Spizuoco is a board-certified dermatologist and dermatopathologist. She received her Bachelor of Arts at SUNY Binghamton with a double major in Italian and biology. She earned her medical degree at New York College of Osteopathic Medicine. She completed a medical internship at Lutheran Medical Center. She then went on to Alta Dermatology Residency Program in Mesa, AZ, where she spent a year researching reflectance confocal microscopy and subsequently completed her dermatology residency, serving as chief resident her final year. During residency she received training at the Mayo Clinic Scottsdale, as well as Phoenix Children's Hospital. After residency, Dr. Spizuoco completed a fellowship in dermatopathology. Currently, Dr. Spizuoco is a member of the American Academy of Dermatology, the American Osteopathic College of Dermatology, the American Society for Dermatopathology, the American Society of Mohs Surgery, the American Society for Dermatologic Surgery, the New York State Osteopathic Medical Society, the Women's Dermatologic Society and the Dermatologic Society of Greater New York.

**Joan Tamburro, DO, FAOCD**

Dr. Joan Tamburro is a board-certified dermatologist and pediatric dermatologist.

Dr. Tamburro earned her medical degree from Ohio University College of Osteopathic Medicine in Athens, OH. She completed a traditional rotating internship and residency training in dermatology at Grandview Hospital and Medical Center in Dayton, OH. Following residency, Dr. Tamburro completed a pediatric dermatology fellowship at the Medical College of Wisconsin Clinics in Milwaukee, WI.

Dr. Tamburro was appointed to the dermatology department at the Cleveland Clinic, in Cleveland, OH. Her special interests include: pediatric dermatology, laser therapy, vascular birthmarks, port-wine stains, and hemangiomas. Dr. Tamburro has been published in multiple medical journals, and in 2012 & 2014 she was presented with the Patient's Choice Award and the Compassionate Doctor Recognition Award. She is a member of the elite team of physicians that create the Vascular Anomalies Clinic (VAC) team at the Cleveland Clinic in Cleveland, Ohio.

**Nathan Uebelhoer, DO**

Dr. Uebelhoer began practicing dermatologic and laser surgery 20 years ago. As an expert in his field, he has since lectured across the United States and throughout the world, authored numerous peer-reviewed articles and book chapters on the subject, and won awards for his teaching and military service. He grew up in Massachusetts and after completing medical school at the University of New England, he went to the Naval Medical Center in San Diego for internship and dermatology residency. Following Board

Certification by the American Board of Dermatology, he obtained sub-specialty training in skin-cancer surgery and facial cutaneous reconstruction through a one-year fellowship in Cosmetic and Laser Surgery at SkinCare Physicians of Chestnut Hill in Boston, Massachusetts. Since then, he has served as the division head of Mohs and Laser Surgery with the Navy in San Diego until retiring as a Commander in 2013.

Dr. Uebelhoer was also trained as a Naval Flight surgeon and private pilot and proudly served in this capacity deployed with the U.S. Marine Corps. In addition to Procedural Dermatology, he has been heavily involved in rural and tropical medicine, and he continues to lecture throughout the world on his pioneering work with scar rehabilitation in wounded warriors. When not in the operating room, Nathan is with his family and occasionally takes the time to play golf and the piano.

**James Warrick**

James is a trusted relationship for women and men. His client list is made up of leaders in every industry who say, “James is an innovator in developing people.” It’s the sharpness of the conversation, the challenge of new thinking, the action that is taken... it’s what we hope for in a coaching relationship.

James holds a Masters in Coaching and Leadership Development. He has earned the prestigious credentials of a Professionally Certified Coach (PCC) with the International Coach Federation. James has taught over 50 graduate-level coaching courses and trained over 500 new coaches.

James coaches leaders from a wide range of organizations and sectors: Nike, Intel, Merrill Lynch, Williams Sonoma, R2C Advertising, Pacific Foods, Compassion International, Clark Nuber Global Accounting, Washington State, Planar Systems, Chapman University, health care providers, entrepreneurs and bestselling authors.

The best part is, James is gutsy. The gutsy that asks the questions that you’re dodging. The gutsy that helps leaders stop making it about themselves. The gutsy that helps people listen to their own gut and move forward with confidence. James brings proven tools and a process to develop people.

James’ wife is his best friend, and his four kids still wake him up at night.

**Christopher Weyer, DO, FAOCD**

A native to Arizona, Dr. Christopher Weyer received his undergraduate degree from the University of Arizona. He then worked at the Arizona Cancer Center and in Department of Pathology under the direction of Dr. Ray Nagle. While there he researched the growth, invasion and metastasis of prostate cancer before his acceptance to medical school.

Dr. Weyer graduated from Kirksville College of Osteopathic Medicine in 2006. He then completed a traditional rotating internship at Richmond Heights Hospital in Ohio, followed by a dermatology residency in Kirksville, MO at Northeast Regional Medical Center. He continued his training with a fellowship in Mohs Surgery at the Center for Surgical Dermatology in Columbus, OH.

Following fellowship, Dr. Weyer was on staff at the Cleveland Clinic in the Dermatology and Plastic Surgery Institute as a Mohs surgeon from 2011-2012 before returning to his native home of Arizona. Back in Arizona, he co-founded Dermatology and Plastic Surgery of Arizona with his wife, Dr. Jamie Moenster.

He is the distinguished winner of the Tromovitch Award from the American College of Mohs Surgery in 2012. This award is given to the graduating fellow with the most significant contribution to research in skin cancer/Mohs surgery.

An avid outdoorsman, he enjoys fishing and hunting. He maintains an active lifestyle with CrossFit and soccer. He also enjoys cooking and travel with his wife, Dr. Jamie Moenster.

**Edward Yob, DO, FAOCD**

Dr. Edward Yob is board certified by the American Osteopathic Board of Dermatology in dermatology with a certificate of added qualification in Mohs micrographic surgery. Dr. Edward Yob received his medical degree from the Philadelphia College of Osteopathic Medicine and completed his residencies at the United States Air Force Regional Hospital and Boston University/New England Medical Center.

His practice is limited to the diagnosis and treatment of skin cancers. He is a clinical associate professor at the University of Oklahoma Health Sciences Center, Department of Dermatology.

*What is my action plan? How will I incorporate what I've learned into my daily practice?*

*What questions do I still have?*

# American Osteopathic College of Dermatology

## SPEAKER EVALUATIONS & LEARNING OBJECTIVES

**The following are overall learning objectives for the Fall 2018 Current Concepts in Dermatology seminar:**

- Use of cartilage for nasal defect support, assessing nasal valve compromise, staged flaps for construction.
- Identify different types of body contouring, assess limitations of treatment.
- Review relevant data in regards to treatment of skin cancer in the elderly population, and review relevant cases.
- Learn current concepts of diagnosis and treatment of dysplastic nevi, learn different ways of communicating the diagnosis and treatment of dysplastic nevi,
- The mindset of leadership in the way you approach your practice and patient care, create a shared vision in the way you run your day to day schedules and standards of patient care.
- Review the fundamentals of dermatopathology, discuss the key histological features of common and uncommon skin conditions, and demonstrate the relationship between the clinician and Dermatopathologist.
- Discuss the importance of responsible opioid prescribing to help prevent abuse and misuse of opioids, and determining when to initiate opioids for patients in pain.
- Integration of social media into practice, role of social media in dermatology, TBCD.
- An understanding of the basic HIPAA requirements applicable to your practice and how to identify potential business risks associated with HIPAA.
- Exploring state rules and regulations, discussion of compliance mechanisms, review medico-legal issues.
- Understand the need to remain current on tropical diseases which may be rare in the US.
- Define, update and review current comorbidities that impact therapeutic decisions in psoriasis management.
- Understand the studies showing associations between chronic inflammatory skin disease and cardiovascular disease risk factors.
- Evaluate and diagnose sports disorders with dermatologic symptoms, understanding the cutaneous manifestations and side effects of anabolic steroids.
- Increase awareness of essential oil usage, learn potential side effects, review and discuss escharotic agents.
- Implement new biopsy coding definitions and coding structure for 2019.
- Understand when to consider allergic contact dermatitis in both common and uncommon presentations.

**American Osteopathic College of Dermatology**  
**CME Mission Statement Survey**  
**October 11 – 13, 2018**  
**San Diego, CA**

The overall mission of each AOCD CME Activity is to:

1. Inform the physician of advances in medical knowledge and technology.
2. Inform the physician of advances in diagnosis and treatments for better patient care and outcomes.
3. Inform the physician of advances in Practice-Based Learning and System-Based Practices.

AOCD CME activities are intended to enhance the knowledge and competence of its attendees, with the intended goal being improving patient care and their health outcomes. The impact of our educational meetings will provide a diversified CME program focusing on the art and science of Dermatology.

1. The AOCD has met its Mission for this conference. \_\_\_\_\_ Yes \_\_\_\_\_ No

2. If you answered no, please describe how we did not meet the mission:

**American Osteopathic College of Dermatology**  
**AOCD 2018 Fall Current Concepts in Dermatology Seminar**  
**October 11 – 13, 2018**  
**San Diego, CA**  
**Pre-Test of CME Didactic Sessions**

**WHY is this being done??**

AOA's CME Policy on Outcome Measurement

- Encouraged 2016-2018
- **Required** that one CME program must be outcomes based in CME cycle 2016-2018.

**HOW will the AOCD do this??**

Pre-and post-tests: Level 3A and B Measurement

- Physicians complete multiple choice questions concerning activity content before and immediately after a CME activity – Measures learning that occurred as a result of the activity.
- Participants, faculty and CME staff get immediate feedback on physician learning.
- There are no indicators that learning is retained or there will be a change in performance.

Pre-and post-tests can be used in conjunction with live meetings, printing enduring materials and Internet-based CME activities.

Name: \_\_\_\_\_ AOA Number: \_\_\_\_\_

1. A 7mo boy was brought into the clinic by his parents for concern of an eczematous rash on his cheeks, arms, legs bilaterally, sparing his diaper region. Both parents have a history of childhood eczema that have disappeared in adulthood. They have used over the counter moisturizers, bleach baths, tacrolimus ointment and triamcinolone acetonide 0.1% two to three time daily on their baby boy. Unfortunately the rash is only barely under control with the use of these topical agents and parents are anxious about the cause. What is the appropriate plan of management in this patient?
  - A. Cyclosporine at 3mg/kg body weight
  - B. Rescue with intramuscular steroids and oral antihistamines
  - C. Refer to allergist for a workup of food allergies, especially peanut
  - D. Patch testing with the standard series from the American Contact Dermatitis Society
  - E. Start phototherapy
2. What is the most common allergen causing positive patch test results in North America?
  - A. Balsam of Peru
  - B. Neomycin
  - C. Lanolin
  - D. Nickel
3. The concurrent use of opioids and benzodiazepines can cause central nervous system depression and can decrease respiratory drive which ultimately puts patient at potential risk for fatal overdose?
  - A. True
  - B. False
4. What is the most narrow portion of the nasal airway?
  - A. External nasal valve
  - B. Internal nasal valve
  - C. Nasal sill
  - D. Nasal ala
5. With which of the following is a HIPAA business associate agreement not required for your practice?
  - A. IT professionals who will have access to computer systems on which protected health information (PHI) is stored.
  - B. An attorney who is defending you against a BCBS audit or recoupment action and may receive PHI during the course of his legal representation.
  - C. The janitorial service which may have incidental access to PHI while performing cleaning services for the practice.
  - D. All of the above
