American Osteopathic
College of Dermatology

2020 Spring Meeting
Hilton West Palm Beach
West Palm Beach, FL
February 20 - 23, 2020

Reagan Anderson, DO, FAOCD
Activity Moderator
### Meeting Schedule

All Events Held in Ocean A of the Hilton West Palm Beach Unless Noted

**Schedule Subject to Change**

#### Thursday, February 20, 2020 (4 CME)

                        | Oceana B-D                                                            |
**Saturday, February 22, 2020 (8 CME)**

6:00 a.m. - 7:00 a.m.  
Breakfast with Exhibitors  
Oceana B-D

7:00 a.m. - 8:00 a.m.  
**Biologics In Dermatology**  
Michael Wein, MD

8:00 a.m. - 9:00 a.m.  
**The Future of Dermatology Reimbursement**  
Mark Kaufmann, MD

9:00 a.m. - 10:00 a.m.  
**General Dermatology**  
Paolo Romanelli, MD

10:00 a.m. - 10:15 a.m.  
**Warts vs. Actinic Keratosis: New Weapons in the Therapeutic Civil War**

10:15 a.m. - 10:30 a.m.  
**Photodynamic Therapy 2020 Update**

10:30 a.m. - 10:45 a.m.  
**How to Meet the Challenges of Hyperhidrosis**

10:45 a.m. - 11:00 a.m.  
**How Do Biologics Fit in an Integrative Treatment Plan**  
Neal Bhatia, MD

11:00 a.m. - 11:30 a.m.  
Break with Exhibitors  
Oceana B-D

11:30 a.m. - 12:30 p.m.  
Product Theater Regeneron  
Coral A-B  
*(No CME Awarded)*

12:30 p.m. - 1:00 p.m.  
Break with Exhibitors  
Oceana B-D

1:00 p.m. - 2:30 p.m.  
**The Future of the Osteopathic Profession**  
Ronald Burns, DO, FACOFP, AOA President  
Kevin Klauer, DO, EJD, FACEP, AOA CEO

2:30 p.m. - 3:00 p.m.  
**Pearls from Legally Speaking**  
Clifford J. Lober, MD, JD

3:00 p.m. - 3:30 p.m.  
Break with Exhibitors  
Oceana B-D

3:30 p.m. - 4:30 p.m.  
**Which Drugs for Which Patient?**  
Mark Lebwohl, MD

4:30 p.m. - 5:00 p.m.  
**Americans With Disabilities Act: How It Impacts Your Practice**  
Clifford J. Lober, MD, JD

5:00 p.m. - 5:30 p.m.  
**Fillers, Is There a Difference?**  
Shino Bay Aguilera, DO, FAOCD

**Sunday, February 23, 2020 (6 CME)**

6:30 a.m. - 8:00 a.m.  
Breakfast

7:00 a.m. - 8:00 a.m.  
**Professional Medical Ethics/Florida Laws and Rules**  
Jason Winn, JD

8:00 a.m. - 10:00 a.m.  
**Prescribing Controlled Substances**  
Edwin Bayo, JD

10:00 a.m. - 10:30 a.m.  
Break

10:30 a.m. - 12:30 p.m.  
**Prevention of Medical Errors**  
Arnold Mackles, MD

12:30 p.m. - 1:30 p.m.  
**Human Trafficking**  
Karysse Trandem, DO

American Osteopathic College of Dermatology Mission Statement

The goals of the American Osteopathic College of Dermatology (AOCD) are to:

1. Advocate for our members and patients.
2. Create innovative education, support, and opportunities in dermatology that promote excellence in patient care and community health through advocacy, consciousness, inclusivity, and osteopathy.

The American Osteopathic College of Dermatology will instill the following values in all of our activities:

1. Inclusivity for all members
2. Consciousness of dermatologic issues
3. Excellent patient care
4. Promotion of life-long learning

Purpose

The purpose of the CME program is to provide AOA- and ACCME-accredited continuing medical education activities to inform the dermatologist physician. The program will provide a mechanism by which its constituents can improve competency, maintain board certification and cultivate lifelong learning. CME will provide physicians with the opportunity to further develop their knowledge through individual and group learning activities. The Continuing Medical Education Committee will monitor the quality of all programs conducted by the AOCD.

Accreditation:

Content included in AOCD’s Educational conferences will not include individually identifiable health information, in accordance with the Health Insurance Portability and Accountability Act (HIPAA), as amended.

The American Osteopathic College of Dermatology (AOCD) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American Osteopathic College of Dermatology (AOCD) designates this live activity for a maximum of 26 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Osteopathic College of Dermatology is accredited by the American Osteopathic Association to provide osteopathic continuing medical education for physicians.

The American Osteopathic College of Dermatology designates this program for a maximum of 26 AOA Category 1-A credits and will report CME and specialty credits commensurate with the extent of the physician’s participation in this activity.

This meeting will provide a diversified CME presentation focusing on the art and science of dermatology. Information will be presented through lectures and scientific paper presentations. The activity actively encourages members to develop enduring materials as an evolving tool for continuing education. The College is committed to exploring the development of its capacity to expand resources in other educational techniques, including Web-based activities and point-of-care technologies.

Commercial Support Disclosure

AOCD CME will identify relevant financial relationships prior to awarding AOA Category 1A and/or AMA PRA Category 1 Credit™ for CME activities. All persons in a position to influence control CME content (course directors, program planning committee members, speakers, authors and staff) will complete a standardized disclosure form. Information about funding will be requested to identify CME activities at higher risk for commercial bias.

All AOCD CME activities will be evaluated by learners and possibly peer reviewers to determine if the content was free of commercial bias. All those identified as having influence and/or control of CME content perceived as either manifesting conflicts of interest or being biased may be disqualified from consideration as resources (planning group member, authors, faculty, etc) in subsequent CME activities.

Learners will be provided with information on identified COI from any of the above categories of persons that affect the content of CME, and that information will be positioned in course materials such that it is read by learners prior to the execution of the CME activity. Speakers for the AOCD will be required to provide disclosure information to meeting attendees during their introduction of their topic. Additionally, disclosure statements are provided in the program schedule given to each meeting attendee and is available online at www.aocd.org.

In accordance with the ACCME’s Standards for Commercial Support of Continuing Medical Education, the Policy on Collection of Financial Relationships and Resolution of Conflicts of Interest (COI) exists to provide guidance for staff, instructors, planners, reviewers and managers of CME activities sponsored by The American Osteopathic College of Dermatology (AOCD). This policy addresses the underlying philosophy of disclosure to learners, mechanisms to collect disclosure information and the parties from whom financial disclosure shall be collected, the mechanisms to resolve COI, and requirements to make disclosure to learners prior to the start of an activity.

Professional Practice Gap Statement:

Physicians need to understand, update and manage changes in dermatology in order to provide optimal patient care. Dermatologists in private practice may not have immediate access to new updates in therapies and treatments. This activity will help to close gaps in physician’s areas of surgical dermatology, oral dermatology, psoriasis treatment updates, dermoscopy, pediatric dermatology, allergies, practice management and physician burnout.

Expected Outcomes:

As a result of participation in the AOCD/CME activity, practicing clinicians will improve competency; maintain specialty board certification; and cultivate lifelong learning. It is expected that attendees of this meeting will improve their diagnostic competence regarding a wide range of dermatologic conditions. In addition to increased diagnostic competence, enhanced concepts of therapy and treatment in dermatologic care will be gained for implementation in everyday practice.

• Attendees will learn upcoming changes to physicians’ reimbursement models, and gain tips for operating a successful practice.
• Attendees will be able to better treat atopic dermatitis and psoriasis effectively, better recognize the risks and benefits of biologic therapy, better select appropriate therapies for specific patient populations, and better recognize the side effects of various psoriasis therapies.
• Attendees will learn new therapeutics for children with skin diseases, better identify common pediatric skin conditions, and learn what is new and interesting in pediatric dermatology.
• Attendees will review osteopathic tenets, the osteopathic approach in delivering bad news to the patient, and dermatologic medical conditions and treatments with an osteopathic approach.
• Attendees will interactively participate in case studies of complex cutaneous oncology and gain a better perspective of the complexities of interdisciplinary approaches common in oncology.
Attendees will learn the characteristics and treatment options of Morgellons disease and review research on causes of Morgellons disease.

Attendees will learn about the utilization of a PA in a dermatology office, learn to better define and implement optimal team practice, and gain tips for hiring/employing a PA.

Attendees will learn common causes of contact dermatitis in children, new treatments for hemangiomas and pyogenic granulomas, and gain new tools to manage atopic dermatitis in children.

Attendees will become more aware of subtle findings in common lesions, better recognize and identify certain patterns that can assist in formulating a diagnosis, and improve ability to combine histological and clinical information to render a diagnosis.

Attendees will better understand the cellular processes that lead to skin aging, better evaluate the various anti-aging techniques, and update their knowledge on the science of skin aging.

Attendees will learn legal principles as they affect the practice of dermatology, improve patient satisfaction by emerging compliance with the ADA and similar regulations and better avoid legal missteps by clarifying ambivalent regulations. Attendees will learn which activities the ADA covers, learn how to make these websites compliant with the ADA, and understand how to determine if an animal is a service animal according to the ADA.

Attendees will better understand the changes to the CPT book in 2020 and 2021, reimbursement challenges dermatologists will face over the next few years, and the ultimate goal of value based healthcare.

Attendees will be able to better evaluate, diagnose, discuss treatment, and treat patients for common dermatologic issues.

Attendees will better recognize the pathogenesis of warts and their similarities to actinic keratosis in terms of morphology, distribution, and responses to treatment. Attendees will better identify basic mechanisms of action of PDT. Attendees will better recognize basic mechanisms of physiological/pathological sweating including hyperhidrosis. Attendees will be able to better analyze and define the various mechanisms of actions of biologic therapies.

Attendees will better understand medical law and know what to look for in medical contracts.

Attendees will review the newest diagnosis techniques and prognostic treatments/methodologies in melanoma.

Attendees will better understand the rheological properties of fillers, the therapeutic pipeline for atopic dermatitis, and differentiating among biologics for psoriasis.

Attendees will better understand aspects of IVIG therapy, the therapeutic pipeline for atopic dermatitis, and differentiating among biologics for psoriasis.

Attendees will better understand the changes to the CPT book in 2020 and 2021, reimbursement challenges dermatologists will face over the next few years, and the ultimate goal of value based healthcare.

Attendees will be able to better evaluate, diagnose, discuss treatment, and treat patients for common dermatologic issues.

Consensus of faculty members within a department or service area

New advances in dermatologic treatment identified in major publications or research studies

New methods of diagnosis or treatment

Availability of new medication(s) or indication(s)

Development of new technology

Acquisition of new facilities or equipment

Input from experts regarding advances in medical knowledge

Legislative, regulatory, or organizational changes effecting patient care

Epidemiological data

Quality assurance/audit data

Statistics infection control data

Surgical procedures statistics

Journal articles/literature citations

The AOCD Continuing Medical Education Committee works to assure the inclusion of appropriate Osteopathic content in the Continuing Medical Education activities presented by AOCD, and to assure that the Continuing Medical Education Programs of the AOCD will achieve the stated objectives of each meeting in a setting which is evidence-based, culturally sensitive and free of commercial bias.

The Continuing Medical Education Committee of the AOCD will monitor the quality of all activities conducted.

Content Areas:
The AOCD approves the CME activities based upon needs assessment data to ensure that all offerings present current, up to date and cutting edge information. Specific areas of emphasis include, new advances in dermatologic treatment, new methods of diagnosis or treatment, availability of new medication(s) or indication(s), development of new technology, advances in medical knowledge and legislative, regulatory, or organizational changes effecting patient care. The Osteopathic Core Competencies of Osteopathic Philosophy, Principles, Practice and Manipulative Medicine, Medical Knowledge, Patient Care, Interpersonal and Communication Skills, Professionalism, Practice-Based Learning and Improvement and System-Based Practice will also be incorporated into all CME activities.

Target Audience:
The primary target audience of the CME activities conducted by the AOCD are the dermatologist physician members. The College also serves community physicians, volunteer clinical faculty, academic clinicians and students affiliated with the AOCD. The activity will also actively seek to broaden its audience through developing affiliations with CME providers on the national level.

Faculty Disclosure:
As a sponsor accredited by the AOA, it is the policy of the AOCD to require the disclosure of anyone who is in a position to control the content of an educational activity. All relevant financial relationships with any commercial interests and/or manufacturers must be disclosed.

AOCD Anti-Trust Statement
Members participating in meetings, events or activities conducted or sponsored by the American Osteopathic College of Dermatology or the Foundation for Osteopathic Dermatology, have an obligation to review and follow the AOCD’s Antitrust Compliance Policy. They should particularly refrain from making statements or distributing materials at AOCD, Foundation meetings or events that would violate the policy, such as suggesting minimum fees for particular services, urging AOCD members to boycott third party payers based on reimbursement levels or other terms of contracting with such entities, or recommending that AOCD members avoid competing with each other in certain geographic areas or markets or across specialties.

Needs Assessments:
The activity was developed based upon the needs of physicians within the association identified through:

• An evaluation/survey provided to meeting participants at both our annual and midyear meeting

• Consensus of faculty members within a department or service area

• New advances in dermatologic treatment identified in major publications or research studies

• New methods of diagnosis or treatment

• Availability of new medication(s) or indication(s)

• Development of new technology

• Acquisition of new facilities or equipment

• Input from experts regarding advances in medical knowledge

• Legislative, regulatory, or organizational changes effecting patient care

• Epidemiological data

• Quality assurance/audit data

• Statistics infection control data

• Surgical procedures statistics

• Journal articles/literature citations

The AOCD Continuing Medical Education Committee works to assure the inclusion of appropriate Osteopathic content in the Continuing Medical Education activities presented by AOCD, and to assure that the Continuing Medical Education Programs of the AOCD will achieve the stated objectives of each meeting in a setting which is evidence-based, culturally sensitive and free of commercial bias.

**Speaker Biographies**

**Reagan Anderson, DO, FAOCD – Activity Moderator**

Dr. Reagan Anderson specializes in general dermatology and in Mohs micrographic surgery for the treatment of skin cancer. After graduating from Rampart High School in Colorado Springs, CO, Dr. Anderson moved to Vancouver, British Columbia where he attained his Bachelor of Science in biology from the University of British Columbia and a Master of Christian Studies degree from Regent College. Dr. Anderson was then invited to attend the founding osteopathic medical school, Kirksville College of Osteopathic Medicine. Upon matriculation, Dr. Anderson was commissioned in the United States Navy where he spent the majority of his time serving the United States Marine Corps as the First Reconnaissance Battalion Surgeon.

Dr. Anderson left the military in order to pursue dermatology. During his three-year dermatology residency at the Michigan State University Consortium/Oakwood Southshore Medical Center, he was actively involved in academic pursuits, which included national and international lecturing, as well as publishing several dermatologic articles. From October 2008-October 2009, Dr. Anderson represented all osteopathic dermatology residents as the resident liaison for the American Osteopathic College of Dermatology.

**Shino Bay Aguilera, DO, FAOCD**

Dr. Shino Bay Aguilera is a world-renowned, multi-award winning cosmetic dermatologist, dermatologic surgeon, cosmetic laser expert and is dual board-certified with a fellowship in dermatology from the American College of Osteopathic Dermatology and the American Academy of Dermatology.

With over 17 years of experience and ongoing advanced training in lasers and aesthetics, he is a clinical researcher, publisher, former Chief Medical Director and current Assistant Professor of the Dermatology Residency Program at NOVA University, Assistant Professor of Dermatology for Lake Erie College of Osteopathic Medicine, Suncoast University and Universidad del Rosario, Bogota, Colombia. Dr. Aguilera is also a volunteer Assistant Professor of Dermatology for the University of Miami and was appointed chief resident physician for both of his three residency programs.

As a medical aesthetic resource Dr. Aguilera contributes to several media outlets including New Beauty Magazine, the Aesthetic Guide, Medaesthetic Magazine, CBS, NBC, MegaTV and Telemundo television stations and he has been consecutively awarded the prestigious national “Best Non-Surgical Facial Enhancement” from the Aesthetic Academy. Dr. Aguilera is internationally recognized as a multi-award winning practitioner of aesthetic dermatology and an industry leader in physician training; however, his true expertise is in understanding individual patients’ needs and his artistry in creating natural rejuvenation and a more youthful appearance.

It was at a very early age that Dr. Aguilera’s work ethic, integrity, passion for people and determination led him to be awarded the title of “Best Young Citizen of Panama” at the age of 15. As a young adult, he moved to Los Angeles to pursue his dream of becoming a doctor, enrolling at Pasadena City College, he learned English in a matter of months and was accepted into UCLA. Dr. Aguilera’s passion for people has continued in his extensive volunteer work nationally and abroad. He is active in his contributions both financially and as a medical volunteer for Hospice, UNICEF, The Red Cross, DOCare International, Handy and Breast Cancer Awareness.

He is the publisher and author of the Amazon bestselling book Be Youthful, a practical guide for patients to stay youthful in mind, body and spirit. He is also co-author of Ethnique and Gender Considerations when doing Fillers and Dermatologic Surgery, and has contributed to numerous journal publications in the field of aesthetic medicine.

Dr. Aguilera is the creator of multiple signature techniques utilizing various dermal fillers and travels the globe to train his colleagues internationally in aesthetic medicine. In addition to his extensive medical knowledge in aesthetic medicine, Dr. Aguilera is highly regarded as a motivational speaker and spiritual advisor, always returning to his passion for people.

**Jean-Paul Azzi, MD**

Jean-Paul Azzi, MD, is a Palm Beach facial plastic and reconstructive surgeon specializing exclusively in cosmetic and reconstructive procedures of the face, nose and neck.

Dr. Azzi completed his residency in head and neck surgery/facial plastic surgery at the world-renowned New York Eye and Ear Infirmary in Manhattan and received his board certification. He then completed a fellowship in exclusively facial plastic & reconstructive surgery with the past president of the American Academy of Facial Plastic & Reconstructive Surgery, where he learned cutting edge techniques in facelifting, endoscopic, minimally invasive facelifting, endoscopic brow lifting, endoscopic midface lifting, blepharoplasty (eyelid lifting), otoplasty (ear pinning), neck lifting, fat grafting, skin resurfacing, facial reconstruction, hair transplantation and facial injectable treatments.

In addition to his cosmetic private practice, Dr. Azzi also performs charitable reconstructive procedures in underdeveloped countries such as Vietnam, Guatemala, Ecuador and Colombia. These procedures include repairing cleft lips and palates and reconstructing children with microtia (missing ears) using their rib cartilage.

Dr. Azzi is a Hobe Sound, FL native who enjoys spending time with his family and friends. His interests include tennis, golf and boating. His patients love his sense of humor and warm, caring demeanor.
Leslie Baumann, MD

Dr. Baumann authored the first textbook about cosmetic dermatology in 2002, and the second edition of *Cosmetic Dermatology: Principles and Practice* (McGraw Hill) now ranks as the bestselling dermatology textbook in the world and has been translated into 14 languages. In 2005, Dr. Baumann authored *The Skin Type Solution*, a *New York Times* bestseller that has been published in many languages. The latest edition of *The Skin Type Solution* was published in December 2010 to coincide with the PBS special, “Skin Type Solutions with Dr. Leslie Baumann,” which began airing in late 2010. Dr. Baumann's latest textbook, *Cosmeceuticals and Cosmetic Ingredients* (McGraw Hill) was released in November 2014. Dr. Baumann also pens a bi-monthly column in *The Miami Herald* and regularly contributes to magazines, trade publications and medical journals.

Edwin Bayo, JD

Ed was born in San Juan, Puerto Rico. After graduating in 1978 with a bachelor's degree in economics (cum laude) from the University of Puerto Rico, he moved to the United States to pursue his legal education. He received his Juris Doctorate from Stetson Law School in 1981.

Ed worked in various capacities for the Florida Office of the Attorney General, including tax litigation, administrative law, cabinet affairs and inspector general. His primary area of practice while in government involved providing advice and representation to regulatory boards under the umbrella of the Department of Health and the Department of Business and Professional Regulation. As Senior Assistant Attorney General in the Administrative Law Section, Ed served as counsel to various professional regulatory boards, including pharmacy, dentistry, osteopathic medicine, chiropractic medicine, veterinary medicine, professional engineers, landscape architecture, clinical social work and harbor pilots. In addition, he handled temporary duties or litigation for several other boards including medicine, psychology, nursing, architecture and accountancy. In 2002, Ed served as the Attorney General Representative to the Pedigree Paper Task Force, created by the Legislature to review and reform Florida's regulation of the prescription drug wholesale industry.

Ed's current practice at Grossman, Furlow and Bayo includes the representation of professional licensees, regulated entities and interested parties before regulatory agencies, Florida Courts and the Division of Administrative Hearings. He concentrates his practice in the areas of administrative and regulatory law with emphasis on the laws and regulations affecting pharmacies, drug manufacturers and drug wholesalers. He is a frequent speaker before local, state and national professional organizations on licensure and regulatory issues. He has published several articles on these topics.

Neal Bhatia, MD

Dr. Neal Bhatia is a board-certified dermatologist in San Diego, California. He serves as Director of Clinical Dermatology at Therapeutics Clinical Research. He is as chief medical editor for *Practical Dermatology*. He has a background in immunology and has interests in mechanisms of therapy, skin cancer, and medical dermatology. Aside from teaching at medical conferences, he sits on several editorial boards and is an active teacher for dermatologists, industry, and patients.

Ronald Burns, DO, FACOFP, AOA President

On July 27, 2019, the AOA inaugurated Ronald Burns, DO, FACOFP, as the 2019-20 President of the AOA. Dr. Burns is an AOA board-certified osteopathic family medicine physician in private practice in Orlando, Florida. He has served on the AOA Board of Trustees since 2007.

Active in organized medicine his entire career, Dr. Burns served as president of the Florida Osteopathic Medical Association (FOMA) from 2004-2005, and provided leadership at the local level as a trustee of FOMA and FOMA District Society 3. He has been honored with the FOMA Physician of the Year award and the Distinguished Service award. In addition, he served for nine years on the National Board of Osteopathic Medical Examiners, which assesses competencies for osteopathic medicine and related health care professions.

Dr. Burns built an impressive career of service in the state of Florida by serving on the Florida Board of Osteopathic Medicine, the Florida Health Information Infrastructure Board, the Florida Medicaid Formulary Study Panel and the Florida Pharmaceutical and Therapeutics Committee.

Dr. Burns graduated from the Ohio University Heritage College of Osteopathic Medicine in Athens, Ohio. He completed an internship at Doctors Hospital of Stark County in Massillon, Ohio, and completed residency at Florida Hospital East Orlando. In 2018, the Ohio Alumni Association Board of Directors presented Dr. Burns with the Medal of Merit for achieving distinction in his field.

Dr. Burns and his wife Janet have five children and reside in Winter Park, Florida. He has a long history of service in healthcare legislation, regulation, education and leadership at the national, state and local levels. He brings forth a strong directive for his year of service as AOA president: “Physician directed, physician led.”

Steven Feldman, MD

Dr. Steven Feldman is Professor of Dermatology, Pathology, Social Sciences & Health Policy and Molecular Medicine & Translational Science at the Wake Forest School of Medicine. He leads the Center for Dermatology Research, a health services research center whose mission is to improve the care of patients with skin disease. He has done groundbreaking work on patients’ adherence to their medication treatment regimens, the latter leading to the Wake Forest spin off company Causa Research. Feldman’s clinical work led him to an interest in patient satisfaction. Feldman created the www.DrScore.com doctor rating/patient satisfaction website. His research has been published in over 1,000 Medline-reference articles. Feldman also serves as the editor of the *Journal of Dermatological Treatment* and the *Journal of Dermatology and Dermatological Surgery* and as chief medical editor of *The Dermatologist*. Feldman’s experiences in medicine have led him to try to see how others perceive things, leading to his book *Compartments* and to attending the 2018 meeting of the Morgellons Disease Foundation, documented in the movie, *Skin Deep: The Battle Over Morgellons*. 
Cal Fussman
For over four decades, Cal Fussman has interviewed hundreds of the world’s most influential individuals: Muhammad Ali, Jack Welch, Mikhail Gorbachev, Serena Williams, Jeff Bezos, Jimmy Carter, Kobe Bryant, Richard Branson, and the list goes on.

Now, as a New York Times bestselling author, keynote speaker, world-renowned interviewer, and host of the Big Questions podcast, Fussman travels the world teaching the world’s largest companies, universities, and associations about leadership, storytelling, innovation, teamwork, and more. When Cal speaks, you’re listening to everyone he’s ever interviewed. Lessons and stories from hundreds of world icons, all coming through one man in a fedora.

Over the past several years, Cal has delivered keynotes for industry leading organizations including General Motors, Facebook, Pixar, Twitter, The Vanguard Group, Apple Music, Snapchat, Samsung, Turner Broadcasting, Vans, lululemon, YPO, and Entrepreneur’s Organization; universities like UCLA and Georgetown; and at conferences as far as South Africa and Kenya. After Cal spoke at Facebook, Chris Sanders in Global Marketing Solutions said: “We literally have people using the term, ‘Cal Question.’ He has become a part of our culture.”

Born in Brooklyn, Fussman spent ten straight years traveling the world, swimming over 18-foot tiger sharks, rolling around with mountain gorillas in Rwanda, and searching for gold in the Amazon. He boxed against then-undefeated world champion Julio Cesar Chavez, won a James Beard award and served as sommelier atop of the World Trade Center.

He now lives with his wife—whom he met while on his quest to discover the world’s most beautiful beach—and his three children in Los Angeles, where he spends every morning eating breakfast with Larry King.

Steven Grekin, DO, FAOCD
Dr. Steven Grekin has made it his personal and professional mission to help his patients put their best face forward. Years of research at the International Skin Rejuvenation Institute in Paris, France, and Quebec, Canada, have led Dr. Grekin to understand the secrets to younger, smoother, more radiant skin. Respected here and abroad as an expert in cosmetic dermatology, Dr. Grekin comes from a long line of physicians – six are dermatologists. He has participated in international teaching and training courses and is an internationally recognized lecturer in his field. Guided by cutting-edge principles of modern dermatology, natural medicine and the highest quality medical care, Dr. Grekin offers his patients an elegant, intelligent program distinguished by its unique flexibility to restore every skin type to its youthful, natural best. His family has been providing health care in the United States for almost ten years. Dr. Grekin is committed to helping patients from all over the world. He now offers his programs online, so that he may reach out and help as many people as he can put their best face forward.

Jeff Johnson, PA-C, DSDPA
Jeff Johnson is a board-certified physician assistant. He is a 1995 graduate of the United States Air Force Physician Assistant program. He completed his training as an honor graduate at the Air Force Academy in Colorado Springs, CO. Prior to P.A. school, he was an instructor of laboratory medicine at the School of Health Care Sciences at Sheppard AFB, Texas. While on active duty, he was chosen as Physician Assistant of the Year on two separate occasions and twice the Officer of the Year as well. A gifted speaker, he routinely lectures within his community, across the state of Florida and with the Lecture Series Development Program for the American Academy of Physician Assistants. He has given dermatology lectures across the country. Jeff serves as the President of the Florida Society of Dermatology Physician Assistants.

Mark Kaufmann, MD
Mark Kaufmann, MD, is an Associate Clinical Professor in the Department of Dermatology at the Icahn School of Medicine at Mount Sinai in New York City, a position he has held since 1995. He was in solo private practice for 23 years until he joined The Dermatology Group in November 2017. He now serves as Chief Medical Officer of The Dermatology Group.

He received his medical degree from New York University School of Medicine, completing residency training in dermatology at the Albert Einstein College of Medicine in the Bronx, New York. He is board certified in dermatology.

Dr. Kaufmann has served on the Board of Directors of the American Academy of Dermatology. He now chairs the AAD Workgroup on Innovations in Payment and Delivery, and is Deputy Chair of its Patient Access and Payer Relations Committee. He also serves as an advisor to the Academy RUC team- a position he has held for over a decade.

With many articles published on the topic of health information technology, Dr. Kaufmann is a frequent national lecturer, including the annual meetings of the American Academy of Dermatology, and other societies, and grand rounds.

Dr. Kaufmann’s contributions to the American Academy of Dermatology have been recognized by his receiving a Presidential Citation in 2013, 2014, 2015, and 2017.

Kevin Klauer, DO, EJD, FACEP, AOA CEO
Kevin Klauer, DO, EJD, FACEP, serves as the CEO of the American Osteopathic Association (AOA), representing more than 145,000 osteopathic physicians (DOs) and medical students throughout the U.S. In this position, Dr. Klauer leads strategy, operations, organizational growth and advocacy for the osteopathic profession. He partners with the Board of Trustees, affiliated associations and staff to advance the AOA’s strategic vision and execute its programs.

Dr. Klauer previously served as chief medical officer for hospital-based services, chief risk officer and executive director of the patient safety organization at TeamHealth, a leading clinician services organization. He also served as a clinical assistant professor at Michigan State University College of Osteopathic Medicine and the University of Tennessee Health Science Center College of Medicine.
Prior to his arrival at TeamHealth in January 2015, Dr. Klauer spent 15 years with Emergency Medicine Physicians, Ltd. (EMP), serving in many capacities. He was also a member of the board of directors for Physicians Specialty Limited Risk Retention Group and the EMP Medical Group board of directors.

Outside of full-time professional work, Dr. Klauer is involved in and has been recognized by numerous health care organizations. He was honored by the American College of Osteopathic Emergency Physicians with the 2018 Outstanding Educator of the Year award.

Dr. Klauer was elected to the American College of Emergency Physicians (ACEP) board of directors in October 2016 and he previously served as ACEP Council Speaker. Dr. Klauer also serves as the medical editor-in-chief for ACEP Now, ACEP’s monthly publication, and was editor-in-chief for Emergency Physicians Monthly.

He has received the Emergency Medicine Residents’ Association (EMRA) Robert Dougherty ACEP/EMF Teaching Fellowship as well as the ACEP National Faculty Teaching Award. In 2014, Dr. Klauer was the recipient of the American College of Emergency Physicians Honorable Mention Outstanding Speaker of the Year Award and was recognized by the Ohio Chapter of ACEP with the Bill Hall Award for service.

Dr. Klauer earned his DO degree from the Concord Law School.

Mark Lebwohl, MD
Dr. Mark Lebwohl graduated summa cum laude from Columbia College in 1974 and graduated from Harvard Medical School in 1978. He completed residencies in internal medicine and dermatology, both at Mount Sinai. Dr. Lebwohl has been practicing dermatology since 1983. He is professor and chairman of the Kimberly and Eric J. Waldman Department of Dermatology of the Icahn School of Medicine at Mount Sinai. Dr. Lebwohl is the President of the American Academy of Dermatology. He is chairman emeritus of the Medical Board of the National Psoriasis Foundation. He is the founding editor of Psoriasis Forum as well as a medical editor of the bulletin of the National Psoriasis Foundation, Psoriasis Advance. He is editor of the Dermatology Section of Scientific American Medicine.

Dr. Lebwohl has chaired numerous symposia and has written, edited or co-edited several books including Psoriasis, Mild-to-Moderate Psoriasis and Moderate-to-Severe Psoriasis. He has authored or co-authored over 500 publications including peer-reviewed articles, invited articles and book chapters. Dr. Lebwohl is actively involved in clinical trials of many new dermatologic treatments.

Clifford Lober, MD, JD
Dr. Clifford Lober is a board-certified dermatologist. He received his medical degree from Duke University School of Medicine in 1974. He then completed his internship at Mayo Clinic in 1977 and his residency at the University of Tennessee in 1982.

Dr. Lober has been in the full-time private practice of dermatology in Kissimmee, FL, for 29 years. He is Adjunct Associate Professor in the Department of Dermatology and Cutaneous Surgery at the University of South Florida.

Dr. Lober has received four Presidential Citations from the American Academy of Dermatology and was named “Surgeon of the Year” in 1992 by the Florida Society of Dermatology and Dermatologic Surgeons. In addition to being awarded “Practitioner of the Year,” he was awarded the first ever “Distinguished Service Award” by the Florida Society of Dermatology and Dermatologic Surgery. Dr. Lober has served on the Board of Directors of the AAD and chaired its section on Health Practice, Policy and Research.

Arnold Mackles, MD
Dr. Mackles practiced hospital based neonatal medicine in Florida for over twenty two years after completing a Pediatric Residency at Lenox Hill Hospital in New York City, and a Fellowship in Neonatology at the Cornell University Medical Center. In addition to receiving an MBA from Nova Southeastern University, Dr. Mackles obtained his license as a Healthcare Risk Manager through studies at the University of South Florida. Dr. Mackles was elected to the Board of Directors of The Florida Society for Healthcare Risk Management and Patient Safety for a two year term from 2006-2008, and again for a one year term from 2014-2015. Dr. Mackles has served as an instructor with the University of Florida Distance Education Risk Management and Patient Safety Program, and also participated as a faculty member of the University of South Florida Risk Management Licensure Program. In addition, Dr. Mackles is the author of multiple on-line continuing education courses on patient safety topics for The Sullivan Group. Dr. Mackles now devotes full time to risk management and patient safety issues.

Michael Morgan, MD
Dr. Michael Morgan is a pathologist in Panama City, Florida and is affiliated with multiple hospitals in the area, including Birmingham Veterans Affairs Medical Center and Central Alabama Veterans Health Care System- Montgomery. He received his medical degree from the University of South Florida Morsani College Of Medicine. Dr. Morgan is board certified in Dermatopathology, Anatomic Pathology and Clinical Pathology from the American Board of Pathology. Dr. Morgan has been in practice for more than 20 years.

Michael Nowak, MD
Dr. Michael Nowak is board-certified in anatomic and clinical pathology and dermatopathology. Dr. Nowak earned a Bachelor of Science degree from Xavier University, followed by a medical degree from Wright State University. After completion of an internship in internal medicine, he served as chief resident and cancer fellow at Western Reserve Care System where he completed a residency in anatomic and clinical pathology. Dr. Nowak finished his training in Providence, RI at Brown University, where he completed fellowship training in dermatology and dermatopathology.
Dr. Sirota Rozenberg has authored over 15 articles in major medical journals on a variety of subjects including malignant melanoma, extramammary Paget’s disease, generalized pruritis and infectious diseases of the skin. He is also a member of the medical staff at Columbia Hospital in West Palm Beach, FL, where he conducts weekly teaching sessions with dermatology residents and has been awarded “Dermatology Attending of the Year” by his peers at the hospital. He is also a reviewer for the journal titled the *Physician and Sports Medicine*, and is on the editorial board for the journal *Postgraduate Medicine*. Resident lectures and review of journal articles ensures that Dr. Nowak stays current with the latest advances in the science of dermatopathology. Dr. Nowak’s practice is dedicated to the evaluation and diagnosis of skin pathology samples.

Ms. Rojas represents a variety of healthcare businesses and professionals, including physicians and other practitioners, group practices, laboratories, imaging centers, pharmacies, hospitals, home health agencies, assisted living facilities, and healthcare compliance consultants. Through collaboration with other attorneys and law firms, Ms. Rojas ensures that her healthcare clients receive full-service legal representation, including representation related to real estate law, tax law, intellecution property law, litigation services, etc.

Ms. Rojas currently serves on the Governing Council for the Health Care Law Section of the State Bar of Michigan, and serves on the Health Care Law Section's Medical Legal Subcommittee and Technology Subcommittee. She is also a committee member for the American Health Lawyer Association’s Physician Organization Practice Group. Additionally, Ms. Rojas has authored many articles for the American Bar Association’s Health Law Section.

In her spare time, Ms. Rojas serves as the President of the Paraguayan-American Association of Physicians, a non-profit charity that raises money for the medical school in Asuncion, Paraguay, as well as for other causes in Latin America. Ms. Rojas also serves as Vice-President of the Mental Illness Research Association, which raises money for mental illness related research grants and mental illness educational presentations in secondary schools throughout Michigan and Ohio.

A native of Italy, Dr. Paolo Romanelli earned his undergraduate degree at Collegio Alla Querce and his M.D. from the University of Pisa School of Medicine. He has won several Best Teacher awards, published in peer-reviewed journals, presented lectures at national and international dermatology meetings including the AAD, EADV, and Masters of Pediatrics and co-authored a *Dermatology Therapeutics* book. Dr. Romanelli also sees general dermatology patients and is Director of the Psoriasis Biologics Clinic at Jackson Memorial Hospital.

Shoni Rozenberg, DO, is a board-certified dermatologist practicing in Woodmere, NY. Dr. Rozenberg earned her medical degree from New York College of Osteopathic Medicine. She completed an internship and dermatology residency at St. John's Episcopal Hospital in Queens, NY. Her interests include surgical, cosmetic and general dermatology. She enjoys traveling, art history and spending time with family and friends.

Dr. Suzanne Sirota Rozenberg is a board-certified dermatologist practicing in Woodmere, NY. She earned her Doctor of Osteopathic Medicine degree at New York College of Osteopathic Medicine in 1988. After medical school, she completed both an internship and residency in family practice at Peninsula Hospital Center in Far Rockaway, NY, in 1992. She has been board-certified in family medicine since 1992. She then practiced for the next ten years with her brother and father. From 2002-2005, she trained in the dermatology residency program at St. John's Episcopal Hospital in Far Rockaway, where she now serves as Program Director. She served as Associate Director of Medical Education from 2005-2012. She is a Clinical Adjunct Professor at TouroCOM and LECOM. She has a full-time dermatology practice as well.

Dr. Sirota Rozenberg’s memberships include the AOA, ACOFP, AOCDF and AAD. She is a Past President of the AOCDF and the ACOFP-NYS Chapter. She served on the AOCDF Board of Trustees from 2008-2015, holding the positions of Trustee, Vice President and President. She represents the AOCDF on the Program and Trainee Review Council of the AOA. She has served on the AOCDF Education Evaluating Committee since 2009. For her years of service to the AOCDF, Dr. Sirota Rozenberg has earned the title of Fellow of Distinction. She is a member of the AAD Ad Hoc Task Force for Osteopathic Dermatology Recognition and NBOME POCKET member. Dr. Sirota Rozenberg lectures locally and nationally, speaking at meetings of the AOCDF, EROC, ROC-NY and the New York State Chapter of ACOFP. In addition to dermatology, she is board-certified in family practice and sclerotherapy.
Lisa Swanson, MD

Dr. Swanson is a board-certified dermatologist and pediatric dermatologist. She was born in New Orleans, Louisiana, and raised in Scottsdale, Arizona. She attended college at the University of Colorado at Boulder, graduating with honors as an English major. After that she obtained her medical degree from Tulane University School of Medicine in New Orleans. She performed her internship at Mayo Clinic in Scottsdale, Arizona, and went on to complete her dermatology residency at Mayo Clinic in Rochester, Minnesota. After that, she completed a fellowship in Pediatric Dermatology at Phoenix Children’s Hospital in Arizona.

She is a past Treasurer, Vice President and President of the Colorado Dermatologic Society. She is an active lecturer at conferences discussing pediatric dermatology with audiences across the country. She has been selected as a “Top Doc” by 5280 Magazine in 2012 through 2019. She is on staff at Rocky Mountain Hospital for Children where she sees hospital consults and performs procedures.

Karysse Trandem, DO

Dr. Karysse J. Trandem is a highly sought-after board-certified Obstetrician and Gynecologic Surgeon specializing in recognizing and treating victims of human sex trafficking. Dr. Trandem speaks around the world about her international experience treating trafficked patients and specific ways to recognize and treat victims. Dr. Trandem was selected for and completed distinguished research fellowships at both the National Institutes of Health in Washington, D.C., and the World Health Organization in Geneva, Switzerland. As the recipient of numerous prestigious local, national, and international awards for patient care, Dr. Trandem brings excellence and expertise to her audiences. Dr. Trandem is the Physician Expert and Speaker for the National Human Trafficking Intelligence Center, and lectures at numerous hospital institutional Grand Rounds presentations. Dr. Trandem has treated trafficked victims cross-culturally and internationally in community, clinic, and hospital settings, and is the volunteer Medical Director at International Wings of Shelter, a non-profit organization specializing in treatment and life rehabilitation of juvenile victims of sex trafficking.

Michael Wein, MD

Michael Wein, MD, is Chief of Allergy at Indian River Medical Center and serves on the faculty at Florida State University College of Medicine. He completed his undergraduate work at Brown University, an internal medicine residency at Vanderbilt University, and his post-doctoral fellowship at Johns Hopkins Hospital in the division of Allergy & Immunology. He is board-certified by the American Board of Allergy and Immunology and also by the American Board of Internal Medicine.

Dr. Wein is Past President of the Florida Allergy, Asthma, and Immunology Society and is a Fellow of the American Academy of Allergy, Asthma and Immunology. He has authored several publication including the chapter on allergic rhinitis in Conn’s Current Therapy, 2006 edition, and has served editorial roles for DynaMed Online and Prescribers Letter and is currently an Advisory Board Member of Boston-based Wellness Workdays. He co-authored a study on Epi-pen which was published in Annals of Allergy in 2015 and subsequent featured on CNN. His previous publications relate mostly to allergic inflammation, eosinophils, and adhesion molecules.

His offices are located in Vero Beach and Port Saint Lucie and he enjoys learning about dermatology from his friends practicing dermatology in his community.

Jason Winn, JD

Jason D. Winn, Esquire, is a 1996 graduate of the University of Maryland and received his Juris Doctorate from Nova Southeastern University - Shepard Broad Law in Ft. Lauderdale, Florida in 2000. Mr. Winn was admitted to the Florida Bar in 2001.

From 2001 until 2004, Mr. Winn worked for the Assistant Public Defender in the Fifth Judicial Circuit where he conducted over 15 jury trials, numerous non-jury trials, and many hearings including, violations of probation, restitution, and early termination motions for defendants in Juvenile, Misdemeanor and Felony Court. Mr. Winn was also an adjunct professor at Lake Sumter Community College teaching Business Law during this time. In 2003, Mr. Winn was appointed by Governor Bush to serve a one-year term on the Judicial Nominating Commission for Judicial Compensation Judges. From 2004-2006 Mr. Winn worked for the law office of Clyde M. Taylor, Jr. focusing on both state and federal criminal defense and parole violation hearings. Beginning in 2005, he opened his own practice, Winn Law, PA, where he is managing partner and continues to focus on administrative, governmental, civil, and legislative consulting.

Mr. Winn currently serves as general counsel for the Florida Osteopathic Medical Association (FOMA), the Florida Podiatric Medical Association (FPMA), the Florida Society of Hearing Healthcare Professionals (FSHHP) and the Gadsden County Sheriffs Office (GCSO). Mr. Winn lectures throughout Florida on the Laws and Rules that affect health care practitioners, including Osteopathic, Allopathic, Podiatric, and various other licensed health care providers.

He is a member of the Florida Bar, Tallahassee Bar, Legal Services of North Florida. As a member of the Tallahassee Bar, Mr. Winn volunteers his legal services to the Wakulla County Senior Citizens Center, and Legal Services of North Florida. Mr. Winn is a devoted husband, and father to three boys. During his downtime, he enjoys hunting, fishing, golfing, and the great outdoors.

Edward Yob, DO, FAOCD

Dr. Edward Yob is board certified by the American Osteopathic Board of Dermatology in dermatology with a certificate of added qualification in Mohs micrographic surgery. Dr. Edward Yob received his medical degree from the Philadelphia College of Osteopathic Medicine and completed his residencies at the United States Air Force Regional Hospital and Boston University/New England Medical Center.

His practice is limited to the diagnosis and treatment of skin cancers. He is a clinical associate professor at the University of Oklahoma Health Sciences Center, Department of Dermatology.
What is my action plan? How will I incorporate what I’ve learned into my daily practice?

What questions do I still have?
The following are overall learning objectives for the Spring 2020 New Trends in Dermatology seminar:

- Discuss upcoming changes to physicians’ reimbursement models, share tips for operating a successful practice.
- Treat atopic dermatitis and psoriasis effectively, recognize the risks and benefits of biologic therapy, select appropriate therapies for specific patient populations, recognize the side effects of various psoriasis therapies.
- Discuss new therapeutics for children with skin diseases, help attendees identify common pediatric skin conditions, help attendees learn what is new and interesting in pediatric dermatology.
- Review osteopathic tenets, review osteopathic approach in delivering bad news to the patient, review dermatologic medical conditions and treatments with an osteopathic approach.
- Interactively participate in case studies of complex cutaneous oncology, gain a better perspective of the complexities of interdisciplinary approaches common in oncology.
- Describe the characteristics and treatment options of Morgellons disease, describe research on causes of Morgellons disease.
- Utilization of a PA in a dermatology office, definition and implementation of optimal team practice, tips for hiring/employing a PA.
- Identify common causes of contact dermatitis in children, discuss new treatments for hemangiomas and pyogenic granulomas, provide attendees with some new tools to manage atopic dermatitis in children.
- Increase clinician's awareness of subtle findings in common lesions, recognize and identify certain patterns that can assist in formulating a diagnosis, improve ability to combine histological and clinical information to render a diagnosis.
- Understand the cellular processes that lead to skin aging, evaluate the various anti-aging techniques, update your knowledge on the science of skin aging.
- Learn legal principles as they affect the practice of dermatology, improve patient satisfaction by emerging compliance with the ADA and similar regulations, avoid legal missteps by clarifying ambivalent regulations. Learn which activities the ADA covers, know how to make these websites compliant with the ADA, understand how to determine if an animal is a service animal according to the ADA.
- Detailed analysis of the 3 main causes of facial aging, how to approach those causes, appropriate and inappropriate treatments.
- Practical aspects of IVIG therapy, therapeutic pipeline for atopic dermatitis, differentiating among biologics for psoriasis.
- Understand the changes to the CPT book in 2020 and 2021, understand reimbursement challenges dermatologists will face over the next few years, understand the ultimate goal of value based healthcare.
- Evaluate, diagnose, discuss treatment, treat patients for common dermatologic issues.
- Recognize the pathogenesis of warts and their similarities to actinic keratosis in terms of morphology, distribution, and responses to treatment. Identify basic mechanisms of action of PDT. Recognize basic mechanisms of physiological/pathological sweating including hyperhidrosis. Analyze and define the various mechanisms of actions of biologic therapies.
- Understand medical law and know what to look for in medical contracts.
- Newest diagnosis techniques, prognostic treatments/methodologies in melanoma.
- Understanding of rheological properties of fillers, understand the anatomy of the face, foundation of philosophy related to injections.
- Empowering techniques to use in your practice.
- Future of the osteopathic profession and how to enhance the profession.
American Osteopathic College of Dermatology

SPEAKER EVALUATIONS & LEARNING OBJECTIVES SURVEY

2020 Spring New Trends in Dermatology
February 20 – 23, 2020
West Palm Beach, FL

__________________________________________________________________________

Should you have any questions regarding the facilities, handouts, program content, or concerns about CME compliance, feel free to contact the AOCD representative:

Marsha A. Wise, B.S., Executive Director  mwise@aocd.org
P.O. Box 7525
Kirksville, MO 63501
The overall mission of each AOCD CME Activity is to:
1. Inform all providers of advances in medical knowledge and technology.
2. Inform all providers of advances in diagnosis and treatments for better patient care and outcomes.
3. Inform all providers of advances in Practice-Based Learning and System-Based Practices.

AOCD CME activities are intended to enhance the knowledge and competence of its attendees, with the intended goal being improving patient care and their health outcomes. The impact of our educational meetings will provide a diversified CME program focusing on the art and science of Dermatology.

1. The AOCD has met its Mission for this conference. _____ Yes  _____ No

2. If you answered no, please describe how we did not meet the mission:

CME providers must show incorporation into CME activities, the educational needs (knowledge, competence, or performance) that underlie the professional practice gaps of their own learners. They must generate activities and/or educational interventions that are designed to change competence, performance, or patient outcomes.

1. What problems/issues in your practice would you like our continuing medical education program to try and help you with?

2. What questions in practice are you having that you are not getting answers to?

3. What patient problems or patient challenges do you feel that you’re not able to address appropriately or to your satisfaction?

4. What patient problems are your patients communicating to you needs more attention or more follow-up?

5. What are the most common cases seen in your area?

6. What are the most prevalent and serious medical problems for your state? (Please provide state)

7. What are the key issues or obstacles to patient care you or your colleagues encounter?

8. What kinds of clinical situations do you find difficult to manage or resolve?

9. The following items are very important in helping you provide optimal care to your patients.

<table>
<thead>
<tr>
<th>Articles in peer reviewed journals</th>

WHY is this being done??
AOA’s CME Policy on Outcome Measurement

- Encouraged 2019-2021
- Required that one CME program must be outcomes based in CME cycle 2019-2021.

HOW will the AOCD do this??
Pre-and post-tests: Level 3A and B Measurement

- Physicians complete multiple choice questions concerning activity content before and immediately after a CME activity – Measures learning that occurred as a result of the activity.
- Participants, faculty and CME staff get immediate feedback on physician learning.
- There are no indicators that learning is retained or there will be a change in performance.

Pre-and post-tests can be used in conjunction with live meetings, printing enduring materials and Internet-based CME activities.

Name: ______________________________________________________  AOA Number: ____________________

1. What is the name of the anti-PD1 antibody that has now been approved for the treatment of advanced squamous cell carcinoma of the skin?
   A. Pembrolizimab
   B. T-Vec
   C. Cemiplimab
   D. Adriamycin

2. What changes to the E/M codes will happen in 2021?
   A. You will choose a code based on history, physical examination, medical decision making
   B. All E/M codes will remain the same
   C. You will choose a code based on time or medical decision making
   D. A brand new set of E/M codes will be introduced to replace the current codes

3. The CDC found drugs (amphetamines, barbiturates, benzodiazepines, cannabinoids, cocaine, or opiates) in hair samples of what percentage of Morgellons patients:
   A. 25%
   B. 50%
   C. 75%
   D. 100%

4. A 72yo female patient has scheduled a consultation with you for removal of skin cancer. She has been experiencing memory loss so her daughter has come to the appointment with her to review options. How can you as a physician ensure this patient understands what is being communicated to her?
   A. Be succinct, avoid the use of medical jargon
   B. Have the patient repeat the information given back to you, have family members present
   C. A & B
   D. None of the above

5. Oxybutynin can be used for the treatment for hyperhidrosis
   A. Using slow tapering of doses
   B. In combination with pilocarpine
   C. With few adverse events
   D. All of the above
