

American Osteopathic College of Dermatology

@

OMED 2017

Philadelphia, PA | October 7-8

American Osteopathic College of Dermatology Mission Statement

Continuing Medical Education Needs Assessment

The Continuing Medical Education Program of the American Osteopathic College of Dermatology will support, enhance and advance new models of academic excellence and community health care.

The mission of the American Osteopathic College of Dermatology is to create innovative education, support, and opportunities in dermatology that promote excellence in patient care and community health through advocacy, conscientiousness, inclusivity, and osteopathy.

Purpose

The purpose of the CME program is to provide AOA-accredited continuing medical education activities to inform physicians. The program will provide a mechanism by which its constituents can improve competency, maintain board certification and cultivate lifelong learning. CME will provide physicians with the opportunity to further develop their knowledge through individual and group learning activities. The Continuing Medical Education Committee will monitor the quality of all programs conducted by the AOCD.

Accreditation:

The AOCD is accredited by the American Osteopathic Association. This activity anticipates being approved for 13 hours of AOA Category 1-A credit pending approval by the AOA CCME.

The American Osteopathic College of Dermatology is currently seeking accreditation by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

This meeting will provide a diversified CME presentation focusing on the art and science of dermatology. Information will be presented through lectures and scientific paper presentations. The activity actively encourages attendees to develop enduring materials as an evolving tool for continuing education. The College is committed to exploring the development of its capacity to expand resources in other educational techniques, including Web-based activities and point-of-care technologies.

Commercial Support Disclosure

AOCD CME will identify relevant financial relationships prior to awarding AOA Category 1A and/or *AMA PRA Category 1 Credit™* for CME activities. All persons in a position to influence or control CME content (course directors, program planning committee members, speakers, authors and staff) will complete a standardized disclosure form. Information about funding will be requested to identify CME activities at higher risk for commercial bias.

All AOCD CME activities will be evaluated by learners and possibly peer reviewers to determine if the content was free of commercial bias. All those identified as having influence and/or control of CME content perceived as either manifesting conflicts of interest or being biased may be disqualified from consideration as resources (planning group member, authors, faculty, etc) in subsequent CME activities.

Learners will be provided with information on identified COI from any of the above categories of persons that affect the content of CME, and that information will be positioned in course materials such that it is read by learners prior to the execution of the CME activity. Speakers for the AOCD will be required to provide disclosure information to meeting attendees during their introduction of their topic. Additionally, disclosure statements are provided in the program schedule given to each meeting attendee.

In accordance with the ACCME's Standards for Commercial Support of Continuing Medical Education, the Policy on Collection of Financial Relationships and Resolution of Conflicts of Interest (COI) exists to provide guidance for staff, instructors, planners, reviewers and managers of CME activities sponsored by **The American Osteopathic College of Dermatology, (AOCD)**. This policy addresses the underlying philosophy of disclosure to learners, mechanisms to collect disclosure information and the parties from whom financial disclosure shall be collected, the mechanisms to resolve COI, and requirements to make disclosure to learners prior to the start of an activity.

Professional Practice Gap Statement:

Physicians need to understand, update and manage changes in dermatology in order to provide optimal patient care. Physicians in private practice may not have immediate access to new updates in therapies and treatments. This activity will help to close gaps.

Expected Outcomes:

As a result of participation in the AOCD/CME activity, practicing clinicians will improve competency; maintain specialty board certification; and cultivate lifelong learning. It is expected that attendees of this meeting will improve their diagnostic competence regarding a wide range of dermatologic conditions. In addition to increased diagnostic competence, enhanced concepts of therapy and treatment in dermatologic care will be gained for implementation in everyday practice.

The overall result being improved physician/provider performance and increased positive patient outcomes.

These objectives will be achieved in a setting which is evidence-based, culturally sensitive and free of commercial bias. The AOCD is committed to the practice of continuing program improvement. The AOCD will actively explore new educational technologies, develop collaborative relationships with other CME providers and seek to build the capacity to evaluate competency-based outcomes among the clinicians we serve. CME will provide physicians with the opportunity to further develop their knowledge through individual and group learning activities.

Needs Assessments:

The activity was developed based upon the needs of physicians within the association identified through:

- New advances in dermatologic treatment identified in major publications or research studies
- New methods of diagnosis or treatment
- Availability of new medication(s) or indication(s)
- Development of new technology
- Epidemiological data
- Journal articles/literature citations

The AOCD Continuing Medical Education Committee works to assure the inclusion of appropriate Osteopathic content in the Continuing Medical Education activities presented by AOCD, and to assure that the Continuing Medical Education Programs of the AOCD will achieve the stated objectives of each meeting in a setting which is evidence-based, culturally sensitive and free of commercial bias.

The Continuing Medical Education Committee of the AOCD will monitor the quality of all activities conducted.

Content Areas:

The AOCD approves the CME activities based upon needs assessment data to ensure that all offerings present current, up to date and cutting edge information. Specific areas of emphasis include, new advances in dermatologic treatment, new methods of diagnosis or treatment, availability of new medication(s) or indication(s), development of new technology, advances in medical knowledge and legislative, regulatory, or organizational changes affecting patient care. The Osteopathic Core Competencies of Osteopathic Philosophy, Principles, Practice and Manipulative Medicine, Medical Knowledge, Patient Care, Interpersonal and Communication Skills, Professionalism, Practice-Based Learning and Improvement and System-Based Practice will also be incorporated into all CME activities.

Target Audience:

The primary target audience of this CME activity conducted by the AOCD is primary care physicians. The activity will also actively seek to broaden its audience through developing affiliations with CME providers on the national level.

Faculty Disclosure:

As a sponsor accredited by the AOA, it is the policy of the AOCD to require the disclosure of anyone who is in a position to control the content of an educational activity. All relevant financial relationships with any commercial interests and/or manufacturers must be disclosed.

Meeting Faculty and Planner Disclosures

Speakers

Carl Barrick, DO

Disclosures: No disclosures provided by speaker

Vladyslava Doktor, DO

Disclosures: No disclosures provided by speaker

Bradley Glick, DO, MPH, FAOCD, FAAD

Disclosures: Speaker for: Lilly, Abbvie, Janssen, Pfizer, Sanofi/Genzyme - Regeneron, Novartis; Advisor for: Lilly

Unlabeled/Investigational Uses of Products:

Upcoming, not yet approved agents will be discussed. Any off-label discussion of any product will be acknowledged.

Brittany Grady, DO

Disclosures: No disclosures provided by speaker

Monica Huynh, DO

Disclosures: No disclosures provided by speaker

David Kasper, DO, FAOCD

Disclosures: Speaker & Consultant for: Pfizer, Celgene, Promius, Aqua; Stockholder: Veloce BioPharma, LLC

Christopher Mancuso, DO

Disclosures: No disclosures provided by speaker

Serge Petrosian, DO

Disclosures: Some medications discussed may be used off-label.

Kelly Quinn, DO

PCOM/Lehigh Valley Health Network

Disclosures: No disclosures provided by speaker

Shoni Rozenberg, DO

Disclosures: Some medications discussed may be used off-label.

Veronica Rutt, DO

Disclosures: No disclosures provided by speaker

Louis Siegel, DO

Disclosures: No disclosures provided by speaker

Vanita Srivastava, DO

Disclosures: No disclosures provided by speaker

Adrian Tinajero, DO

Disclosures: No disclosures provided by speaker

Shannon Wiedersum, DO

Disclosures: No disclosures provided by speaker

AOCD Board of Trustees

Karthik Krishnamurthy, DO, FAOCD *President*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: Advisory Board: Aclaris; Speaker Bureau: Abbvie

Daniel Ladd, DO, FAOCD *President-Elect*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: Physician Training; Sensus Healthcare; Medical Officer/Minority Shareholder: SkinCure Oncology; Director, Officer or Employee of: Shade Project; Spouse is Director, Officer or Employee of: Shade Project

John Minni, DO, FAOCD *First Vice-President*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: Speaker: Abbvie, Janssen, Promius, Leo, Novartis, Galderma

Reagan Anderson, DO, FAOCD *Second Vice-President*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: Director, Officer or Employee of: RVUCOM; Principal Investigator: Novartis, Abbvie

David Cleaver, DO, FAOCD *Third Vice-President*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: Director, Officer or Employee of: KCOM (Assistant Professor)

Steven Grekin, DO, FAOCD *Secretary-Treasurer*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: Research Sponsors: Allergan, Valeant, Coherus, Mimetica, Galderma, Promise, J&J Psolar, HedgePath

Danica Alexander, DO, FAOCD *Trustee*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: No relevant financial relationships to disclose

Steven Brooks, DO, FAOCD *Trustee*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: Speaker: Pfizer

Jonathan Crane, DO, FAOCD *Trustee*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: Research, Consultant, or Speaker's Bureau for: 3M, Allergan, Candella Laser Company, Fujisawa, Genetech Inc., Glaxo Smith Klein, Novartis

Peter Saitta, DO, FAOCD *Trustee*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: No relevant financial relationships to disclose

Amy Spizuoco, DO, FAOCD *Trustee*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: No relevant financial relationships to disclose

Michael Whitworth, DO, FAOCD *Trustee*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: Director, Officer or Employee of: Wayne County Osteopathic Medical Association (Board Member 2012-2013)

Alpesh Desai, DO, FAOCD *Immediate Past-President*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: Speaker: Abbvie

AOCD CME Committee

Laura DeStefano, DO, FAOCD *CME Committee*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: No relevant financial relationships to disclose

Dwayne Montie, DO, FAOCD *CME Committee*

Board Certified in Dermatology by American Osteopathic Board of Dermatology

Disclosures: No relevant financial relationships to disclose

AOCD Staff

Marsha Wise *Executive Director*

Disclosures: No relevant financial relationships to disclose

Kristin Ayer *Administrative Assistant*

Disclosures: No relevant financial relationships to disclose

John Grogan *Resident Coordinator*

Disclosures: No relevant financial relationships to disclose

Shelley Wood *Grants Coordinator*

Disclosures: No relevant financial relationships to disclose

Needs Assessment

Shannon Wiedersum, DO

Dermatoses of Pregnancy

Lecture Objectives:

1. Identify normal physiologic cutaneous changes that are observed during pregnancy
2. Identify the most common dermatoses that occur during pregnancy and their associated maternal-fetal risks
3. Understand a basic approach to pruritus in pregnant women and develop confidence in treating pregnant women

Needs:

1. Advances in medical knowledge

References:

- Ambros-Rudolph CM, Shornick, JK. Pregnancy Dermatoses. In: *Bologna*. JL, Jorizzo JL & Schaffer JV. Dermatology. Edinburgh, Scotland: Elsevier/Saunders; 2012:438-447.
- Kroumpouzou, G, Cohen LM. Dermatoses of pregnancy. *J Am Acad Dermatol*. 2001;45:1-19.

Core Competencies met: 2, 3, 4, 5, 6, 7

David Kasper, DO, FAOCD

Sports Dermatoses

Lecture Objectives:

1. Recognize some of the most common rashes in sports
2. Educate patients and their families about these rashes
3. Discuss management and treatment options as appropriate

Needs:

1. New advances in dermatologic treatment
2. New methods of diagnosis or treatment
3. Availability of new medication(s) or indication(s)

References:

- James, W., Berger, T., Elston, D. *Andrews' Diseases of the Skin*.
- Bologna, J., Jorizzo, J.L., & Schaffer, J.V. (2012). *Dermatology*. Philadelphia: Elsevier/Saunders; 3rd Edition. p. 1505-1508.

- Wolverton, S. *Comprehensive Dermatologic Drug Therapy*.

Core Competencies met: 1, 2, 3, 4, 5, 6, 7

Adrian Tinajero, DO

The Scaly, the Itchy and the Ugly

Lecture Objectives:

1. Approach to papulosquamous disorders
2. Common mimickers of cutaneous dermatophyte infections
3. Current treatment options for common dermatophyte infections

Needs:

1. Availability of new medication(s) or indication(s)

References:

- *Clinical Dermatology*. Habif, Thomas P., MD. Jan. 2016.
- *Dermatology*. Elewski, Boni E; Hughey, Lauren C; Sobera, Jenny O; Hay Roderick. Jan. 2012.
- *Treatment of Skin Diseases: Comprehensive Therapeutic Strategies*. Merika, Eirini E. Jan 2014.

Core Competencies met: 2

Brittany Grady, DO

Helminth Infections & Their Cutaneous Manifestations

Lecture Objectives:

1. To describe the cutaneous manifestations of helminth infections
2. To recognize recent developments and increased incidence of helminth infections within the United States of America
3. To evaluate, diagnose, and treat affected patients more knowledgeably and effectively

Needs:

1. Advances in medical knowledge

References:

- Lupi O, et al. "Mucocutaneous Manifestations of Helminth Infections." *J Am Acad Dermatol*. 2015;73:929-57.

- Kollipara R, et al. “Emerging Infectious Diseases with Cutaneous Manifestation.” *J Am Acad Dermatol.* 2016;75:19-30.

Core Competencies met: 2, 3, 4, 5, 6, 7

Carl Barrick, DO

The Basics of Atopic Dermatitis

Lecture Objectives:

1. The basic background of atopic dermatitis
2. The presentation of atopic dermatitis in adults and children
3. The basic treatment algorithm of atopic dermatitis

Needs:

1. Advances in medical knowledge

References:

- James, W.D., Elston, D.M., Berger, T.G., & Andrews, G.C. (2011) *Andrew's Diseases of the Skin: Clinical Dermatology.* London: Saunders/Elsevier.
- Bologna, J., Jozzo, J.L., & Schaffer, J.V. (2012). *Dermatology.* Philadelphia: Elsevier/Saunders.

Core Competencies met: 2

Kelly Quinn, DO

Basics of Skin Biopsy Technique

Lecture Objectives:

1. Describe types of biopsy techniques commonly used in dermatology clinics
2. Discuss appropriate indications for using each type of biopsy technique
3. Discuss how to effectively and reproducibly find a lesion or previously biopsied site that requires further intervention by another provider

Needs:

1. Advances in medical knowledge
2. New methods of diagnosis or treatment
3. Legislative, regulatory, or organizational changes affecting patient care

References:

- Urmila N, Nishal KC, Uday K. “Techniques of Skin Biopsy and Practical Considerations.” *J Cutaneous Aesthet Surg.* 2008. 1(2): 107-111.

Core Competencies met: 2, 3, 4, 6, 7

Veronica Rutt, DO

The Basics of Urticaria Management

Lecture Objectives:

1. Describe the morphology of urticaria
2. Distinguish between acute and chronic urticaria
3. Develop an initial treatment plan for a patient with acute or chronic urticaria

Needs:

1. Advances in medical knowledge
2. New methods of diagnosis or treatment
3. Legislative, regulatory, or organizational changes affecting patient care

References:

- Bologna, J., Jozzo, J.L., & Rapini R. *Dermatology,* 2 volume set 3rd ed. New York: Elsevier 2012.
- Aubin Francois et al. “Omalizumab in patient with severe and refractory solar urticarial: a phase II multicentric study.” *J AM Acad Dermatol.* 74 3 (2016): 574-575.

Core Competencies met: 2, 3, 6, 7

Bradley Glick, DO, MPH, FAOCD, FAAD

Psoriasis Update

Lecture Objectives:

1. Properly define psoriasis as a systemic disease
2. Identify specific comorbid conditions associated with psoriasis
3. Understand the current treatment algorithm for the management of psoriasis
4. Understand the mechanism of action of the latest psoriasis therapies

Needs:

1. New advances in dermatologic treatment
2. New methods of diagnosis or treatment
3. Availability of new medication(s) or indication(s)
4. Development of new technology
5. Advances in medical knowledge

References:

- Lebwohl, MG et al. "Patient Perspectives in the Management of Psoriasis: Results from the Population-based Multinational Assessment of Psoriasis and Psoriatic Arthritis Survey". *JAAD*. 2014; 70(5):871-81.

Core Competencies met: 2, 3, 4, 5, 6, 7

Atopic Dermatitis: Connecting Science & Practice

Lecture Objectives:

1. Define atopic dermatitis and its impact on the general population
2. Discuss the current, evidence-based immune pathophysiology of atopic dermatitis
3. Review current and future topical and systemic therapies used in the treatment of atopic dermatitis

Needs:

1. New advances in dermatologic treatment
2. Advances in medical knowledge
3. Availability of new medications and indications

References:

- Bologna, Jorizzo, Shafer textbook by Elsevier *Dermatology*.

Core Competencies met: 1, 2, 3, 4, 6, 7

Vladyslava Doktor, DO

Don't Brush It Off: Diagnosis and Management of Hair Loss

Lecture Objectives:

1. Assess and diagnose non-scarring and scarring hair loss more effectively

2. Use up-to-date evidence-based information to treat patients with hair disorders
3. Effectively counsel patients with hair loss

Needs:

1. New advances in dermatologic treatment
2. Availability of new medication(s) or indication(s)
3. Advances in medical knowledge
4. New methods of diagnosis or treatment
5. Development of new technology

References:

- Lin RL, Garibyan L, Kimball AB, Drake LA. "Systemic causes of hair loss." *Ann Med*. 2016 Sep;48(6):393-402.
- Bologna, J. Jorizz J, Schaffer J. *Dermatology*. Third Edition. Chapter 69:Alopecia

Core Competencies met: 1, 2, 3, 4, 5, 6, 7

Christopher Mancuso, DO

Clinical Presentation of Common Malignant & Benign Neoplasms

Lecture Objectives:

1. Clinical presentation of common benign cutaneous neoplasms
2. Clinical presentation of common malignant cutaneous neoplasms
3. Management of benign and malignant cutaneous neoplasms

Needs:

1. Advances in medical knowledge
2. New methods of diagnosis and treatment

References:

- Bologna *Dermatology*, Volume 1, 3rd Edition.
- *Andrews Diseases of the Skin*, 12th Edition.

Core Competencies met: 2, 3, 5, 7

Monica Huynh, DO

Cutaneous Signs of Systemic Disease

Lecture Objectives:

1. Recognize characteristic changes of the connective tissue which will aid in the diagnosis of systemic conditions
2. Describe common presentations of rheumatologic, hepatic, and renal disorders

Needs:

1. Advances in medical knowledge

Reference:

- Bologna, J., Joizzo, J.L., & Schaffer, J.V. (2012). *Dermatology*. Philadelphia: Elsevier/Saunders.

Core Competencies met: 2, 3

Shoni Rozenberg, DO

Pediatric Dermatology: Bumps and Lumps

Lecture Objectives:

1. Overview of common pediatric dermatology benign and malignant tumors
2. Identify common skin lesions on pediatric patients
3. Understand the current treatment for common pediatric growths

Needs:

1. Availability of new medication(s) or indication(s)

References:

Core Competencies met: 2, 3, 4, 6, 7

Vanita Srivastava, DO

Emergencies In Dermatology

Lecture Objectives:

1. Identify emergent and life-threatening dermatologic conditions
2. Understand the treatment algorithm for emergent dermatological conditions
3. Review the most recent literature regarding management

Needs:

1. New advances in dermatologic treatment
2. Availability of new medication(s) or indication(s)
3. Advances in medical knowledge
4. New methods of diagnosis and treatment

References:

- Sokumbi O, Wetter DA. Clinical features, diagnosis, and treatment of erythema multiforme: a review for the practicing dermatologist. *Int J Dermatol*. 2012 Aug. 51(8):889-902

Core Competencies met: 2, 3, 6, 7

Louis Siegel, DO

Viral Exanthems

Lecture Objectives:

1. Well known and lesser known viral exanthems
2. Diagnostic tests for viral exanthems and indications for performing
3. Proper management of viral exanthems and review of CDC protocols

Needs:

1. Availability of new medication(s) or indication(s)
2. Advances in medical knowledge
3. New methods of diagnosis and treatment
4. Legislative, regulatory, or organizational changes effecting patient care

Reference:

- <https://www.cdc.gov/measles/hcp/index.html>

Core Competencies met: 2, 3, 4, 5, 6, 7

Speaker Biographies

Carl Barrick, DO

Carl Barrick, DO is a resident at Lehigh Valley Health Network Dermatology Residency. He graduated from Edward Via College of Osteopathic Medicine in 2015 and completed his internship with O'Bleness Memorial Hospital. Dr. Barrick has prepared and is presenting his topic under the direction of his program directors, Stephen Purcell, D.O., FAOCD and Tanya Ermolovich, D.O., FAOCD.

Vladyslava Doktor, DO

Vladyslava Doktor is a second year Dermatology Resident at St. John's Episcopal Hospital in Queens, New York. Her interests include skin, hair, and nails. Vladyslava enjoys traveling, meeting interesting people and learning new cultures in her spare time. Dr. Doktor has prepared and is presenting her topic under the direction of her program director, Suzanne Sirota Rozenberg, DO, FAOCD.

Bradley Glick, DO, MPH, FAOCD, FAAD

Dr. Brad P. Glick, is a Board Certified Dermatologist and Dermatologic Surgeon practicing in Margate and Wellington, Florida. Dr. Glick graduated from Emory University with a B.A. in chemistry and received his M.P.H. from the Emory University School of Public Health. He earned his medical D.O. degree with honors at Nova Southeastern University. His internship in internal medicine was performed at South Broward Hospital and his residency in family medicine was performed at Wellington Regional Medical Center and the Palm Beach County Public Health Unit, West Palm Beach, FL.

Dr. Glick's dermatology residency training was performed at the Greater Miami Skin and Laser Center at Mount Sinai Medical Center, Miami Beach, FL, where he earned certificates in dermatologic, Mohs micrographic and laser surgery. Dr. Glick is a Diplomate of the American Osteopathic Board of Dermatology, American Osteopathic Board of Family Practice and National Board of Osteopathic Medical Examiners. He held staff positions at University of Florida College of Medicine, Nova Southeastern University College of Osteopathic Medicine, Northwest Medical Center, Coral Springs Medical Center and Mount Sinai Medical Center.

Dr. Glick has served as the Director of Dermatology Residency Training at Wellington Regional Medical Center and is the current director at Larkin Community Hospital/ Palm Springs. Dr. Glick is the Past President of the American Osteopathic College of Dermatology (AOCD), President of the Foundation for Osteopathic Dermatology (FOD) and Past President of the Broward County Dermatologic Society.

Brittany Grady, DO

Dr. Grady graduated medical school from Lincoln Memorial University-DeBusk College of Osteopathic Medicine in 2013. She then went on to complete a Traditional Rotating Internship and melanoma research fellowship in the Tampa Bay area. Dr. Grady is currently the chief dermatology resident at Hackensack Meridian Health Palisades Medical Center in North Bergen, NJ, and is the current Resident Liaison to the AOCD Board of Trustees. Dr. Grady has prepared and is presenting her topic under the direction of her program director, Adriana Ros, DO, FAOCD.

Monica Huynh, DO

Dr. Monica Huynh is a native of the San Francisco Bay Area and received her B.A. in Integrative Biology at University of California, Berkeley. She pursued her Doctorate of Osteopathic Medicine at Chicago College of Osteopathic Medicine. During her training, she completed a yearlong fellowship in psoriasis research at University of California, San Francisco Psoriasis and Phototherapy Research Center. Upon completion of her medical degree, she completed a preliminary medicine internship at University of Chicago NorthShore Health Systems in Evanston, IL. She is currently a dermatology resident at St. Barnabas Hospital in Bronx, NY. In her free time, she enjoys traveling, eating various cuisines, and trying out different fitness studios. Dr. Huynh has prepared and is presenting her topic under the direction of her program director, Cindy Hoffman, DO, FAOCD.

David Kasper, DO, FAOCD

A native of Pottsville, Dr. David Kasper earned his Bachelor's in Life Science at Penn State University before obtaining his Doctor of Osteopathy degree from The Philadelphia College of Osteopathic Medicine. Board-certified in dermatology, he is also a Fellow of the American Osteopathic College of Dermatology (AOCD). During his dermatology residency at Genesys Hospital System in Grand Blanc, Michigan, Dr. Kasper served as chief resident. He has received extensive training in rejuvenative procedures including Botox®, dermal fillers, and the minor surgical treatment of leg veins.

In addition to publishing several articles in peer-reviewed journals, Dr. Kasper has developed content for textbooks and remains active in his community. He provides comprehensive dermatologic care as well as outstanding cosmetic care. His special areas of interest include facial rejuvenation and acne treatments. In his spare time, he enjoys time with his family, cooking, and playing sports.

Christopher Mancuso, DO

Dr. Christopher Mancuso is a PGYIV Chief Dermatology Resident at Saint Barnabas Hospital in Bronx, NY. He attended Lake Erie College of Osteopathic Medicine in Erie, PA. He was born and raised in northeastern Massachusetts and went to undergrad at Worcester State University. Dr. Mancuso has prepared and is presenting his topic under the direction of his program director, Cindy Hoffman, DO, FAOCD.

Kelly Quinn, DO

Kelly Quinn, DO is a resident at Lehigh Valley Health Network Dermatology Residency. She graduated from Lake Erie College of Osteopathic Medicine in 2014, and completed her internship with Lehigh Valley Health Network. Dr. Quinn has prepared and is presenting her topic under the direction of her program directors, Stephen Purcell, D.O., FAOCD and Tanya Ermolovich, D.O., FAOCD.

Shoni Rozenberg, DO

Dr. Rozenberg is a second year Dermatology Resident at St. John's Episcopal Hospital in Queens, NY. Her interests include surgical, cosmetic and general dermatology. Shoni enjoys traveling, art history and spending time with family and friends. Dr. Rozenberg has prepared and is presenting her topic with Dr. Petrosian under the direction of her program director, Suzanne Sirota Rozenberg, DO, FAOCD.

Veronica Rutt, DO

Veronica Rutt, DO is a resident at Lehigh Valley Health Network Dermatology Residency. She graduated from PCOM in 2014 and completed her internship with Lehigh Valley in 2015. Dr. Rutt has prepared and is presenting her topic under the direction of her program directors, Stephen Purcell, DO, FAOCD and Tanya Ermolovich, DO, FAOCD.

Louis Siegel, DO

Dr. Louis Siegel is currently a third year dermatology resident at St. John's Episcopal Hospital in Far Rockaway, NY. Originally from Long Island, he studied biochemistry at the University of Maryland and then went on to Touro College of Osteopathic Medicine in New York City. He completed his first residency in family practice also at St. John's Episcopal Hospital. Dr. Siegel has prepared and is presenting his topic under the direction of his program director, Suzanne Sirota Rozenberg, DO, FAOCD.

Vanita Srivastava, DO

Vanita Srivastava is a third year dermatology resident at St. John's Episcopal Hospital in Far Rockaway, NY. She completed her undergraduate and medical school training in an accelerated combined program at New York Institute of Technology/New York College of Osteopathic Medicine in Old Westbury, NY. In addition to her current dermatology training, she completed two years of family medicine residency training at St. John's Episcopal Hospital. Being a native New Yorker, Dr. Srivastava has an appreciation for diversity and enjoys seeing an array of varying pathologies. She has a particular interest in autoimmune diseases where she can bridge her medicine background with dermatology. When she is not working, she enjoys spending quality time with family and friends. Dr. Srivastava has prepared and is presenting her topic under the direction of her program director, Suzanne Sirota Rozenberg, DO, FAOCD.

Adrian Tinajero, DO

Sealtiel "Adrian" Tinajero, DO is a resident with St. John's Episcopal Hospital in New York. He graduated from AT Still University in 2015 and completed his internship in West Palm Beach FL. Dr. Tinajero has prepared and is presenting his topic under the direction of his program director, Suzanne Sirota Rozenberg, DO, FAOCD.

Shannon Wiedersum, DO

Dr. Wiedersum grew up in the greater Philadelphia region and attended medical school at Philadelphia College of Osteopathic Medicine. She completed her internship in internal medicine at Lehigh Valley Health Network in Allentown, PA. She is currently a second year dermatology resident at Hackensack Meridian Health Palisades Medical Center in North Bergen, NJ. Dr. Wiedersum has prepared and is presenting her topic under the direction of her program director, Adriana Ros, DO, FAOCD.

Schedule of Lectures

Saturday, October 7, 2017

8:00 a.m.

Dermatoses of Pregnancy

Shannon Wiedersum, DO

NYCOMEC/Hackensack Meridian Health
Palisades Medical Center

9:00 a.m.

Sports Dermatoses

David Kasper, DO, FAOCD

10:00 a.m.

The Scaly, the Itchy and the Ugly

Adrian Tinajero, DO

LECOMT/St. John's Episcopal Hospital

11:00 a.m.

*Helminth Infections & Their Cutaneous
Manifestations*

Brittany Grady, DO

NYCOMEC/Hackensack Meridian Health
Palisades Medical Center

1:30 p.m.

The Basics of Atopic Dermatitis

Carl Barrick, DO

PCOM/Lehigh Valley Health Network

1:50 p.m.

Basics of Skin Biopsy Technique

Kelly Quinn, DO

PCOM/Lehigh Valley Health Network

2:10 p.m.

The Basics of Urticaria Management

Veronica Rutt, DO

PCOM/Lehigh Valley Health Network

2:30 p.m.

Psoriasis Update

Bradley Glick, DO, MPH, FAOCD, FAAD

3:30 p.m.
