2020
AOCD Fall Meeting
Program Review
-----
Virtual
October 2020
**Program Attendance Summary**

**Program Evaluation Response**
345 preregistration questionnaires completed, 147 program evaluations returned, 336 speaker and learning objective evaluations returned, 231 outcomes evaluations completed

**Meeting Attendance**
345 Total Registrations (AOCD Members – 318; Non-Members – 27)

**Member Breakdown**
- Attending Physicians: 228 (87%)
- Residents: 19 (8%)
- Students/Interns: 9 (5%)

**Non-Member Breakdown**
- DOs: 10 (34%)
- PA-Cs: 1 (11%)
- Other: 5 (11%)
- Residents: 4 (11%)
- Students: 6 (22%)

**Attending Physicians by State**
- East: 58
- Southeast: 23
- Midwest: 56
- Southwest: 32
- Northwest: 9
- West: 28

**States**
- CA: 35
- NY: 22

- HI: 1

2020 Fall Meeting Program Review – Virtual
Registration Questionnaire Summary

345 registration questionnaires completed

What was your reason for enrollment? (more than one selection could be made)
- 75.65% - Needed CME hours
- 43.77% - Desire to broaden knowledge
- 21.16% - Activity topics
- 6.67% - Other

Other Reasons for enrollment:
- BOT member (14)
- Speaker (4)
- To support the AOCD (2)
- Networking
- Virtual opportunity

What is the population of the city in which you practice?

- Over 100,000 - 51%
- 50,000 - 100,000 - 23%
- 30,000 - 50,000 - 12%
- 10,000 - 30,000 - 10%
- Under 10,000 - 4%

What is your professional status?

- Practicing - 83.2%
- Retired - 1.7%
- Resident - 8.1%
- Student/Intern - 6.7%
- Other - 0.3%
In which type of practice are you currently engaged?

- Solo 24.0%
- Group 57.9%
- N/A 8.2%
- Military 0.3%
- Hospital 7.9%
- Retired 1.7%

Have you previously attended an AOCD CME program?

- Yes (91.30%)
- No (8.70%)

What would you like to learn from the conference?

- Therapeutic/Treatment update - 10
- General dermatology pearls and updates - 8
- Updates - 5
- Clinical dermatology/pearls - 4
- Complex medical dermatology/Difficult cases - 3
- Cosmetic dermatology - 3
- Advances in patient care - 2
- Billing and Coding - 2
- CME - 2
- Improve patient care - 2
- Practical pearls for practice - 2

- As a medical student interested in pursuing Dermatology, I hope to use these lectures to broaden my understanding of this specialty and to gain a further appreciation for the broad spectrum of conditions dealt with in this field.
- Board exam relevant material
- Cancer updates
- Cool Stuff!
- Current events and research that may change the scope of treatment protocols
- Dealing with managed care
- Diagnosis and treatment
• Future of biologics
• Hair disorders
• Industry updates
• Keep current on changes to the standard of care
• Latest diagnosis and treatment options
• Nail disorders
• New techniques and pearls
• Pediatric dermatology
• Practical ways to help my patients heal effectively, safely, simply, and inexpensively!

• Practice management
• Reinforce current knowledge
• Subject matter relevant to practice and management of dermatological disorders
• Surgical pearls
• Update on cutaneous symptoms of COVID and their implications. Latest update on COVID
• Whatever's on offer

Which items are important in helping you provide optimal care to your patients? (More than one selection could be made)

• 53.62% - CME courses
• 47.83% - Clinical practice guidelines
• 39.71% - Peer reviewed journal articles

• 31.59% - Opinions of nationally recognized experts
• 9.86% - Pharmaceutical company sales representatives
• 0.87% - Other

- Faith McNicholas (2)
- Margaret Masters, JD (2)
- Mark Lebwohl, MD (2)
- Neal Bhatia, MD (2)
- Carin Bennett
- Darell Rigel, MD
- Multiple
- Whitney High, MD
- Cassandra Beard, DO

List the subjects you felt were most valuable to you:
- Pediatric dermatology (30)
- Acne/Rosacea (14)
- Psoriasis (14)
- Billing and coding update (12)
- Biologic updates (12)
- Therapeutic/Treatment Update (11)
- Atopic dermatitis (8)
- Legal/Malpractice (8)
- All (6)
- History of dermatology practice (6)
- Isotretinoin update (6)
- Melanoma (5)
- Skin of color (5)
- Social media (5)
- Vulvovaginal dermatoses (5)
- Actinic keratosis (4)
- Alopecia (4)
- Allergy/Immunology (3)
- COVID (3)
- Genomics (3)
- Urticaria (3)
- Biologic side effects (2)
- Clinical pearls (2)
- Eczema (2)
- Hair disorders in skin of color (2)
- Lymphoma (2)
- Non-scarring alopecias (2)
- Pigment disorders (2)
- Skin cancer (2)
- Vasculitis and purpura (2)
- Accutane update
- Angioedema
- Antibiotic use
- Cases
- Complementary medicine
- COVID in pediatric patients
- Cutaneous lymphoma
- Evidence based talks on treatments
- GEP test for melanoma
- Immunobiologics
- JAK inhibitors
- Medical dermatology
- Most were value
- New and upcoming trends
- Osteopathic approach in dermatology
- Pediatric panel
- Personal treatment regimen for the difficult patient
- Photodynamic therapy
- Practice management
- Pyoderma gangrenosum management
- Radiation treatment
- Rare diseases
- Resident posters
- Scarring alopecia
- Scarring treatment
- Segmental neurofibromatosis
- Several
- Updates
- Updates on evaluation and treatment
What topics would you like to see presented at future meetings?

- Billing/Coding (6)
- Clinical dermatology/pearls (6)
- Surgical/procedural dermatology (6)
- Complex medical dermatology/Challenging cases (5)
- Cosmetic dermatology (5)
- Dermoscopy (5)
- Mohs surgery (4)
- Nail disorders/diseases (4)
- Autoimmune disease (3)
- Board/recertification review (3)
- Complex/difficult surgical reconstructions (3)
- COVID in dermatology (3)
- Historical (3)
- Pediatric dermatology (3)
- Atopic dermatitis (2)
- Biologics update (2)
- Business/Practice management (2)
- Connective tissue diseases (2)
- Contact dermatitis (2)
- CTCL (2)
- Hair (2)
- Melanoma update (2)
- Practice management (2)
- Psoriasis treatment (2)
- Similar (2)
- Therapeutic updates (2)
- Treatment update (2)
- Vitiligo treatment (2)
- Aggressive SCCs and BCCs
- Behavior change techniques regarding sun exposure
- Chemical peels
- Cosmeceuticals-botanically based and effectiveness--what works and what doesn't.
- Dermatopathology review
- Dermatopathology with clinical pathologic correlation
- Documentation for new medical decision-making requirements. Discussed the changes but not the documentation to justify low med or high
- Dysplastic nevi
- Eczema
- Filler techniques
- Granuloma annulare
- Hidradenitis suppurativa
- Immunology for the dermatologist
- Investor buy out of dermatology practices
- JAK inhibitors
- Laser update
- Lichen planus variants and treatments
- Marketing
- Maybe individual short vignette's between speakers entitled "pearls to benefit your patients" Example- Pediatric pearls were like drinking from a fire hose- if a specific entity and tx pearl was highlighted but a little highlighted thought would be appealing probably work better after a live presentation during break time
- Medical dermatology
- Medication compounding
- Melanoma new immunology insights
- More specific settings and treatment protocols such as the tax of scars lecture
- New pearls
- New technology in dermatology
- New upcoming topics
- Non-medical treatment of acne
- Nonsurgical skin cancer management
- Organized medicine and advocacy
- OTC products
- OTC products for common skin complaints: aging, brown spots, dry skin acne.
- Pediatric atopic dermatitis treatment
- Pediatric panel discussion
- Penile dermatosis
- Pigmentary disorders
- Practice recommendations in the age of Covid
- Rare cutaneous manifestations of systemic disease
- Rare diseases
- Severe atopic dermatitis treatment
- Social issues
- Supplements and nutrition for skin cancer prevention and underlying pathways they target and how they work
- Teaching residents
- Useful tips not normally discussed in textbooks
Speaker Evaluation & Learning Objectives Summary
336 evaluations returned

The Powerpoints and/or handouts effectively supported the presentation.

- Strongly Agree: 74.2%
- Agree: 24.8%
- Disagree: 0.6%
- Strongly Disagree: 0.3%

The content of the topics were presented in a clear and understandable manner.

- Strongly Agree: 73.2%
- Agree: 21.6%
- Disagree: 3.1%
- Strongly Disagree: 2.1%

The sessions assisted me in my professional development.

- Strongly Agree: 64.6%
- Agree: 31.2%
- Disagree: 3.5%
- Strongly Disagree: 0.6%
The sessions provided me with specific ideas that I intend to use.

- Strongly Agree: 60.5%
- Agree: 30.9%
- Disagree: 7.6%
- Strongly Disagree: 0.3%

The presenters were knowledgeable, organized and effective in their presentations.

- Strongly Agree: 73.9%
- Agree: 24.8%
- Disagree: 1.0%
- Strongly Disagree: 0.3%

The conference remained commercially unbiased.

- Strongly Agree: 77.7%
- Agree: 21.0%
- Disagree: 0.6%
- Strongly Disagree: 0.6%
Were disclosures made or conflicts of interest identified prior to the CME program?

- Yes 99.4%
- No 0.6%

Have the overall specified learning objectives been met?

- Yes 98.1%
- No 1.9%
Speaker Evaluation – Angela Kim, DO

The Powerpoints and/or handouts effectively supported the presentation.

- Strongly Agree 8 53.3%
- Agree 6 40.0%
- Disagree 1 6.7%

The content of the topics were presented in a clear and understandable manner.

- Strongly Agree 9 60.0%
- Agree 5 33.3%
- Strongly Disagree 1 6.7%

The sessions assisted me in my professional development.

- Strongly Agree 8 53.3%
- Agree 6 40.0%
- Disagree 1 6.7%

The sessions provided me with specific ideas that I intend to use.

- Strongly Agree 5 33.3%
- Agree 9 60.0%
- Strongly Disagree 1 6.7%

The presenters were knowledgeable, organized and effective in their presentations.

- Strongly Agree 8 53.3%
- Agree 7 46.7%
- Disagree 0%

The conference remained commercially unbiased.

- Strongly Agree 9 60.0%
- Agree 5 33.3%
- Strongly Disagree 0%

Were disclosures made or conflicts of interest identified prior to the CME program?

- Yes 15 100.0%
- No 0%

Have the overall specified learning objectives been met?

- Yes 13 92.9%
- No 1 7.1%

Yes 15 100.0%
No 0%
**Speaker Comments – Angela Kim, DO**

**How will you utilize stated learning objectives within your practice?**

- Currently do not use biologics in my practice. Presentation was educational
- Enables me to make decisions appropriate for different psoriasis patients
- Good Presentation
- Good she reenforced osteopathic principals.
- Great charts for delineating biologics. Will use
- I liked the organization which will help me choose the biologic most effective
- It’s always good to update myself on all the Biologics
- Provided a clearer understanding of biologics, their uses and patient populations.
- Seemed like a drug company talk. Slides too busy and small... shown too quickly. Need a non-drug company approach... in my opinion, thanks.
- Share information
- Useful review
Speaker Evaluation – Bradley Glick, DO, FAOCD

The Powerpoints and/or handouts effectively supported the presentation.

- Strongly Agree 11 84.6%
- Agree 2 15.4%
- Disagree 0%
- Strongly Disagree 0%

The content of the topics were presented in a clear and understandable manner.

- Strongly Agree 10 76.9%
- Agree 3 23.1%
- Disagree 0%
- Strongly Disagree 0%

The sessions assisted me in my professional development.

- Strongly Agree 7 53.8%
- Agree 6 46.2%
- Disagree 0%
- Strongly Disagree 0%

The sessions provided me with specific ideas that I intend to use.

- Strongly Agree 7 53.8%
- Agree 6 46.2%
- Disagree 0%
- Strongly Disagree 0%

The presenters were knowledgeable, organized and effective in their presentations.

- Strongly Agree 10 76.9%
- Agree 3 23.1%
- Disagree 0%
- Strongly Disagree 0%

The conference remained commercially unbiased.

- Strongly Agree 10 76.9%
- Agree 3 23.1%
- Disagree 0%
- Strongly Disagree 0%

Were disclosures made or conflicts of interest identified prior to the CME program?

- Yes 13 100.0%
- No 0%

Have the overall specified learning objectives been met?

- Yes 12 100.0%
- No 0%
**Speaker Comments – Bradley Glick, DO, FAOCD**

How will you utilize stated learning objectives within your practice?

- Apply different approaches to rosacea patients from info in presentation
- As usual Dr. Glick is extremely thorough. Will relay new therapies to patients. Encourage patients to talk to pcp about possibly unmasking comorbidities not now known
- By treating patients
- Good Presentation
- I humbly believe rosacea is diet related. (Totally cleared very severe rosacea cases by diet alone. Problem is their favorite food or drink) Interesting mechanism of action presentation...very good...liked it!!
- I will use new information to treat my patients.
- New topical therapies
- Share information
- Very complete review of Rosacea pathophysiology and treatments.
- Will put in place objectives related to my practice
**Speaker Evaluation – Carin Bennett, JD**

The Powerpoints and/or handouts effectively supported the presentation.

- Strongly Agree: 8 (66.7%)
- Agree: 3 (25.0%)
- Strongly Disagree: 1 (8.3%)

The sessions assisted me in my professional development.

- Strongly Agree: 8 (66.7%)
- Agree: 3 (25.0%)
- Strongly Disagree: 1 (8.3%)

The presenters were knowledgeable, organized and effective in their presentations.

- Strongly Agree: 9 (75.0%)
- Agree: 2 (16.7%)
- Strongly Disagree: 1 (8.3%)

Were disclosures made or conflicts of interest identified prior to the CME program?

- Yes: 12 (100.0%)
- No: 0 (0%)

The content of the topics were presented in a clear and understandable manner.

- Strongly Agree: 8 (66.7%)
- Agree: 3 (25.0%)
- Strongly Disagree: 1 (8.3%)

The sessions provided me with specific ideas that I intend to use.

- Strongly Agree: 7 (58.3%)
- Agree: 4 (33.3%)
- Strongly Disagree: 1 (8.3%)

The conference remained commercially unbiased.

- Agree: 1 (8.3%)

Have the overall specified learning objectives been met?

- Yes: 11 (91.7%)
- No: 1 (8.3%)
Speaker Comments – Carin Bennett, JD

How will you utilize stated learning objectives within your practice?

- Social media best practices
- Let someone in my office work on it with me.
- Great information however I work for a private equity garbage company and have no say in anything regarding how I practice medicine.
- Helpful social media tips
- Increase my use of social media
- Social media utilization!
- Consider starting a page
- "I really avoid social media May look into it somewhat"
- The subject was covered completely and extensively. This will cause a complete social media review.
- Interesting...Wow...I feel old......Thank You!!
**Speaker Evaluation – Cassandra Beard, DO**

The Powerpoints and/or handouts effectively supported the presentation.

- Strongly Agree 82.7%
- Agree 27.3%
- Disagree 0%
- Strongly Disagree 0%

The content of the topics were presented in a clear and understandable manner.

- Strongly Agree 63.6%
- Agree 36.4%
- Disagree 0%
- Strongly Disagree 0%

The sessions assisted me in my professional development.

- Strongly Agree 54.5%
- Agree 45.5%

The sessions provided me with specific ideas that I intend to use.

- Strongly Agree 54.5%
- Agree 36.4%
- Disagree 0%
- Strongly Disagree 0%

The presenters were knowledgeable, organized and effective in their presentations.

- Strongly Agree 63.6%
- Agree 36.4%
- Disagree 0%
- Strongly Disagree 0%

The conference remained commercially unbiased.

- Strongly Agree 72.7%
- Agree 18.2%
- Disagree 0%
- Strongly Disagree 0%

Were disclosures made or conflicts of interest identified prior to the CME program?

- Yes 90.9%
- No 9.1%

Have the overall specified learning objectives been met?

- Yes 90.9%
- No 9.1%
**Speaker Comments – Cassandra Beard, DO**

How will you utilize stated learning objectives within your practice?

- PDT utilization
- Very Good Presentation
- Apply recent data on treatment recommendations
- I am already very familiar with these techniques
- Do not use at this time. However, the information was extremely helpful in helping my decision to begin using photodynamic therapy.
- Consider using Ala
- Piqued my interest to consider offering PDT in my office enabled me to understand way to implement in practice
- A good presentation, complete and well documented.
- Graphs can be hard to assimilate.
Speaker Evaluation – Claudia Hernandez, MD

The Powerpoints and/or handouts effectively supported the presentation.

- Strongly Agree 87.5%
- Agree 12.5%
- Disagree 0%
- Strongly Disagree 0%

The sessions assisted me in my professional development.

- Strongly Agree 75.0%
- Agree 25.0%

The sessions provided me with specific ideas that I intend to use.

- Strongly Agree 62.5%
- Agree 37.5%
- Disagree 0%
- Strongly Disagree 0%

The conference remained commercially unbiased.

- Strongly Agree 75.0%
- Agree 25.0%
- Disagree 0%
- Strongly Disagree 0%

Were disclosures made or conflicts of interest identified prior to the CME program?

- Yes 100.0%
- No 0%

Have the overall specified learning objectives been met?

- Yes 100.0%
- No 0%
Speaker Comments – Claudia Hernandez, MD

How will you utilize stated learning objectives within your practice?

- EXCELLENT PRESENTATION
- Good presentation with concepts not usually discussed.
- It will enable me to recognize these potential cutaneous paradoxical reactions.
- Really liked this lecture!! (Wondering if infection, leading to inflammation, causes the paradoxical reaction) Really interesting!!
- To become more aware of the more unusual paradoxical reactions
- Very educational.
Speaker Evaluation – Darrell Rigel, MD

The Powerpoints and/or handouts effectively supported the presentation.

- Strongly Agree 70.0%
- Agree 20.0%
- Disagree 10.0%

The sessions assisted me in my professional development.

- Strongly Agree 70.0%
- Agree 20.0%
- Disagree 10.0%

The presenters were knowledgeable, organized and effective in their presentations.

- Strongly Agree 90.0%
- Agree 10.0%
- Disagree 0%
- Strongly Disagree 0%

The content of the topics were presented in a clear and understandable manner.

The conference remained commercially unbiased.

- Strongly Agree 70.0%
- Agree 10.0%
- Disagree 10.0%
- Strongly Disagree 10.0%

Were disclosures made or conflicts of interest identified prior to the CME program?

- Yes 100.0%
- No 0%

Have the overall specified learning objectives been met?

- Yes 90.0%
- No 10.0%
Speaker Comments – Darrell Rigel, MD

How will you utilize stated learning objectives within your practice?

- Enable to utilize factors to determine treatment options for melanoma and scc patients
- Genomic testing
- Great Lecture A+++++++++++ Very valuable information for the clinical dermatologist
- I will have to have independent information as this lecture was directly from the company promoting the tools.
- May start using these tests
- Very good speaker. Definitely helped in my management of skin cancer.
- Very interesting presentation.
- Wow...too many graphs and statistics. Please...Readers Digest version.
Speaker Evaluation – Derrick Adams, D.O., FAOCD

Speaker Comments – Faith McNicholas

How will you utilize stated learning objectives within your practice?

- All good to know
- Important practice updates
- Nice presentation with helpful billing tips.
- Probably not
- Was very helpful in coding E/M and RVUs
- WILL FOLLOW LECTURE/GUIDELINES

- No: 0%
Speaker Comments – Gerard N. Danosos, DO

How will you utilize stated learning objectives within your practice?

- By updated scientifically supported recommendations
- Good presentation
- I did not learn much dermatology for skin of color. This was good.
- Options of treatment for patient to be discussed as well as use of sun protection
- Recently. Tinted sunscreen
- Very Good Presentation
- Very informative
- Will add other topicals to HQN. Good speaker.
- Will be giving patients screen grabs of treatment options so, they can participate in individualized therapy
- Will look into tranexamic acid treatments.
**Speaker Evaluation – James Del Rosso, DO**

The Powerpoints and/or handouts effectively supported the presentation.

- **Strongly Agree 8 80.0%**

Speaker Comments – James Del Rosso, DO

How will you utilize stated learning objectives within your practice?

- Dr. D always presents a good presentation.
- Excellent as always A+++ 
- Helpful clinical tips
- Just way too much information to remember or relay
- Learned approaches of therapeutics from the updates presented. These will help in multiple dermatological conditions that we treat routinely and hopefully have good outcomes
- Molluscum data good to know to tell parents. New Isotretinoin absorption with water... Atopic info good, but very drug orientated.
- Very informative and updated material
- Will not change my practice habits
Speaker Evaluation – Jennifer David, DO

Speaker Comments – Jennifer David, DO

How will you utilize stated learning objectives within your practice?

- Best part was recommended SPF for darker skin!! Thank You.
- Better understanding of treatment options
- Good presentation
- Good update and review regarding skin of color and cosmetic treatments.
- I think the ideas in this talk will help calm the anxieties of the patient. Giving the patient a timeline to follow helps with expectations.
- Realizing some of the differences in treating skin of color
- Retinoids peels
- Utilizing practice tips supported by recent study data
- Very informative
- Will help my approach for treating darker skin type
Speaker Evaluation – Lisa Swanson, MD

Speaker Comments – Lisa Swanson, MD

How will you utilize stated learning objectives within your practice?

- Better recognize and treat psoriasis in the pediatric population.
- Dr. Swanson is always easy to listen to and provides tons of useful information.
- Enjoyed the various pearls discussed and will try them. I am not a pediatric dermatologist, if there are complex issues always refer to pediatric dermatologist.
- Fantastic! I found many, many pearls that I will definitely use in my every day practice. I loved this lecture.
- Garlic for warts.
- Great lecture!!! Well-presented and information explained quickly!!! Definite passion for the subjects. Excellent!!!
- Great pearls and advice to be relayed to parents. I do mostly surgery but still fantastic information!
- Helpful tips for clinical practice.
- Phenomenal lecture. Loved it all. IH info was awesome.
- This is my most favorite pediatric dermatologist to listen to A+++++++++++++++++++++++++++++++
- Try wartpeel

Speaker Comments – Margaret Masters, JD

How will you utilize stated learning objectives within your practice?

- Be more aware
- Be more cognizant of organization.
- Gives me an approach to how to apply what was presented if needed
- Good to know. Liked the "laugh with your patients". Really good points!
- Informative.
- More documentation of office policies.
- Practice the sage advice she has given. Excellent lecture.
- She gave important tips on how to avoid malpractice.
- Very informative
- Will try to use learned tips to avoid being sued
- Will update Medical Legal doctor’s office policies and procedures

Speaker Comments – Mark Lebwohl, MD

How will you utilize stated learning objectives within your practice?

- Better understanding of various biologics to make decisions on treatments
- Dr. Lebwohl always provides great presentations.
- Excellent down to earth presentation
- GAINED HELPFUL KNOWLEDGE RE: BIOLOGIC TX IN PREGNANT PTS.
- Graphs for a biochemist to ponder.......need a simple explanation please.
- Great lecture, very informative. Currently do not use biologics in my practice
- Helpful practice tips
- Patients always ask about missing doses or going off the meds. Nice to be able to point to research regarding restarting meds
- Share knowledge

Speaker Comments – Michael Gold, MD

How will you utilize stated learning objectives within your practice?

- Good review of scar treatment and prevention.
- Helped in decision on purchasing a laser
- Helpful practice points
- I do not use lasers in my practice
- I don’t do lasers but interesting information. Will refer patients to them
- I will refer more patients with scars for laser treatment
- Micro punch laser to relax scar tissue. Good to know
- PDL
- Share information
- Will stack laser treatments more often.

Speaker Comments – Morgan McCarty, DO

How will you utilize stated learning objectives within your practice?

- Change frequency of lab testing in low risk patients
- Higher dose, 220-290 mg/kg
- I primarily perform surgery so information is interesting but not pertinent to my practice
- It was a good review of my present knowledge
- Maintain my current isotretinoin regimen may change somewhat from info given
- Photos would have helped.
- Recommend omega 3
- Repeat male lab not needed after 2 months…good to know.
- Very informative. Currently do not use.

**Speaker Comments – Nathanael Brady, DO**

How will you utilize stated learning objectives within your practice?

- Apply knowledge
- Better patient education useful treatment recommendations
- Clear concise information. Particularly liked that he defined terms most lecturers pass over. These definitions will help with explaining treatment to patients
- Great review and update of allergy and dermatology.
- Helped increase my knowledge of immunotherapy and hopefully can be implemented in practice. Helped to better the approach to urticarial diagnosis and treatment
- Learned how an allergist may help me with my patients
- Referral knowledge
- Will refer to allergist more often if indicated.

How will you utilize stated learning objectives within your practice?

- Add mupirocin to treatment
- Apply some approaches for atopic patients. Enjoyed the various pearls discussed and will try them.
- Audio very good with Lisa, but not as clear in this presentation. It makes a big difference. Very pleasant voice and tonal inflections. Some great points about atopic dermatitis. Well done!!!
- Dr. Lio is a data machine. Excellent Presentation
- Garlic for warts.
- Helpful tips for daily practice
- I will be saving the PDF and using it daily in my practice. There were so many helpful things. Best lecture of the meeting. Thanks!
- This lecture helps to eliminate common myths patients usually subscribe to.

- Disagree: 0%
- Strongly Disagree: 0%

The conference remained commercially unbiased.

- Strongly Agree: 81.8%
- Agree: 18.2%
- Disagree: 0%
- Strongly Disagree: 0%

Were disclosures made or conflicts of interest identified prior to the CME program?

- Yes: 100.0%
- No: 0%

Have the overall specified learning objectives been met?

- Yes: 100.0%
- No: 0%
**Speaker Comments – Susan Taylor, MD**

How will you utilize stated learning objectives within your practice?

- By following treatment recommendations
- Excellent Presentation
- Expand my potential treatment options
- Good tips regarding hair loss in skin of color as well as review of some seldom seen disorders.
- Helped me understand the etiology of some of the hair disorders
- Relay relevant information to patients
- Will slightly alter some of my treatment regimens.
Speaker Evaluation – Suzanne Sirota Rozenberg, DO

The Powerpoints and/or handouts effectively supported the presentation.

- Strongly Agree: 9 (81.8%)
- Agree: 2 (18.2%)
- Disagree: 0%
- Strongly Disagree: 0%

The content of the topics were presented in a clear and understandable manner.

- Strongly Agree: 9 (81.8%)
- Agree: 2 (18.2%)
- Disagree: 0%
- Strongly Disagree: 0%

The sessions assisted me in my professional development.

- Strongly Agree: 8 (72.7%)
- Agree: 3 (27.3%)
- Disagree: 0%
- Strongly Disagree: 0%

The sessions provided me with specific ideas that I intend to use.

- Strongly Agree: 8 (72.7%)
- Agree: 2 (18.2%)
- Disagree: 1 (9.1%)
- Strongly Disagree: 0%

The presenters were knowledgeable, organized and effective in their presentations.

- Strongly Agree: 10 (90.9%)
- Agree: 1 (9.1%)
- Disagree: 0%
- Strongly Disagree: 0%

The conference remained commercially unbiased.

- Strongly Agree: 10 (90.9%)

Were disclosures made or conflicts of interest identified prior to the CME program?

- Yes: 11 (100.0%)
- No: 0%

Have the overall specified learning objectives been met?

- Yes: 11 (100.0%)
- No: 0%
Speaker Comments – Suzanne Sirota Rozenberg, DO

How will you utilize stated learning objectives within your practice?

- Great lecture. Appreciated board review facts. May be my user error, but could not see doctor showing her techniques.
- I loved some of the OMG techniques!
- Necrolytic acral erythema of foot... interesting. Good
- None
- Share knowledge
- This will allow patients to be treated with options other than medications
- Use OMT if appropriate
- Very Good Presentation
Speaker Evaluation – Warren Piette, MD

The Powerpoints and/or handouts effectively supported the presentation.

- No: 0%
Speaker Comments – Warren Piette, MD

How will you utilize stated learning objectives within your practice?

- Add clinical skills when diagnosing cutaneous lymphomas
- Be more aware
- Help to identify cutaneous lymphomas and appropriate treatment options. Help to identify different vascular entities
- Helped to identify or at least be more suspicious for different types of cutaneous lymphomas. Also a good overview of treatment.
- I do a lot of hospital consults. This will help organize my work ups.
- I will not. I primarily do surgery
- I won’t give the patient a diagnosis unless disease confidently presents itself due to his insurance reasons.
- Increased knowledge of all etiologies
- Vasculitis is very confusing. Good job trying to explain. Liked the biopsy tips!
- Very educational
- Very good presentation
- Will categorize number and location of lesions and know what lesions to biopsy for best results.
**Speaker Evaluation – Whitney High MD**

Speaker Comments – Whitney High MD

How will you utilize stated learning objectives within your practice?

- Bedbug Dogs….use them in the senior apartment complex down the street…they are great. Also a hot hair dryer applied to wood crevices after smell location is very safe. Also bedbugs have a very peculiar odor. Also they can sense heat and vibration…so they say. CO2 attraction, as in human breath, was also interesting
- Excellent Presentation
- Interesting facts, history. Good speaker.
- More familiar with clinical localization of bedbugs
- Treatment option if referring to the exterminators - great idea
- Utilize - evaluate/treatment recommendations presented
- Will be better able to discuss bed bugs with patients and that everyone in the house will have reactions. Plus leave the eradication to professionals.
2020 Fall Meeting Outcomes Evaluation Results
231 Responses Received

Please identify how you will change your practice as a result of attending these webinars

- Change the management and or treatment of my patients - 84.03%
- Change protocols, policies, and or procedures - 13.61%
- Other Change - 2.36%
  Please explain
  - Retired (3)
  - Consider getting CO2 laser for scars

I will share what I learned from today's activity with:

- Colleagues (75)
- Staff (45)
- Patients (42)
- PAs/Mid-Level Providers (30)
- Residents (15)
- Medical students (7)
- My patients as we discuss their treatment options (2)
- None
- Retired
- Interns
- Patients on isotretinoin, Patients with molluscum contagiosum

As a result of what I learned from this activity, I intend to make the following practice/performance changes that I believe will result in more positive patient outcomes:

- Yes (4)
- Retired (3)
- More social media presence (2)
- N/A (2)
- Additional policy and procedures and information learned from lectures
- Agree
- Agree lectures helped increase treatment armamentarium
- Apply new information obtained to my patient care
- Approach to melanomas
- Arrival of new Rex options
- Atopic Dermatitis Treatment. Pediatric dermatology pearls
- Awareness of covid symptoms in pediatric patients, greater acumen for diagnosis of pediatric psoriasis, anticipation of new upcoming treatments i.e. new topical for AK field treatment, topical JAKI for AA
- Be aware of best treatment practices in common diseases and available new therapeutics
- Be more efficient
- Best approach to bedbugs
- Better biologic management/selection, More accurate diagnosis/treatment of alopecia in women of color
- Better description of how biologics work
- Better diagnosis and assessment
- Better differential diagnosis, broader range of therapies, more insights into possible drug reactions with meds (especially the biologics).
- Better history taking for my skin of color patients
- Better use of therapeutic agents
- Better work up and treatment of my patients.
- Biopsy and lab for hair loss. Caution with Hydroquinones. Paradoxical reaction to Otezla =will change biologics. Laser for scars and pigment. Covid rash possible after a month. Retiform purpura is new. Hydroxychloroquine needs G6PD and eye exam. Oral minoxidil side effects. GGT for ETOH. Creatinine kinase may increase with Accutane. Omega3 will decrease Triglycerides 70% and Cholesterol 45%. Absorica LD to come out soon. SPF for colored skin. Oral Tranexamic has clotting risk.
- Broaden differential diagnosis
- Broaden my treatment options
- Cantharone for Molluscum contagiosum. Using more of the IL23 inhibitors for psoriasis. Being aware of the paradoxical side effects of biologics.
- Change my protocol for treatment of melasma and hair disorders
- Change to therapeutic approach for certain cases of eczema, psoriasis and acne
- Changes in follow up protocols, work ups
- Changes in management in allergic dermatology and surgical dermatology
• Changes in treatments approaches as viewed on some of the lectures
• Changing some management of patients with hair loss and also skin of color. I enjoyed the history lecture on dermatologist because that’s a topic rarely discussed and it is very relevant also.
• Coding changes for 2021. Novel molluscum treatment options
• Coding, billing
• Comfort with therapies
• Consider CO2 laser purchase. Discuss beta blockers for rosacea patients with them. Timolol for pyogenic granulomas
• Continuation of biologics during Covid-19
• Continue CME attendance
• Continue to keep up on newest information available
• Continue to work hard to serve my patients.
• Cultural competency with patient care, updates on evidence based care, practice management updates
• Different approaches to diagnosis, evaluation and treatment of certain skin conditions
• Differential diagnosis and treatment options
• Discuss long term benefit biologic agents
• Document better and make sure my schedule isn’t crazy booked
• Enjoyed this method of learning as I was able to re-review pertinent information relevant to my practice. Thank you.
• Evaluate my lichen planus patients for hepatitis C
• Evaluation checklist, Treatment expectations, Lab workup
• Evidence based approach to choosing a biologic for psoriasis treatment.
• Excellent Content
• Excellent venue that updates my medical knowledge and helps guide me make practice choices
• Expanding my knowledge
• Explore other treatment options for AK’s.
• Focus on patient management vs HPI elements
• Follow osteopathic principles in practice
• Give patients more information
• Good review of treatment modalities.
• Great information. Enjoyed the speakers. Plan on discussing a lot of this information at my next staff meeting.
• Great tips on pediatric dermatology, also pearls on atopic dermatitis, pigmentary disorders, skin of color issues, isotretinoin updates, PDT
• Great update on current dermatologic topics!
• I am more able to give latest info and enjoyed COVID lecture
• I found dermatology history interesting. All the lectures were great.
• I have a better understanding of biologics in the COVID era, will recommend sunscreen with iron oxide to my melasma patients, consider prescribing oral minoxidil in certain hair loss patients
• I have a more structured approach for choosing biologics for psoriasis. As there have been so many new agents introduced into the market I previously did not have an organized way to think about them.
• I have learned a number of treatment options and work ups that will be implemented.
• I learned a lot of good pearls regarding hair disorders in skin of color which was extremely helpful. Also great pearls for urticaria and how to approach it. What labs not to check anymore for Accutane.
• I learned a newer more exact way to diagnose and treat purpura and associated diseases. Learned new updated info on pediatric dermatology, COVID rashes, new therapies for eczema, etc.
• I loved this virtual opportunity to attend which has been previously difficult with 3 little kids at home. Thank you! Great lectures!!
• I will always aim to make patients laugh every visit! I will consider other modalities for vulvar dermatoses
• I will attempt to learn more about using lasers for the treatment of scars. Our office is currently looking into buying a new laser so I will include this as part of my decision making process when purchasing the laser.
• I will be more open to newer therapeutic options for treatment
• I will be using some of the Rxs that I was perhaps hesitant to use before listening to lectures pertaining to their usefulness. I also will improve my social media presence and be more observant of things that could possibly cause litigation.
• I will continue to practice the standard of care.
• I will create coding summary sheets for my colleagues, protocols for screening biologics patients, and clinical pearls for my residents. The pediatric lectures were especially helpful as I prepare to give an update on pediatric derm to a primary care conference this month.
• I will encourage all staff to continue to learn. It is so important to grow as providers and to be open minded as well
• I will have a wider differentials for my patients
• I will try to make some changes based on the lecture.
• I will update my psoriasis protocols as well as rosacea treatments. I feel more comfortable handling hair disorders as well as pediatric skin conditions.
• I will use biologics I haven’t tried in the past.
• I will use the updates to help my patients with treatments.
• I’ve answered this more specifically for each individual speaker in their evaluations. However, I’d like to emphasize how much the coding and billing has had a huge impact on my practice. I’ve had to reprogram encounter forms, change how charts are documented and have inservices for the whole staff.
• Implement new medications
• Implement new treatments.
• Improve staff training and performance.
• Improved surveillance, better understanding of current management and therapies, and enhanced diagnostic ability
• Incorporate educational information in patient management.
• Incorporate new evidence based research in my current diagnostic and treatment guidelines.
• Increase dosing of isotretinoin, less testing. Adjusted documentation.
• Increase isotretinoin dose mg/kg, use lavender spray on my pillow, and use genomics in SCC.
• Increased journal reading
• Innovative new treatments for difficult to treat patients
• Integrate new treatment modalities
• Introduce new medicines with more confidence
• Isotretinoin updates
• Keeping my options open to enhance patient care
• Lavender oil for my AD pediatric patient's that can’t sleep
• Learned some interesting isotretinoin updates
• Legal matters in regards patient integrity and kindness to avoid malpractice suits
• Less monitoring of isotretinoin labs. Watchful for paradigm shifts on biologics for psoriasis.
• Less monitoring of labs for certain conditions
• Lessons learned from treating pediatrics to psoriasis to bullous disorders to social media to billing, ...
• Lots of new therapy approaches for numerous Diagnoses!!
• Lots of new treatment ideas to discuss with patients
• Lots of wonderful new information thank you
• Make some adjustments in how I prescribe biologics and the order I use them; May try some different treatment combinations for Rosacea
• Management of isotretinoin dosing, look for reactions to biological, manage eczema better
• Management of rosacea
• May consider additional laboratory testing for screening some patients for biologicals.
• Melasma treatment practices, biologic selection, recent advances in general dermatology
• Modernize treatment protocols
• Monitor possible side effects from biological.
• Utilize social media for advertisement.
• Monitoring labs
• More biologics
• More cosmeceuticals. Branch put on rosacea.
• More evidence based monitoring of labs for Accutane and biologics.
• More evidence based practice
• More knowledge
• More knowledge to better treat my patients
• More OMM, PT, & Allergist referrals. Social media to make people aware treatments are available, e.g., PV.
• More patient information.
• More targeted, effective therapies.
• Apply knowledge to daily practice
• My social media needs to be updated. Psoriasis update will be very useful.
• New algorithm with therapy and making diagnoses
• New approaches
• New protocols
• New therapeutics changes
• New treatments and ways to help my patients
• None
• Participate in social media
• Patient treatments and medications.
• Plant to implore osteopathic principles
• Possibly recommend Minoxidil orally for hair loss
• Protocol updates
• Protocols. Medication changes.
• Provide excellent patient care and safety.
• Provide updated diagnostic testing, management for variety of conditions that are covered.
• Really benefited from the Isotretinoin lecture.
• Plan to reference the articles in my documentation.
• Recommend mask guard for patients with acne from their mask
- Reconsider treatment choices regarding Isotretinoin. Introduce additional therapies in pigment disorders.
- Reduce unnecessary labs
- Refer to their meeting’s literature review.
- Remember that when clinical AKs are painful, to consider that they might be transitioning into SCCs.
- Remind myself a rarer differential diagnoses but I don’t see every day
- Review protocols
- Safety and monitoring of meds, adjusted how I approach acne, psoriasis and CTCL
- Selecting the correct biological for my psoriasis patients
- Several changes to more accurate diagnoses of several conditions
- Several pearls in this conference.
- Sharing of different therapeutic approaches.
- Skin of color and legal subjects
- Staying current with EBM
- Suggest exterminators
- Teaching of residents
- The coding lecture was good, it will impact all of us
- The coding lecture was helpful as those changes will be implemented in the new year. I always enjoy Dr. Lisa Swanson’s lectures- they are very engaging and very practical- she provided some relevant clinical pearls. Urticaria work up from the allergist’s perspective added to my initial work up for chronic urticaria patients.
- The way I do my notes for future legal implications. I will be chatting very differently and more thoroughly.
- Therapeutic updates and isotretinoin were particularly helpful.
- To be more efficient
- To be more open to listening to the individual descriptions of what my patients view as important, and use the technical advances to improve outcomes.
- Too many to list
- Topical lidocaine immediately after cryotherapy for pediatric patients
- Tracking outcomes better
- Treatment decisions
- Treatments and patient education.
- Update my chart documentation
- Update practices to better serve my patients.
- Update treatment plan for dermatoses discuss during conferences
- Update treatment plans
- Update treatment protocols
- Updated clinical guidelines and management options
- Updated guidelines
- Updated recommendations will be implemented
- Updated therapeutic management options
- Updated treatment algorithms and expanded treatment options
- Updated treatment for acne/roacea, Updated treatment regimen/monitoring for isotretinoin therapy, Updated diagnostic studies and treatment for alopecia management, Caution for safe practice in patient care, Updated pediatric patients’ cases management
- Updated treatment options
- Updates
- Updates and changes to patient management.
- Use and function of Castle test, use of biologics, updates in pediatric dermatology to name a few.
- Use cutting edge techniques in my practice
- Use ideas, presentations to approach different dermatological diseases
- Use more propranolol
- Use of new, approved modalities in treatment of acne, home remedies for MC and warts, awareness of biologic alternatives, and preparing for coding changes coming in 2021
- Use the Castle test as aid in prognosis for thin and medium melanomas.
- Use this information to provide better patient care
- Using transexamic acid for melasma. May special attention for pediatric patients with COVID - doing a detailed physical exam especially of lower extremity.
- Utilize newer therapies and rediscover methods of use for off label therapies
- Very informative lectures and nice format to be able to listen to lectures at your own convenience. Especially liked the lectures pertaining to what’s new in dermatology as far as Rxs and procedures. Thank you!
- We always how to do things better and safer in this pandemic time by learning what others are doing
- Will include more OTC options in the treatment of atopic dermatitis patients.
- Will reduce my lab work frequency with Accutane and consider higher cumulative dosage. Add the invisible barrier recommended for acne.
- Will start prescribing po minoxidil for my AGA female pts, bakuchiol otc, new systemic agent for SCC
Comments

- Well-rounded conference
- This was great mix
- Drug company lectures that anyone can understand. (especially graduates from years gone by.) Less of what it is and more of why it is. I see what happens, but I want to know why it happens, in a way that I and anyone can understand. Also need more humor and jokes. Hope there will be in person meetings again. I found the music and logo before the lectures relaxing and gave me time to get organized.
- Great selection this year
- I enjoyed this format, as I could watch the videos as I was available.
- Really feel this was one of the best medically oriented conferences we've had.
- Very happy with content
- I enjoyed and gained something from almost all the lecture topics.
- I would like to see speakers on caliber with those that speak at the PA conference as can be heard on Dermcast TV
- Coding would have been valuable but I did not care for the speaker so I did not get much out of the session
- Pediatrics is always one of my favorites!
- Pediatric dermatology topics were awesome especially the top tips lecture
- "Paradoxical side effects of biologics - excellent
- On the shoulders of giants by Dr. Adams - one of a kind lectures, I greatly enjoyed it and plan on watching it again.
- Avoid seeing a malpractice lawyer- priceless
- The two pediatric dermatologists and their panel discussion were great (Drs. Swanson and Lio)
- Vulvar Dermatology was also informative
- Dr. Susan Taylor on how to examine scalp and hair in patients of color."
- Dr Bhatia gave great pearls & tips in his AK, Acne, & Pharma presentation!
- Excellent conference
- Great lectures
- Great meeting
- I learned a lot of pearls that I can apply to my practice.
- The pediatric cases were great
- The information presented was fantastic and applicable to everyday practice.
