2022 AOCD Spring Meeting Program Review

Orlando, FL
March 10-13, 2022
Activity Attendance Summary

Program Evaluation Response
210 preregistration questionnaires completed, 20 program evaluations returned, 234 speaker and learning objective evaluations returned, 12 CME mission statement surveys returned, 13 professional practice gap surveys returned, 64 attestation exit surveys returned, 13 outcomes evaluations returned

Meeting Attendance
210 Total Registrations; 189 Total Attendance (AOCD Members – 133; Non-Members – 56)
Registration Questionnaire Summary
210 registration questionnaires completed

What was your reason for enrollment? (more than one selection could be made)

- 45.85% - Needed CME hours
- 32.68% - Location of the activity
- 44.39% - Desire to broaden knowledge
- 23.90% - Activity topics
- 22.93% - Other

Other Reasons for enrollment:
- Speaker (26)
- Trustee (13)
- Florida requirements (3)
- For a good conference. #DOpower
- Further exposure to the field of dermatology and possible networking opportunities
- Have not previously attended an AOCD CME program
- I’m a 3rd-year medical student interested in pursuing dermatology as my medical specialty profession.
- Learning more and networking
- To see my colleagues, as well as increase CME

What is the population of the city in which you practice?

- Over 100,000 60%
- 50,000 - 100,000 17%
- 30,000 - 50,000 7%
- 10,000 - 30,000 14%
- Under 10,000 2%

What is your professional status?

- Practicing 65.4%
- Student/Intern 13.7%
- Resident 16.1%
- Retired 0.5%
- Pharma 2.0%
- Other 2.4%
In which type of practice are you currently engaged?

- Solo 18.0%
- Group 51.2%
- N/A 18.4%
- Hospital 11.5%
- Military 0.5%

Have you previously attended an AOCD CME program?

- Yes (76.59%)
- No (23.41%)

What would you like to learn from the conference?

- Current updates/trends in dermatology (5)
- Therapeutic updates (4)
- As a medical student interested in pursuing dermatology, I would like to broaden my understanding in many aspects of dermatology.
- Alopecia
- Atopic dermatitis
- Biologics
- Clinical pearls
- Complex medical dermatological cases
- Cosmetic dermatology
- Current dermatology treatments and research
- Dermatology

- Expand on overall clinical competency
- Fillers
- I am looking forward to learning more about dermatology histological pathology.
- I would like to gain a broader understanding of dermatology, what cases/diseases I may encounter in my future practice, and how to best treat them. I am also very eager to meet professionals within the field and gather advice on how to pursue a dermatology residency position.
- I would like to learn any new advancements of treatment in medicine
- Interesting cases
• Melanoma updates
• Mohs surgery
• New dermatology treatments

• Updates, refreshers on treatment algorithms
• Updates on current treatment regimens, new medications

Which items are important in helping you provide optimal care to your patients? (More than one selection could be made)
• 64.71% - Clinical practice guidelines
• 58.82% - CME courses
• 57.84% - Peer reviewed journal articles
• 50.98% - Opinions of nationally recognized experts
• 10.78% - Pharmaceutical company sales representatives
• 1.96% - Other

Did the activity remain commercially unbiased?

Yes 100.00%

Please describe any poor ratings:
- N/A
- None. Very clinically applicable, good take home points.

List the subjects you felt were most valuable to you:
- Coding (2)
- Psoriasis (2)
- Actually I felt all had something to offer.
- Atopic review
- Best cases review
- Cosmetics for medical dermatologist
- Current updates on medication and treatments
- Too many to list as every presentation had valuable information

What topics would you like to see presented at future meetings?
- Acne
- Always include coding—it was fantastic
- Business handling such as private practice or selling the practice and what to make sure we do
- Business of medicine
- Business workshop
- Cosmetic world update and laser update
- Cosmetics
- Cosmetics for medical dermatologists
- COVID and dermatology!
- Dermatology lasers that help treat medical conditions
- Dermoscopy
- Hidradenitis suppuritiva
- Hot topics
- Improving skin cancers with technology
- Review of connective tissue diseases
- Round table discussion for business owners to discuss the stressors and concerns of owning and running your own practice
- Medical
- Melasma
- Off-label use of medications we currently have with successful case presentation
- Other modalities in dermatology
- Pediatric dermatology best cases with review of literature
- Perhaps some medical jurisprudence lectures from a malpractice attorney highlighting specific cases
- Practice management
- Product in dermatology update
- Psoriasis update
- Really the same topics. The coding and mid-level providers lectures were VERY helpful and informative! This type of info evolves yearly so the refreshers and updates are great!
- Round table of what some practices use for cosmeceuticals in the office
- Too many biológics....
- When to order DIF? How to interpret.
Speaker Evaluation & Learning Objectives Summary

No 0%
Speaker Comments – Suzanne Sirota Rozenberg, DO, FAOCD

How will you utilize stated learning objectives within your practice?
- Better treatment
- Enjoyed it. Thank you.
- Informative
The overall mission of each AOCD CME Activity is to:
1. Inform the provider of advances in medical knowledge and technology.
2. Inform the provider of advances in diagnosis and treatments for better patient care and outcomes.
3. Inform the provider of advances in Practice-Based Learning and System-Based Practices.

AOCD CME activities are intended to enhance the knowledge and competence of its attendees, with the intended goal being improving patient care and their health outcomes. The impact of our educational meetings will provide a diversified CME program focusing on the art and science of Dermatology.

The AOCD has met its mission for this conference:

Yes (100%)

No 0%

If you answered “no,” please describe how we did not meet the mission:

• N/A
Professional Practice Gap Survey
13 Responses Received

What problems/issues in your practice would you like our continuing medical education program to try and help you with?

• Artificial intelligence in the office. Apps, DAX, NUANCE, MMODAL, virtual scribes, etc.
• Billing
• Coding properly
• Difficult patients that have conditions such as prurigo nodularis, chronic pruritus (without urticaria)
• Excessive prior authorization requirement for procedure and medications (include many generic and medications that has been used for many years)
• Hair loss conditions such as frontal fibrosing alopecia and dissecting scalp folliculitis
• How to re-negotiate low insurance reimbursement and deal with insurance recoupment (in some instance 1 year after service date)
• Increase administrative burden and government regulations for practice operation
• Keeping up on emerging technologies, treatment updates in common diagnoses, current coding/billing updates
• Laser training--Not studies or theory but hands on training, our state requires it for light based lasers
• Lectures on basic dermoscopy
• Management & work up of urticaria
• MIPS
• Practical applications and tips in cutaneous oncology
• Practice management, marketing, new/emerging knowledge
• Staging of melanoma
• Starting your own practice, operations
• State required CME activities such as opioid awareness, human trafficking and inherent cultural bias
• Update on dysplastic nevi management
• Various radio therapy options not just XRT
• What happens when a patient is sent to allergy for a consult for urticaria or ACD?
• Workup & management of pruritus of unknown origin

What questions in practice are you having that you are not getting answers to?

• None (2)
• Billing and modifiers
• Denials when using modifiers
• Difficult patients that have conditions such as prurigo nodularis, chronic pruritus (without urtica)
• Hair loss conditions such as frontal fibrosing alopecia and dissecting scalp folliculitis
• How to get brand name medications covered by insurance
• Latest trends in cutaneous oncology
• Lectures on basic dermoscopy
• PA for medications and insurance contract rate
• Various radio therapy options not just XRT
• What marketing efforts are truly working the best these days?
• Why do cysts occur? What is the recurrence rate after excision?
• With online research and/or professional organizations we find most of what we need

What patient problems or patient challenges do you feel that you’re not able to address appropriately or to your satisfaction?

• None (2)
• Biologic treatment for off label conditions
• Collecting balances
• Complicated cases of advanced skin cancers
• Difficult patients that have conditions such as prurigo nodularis, chronic pruritus (without urticaria)
• Hair loss conditions such as frontal fibrosing alopecia and dissecting scalp folliculitis
• Insurance denials of medications and their inappropriate step therapy approach
• Non-compliant patients
• Obtaining proper medications for patients due to insurance issues or cost
• Patients are not able to obtain medications that originally prescribed and forced to med use in the very narrow formulary that patient is not effective or not efficacious enough for their skin condition
• Treatment of vitiligo
• Various radio therapy options not just XRT
• When to start treating a patient with psoriasis who is in treatment for latent tb with a biologic. There is now a shorter treatment for latent tb with rifampin?

What patient problems are your patients communicating to you needs more attention or more follow-up?
• Itch (2)
• None (2)
• Due to high deductible cost of their insurance plans, patient is not happy or angry they have to pay for the service rendered. Staffs have to spend a lot of time to explain and make patient understand how their insurance policy works.
• Ease of getting prescriptions filled
• Getting medications covered
• Hidradenitis suppurativa
• Improvement of their SKs & fragile, easily bruised skin. I have no great solutions. LN2, curettage, recommending dermend for bruising
• Medication cost
• Perioral dermatitis
• Prescription coverage and prior authorizations that are barriers to care
• The misinformation being perpetuated by "skinfluencers" that are not real sources of medical knowledge

What are the most common cases seen in your area?
• Acne (6)
• Psoriasis (6)
• Skin cancers (4)
• Atopic dermatitis (3)
• Actinic keratosis (2)
• Contact dermatitis (2)
• Eczema (2)
• Atypical nevi
• Cosmetic
• Dysplastics
• Itching
• Melasma
• Non melanoma skin cancer
• PA and high deductible issue as well as insurance recoupment
• Skin cancer checks
• Skin cancer related
• Skin carcinoma
• Verruca vulgaris
• Warts
• Xerosis

What are the most prevalent and serious medical problems for your state? (Please provide state)
• Alabama
  o Access to care
• Florida
  o COVID-19 (2)
  o Skin cancer (2)
  o Drug addiction
  o Psoriasis
• Massachusetts
  o Opioid crisis
• Michigan
  o Melanoma
• New York
  o Acne
  o Atopic dermatitis
  o Fungus infection
  o Not dermatologic
  o Psoriasis
  o Skin cancer
  o Warts
• Ohio
  o Cardiovascular disease
  o COVID-19
What are the key issues or obstacles to patient care you or your colleagues encounter?

- Access to biologics without a cumbersome prior authorization process
- Access to branded medication at an affordable cost
- Access to care in underserved areas
- Cost or accessibility
- Dearth of physicians
- Differences in insurance coverage: what is covered for patients and how much they owe out of pocket. There a wide range for the population.
- Drug access from insurance companies
- Insurance coverage for medications/treatments
- Insurance coverage for prescription medication
- Insurance coverage, PA paperwork
- Insurance not covering the medications ordered, substitutions and decisions that lead to more patient burden and suffering
- Insurance restrictions
- Limited medication formulary

What kinds of clinical situations do you find difficult to manage or resolve?

- Non-compliant patients (2)
- Atopic dermatitis
- Delusions of parasitosis
- Difficult patients that have conditions such as prurigo nodularis, chronic pruritus (without urticaria)
- Explaining dermal hypersensitivity reaction & what kind of work up might be necessary
- Hair loss conditions such as frontal fibrosing alopecia and dissecting scalp folliculitis
- Hidradenitis suppurativa
- Non compliance
- Non-compliance with treatment and following up with recommended return visits
- Nursing home patients
- Refractory autoimmune conditions or mistreated (elsewhere) carcinomas
- Severe case of psoriasis, HS and Bullous skin disease
- Skin cancer metastases
- The documentation requirements and need for significant ancillary staff creating huge overheads
- Various radio therapy options not just XRT
- Vitiligo

The following items are very important in helping you provide optimal care to your patients.

Articles in peer-reviewed journals
- 84.62% Agree
- 7.69% Neutral

- 30.77% Neutral
- 38.46% Disagree

Opinions of nationally recognized experts
- 76.92% Agree
- 23.08% Neutral
- 0.00% Disagree

Clinical practice guidelines
- 61.54% Agree
- 30.77% Neutral
- 7.69% Disagree
Attestation Exit Survey  
64 Responses Received

Please identify how you will change your practice as a result of attending these webinars (more than one selection could be made):

- Change the management and or treatment of my patients – 78.13%
- Change protocols, policies, and or procedures – 54.69%
- Other Change – 3.13%

Please explain
- Can bill for OMM!
- Keep up with changes discussed in lectures
- May use new medications
- Use more biologics—Pursue studies

I will share what I learned from today's activity with:

- Colleagues (19)
- Staff (11)
- Patients (8)
- Residents (6)
- Students (6)
- Attendings (3)
- PAs (2)
- Family and friends
- NA
- Office manager

As a result of what I learned from this activity, I intend to make the following practice/performance changes that I believe will result in more positive patient outcomes:

- A thorough review of our consent process prior to surgery
- Absolutely
- Additional management/treatment of various conditions
- All lectures were great, with updates on literature and novel therapies for everyday conditions, including Dr. Glick’s talks on psoriasis and atopic dermatitis. Dr. Karai’s melanocytic dermpath update really showed the importance of doing a biopsy and having the discussion with parents of pediatric patients
- As above
- As one example... I will change my approach to the diagnostic work up for hair loss from what I learned in the lecture by Dr. Elias
- Be more aware of all treatment options
- Be more liberal with biological for psoriasis
- Be more time efficient
- Better with atopic
- Can bill appropriately for osteopathic services provided
- Carry more cosmetics in the office
- Coding
- Consider osteopathic evaluation for patients
- Continue studying oral pathology and include this use skin exam
- Decrease physician burnout. Improve patient care
- Different treatments
- Employ new ways of looking at the patients with different entities
- Evidence based medicine
- I intend to utilize the knowledge and insight I gained to give hope to patients struggling with their conditions and asking my preceptor about newer biologics and medications that could have great efficacy in patients' conditions.
- I plan to change practice medical legal issues and use pearls to aid in the treatment and care of our patients.
- I will be more informed as a PCP on recognizing and treating dermatological conditions and when referral is necessary in a very dermatology limited area
- Implement changes to prevent burnout
- Incorporate radiation into the practice.
- Incorporation of social services to patients in need
- Keep up with the changes discussed in the lectures.
- Keeping my differential broad and always have a high suspicion for the rare cases when standard and multiple treatment have been attempted
- Laws in terms of informed consent
- Management of alopecia
- Minor changes to treatment regimens of psoriasis
• More personal time to not being burnt out
• N/A
• New laser techniques for scars
• Optimal psoriasis treatment including appropriate biologic use
• Practice within the standard of care
• Process of informed consents
• Provide a more vast array of treatment options for my patients
• Quality improvement
• Radiate hypertrophic and keloid scars following scar revisions

• Review coding guidelines
• Stay updated on what medications are coming down the pipeline of FDA approvals
• Unplugging from all the ways patients have access to you for a real vacation to prevent burnout
• Update my coding
• Update my informed consents
• Use Jak inhibitors more often
• Use of biologics
• Will change some of my legal documents/consents
30-45 Day Post-Activity Outcomes Evaluation

- Lack of opportunity – 23.08%

I still plan to implement changes, I need more time.

- Yes 69.2%
- No 30.8%
Comments

• An excellent meeting
• Another excellent meeting
• Consider shorter quick hit sessions with real world tips. Well done, thank you for a great conference!
• Everyone in the AOCD did a great job in putting this together. The hotel was nice and we didn't have too far to walk. In addition, the hotel staff was extremely friendly and attentive. Food was great too. Finally, the welcome reception on Friday night was really nice too. Thank you.
• Excellent meeting
• I appreciate your efforts.
• I felt very bad that some speakers didn’t come. I know it happens but still. I think you all place great effort and we appreciate it.
• None
• Orlando is a great place to hold a meeting! Also, thank you for the Florida required licensure lectures!
• Thank you for a wonderful location, meeting and all the hard work was done behind the scenes.
• There should be a mechanism in place where if a presenter does not show up, an alternative presentation should be made available. This is in regards to the domestic violence lecture.
• This is an excellent conference. All lectures are relevant and provide fresh updates to evaluation and treatments. Other lectures were great too (coding and mid-levels). Very helpful. Very relevant. Please continue these lectures, especially the non-medical but important for the practice of Dermatology! Great location too!
• We the members have to be more proactive and more participant.
• Well done
• Well run, organized meeting with highly informative content
• Well organized, well run, nice activities and family friendly. Food was good too!
