"...The educated physician will himself be an osteopath."

BY MARK TWAIN

Osteopathic Advocates
As you may know, Dr. Roger C. Byrd passed away in October of 2020. Dr. Byrd was the Program Director of the First AOCD/AOA approved hospital-based Dermatology Program in the Osteopathic Profession which began in 1980 at Pontiac Osteopathic Hospital.

To honor Dr. Byrd and his love of writing, the AOCD and The Foundation for Osteopathic Dermatology has renamed the Annual Paper Writing Contest as

“The Roger C. Byrd DO, FAOCD, FAAD Dermatology Resident Manuscript Competition”.

This competition is being funded in part from donations made by the Byrd Family to the Foundation’s Pinnacle Table.

Dr. Byrd served the AOCD in many leadership roles over the years, earning both Life Member and Fellow of Distinction status in the College.

Dr. Byrd served as President of the AOCD from 1981-1982. In addition, he served on numerous committees, including the Awards Committee from 2005-2020, the By-Laws Committee from 1991-1996, the Nominating Committee from 1991-1992, and the Public Relations Committee from 1989-2003.

The AOCD is grateful to Dr. Byrd for his many years of membership and service to the College.

The Foundation for Osteopathic Dermatology (FOD) is dedicated to providing grants for education and research in dermatology and related areas. The various levels of support are as follows:

- Pinnacle Table: $25,000 over a 5-year period
- The Ulbrich Circle: $10,000 over a 10-year period
- Koprince Society: $1,000
- Leaders of Osteopathic Dermatology: $500
- Scholars Circle: $250
- Residents’ Forum: $100
The Foundation for Osteopathic Dermatology was founded in 2002 by the AOCD as a unique extension of the Osteopathic Dermatology community. Its purpose is to improve the standards of the practice of Osteopathic Dermatology by raising awareness, providing public health information, conducting charitable events, and supporting research through grants and awards given to those applicants under the jurisdiction of Osteopathic Dermatology Physicians.

Funding is solely through voluntary donations from physicians and members of the Osteopathic Dermatology community and the generous sponsorship of corporate donors.

The FOD instituted a research grants program to encourage and support scientific investigations into the potential causes of dermatological issues and other key aspects of various dermatological conditions. Research grants are provided to encourage improvement in its treatment, potential prevention and/or cure in the related Dermatology field.

Applications will be entertained from osteopathic physicians in postdoctoral training programs and research fellowships in dermatology. Each grant supports one individual. Not more than two consecutive or non-consecutive grants may be awarded to an individual.

The grant is not exclusive and the investigator may seek additional funding from other sources such as the AOA Bureau of Research, governmental agencies, other outside agencies, college or hospital, etc.

All requests for grants are submitted in accordance with established guidelines and deadlines for the individual grants and are subject to review by established procedures of the Board of Directors of the Foundation. All areas of dermatology research will be considered based on their scientific merit. Researchers interested in applying for a research grant can download the application from the American Osteopathic College of Dermatology’s website.

There are multiple grants available to an Osteopathic Dermatologist. They include:

The **FOD Resident Research Grant** is awarded annually to an osteopathic dermatology resident in an AOA accredited institution. The purpose of this grant is to foster research in dermatology medicine conducted by dermatologists at a graduate level.

The **FOD Young Investigator Grant** is awarded annually to an osteopathic dermatologist who is a graduate of an accredited dermatology residency and practicing dermatology in an accredited institution for five years or less. The purpose of this grant is to foster research among young dermatologists and is awarded to promising physician researchers meeting these criteria.

The **FOD Physician Investigator Grant** is awarded annually to an established osteopathic physician with five or more years in practice, who is certified in dermatology and conducting research in dermatology at an accredited institution. The purpose of this grant is to sponsor or co-sponsor research in any area of dermatology.
