Rooms at the discounted rate have been reserved for attendees on a first-come, first-serve basis and may sell out before the cut-off date. Be sure to identify that you are with the American Osteopathic College of Radiology group to receive the discounted rate. If you have any problems making your reservation or need to cancel a reservation, please contact Rhonda at (800) 258-2627.

Disclosure
It is the policy of the AOCR to comply with the Accreditation Council for Continuing Medical Education (ACCME) Standards for commercial support of CME Activities. All faculty participants in AOCR programs are required to disclose to the program audience any real or apparent conflict(s) of interest related to this meeting or its content. Faculty disclosure information is included in the course syllabus and will be disclosed by faculty as they present.

ACCME & AOA Accreditations
The AOCR is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The AOCR designates this live activity for a maximum of 25 AMA PRA Category 1 credits™.

The AOCR is accredited by the American Osteopathic Association (AOA). The AOA has approved this CME Activity for 25 Category 1-A credits.

COURSE DESCRIPTION
The AOCR 2016 Mid-Year Conference is designed to provide updates to practicing radiologists, especially those of us that take call, are isolated at times, or just out of training. Those not taking call or not exposed to emergency radiology regularly can also benefit from these updates since the need for urgent imaging experience and communications occurs during the day in most any practice.

This four-day program brings together experts in the field and will cover trauma, emergencies, Interventional Radiology, Neuroradiology, Quality Assurance, medico-legal issues, and reporting. It will provide updates in patient care, emergency, medical malpractice, multi-media radiology reporting, and supercomputer applications, while discussing the importance of the reading room environment and ergonomics to the practicing radiologist.

The educational format will include didactic lectures with case-based reviews and panel discussions with ample opportunity to “ask the experts.” Interactive ARS (audience response systems) will promote audience participation.

Two self-assessment lectures (SAMs) will be offered pending approval from the American Osteopathic Board of Radiology (AOBR). We believe the title says it all, we intend on shedding light on the potential darkness in emergent imaging, often after hours, however, sometimes in broad daylight.

COURSE OBJECTIVES
• Perform triage to and from CT and X-ray in mass casualty situations based on priority, and describe diagnostic and treatment pathway based on CT findings
• Describe how multi-media reporting with hyperlinks, tables and graphs can save time while being more informative with findings concisely represented
• Identify updated indications for CTA in the emergent setting and how to expedite the appropriate diagnostic pathway
• Select the appropriate stroke and vascular imaging modality (e.g., noncontrast, CTA, perfusion) tailored to the clinical situation
• Discuss standard search patterns for musculoskeletal MRI studies
• Describe common mechanisms of injury for sports related trauma and recognize common sports specific musculoskeletal injuries
• Discuss common traumatic injury patterns specific to geriatric patients and select the appropriate imaging workup/additional studies that may be needed
• Identify important comorbidities for elderly patients and understand their implications in morbidity and mortality
• Recognize common, however, easily missed fractures, their imaging findings and clues to diagnosis
• Discuss the medical-legal implications of missed fractures and construct a routine search pattern to avoid these common occurrences
• Discuss the major medical malpractice pitfalls in radiology and define the LONG DARK road to settlement
• Know how to avoid making a deposit in the National Practitioner Data Bank

REGISTRATION OPTIONS
Online Fax Phone
www.aocr.org 119 E. 2nd St. (660) 265-3494 (660) 265-4011
www.aocr.org 119 E. 2nd St. (660) 265-3494 (660) 265-4011

REGISTRATION
Fees Increase $50 after August 15, 2016

AOCR MEMBER*
Practicing Physicians ........................................... $795
Retired (Non Practicing Physicians) ........................ $595
Resident/Fellowship Training ....................... Complimentary
*Dues must be current to receive the member rate.

NON MEMBER
Physician ......................................................... $1,095
Resident/Fellowship Training .............. Complimentary
Physician’s Assistant ........................................ $500
Interns/student registration is complimentary if registration is accompanied by a letter from the DME.
