Course Description

The 2021 “Top 3” Conference, sponsored by the American Osteopathic College of Radiology, is intended for practicing radiologists and radiology trainees as a comprehensive and practical case-based radiology review. All subspecialties and imaging modalities will be covered with lectures divided into the following sections: neuroimaging, musculoskeletal imaging, gastrointestinal imaging, genitourinary imaging, ultrasound imaging, cardiothoracic imaging, pediatric imaging, breast imaging, vascular & interventional radiology, and nuclear medicine. Lectures are provided by a distinguished group of faculty with a wealth of clinical and teaching experience, each covering the key clinical and imaging findings for differentials within common imaging gamuts, as well as characteristic “Aunt Minnie” cases. Our goal is to provide attendees with a comprehensive gamut-based approach to image interpretation with helpful pearls to help distinguish between entities on a list of differential diagnoses.

Course Objectives

- Formulate gamut-based differential diagnoses for key imaging findings across all radiology subspecialties and imaging modalities.
- Distinguish amongst differential diagnoses based upon characteristic imaging findings.
- Recognize & identify diagnoses with classic imaging findings, in which there is no differential diagnosis.
- Implement and optimize imaging modalities and protocols to improve diagnostic accuracy.
- Recognize appropriate indications for image-guided interventional procedures, as well as management of potential complications.

ACCME & AOA Accreditation

The AOCR is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The AOCR designates this Other activity (blend of internet live and enduring material) for a maximum of 30 AMA PRA Category 1 credits™.

The AOCR is accredited by the American Osteopathic Association (AOA). The AOA has approved this CME Activity for 30 Category 1-A credits.

Disclosure

It is the policy of the AOCR to comply with the ACCME Standards for commercial support of CME Activities. All faculty participants in AOCR programs are required to disclose to the program audience any real or apparent conflict(s) of interest related to this meeting or its content. Faculty disclosure information is included in the course syllabus and will be disclosed by faculty as they present.
Program Schedule

There is a built-in 5 minute transition time between lectures. All times are in the central time zone.

### Monday, May 3

*The AOCR has received SAM Deemed Status from the American Osteopathic Board of Radiology (AOBR); therefore, this CME activity is approved for 5 AOBR SAM credits for the purpose of fulfilling requirements in the AOBR Osteopathic Continuous Certification Program.

*The AOCR has received SAM Deemed Status from the American Board of Radiology (ABR); therefore, this CME activity is qualified by the ABR in meeting the criteria for self-assessment toward the purpose of fulfilling requirements in the ABR Maintenance of Certification Program.

Registrants will receive access to all lecture recordings after the conclusion of the live conference and will have until June 6 to complete for CME credit.
Christopher A. Cerniglia, DO, ME, FAOCR
Fellowship Program Director,
Musculoskeletal Imaging
Radiology Undergraduate Medical Education
Associate Professor of Radiology
University of Massachusetts School of Medicine
Worcester, MA

Seetharam Chadalavada, MD, MS
Vice Chair of Radiology – Informatics
Director of Interventional Radiology
Medical Student Education
Associate Professor of Radiology (IR) & Surgery
University of Cincinnati Medical Center
Cincinnati, OH

Christine M. Glastonbury, MBBS
Professor of Radiology & Biomedical Imaging,
Otolaryngology-Head & Neck Surgery &
Radiation Oncology
University of California San Francisco
School of Medicine
San Francisco, CA
