Expedient and accurate radiologic triage is paramount in formulating treatment plans in time-sensitive scenarios, whether a patient presenting with an acute abdomen, acute stroke or the deteriorating patient in the ICU. Treatment paradigms rely heavily if not exclusively on the radiologist’s interpretation. Our distinguished faculty will provide a variety of didactic lectures and case-based presentations with disease-specific approach that includes musculoskeletal, GI/GU, chest, body, pediatrics, neuroradiology, and interventional.

From trauma to tumors, the program incorporates the full spectrum of imaging modalities with CT, MRI, ultrasound, plain film radiography, nuclear medicine and catheter angiography. Speakers will focus not only on the conventional radiographic findings and differentials for acute/critical pathology, but will discuss new and innovative imaging and treatment technology. Educational content is geared for both the seasoned radiologist and those in training. Self-assessment credits (SA-CME/SAM) will be provided.

Course Description

April 4-8, 2022
Hilton Tampa Downtown, Tampa, FL
Earn up to 30 CME Credits
Offering 7 AOBR/ABR SAM Credits
Course Objectives

- Be able to promptly recognize the disease entities requiring immediate medical or surgical treatment (i.e. acute surgical abdomen, acute coronary syndrome)
- Be familiar with catheter-based treatment options as alternative to surgical treatment for vascular injury of extremities
- Understand anatomy and physiology unique to the pediatric population and the most appropriate imaging modality for these patients
- Be able to distinguish traumatic versus non-traumatic (abusive) injuries in the pediatric patient
- Understand pathophysiology of acute stroke and associated imaging findings
- Recognize imaging features distinguishing stroke from seizures and other stroke mimics
- Be familiar with and understand rationale for the different modalities used in identification of MSK injuries
- Be able to recognize acute bowel pathologies and when ultrasound is indicated in the acute setting
- Understand the medical-legal aspects of the consent process in the emergent setting
- Be familiar with imaging findings in the trauma patient that distinguishes between surgical and non-surgical management

ACCME & AOA Accreditation

The AOCR is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The AOCR designates this live activity for a maximum of 30 AMA PRA Category 1 credits™. The AOCR is accredited by the American Osteopathic Association (AOA). The AOA has approved this CME Activity for a maximum of 30 AOA Category 1-A credits.

Disclosure

It is the policy of the AOCR to comply with the ACCME Standards for commercial support of CME Activities. All faculty participants in AOCR programs are required to disclose to the program audience any real or apparent conflict(s) of interest related to this meeting or its content. Faculty disclosure information is included in the course syllabus information and will be disclosed by faculty as they present.

SAM Designation Statement

The AOCR has received SAM Deemed Status from the American Osteopathic Board of Radiology (AOBR); therefore, this CME activity is approved for 5 AOBR SAM credits for the purpose of fulfilling requirements in the AOBR Osteopathic Continuous Certification Program.

The AOCR has received SAM Deemed Status from the American Board of Radiology (ABR); therefore, this CME activity is qualified by the ABR in meeting the criteria for self-assessment toward the purpose of fulfilling requirements in the ABR Maintenance of Certification Program.

University of Michigan
VA Medical Center
Ann Arbor, MI
Located just 8.9 miles from the Tampa International Airport, the Hilton Tampa Downtown is located downtown in Tampa within walking distance to many attractions. Here you will find rooms that are designed with comfort and convenience in mind, providing a place to unwind or to catch up on work.

The AOCR has made special arrangements for a discounted group rate of $209 per night. These rooms will be available for attendees on a first come, first serve basis and may sell out before the cut-off date of March 10, 2022. Please support the conference and the AOCR by booking your room at the Hilton Tampa Downtown.

Please note: daily housekeeping is only available by request and requires 24 hours’ notice. If you desire this service, we recommend including the request in the note line when making your hotel reservation.

Why book a room at the conference hotel?
The AOCR negotiates competitive group rates on behalf of attendees for each CME conference. As part of these hotel negotiations, the College is required to sign a contract guaranteeing a specific number of hotel rooms being sold within the group block. If this guarantee is not met, the College is financially responsible for that shortage. All of this is considered when setting the registration rate for each CME conference. Therefore, we encourage all attendees to consider staying in the conference hotel. This will help to ensure that the College is able to keep registration rates for future CME conferences as low as possible.
